

PURECYCLE TECHNOLOGIES, INC.
25,000,000 Shares
Common Stock

This prospectus relates to the resale from time to time of certain shares of common stock issued pursuant to the terms of those certain subscription agreements entered into (the "PIPE Investment") in connection with the proposed business combination (the "Business Combination") by and among Roth CH Acquisition I Co. ("ROCH"), Roth CH Acquisition I Co. Parent Corp. ("we," "us," "our," or "ParentCo"), a wholly owned subsidiary of ROCH, Roth CH Merger Sub LLC ("Merger Sub LLC"), Roth CH Merger Sub Corp. ("Merger Sub Corp") and PureCycle Technologies LLC ("PCT") pursuant to the Agreement and Plan of Merger dated as of November 16, 2020, as amended from time to time (the "Merger Agreement").

In connection with the Business Combination, Merger Sub Corp merged with and into ROCH (the "RH Merger"), with ROCH surviving the RH Merger as a wholly-owned subsidiary of ParentCo (the "ROCH Surviving Company"); simultaneously with the RH Merger, Merger Sub LLC merged with and into PCT (the "PCT Merger"), with PCT surviving the PCT Merger as a wholly-owned subsidiary of ParentCo (the "Surviving Company"); following the PCT Merger, ParentCo contributed to the Surviving Company the proceeds of the PIPE Investment, other than the par value of the ROCH common stock which have been disbursed to ROCH, and, within two days following the closing of the Business Combination, ROCH Surviving Company will acquire, and ParentCo will contribute to ROCH Surviving Company all of the common units of the Surviving Company directly held by ParentCo after the PCT Merger (the "ParentCo Contribution"), such that, following the ParentCo Contribution, Surviving Company shall be a wholly-owned subsidiary of the ROCH Surviving Company.

Upon closing of the Business Combination, the name of ParentCo changed to PureCycle Technologies, Inc. In connection with the closing of the Business Combination, the currently issued and outstanding shares of ROCH's common stock, par value \$0.0001 per share ("Common Stock"), was exchanged, on a one-for-one basis, for shares of ParentCo common stock, par value \$0.001 per share ("ParentCo Common Stock"). Accordingly, all references in this prospectus to "ParentCo Common Stock" refer to shares of ParentCo Common Stock issued at the closing of the Business Combination in exchange for all issued and outstanding shares of Common Stock of ROCH.

As described herein, the selling securityholders named in this prospectus or their permitted transferees (collectively, the "Selling Stockholders"), may sell from time to time up to 25,000,000 shares of ParentCo Common Stock that will be issued to certain institutions and accredited investors in connection with the closing of the PIPE Investment and Business Combination.

We will bear all costs, expenses and fees in connection with the registration of the ParentCo Common Stock and will not receive any proceeds from the sale of the ParentCo Common Stock. The Selling Stockholders will bear all commissions and discounts, if any, attributable to their respective sales of the ParentCo Common Stock.

Upon the consummation of the Business Combination, ParentCo's Common Stock, warrants and units will have been approved for listing on the Nasdaq Capital Market ("NASDAQ") under the symbols "PCT," "PCTTW" and "PCTTU," respectively.

We are an "emerging growth company" as defined under the U.S. federal securities laws and, as such, have elected to comply with certain reduced public company reporting requirements.

Investing in our common stock is highly speculative and involves a high degree of risk. See "Risk Factors" beginning on page 23.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus is March 19, 2021

FREQUENTLY USED TERMS

Unless otherwise stated in this prospectus, the terms, “we,” “us” or “our” refer to Roth CH Acquisition I Co., a Delaware corporation, prior to the consummation of the Business Combination and Roth CH Acquisition I Co. Parent Corp., a Delaware corporation renamed PureCycle Technologies, Inc., from and after the consummation of the Business Combination. Further, in this document:

- “Authority” means the Southern Ohio Port Authority, the issuer of the Revenue Bonds.
- “Board” means the board of directors of ROCH.
- “Business Combination” means the transactions contemplated by the Merger Agreement.
- “Certificate of Incorporation” means ROCH’s Amended and Restated Certificate of Incorporation.
- “Closing Date” means date of the consummation of the Business Combination.
- “Code” means the Internal Revenue Code of 1986, as amended.
- “Combined Company” means ParentCo and its consolidated subsidiaries after the Business Combination.
- “Common Stock” means the shares of common stock, par value \$0.0001 per share, of ROCH.
- “Continental” means Continental Stock Transfer & Trust Company, ROCH’s transfer agent.
- “Convertible Notes” means the \$60.0 million in aggregate principal amount of PCT’s 5.875% Convertible Senior Secured Notes due 2022.
- “Effective Time” means the time at which the Business Combination becomes effective.
- “Equity Plan” means the PureCycle Technologies, Inc. 2021 Equity and Incentive Compensation Plan.
- “Exchange Act” means the Securities Exchange Act of 1934, as amended.
- “First Tranche Notes” means the \$48.0 million in aggregate principal amount of Convertible Notes issued on October 7, 2020.
- “GAAP” means accounting principles generally accepted in the United States of America.
- “Guarantor Liquidity Account” means the liquidity reserve held by U.S. Bank, as Escrow Agent, under an Escrow Agreement dated October 7, 2020 in connection with the Guaranty.
- “Guarantor Liquidity Reserve Amount” means the \$50 million to be fully funded by PCT into the Guarantor Liquidity Account by January 31, 2021.
- “Guaranty” means that certain Guaranty of Completion, dated as of October 7, 2020, by and between PCT and UMB Bank, N.A., entered into in connection with the Revenue Bonds.
- “Initial Stockholders” means the officers and directors of ROCH and certain other stockholders who acquired shares of ROCH prior to the IPO.

- “IPO” refers to the initial public offering of 7,500,000 ROCH Units consummated on May 7, 2020 and includes the partial exercise of the underwriters’ over- allotment option in connection therewith.
- “Loan Agreement” means that certain Loan Agreement, dated as of October 1, 2020, by and between the Authority and Purecycle Ohio, entered into in connection with the Revenue Bonds.
- “Magnetar Guarantors” means the Combined Company and each subsidiary of the Combined Company that is a direct or indirect parent of PCT.
- “Magnetar Indenture” means that certain indenture, dated as of October 7, 2020, by and between PCT and U.S. Bank National Association, as trustee and collateral agent pursuant to which the Convertible Notes were issued.
- “Magnetar Investors” means certain funds managed by Magnetar Capital LLC or its affiliates that purchased the Convertible Notes.
- “Magnetar Registration Rights Agreement” means that certain Registration Rights Agreement, dated as of October 28, 2020, by and between PCT and the Magnetar Investors entered into in connection with the Convertible Notes.
- “Merger Agreement” means that certain Agreement and Plan of Merger, dated as of November 16, 2020, by and among ParentCo, ROCH, Merger Sub LLC, Merger Sub Corp and PCT, as may be amended.
- “Merger Sub Corp” means Roth CH Merger Sub Corp., a Delaware corporation and wholly-owned subsidiary of ParentCo.
- “Merger Sub LLC” means Roth CH Merger Sub LLC, a Delaware limited liability company of which ParentCo is the sole member.
- “Note Purchase Agreement” means that certain Note Purchase Agreement, dated as of October 6, 2020, by and among PCT and the Magnetar Investors, entered into in connection with the Convertible Notes.
- “Organizational Documents” means certificate of incorporation and bylaws.
- “ParentCo” means Roth CH Acquisition I Co. Parent Corp., a Delaware corporation and wholly-owned subsidiary of ROCH, prior to the consummation of the Business Combination.

- “PCT” means PureCycle Technologies LLC, a Delaware limited liability company.
- “PCT Units” means, collectively, the Class A Units, Class B preferred Units, Class B-1 preferred Units and Class C Units of PCT.
- “PCT Unitholders” means the current holders of PCT Units.
- “Phase I Facility,” “Feedstock Evaluation Unit,” and “FEU” each refer to the pilot line which PCT uses to screen potential feedstock sources.
- “Phase II Facility” and “Plant 1” each refer to PCT’s first commercial-scale plant in Ironton, Ohio.
- “PIPE Investment” means the purchase by certain institutions and accredited investors of 25,000,000 shares of Common Stock, which will be exchanged for shares of ParentCo Common Stock in the Business Combination, for an aggregate of \$250,000,000 in a private placement intended to close immediately prior to the closing of the Business Combination.
- “Private Shares” means the shares of Common Stock underlying the ROCH Units issued in a private placement.

- “Private Units” means the 265,500 units of ROCH sold to the Initial Stockholders upon consummation of the IPO, consisting of one Private Share and three quarters of one Private Warrant to purchase a share of Common Stock at an exercise price of \$11.50.
- “Private Warrant” means a warrant underlying the Private Units to purchase one Private Share at an exercise price of \$11.50 in a private placement transaction.
- “Project” refers to the Phase I Facility and Phase II Facility together.
- “Project site” refers to the location of the Project.
- “Proxy Statement/Prospectus” refers to the proxy statement/prospectus sent to holders of Common Stock in connection with the Special Meeting.
- “Public Shares” means the registered shares of Common Stock underlying the ROCH Units sold in the IPO.
- “Public Stockholders” means holders of Public Shares.
- “Public Warrant” means a registered warrant to purchase a share of Common Stock at an exercise price of \$11.50.
- “Purecycle Ohio” means Purecycle: Ohio LLC, a Delaware limited liability company and an indirect, wholly owned subsidiary of PCT.
- “Revenue Bonds” means, collectively, the Series 2020A Bonds, Series 2020B Bonds, and Series 2020C Bonds.
- “Revenue Bonds Trustee” means UMB Bank, N.A., as trustee under the indenture relating to the Revenue Bonds.
- “ROCH Units” means the 7,650,000 registered units sold by ROCH in connection with its IPO and the partial exercise of the underwriters’ over-allotment option, consisting of one Public Share and three quarters of one Public Warrant to purchase a share of Common Stock at an exercise price of \$11.50.
- “SEC” means the U.S. Securities and Exchange Commission.
- “Second Tranche Notes” means the additional \$12.0 million of aggregate principal amount of Convertible Notes issued to the Magnetar Investors on December 29, 2020.

- “Series 2020A Bonds” or “the Senior Bonds” means the tax-exempt senior secured bonds in the aggregate principal amount of \$219.6 million.
- “Series 2020B Bonds” or “the Tax-Exempt Subordinate Bonds” means the tax-exempt subordinate secured bonds in the aggregate principal amount of \$20.0 million.
- “Series 2020C Bonds” or “the Taxable Subordinate Bonds” means the taxable subordinate secured bonds in the aggregate principal amount of \$10.0 million.
- “sinking fund redemption amounts” means periodic payments reflecting the Authority’s obligation to mandatorily redeem a portion of the Revenue Bonds from time to time.
- “Special Meeting” means the special meeting of the stockholders of ROCH held on March 16, 2021, at which the stockholders of ROCH, among other things, voted to approve the Business Combination.
- “Trust Account” means the trust account of ROCH that holds the proceeds of the IPO in accordance with that certain Investment Management Trust Agreement between Continental Stock Transfer & Trust Company and ROCH.

CAUTIONARY STATEMENT ON FORWARD-LOOKING STATEMENTS

This prospectus contains forward-looking statements, including statements about the anticipated benefits of the Business Combination, and the financial condition, results of operations, earnings outlook and prospects of ROCH, ParentCo and/or PCT and may include statements for the period following the consummation of the Business Combination. Forward-looking statements appear in a number of places in this prospectus, including, without limitation, in the sections entitled “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” and “*Description of PCT Business*.” In addition, any statements that refer to projections, forecasts or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. Forward-looking statements are typically identified by words such as “plan,” “believe,” “expect,” “anticipate,” “intend,” “outlook,” “estimate,” “forecast,” “project,” “continue,” “could,” “may,” “might,” “possible,” “potential,” “predict,” “should,” “would” and other similar words and expressions, but the absence of these words does not mean that a statement is not forward-looking.

The forward-looking statements are based on the current expectations of the management of ROCH, ParentCo and PCT as applicable and are inherently subject to uncertainties and changes in circumstances and their potential effects and speak only as of the date of such statement. There can be no assurance that future developments will be those that have been anticipated. These forward-looking statements involve a number of risks, uncertainties or other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to, those factors described in “Risk Factors,” those discussed and identified in public filings made with the SEC by ROCH and ParentCo and the following:

- PCT’s ability to meet, and to continue to meet, applicable regulatory requirements for the use of PCT’s UPRP in food grade applications;
- PCT’s ability to comply on an ongoing basis with the numerous regulatory requirements applicable to the UPRP and PCT’s facilities;
- expectations regarding PCT’s strategies and future financial performance, including its future business plans, expansion plans or objectives, prospective performance and opportunities and competitors, revenues, products and services, pricing, operating expenses, market trends, liquidity, cash flows and uses of cash, capital expenditures, and PCT’s ability to invest in growth initiatives;
- PCT’s ability to scale and build Plant 1 in a timely and cost-effective manner;
- the implementation, market acceptance and success of PCT’s business model and growth strategy;
- the success or profitability of PCT’s offtake arrangements;
- PCT’s future capital requirements and sources and uses of cash;
- PCT’s ability to obtain funding for its operations and future growth;
- developments and projections relating to PCT’s competitors and industry;
- the occurrence of any event, change or other circumstances that could give rise to the termination of the Merger Agreement;
- the outcome of any legal proceedings that may be instituted against ROCH or PCT following announcement of the Merger Agreement and the transactions contemplated therein;

5

- the ability to recognize the anticipated benefits of the Business Combination;
- unexpected costs related to the Business Combination;
- limited liquidity and trading of ROCH’s securities;
- geopolitical risk and changes in applicable laws or regulations;
- the possibility that ROCH and/or PCT may be adversely affected by other economic, business, and/or competitive factors;
- operational risk; and
- risk that the COVID-19 pandemic, and local, state, and federal responses to addressing the pandemic may have an adverse effect on ROCH’s or PCT’s business operations, as well as ROCH’s or PCT’s financial condition and results of operations.

Should one or more of these risks or uncertainties materialize or should any of the assumptions made by the management of ROCH and PCT prove incorrect, actual results may vary in material respects from those projected in these forward-looking statements.

All subsequent written and oral forward-looking statements concerning the Business Combination or other matters addressed in this prospectus and attributable to ROCH, PCT or any person acting on their behalf are expressly qualified in their entirety by the cautionary statements contained or referred to in this proxy statement. Except to the extent required by applicable law or regulation, ROCH and PCT undertake no obligation to update these forward-looking statements to reflect events or circumstances after the date of this prospectus or to reflect the occurrence of unanticipated events.

6

PROSPECTUS SUMMARY

This summary highlights information related to the Business Combination and the business of PCT appearing elsewhere in this prospectus. Because it is only a summary, it does not contain all of the information that you should consider before investing in shares of ParentCo Common Stock and it is qualified in its entirety by, and should be read in conjunction with, the more detailed information appearing elsewhere in this prospectus. Before you decide to invest in ParentCo Common Stock, you should read the entire prospectus carefully, including “Risk Factors” beginning on page 23 and the financial statements and related notes included in this prospectus.

This prospectus includes trademarks, service marks and trade names owned by us or other companies. All trademarks, service marks and trade names included in this prospectus are the property of their respective owners.

The Parties to the Business Combination

Roth CH Acquisition I Co.

Roth CH Acquisition I Co., or ROCH, is a blank check company incorporated in Delaware and formed for the purpose of entering into a merger, share exchange, asset acquisition, stock purchase, recapitalization, reorganization or other similar business combination with one or more businesses or entities. Although ROCH is not limited to a particular industry or geographic region for purposes of consummating an initial business combination, ROCH focused its search on businesses that have their primary

operations in the business services, consumer, healthcare, technology or wellness sectors.

ROCH's units, common stock, and warrants trade on NASDAQ under the symbols "ROCH.U," "ROCH" and "ROCH.W," respectively. At the Closing, the outstanding shares of ROCH Common Stock will have been exchanged for shares of ParentCo Common Stock.

The mailing address of ROCH's principal executive office is 888 San Clemente Drive, Suite 400, Newport Beach, CA 92660, and its telephone number is 949-720-5700.

PureCycle Technologies LLC

PureCycle Technologies LLC, or PCT, is commercializing a patented purification recycling technology (the "Technology"), originally developed by The Procter & Gamble Company ("P&G"), for restoring waste polypropylene into resin with near-virgin characteristics. PCT refers to this resin as ultra-pure recycled polypropylene ("UPRP"), which has nearly identical properties and applicability for reuse as virgin polypropylene. PCT has a global license for the technology from P&G. PCT intends to build its first commercial-scale plant in Ironton, Ohio (referred to herein as "Plant 1" or the "Phase II Facility"), which is expected to have nameplate capacity of approximately 107 million pounds/year when fully operational. Production is expected to commence in late 2022 and the plant is expected to be fully operational in 2023. PCT has secured and contracted all of the feedstock and product offtake for this initial plant. PCT's goal is to create an important new segment of the global polypropylene market that will assist multinational entities in meeting their sustainability goals, provide consumers with polypropylene-based products that are sustainable, and reduce overall polypropylene waste in the world's landfills and oceans.

The mailing address of PCT's principal executive office is 5950 Hazeltine National Drive, Suite 650, Orlando, Florida 32822, and its telephone number is 877-648-3565.

Roth CH Acquisition I Co. Parent Corp.

Roth CH Acquisition I Co. Parent Corp., or ParentCo, is a Delaware corporation that was incorporated on October 16, 2020 to facilitate the Business Combination. Upon consummation of the Business Combination, ParentCo's name changed to "PureCycle Technologies, Inc." and its common stock, warrants and units will have been approved for listing on NASDAQ under the symbols PCT, PCTTW and PCTTU, respectively.

The mailing address of ParentCo's principal executive office is 5950 Hazeltine Drive, Suite 650, Orlando, FL 32822, and its telephone number is 877-648-3565.

The Special Meeting

A Special Meeting of stockholders of ROCH was held at 10:00 a.m., Eastern standard time, on March 16, 2021 to approve the Business Combination and related matters (collectively, the "Proposals"). At the Special Meeting of stockholders of ROCH, the ROCH stockholders approved the Business Combination and all matters relating thereto.

Terms of the Business Combination

The Business Combination was structured as a "double dummy" transaction, pursuant to which:

- (a) Each of ParentCo, Merger Sub Corp and Merger Sub LLC are newly formed entities that were formed for the sole purpose of entering into and consummating the transactions set forth in the Merger Agreement.
- (b) At Closing, each of the following transactions occurred in the following order: (i) ParentCo completed the RH Merger, with ROCH surviving the RH Merger as a wholly-owned subsidiary of ParentCo (the "ROCH Surviving Company"); (ii) simultaneously with the RH Merger, ParentCo completed the PCT Merger with PCT surviving the PCT Merger as a wholly-owned subsidiary of ParentCo (the "Surviving Company"); and (iii) following the PCT Merger, ParentCo contributed to the Surviving Company the proceeds of the PIPE Investment, other than the par value of the Common Stock, which have been disbursed to ROCH, and, within two days following the Closing, ROCH Surviving Company will acquire, and ParentCo will contribute to ROCH Surviving Company (the "ParentCo Contribution") all common units of the Surviving Company directly held by ParentCo after the PCT Merger, such that, following the ParentCo Contribution, Surviving Company shall be a wholly-owned subsidiary of the ROCH Surviving Company.

The Aggregate Consideration payable to the members of PCT in connection with the Business Combination consists of the Closing Share Consideration, the Contingency Consideration and the assumption of all indebtedness of PCT as of the Closing Date (the "Assumed Indebtedness"), including indebtedness related to (a) the Revenue Bonds and (b) the Convertible Notes and other indebtedness used to fund the construction of an industrial process facility in Ironton, Ohio (collectively, the "Construction Indebtedness").

(a) The Closing Share Consideration

The Closing Share Consideration for PCT Unitholders is the number of shares of ParentCo Common Stock, par value \$0.001 per share equal to the quotient of: (a) \$835,000,000 divided by (b) \$10.00, subject to adjustment as set forth in Section 2.3 of the Merger Agreement. Common Stock, Public Warrants and ROCH Units issued and outstanding immediately prior to the consummation of the Business Combination were exchanged for ParentCo Securities on a one-for-one basis, as were ROCH's outstanding warrants and units.

(b) Contingency Consideration

PCT Unitholders will be issued up to 4,000,000 additional shares of ParentCo Common Stock if certain conditions are met. Each of the "First Level Contingency Consideration" and "Second Level Contingency Consideration" is equal to 2,000,000 shares of ParentCo Common Stock. The PCT Unitholders will be entitled to the First Level Contingency Consideration, if after six months after the Closing and prior to or as of the third anniversary of the Closing, the closing price of the ParentCo Common Stock is greater than or equal to \$18.00 over any 20 trading days within any 30-trading day period. The PCT Unitholders will be entitled to the Second Level Contingency Consideration upon the Phase II Facility becoming operational, as certified by Leidos Engineering, LLC ("Leidos"), an independent engineering firm, in accordance with criteria established in connection with the incurrence of the Construction Indebtedness.

Upon the first Change in Control (as defined in the Merger Agreement) to occur during the Earnout Period (as defined in the Merger Agreement), if the price per share paid or payable to the stockholders of ParentCo in connection with such Change in Control is equal to or greater than \$18.00, ParentCo will issue 2,000,000 shares of ParentCo Common Stock. Upon the first Change in Control (substituting "80%" for "50%" in the definition thereof) to occur during the Earnout Period, if the price per share paid or payable to the stockholders of ParentCo in connection with such Change in Control is equal to or greater than \$10.00 per share, ParentCo will issue 2,000,000 shares of ParentCo Common Stock.

Other Agreements Relating to the Business Combination

Investor Rights Agreement

At the Closing of the transactions contemplated by the Merger Agreement, ParentCo, certain PCT Unitholders representing at least 70% of PCT's outstanding membership interests and certain stockholders of ROCH (including certain ROCH officers, directors and sponsors) entered into an investor rights agreement (the "Investor Rights Agreement"), which is a closing condition of the parties to consummate the Business Combination. Pursuant to the Investor Rights Agreement, such PCT Unitholders have agreed to vote in favor of two board designees nominated by a majority of such stockholders of ROCH for a period of two years following the Closing Date (the "IRA Designees"), provided that in the event a majority of the holders of the Pre-PIPE Shares (as defined below) choose to select one of the IRA Designees, the majority of such stockholders of ROCH will select one of the IRA Designees and such holders of the Pre-PIPE Shares will select the other. Pursuant to these provisions, ROCH has designated Mr. Fernando Musa to assume a seat on the Combined Company's board of directors upon the consummation of the Business Combination and the holders of the Pre-PIPE Shares have designated Mr. Jeffrey Fieler to assume the other seat as an IRA Designee upon such consummation. The holders of the Pre-PIPE Shares may continue to select an IRA Designee until they no longer hold 10% or more of the outstanding Combined Company's Common Stock. Such PCT Unitholders have also agreed, subject to certain limited exceptions, not to transfer ParentCo Common Stock received in the Business Combination except as follows:

- From and after the six-month anniversary of the Closing Date, each Founder (as defined in the Investor Rights Agreement) may sell up to 20% of such Founder's ParentCo Common Stock and each PCT Unitholder that is not a Founder may sell up to 33.34% of such PCT Unitholder's ParentCo Common Stock.
- From and after the one-year anniversary of the Closing Date, each Founder may sell up to an additional 30% of such Founder's ParentCo Common Stock and each PCT Unitholder that is not a Founder may sell up to an additional 33.33% of such PCT Unitholder's ParentCo Common Stock.
- From and after the Phase II Facility becoming operational, as certified by Leidos, an independent engineering firm, each Founder may sell up to an additional 50% of such Founder's ParentCo Common Stock and each PCT Unitholder that is not a Founder may sell up to an additional 33.33% of such PCT shares of ParentCo Common Stock; provided that, in the case of Procter & Gamble, such lock-up will terminate in any event no later than April 15, 2023.

The Investor Rights Agreement also contains registration rights in favor of the PCT Unitholders and such ROCH stockholders which (in the case of the ROCH stockholders) are intended to replace the registration rights granted to them at the time of ROCH's IPO.

Subscription Agreements and PIPE Registration Rights Agreement

In connection with the Business Combination, certain institutions and accredited investors (each a "Subscriber") (i) have purchased prior to the date of the Merger Agreement membership units of PCT at an effective price per ParentCo Common Stock of approximately \$8.35 per share for an aggregate cash amount of approximately \$60 million (the "Pre-PIPE Shares") in a private placement (the "Pre-PIPE Placement") and (ii) have committed to purchase, on a transitory basis simultaneously with the consummation of the Business Combination, shares of Common Stock at a purchase price of \$10.00 per share for an aggregate cash amount of \$250 million (the "PIPE Shares") in a private placement (for purposes of this section, the "PIPE Placement"), all of which were exchanged for ParentCo Common Stock in connection with the closing of the Business Combination. Certain offering related expenses are payable by ROCH and PCT, including customary fees payable to the placement agents: Roth Capital Partners, LLC ("Roth"), Craig-Hallum Capital Group LLC ("C-H") and Oppenheimer & Co. Inc. ("Oppenheimer"). Byron Roth, Gordon Roth and Aaron Gurewitz, the Chairman and Chief Executive Officer, Chief Financial Officer and Chief Operating Officer and Head of Equity Capital Markets, respectively, at Roth, and Rick Hartfiel and John Lipman, the Managing Partner and Head of Investment Banking and Partner and Managing Director of Investment Banking, respectively, at C-H, are either officers or directors (or both, in the case of Byron Roth and John Lipman) of ROCH. While no direct compensation arrangements regarding such individuals have been entered into regarding such fees, these executives may benefit indirectly from any such amounts payable to their respective organizations. Such commitments have been made by way of certain subscription or unit purchase agreements (collectively, the "Subscription Agreements"), by and among each Subscriber and PCT or ROCH, as the case may be. The purpose of the sale of the Pre-PIPE Shares and the PIPE Shares is to raise additional capital for use in connection with the PCT business and the Business Combination and, in the case of the PIPE Shares, to meet the minimum cash requirements provided in the Merger Agreement. The Subscription Agreements for the PIPE Placement were entered into contemporaneously with the execution of the Merger Agreement and the proceeds were deposited into escrow by the Subscribers and released to ParentCo (other than the par value of the PIPE Shares, which will be released to ROCH) in connection with the issuance of ParentCo Common Stock as part of the RH Merger concurrent with the closing of the Business Combination.

The closing of the sale of PIPE Shares (the "PIPE Closing") was contingent upon the substantially concurrent consummation of the Business Combination. The PIPE Closing occurred simultaneously with the consummation of the RH Merger. The PIPE Closing was subject to customary conditions, including:

- ParentCo's initial listing application with NASDAQ in connection with the Business Combination shall have been approved and, immediately following the Closing of the Business Combination, ParentCo shall satisfy any applicable initial and continuing listing requirements of NASDAQ and ParentCo shall not have received any notice of non-compliance therewith, and the ParentCo Common Stock shall have been approved for listing on NASDAQ;
- all representations and warranties of ROCH and the Subscriber contained in the relevant Subscription Agreement shall be true and correct in all material respects (other than representations and warranties that are qualified as to materiality or Material Adverse Effect (as defined in the Subscription Agreements), which representations and warranties shall be true in all respects) at, and as of, the PIPE Closing;
- as of the Closing Date, there has been no material adverse change in the business, properties, financial condition, stockholders' equity or results of operations of ROCH and its subsidiaries taken as a whole since the date of the Subscription Agreement (other than the election by holders of the ROCH Class A Common Stock to exercise redemption rights in connection with the special meeting of ROCH's stockholders to approve the Business Combination); and
- all conditions precedent to the closing of the Business Combination, including the approval by ROCH's stockholders, shall have been satisfied or waived.

Pursuant to the Subscription Agreements and PIPE Registration Rights Agreement, ROCH agreed to file (at ROCH's sole cost and expense) a registration statement registering the resale of the ParentCo Common Stock issuable in respect of the Pre-PIPE Shares and the PIPE Shares, of which registration statement this prospectus forms a part (the "PIPE Resale Registration Statement"), with the SEC no later than the 10th calendar day following the date ROCH first files the Proxy Statement/Prospectus with the SEC. ROCH will use its commercially reasonable efforts to have this PIPE Resale Registration Statement declared effective on the Closing Date of Business Combination but no later than the 60th calendar day following the Closing Date (or, in the event the SEC notifies ROCH that it will "review" this PIPE Resale Registration Statement, the 90th calendar day following the date thereof) (the "Effectiveness Date").

Under certain circumstances, additional payments by ROCH or ParentCo (as applicable) may be assessed with respect to the Pre-Pipe Shares and PIPE Shares in the event that (i) this PIPE Resale Registration Statement has not been filed with the SEC by the Closing Date; (ii) this PIPE Resale Registration Statement has not been declared effective by the SEC by the Effectiveness Date; (iii) this PIPE Resale Registration Statement is declared effective by the SEC but thereafter ceases to be effective or is suspended for more than fifteen (15) consecutive calendar days or more than an aggregate of twenty (20) calendar days (which need not be consecutive calendar days) during any 12-month period; or (iv) ROCH or ParentCo (as applicable) fails for any reason to satisfy the current public information requirement under Rule 144(c) under the Securities Act and the Pre-Pipe Shares and PIPE Shares are not then registered for resale under the Securities Act during the period commencing from the twelve (12) month anniversary of the closing and ending at such time that all of the Pre-Pipe Shares and PIPE Shares may be sold without the requirement for ROCH or ParentCo (as applicable) to be in compliance with Rule 144(c)(1) under the Securities Act and otherwise without restriction or limitation pursuant to Rule 144 under the Securities Act. The additional payments by ROCH or ParentCo (as applicable) will accrue on the applicable Pre-Pipe Shares and PIPE Shares at a rate of 1.0% of the aggregate purchase price paid for such shares per month, subject to certain terms and limitations (including a cap of 6.0% of the aggregate purchase price paid for such shares pursuant to the Subscription Agreements).

Founder Support Agreement

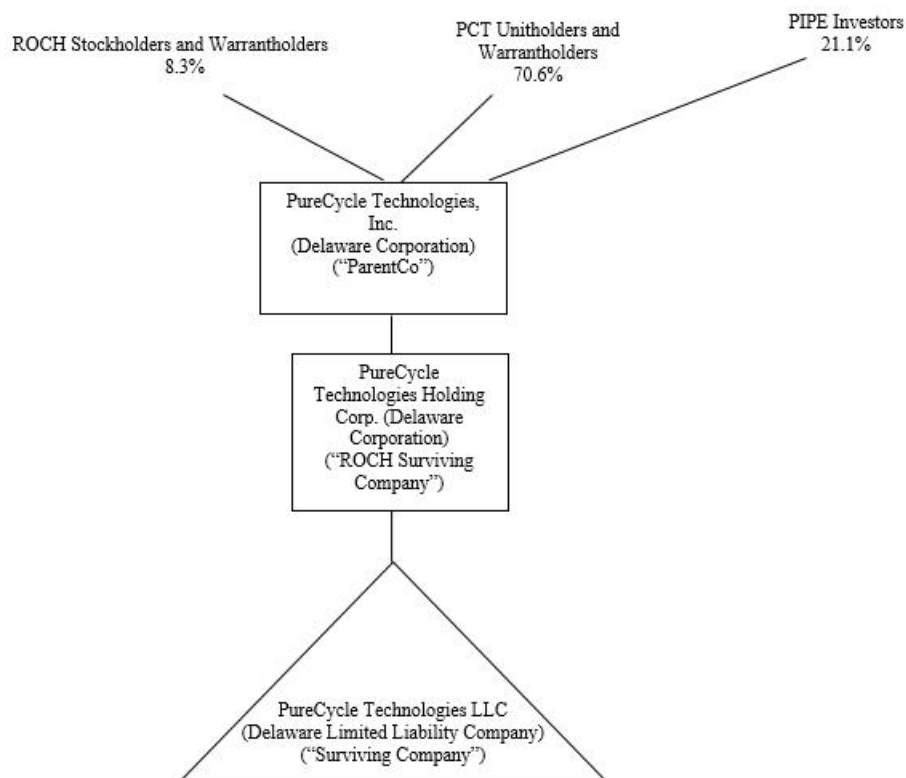

In connection with the execution of the Merger Agreement, certain of the Initial Stockholders entered into the Founder Support Agreement with ROCH, ParentCo, and PCT, pursuant to which such Initial Stockholders agreed to vote an aggregate of 1,861,987 shares of Common Stock beneficially owned by them, representing approximately 19% of ROCH's outstanding shares, in favor of each of the Proposals, to use their reasonable best efforts to take all actions reasonably necessary to consummate the Business Combination and to not take any action that would reasonably be expected to materially delay or prevent the satisfaction of the conditions to the Business Combination set forth in the Merger Agreement. In addition, such Initial Stockholders also agreed that they would not sell, assign or otherwise transfer any of the Insider Shares (as defined therein) unless the buyer, assignee or transferee executes a joinder agreement to the Founder Support Agreement. We agreed that we would not register any sale, assignment or transfer of such Insider Shares on our transfer ledger (book entry or otherwise) that is not in compliance with the Founder Support Agreement.

Company Support Agreement

In connection with the execution of the Merger Agreement, PCT Unitholders representing 74.78% of the voting issued and outstanding Company LLC Interests entered into the Company Support Agreement with ROCH, ParentCo, and PCT, pursuant to which such PCT Unitholders agreed to vote all LLC Interests beneficially owned by them in favor of each of the Proposals, to use their reasonable best efforts to take all actions reasonably necessary to consummate the Business Combination and to not take any action that would reasonably be expected to materially delay or prevent the satisfaction of the conditions to the Business Combination set forth in the Merger Agreement. In addition, such PCT Unitholders also agreed that they would not sell, assign or otherwise transfer any of the Company LLC Interests held by them, with certain limited exceptions, unless the buyer, assignee or transferee executes a joinder agreement to the Company Support Agreement.

Ownership Structure

The following diagram illustrates the ownership structure of ROCH, ParentCo, Merger Sub LLC, Merger Sub Corp and PCT after the Business Combination after giving effect to redemptions received on or prior to the Closing Date.

Anticipated Accounting Treatment

The Business Combination will be accounted for as a “reverse recapitalization” in accordance with GAAP. Under this method of accounting ROCH will be treated as the “acquired” company for financial reporting purposes. This determination is primarily based on the fact that subsequent to the Business Combination, the PCT Unitholders are expected to have a majority of the voting power of the Combined Company, PCT will comprise all of the ongoing operations of the Combined Company, PCT will comprise a majority of the governing body of the Combined Company, and PCT’s senior management will comprise all of the senior management of the Combined Company. Accordingly, for accounting purposes, the Business Combination will be treated as the equivalent of PCT issuing shares for the net assets of ROCH, accompanied by a recapitalization. The net assets of ROCH will be stated at historical costs. No goodwill or other intangible assets will be recorded. Operations prior to the Business Combination will be those of PCT.

SELECTED HISTORICAL FINANCIAL INFORMATION OF ROCH

ROCH’s balance sheet data as of December 31, 2020 and 2019 and statement of operations data for the year ended December 31, 2020 and for the period from February 13, 2019 (inception) through December 31, 2019 are derived from ROCH’s audited financial statements included elsewhere in this prospectus.

The historical results of ROCH included below and elsewhere in this prospectus are not necessarily indicative of the future performance of ROCH. You should read the following selected financial data in conjunction with the financial statements and the related notes appearing elsewhere in this prospectus.

	Year ended December 31, 2020	For the Period from February 13, 2019 (inception) through December 31, 2019
Formation and operating costs	\$ 1,097,684	\$ 1,594

SELECTED HISTORICAL FINANCIAL INFORMATION OF PCT

The information presented below is derived from PCT's audited consolidated financial statements included elsewhere in this prospectus for the fiscal years ended December 31, 2020, 2019 and 2018 and the balance sheet data as of December 31, 2020, 2019 and 2018.

The historical results presented below are not necessarily indicative of the results to be expected for any future period. You should read carefully the following selected information in conjunction with "Management's Discussion and Analysis of Financial Condition and Results of Operations" and PCT's historical consolidated financial statements and accompanying footnotes, included elsewhere in this prospectus.

(in thousands)	For the Years Ended December 31		
	2020	2019	2018
Statement of Operations Data			
Revenue	\$ —	\$ —	\$ —
Costs and Expenses			
Operating Costs	8,603	5,966	1,222
Research and Development	648	526	786
Selling, General and Administrative	39,525	11,478	2,097
Total Operating Costs and Expenses	48,776	17,970	4,105
Interest Expense	7,954	1,012	—
Other Expense, net	111	330	—
Net Loss	\$ (56,841)	\$ (19,312)	\$ (4,105)
Net Loss per Unit ⁽¹⁾	\$ (22.02)	\$ (8.42)	\$ (1.86)

(in thousands)	As of December 31,		
	2020	2019	2018
Balance Sheet Data			
Cash and Cash Equivalents	\$ 64,492	\$ 150	\$ 101
Working Capital ⁽²⁾	34,752	(7,622)	(4,226)
Total Assets	404,127	33,281	25,738
Total Liabilities	296,228	30,901	19,544
Total Members' Equity	107,899	2,380	6,194

(1) PCT follows the two-class method when computing net loss per common units when units are issued that meet the definition of participating securities. The two-class method requires income available to common unitholders for the period to be allocated between common and participating securities based upon their respective rights to receive dividends as if all income for the period had been distributed. The two-class method also requires losses for the period to be allocated between common and participating securities based on their respective rights if the participating security contractually participates in losses. As holders of participating securities do not have a contractual obligation to fund losses, undistributed net losses are not allocated to Class B Preferred Units, Class B-1 Preferred Units and Class C Units for purposes of the loss per unit calculation.

(2) PCT defines working capital as total current assets minus total current liabilities.

SUMMARY UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL INFORMATION

The following summary unaudited pro forma condensed combined financial information (the "Summary Pro Forma Information") gives effect to the Business Combination. The Business Combination will be accounted for as a reverse recapitalization in accordance with U.S. GAAP. Under this method of accounting, ROCH will be treated as the "acquired" company for financial reporting purposes. Accordingly, the Business Combination will be reflected as the equivalent of PCT issuing stock for the net assets of ROCH, accompanied by a recapitalization whereby no goodwill or other intangible assets are recorded. Operations prior to the Business Combination will be those of PCT. The summary unaudited pro forma condensed combined balance sheet data as of December 31, 2020 gives effect to the Business Combination as if it had occurred on December 31, 2020. The summary unaudited pro forma condensed combined statement of operations data for the year ended December 31, 2020 give effect to the Business Combination as if it had occurred on January 1, 2020.

The Summary Pro Forma Information has been derived from, and should be read in conjunction with, the more detailed unaudited pro forma condensed combined financial information of the post-combination company appearing elsewhere in this prospectus and the accompanying notes to the unaudited pro forma condensed combined financial information. The unaudited pro forma condensed combined financial information is based upon, and should be read in conjunction with, the historical

financial statements and related notes of ROCH and PCT for the applicable periods included in this prospectus. The Summary Pro Forma Information has been presented for informational purposes only and is not necessarily indicative of what the Combined Company's financial position or results of operations actually would have been had the Business Combination been completed as of the dates indicated. In addition, the Summary Pro Forma Information does not purport to project the future financial position or operating results of the Combined Company.

As of the Closing Date of the Business Combination, ROCH received redemption requests from the holders of an aggregate of 5,100 shares of Common Stock.

COMPARATIVE PER SHARE DATA

The following table sets forth summary historical comparative share information for ROCH and PCT and unaudited pro forma condensed combined per share information after giving effect to the Business Combination. The pro forma book value information reflects the Business Combination as if it had occurred on December 31, 2020. The weighted average shares outstanding and net earnings per share information reflect the Business Combination as if they had occurred on January 1, 2020.

The unaudited pro forma condensed combined earnings per share information should be read in conjunction with, the historical financial statements and related notes of ROCH and PCT for the applicable periods included in this prospectus. The unaudited pro forma condensed combined earnings per share information has been presented for informational purposes only and is not necessarily indicative of what the Combined Company's results of operations actually would have been had the business combination been completed as of the dates indicated. In addition, the unaudited pro forma combined book value per share information does not purport to project the future financial position or operating results of the post-combination company.

	PCT (Historical)	ROCH (Historical)	Combined Pro Forma		PureCycle Equivalent
			Pro Forma Condensed Combined	Pro Forma Condensed Combined	Per Share Pro Forma ⁽²⁾
As of and for the year ended December 31, 2020					
Book Value per share ⁽¹⁾	\$ 39.51	\$ 1.97	\$ 3.41	\$	36.79
Weighted average shares outstanding of common stock - basic and diluted	2,731,045	2,533,092	118,322,900		29,468,097
Net income per share of Class A common stock - basic and diluted	\$ (22.02)	\$ (0.42)	\$ (0.50)	\$	(5.40)

(1) Book value per share = (Total equity)/(Common shares outstanding).

(2) The equivalent pro forma basic and diluted per share data for PCT is calculated based on an expected exchange ratio of 10.79.

THE OFFERING

Issuer	Roth CH Acquisition I Co. Parent Corp. renamed PureCycle Technologies, Inc. upon consummation of the Business Combination.
Shares that may be offered and sold from time to time by the Selling Stockholders named herein	25,000,000 shares of ParentCo Common Stock.
ParentCo Common Stock to be issued and outstanding after the consummation of the Business Combination (excluding shares issuable upon exercise of outstanding warrants) ⁽¹⁾	118,322,900 shares

Use of proceeds	All of the shares of ParentCo Common Stock offered by the Selling Stockholders pursuant to this prospectus will be sold by the Selling Stockholders for their respective accounts. We will not receive any of the proceeds from these sales.
NASDAQ Capital Market symbol	“PCT”
Risk Factors	Investing in ParentCo Common Stock involves a high degree of risk. See “ <i>Risk Factors</i> ” beginning on page 23 and the other information in this prospectus for a discussion of the factors you should consider carefully before you decide to invest in ParentCo Common Stock.

(1) Excludes 4,000,000 shares of ParentCo Common Stock which may be issued to the current owners of PCT subject to the achievement of certain stock price targets and upon commissioning of an industrial facility in Ironton, Ohio.

SUMMARY OF RISK FACTORS

Our business is subject to a number of risks and uncertainties, including those highlighted in the section entitled “*Risk Factors*” immediately following this summary. Some of these principal risks include the following and may be further exacerbated by the COVID-19 pandemic:

- Risks Related to PCT’s Business
 - PCT is an early commercial stage emerging growth company with no revenue, and may never achieve or sustain profitability.
 - PCT’s business is not diversified.
 - The License Agreement sets forth certain performance targets which, if missed, could result in a termination or conversion of the license granted under the License Agreement.
 - PCT’s outstanding secured and unsecured indebtedness (including at the Project level), ability to incur additional debt and the provisions in the agreements governing PCT’s debt, and certain other agreements, could have a material adverse effect on PCT’s business, financial condition, results of operations and prospects.
 - PCT’s projections are subject to significant risks, assumptions, estimates and uncertainties. As a result, PCT’s projected revenues, expenses and profitability may differ materially from expectations.
 - PCT’s business, financial condition, results of operations and prospects may be adversely affected by the impact of the global outbreak of COVID-19.
 - Construction of the Phase II Facility may not be completed in the expected timeframe or in a cost-effective manner. Any delays in the construction of the Phase II Facility could severely impact PCT’s business, financial condition, results of operations and prospects.
 - Initially, PCT will rely on a single facility for all of its operations.
 - There is no guarantee the Technology is scalable to commercial-scale operation.
 - PCT may be unable to sufficiently protect its proprietary rights and may encounter disputes from time to time relating to its use of the intellectual property of third parties.
 - PCT may not be successful in finding future strategic partners for continuing development of additional offtake and feedstock opportunities.
 - PCT’s failure to secure waste polypropylene could have a negative impact on PCT’s business, financial condition, results of operations and prospects.
 - Because PCT’s global expansion requires sourcing feedstock and supplies from around the world, including Europe, changes to international trade agreements, tariffs, import and excise duties, taxes or other governmental rules and regulations could adversely affect PCT’s business, financial condition, results of operations and prospects.
 - The market for UPRP is still in the development phase and the acceptance of UPRP by manufacturers and potential customers is not guaranteed.
 - Certain of PCT’s offtake agreements are subject to index pricing, and fluctuation in index prices may adversely impact PCT’s financial results.
 - Competition could reduce demand for PCT’s products or negatively affect PCT’s sales mix or price realization.
 - PCT may not be able to meet applicable regulatory requirements for the use of PCT’s UPRP in food grade applications, and, even if the requirements are met, complying on an ongoing basis with the numerous regulatory requirements applicable to the UPRP and our facilities will be time-consuming and costly.
 - The operation of and construction of the Project is subject to governmental regulation.

- Risks Related to Human Capital Management
 - PCT is dependent on management and key personnel, and PCT’s business would suffer if it fails to retain its key personnel and attract additional highly skilled employees.

- While ROCH and PCT work to complete the business combination, management’s focus and resources may be diverted from operational matters and other strategic opportunities.
- PCT’s management has limited experience in operating a public company.
- Risks Related to the Combined Company’s Common Stock
 - There can be no assurance that the Combined Company’s Common Stock will be approved for listing on NASDAQ upon the Closing, or if approved, that the Combined Company will be able to comply with the continued listing standards of NASDAQ.
 - The exercise of registration rights may adversely affect the market price of the Combined Company’s Common Stock.
 - Future offerings of debt or offerings or issuances of equity securities by the Combined Company may adversely affect the market price of the Combined Company’s Common Stock or otherwise dilute all other stockholders.
- General Risk Factors
 - Each of ROCH and PCT have incurred and will incur substantial costs in connection with the Business Combination and related transactions, such as legal, accounting, consulting and financial advisory fees.
 - The Combined Company is an emerging growth company, and the Combined Company cannot be certain if the reduced reporting requirements applicable to emerging growth companies will make its shares less attractive to investors.
 - Following the consummation of the Business Combination, the Combined Company will incur significant increased expenses and administrative burdens as a public company.

RISK FACTORS

Upon consummation of the Business Combination, the resulting Combined Company will be subject to a number of risks. You should carefully consider the following risk factors, together with all of the other information included in this prospectus, before you decide whether to invest in ParentCo Common Stock. Following the closing of the Business Combination, the market price of the Combined Company’s common stock could decline due to any of these risks, in which case you could lose all or part of your investment. In assessing these risks, you should also refer to the other information included in this prospectus, including the consolidated financial statements of ROCH and PCT and the accompanying notes. The Combined Company’s business, financial condition or results of operations could be affected materially and adversely by any of the risks discussed below.

Risks Related to PCT’s Business

Risks Related to PCT’s Status as an Early Commercial Stage Emerging Growth Company

PCT is an early commercial stage emerging growth company with no revenue, and may never achieve or sustain profitability.

PCT is commercializing a recycling technology that was developed by The Procter & Gamble Company (“P&G”). P&G granted PCT a worldwide license under an Amended and Restated Patent License Agreement dated July 28, 2020, between P&G and PCT (the “License Agreement”) for a proprietary process of restoring waste polypropylene into ultra-pure recycled polypropylene (“UPRP”) through an extraction and filtration purification process (the “Technology”).

PCT relies principally on the commercialization of UPRP as well as the Technology and related licenses to generate future revenue growth. To date, such products and services have delivered no revenue. Also, UPRP product offerings and partnering revenues are in their very early stages. PCT believes that commercialization success is dependent upon the ability to significantly increase the number of production plants, feedstock suppliers and offtake partners as well as strategic partners that utilize UPRP and the Technology via licensing agreements. PCT is an early commercial stage emerging growth company that evaluates various strategies to achieve its financial goals and commercialization objectives on an ongoing basis. In this regard, PCT’s production methodology designed to achieve these objectives, including with respect to future plant size, capacity, cost, geographic location, sequencing and timing, is subject to change as a result of modifications to business strategy or market conditions. Furthermore, if demand for UPRP and the Technology does not increase as quickly as planned, PCT may be unable to increase revenue levels as expected. PCT is currently not profitable. Even if PCT succeeds in increasing adoption of UPRP products by target markets, maintaining and creating relationships with existing and new offtake partners, feedstock suppliers and customers, and developing and commercializing additional plants, market conditions, particularly related to pricing and feedstock costs, may result in PCT not generating sufficient revenue to achieve or sustain profitability.

PCT’s business is not diversified.

PCT’s initial commercial success depends on its ability to profitably operate the solid waste disposal facility and Feedstock Evaluation Unit (the “FEU” or the “Phase I Facility”) and its ability to complete construction and profitably and successfully operate its first commercial scale recycling facility (the “Phase II Facility” and, together with the Phase I Facility, the “Project”). The Project is located in Lawrence County, Ohio. Other than the future production and sale of UPRP, there are currently no other lines of business or other sources of revenue. Such lack of diversification may limit PCT’s ability to adapt to changing business conditions and could have an adverse effect on PCT’s business, financial condition, results of operations and prospects.

The License Agreement sets forth certain performance and pricing targets which, if missed, could result in a termination or conversion of the license granted under the License Agreement.

Pursuant to the License Agreement, P&G has granted PCT a license to utilize certain P&G intellectual property. The intellectual property is tied to the proprietary purification process by which waste polypropylene may be converted to UPRP, referred to as the Technology. The License Agreement sets forth certain performance targets for the Phase II Facility which, if missed, could result in a termination of the license granted under the License Agreement (if PCT is unable to make UPRP at certain production volumes and at certain prices within a certain time frame). The License Agreement also sets forth certain performance and pricing targets for the Phase II Facility which, if missed, could result in conversion of the license to a non-exclusive license (if PCT’s UPRP is unable to meet certain purification thresholds within a certain period of time after the start of the Project or PCT is unable or unwilling to provide P&G with UPRP at certain prices from the first plant). In the event the License Agreement is terminated or converted to a non-exclusive license, this could have a material adverse effect on PCT’s business, financial condition, results of operations and prospects.

PCT's outstanding secured and unsecured indebtedness (including at the Project level), ability to incur additional debt and the provisions in the agreements governing PCT's debt, and certain other agreements, could have a material adverse effect on PCT's business, financial condition, results of operations and prospects.

As of December 31, 2020, after giving pro forma effect to the transactions contemplated by the Merger Agreement, the offering of the Revenue Bonds, and the issuance of \$60 million of the Convertible Notes, PCT had total consolidated debt of \$312.0 million, including \$306.5 million of secured indebtedness (including \$235.0 million of indebtedness at the Project level) and \$5.5 million of unsecured indebtedness. PCT's debt service obligations could have important consequences to the Combined Company for the foreseeable future, including the following: (i) PCT's ability to obtain additional financing for capital expenditures, working capital or other general corporate purposes may be impaired; (ii) a substantial portion of PCT's cash flow from operating activities must be dedicated to the payment of principal and interest on PCT's debt, thereby reducing the funds available to us for PCT's operations and other corporate purposes; and (iii) PCT may be or become substantially more leveraged than some of its competitors, which may place PCT at a relative competitive disadvantage and make us more vulnerable to changes in market conditions and governmental regulations.

PCT is required to maintain compliance with certain financial and other covenants under its debt agreements. There are and will be operating and financial restrictions and covenants in certain of PCT's debt agreements, including the Loan Agreement and the indenture governing PCT's Convertible Notes, as well as certain other agreements to which PCT is or may become a party. These limit, among other things, PCT's ability to incur certain additional debt, create certain liens or other encumbrances, sell assets, and transfer ownership interests and transactions with affiliates of PCT. These covenants could limit PCT's ability to engage in activities that may be in PCT's best long-term interests. PCT's failure to comply with certain covenants in these agreements could result in an Event of Default (as defined therein) under the various debt agreements, allowing lenders to accelerate the maturity for the debt under these agreements and to foreclose upon any collateral securing the debt. An Event of Default would also adversely affect PCT's ability to access its borrowing capacity and pay debt service on its outstanding debt, likely resulting in acceleration of such debt or in a default under other agreements containing cross-default provisions. Under such circumstances, PCT might not have sufficient funds or other resources to satisfy all of its obligations. In addition, the limitations imposed by PCT's financing agreements on its ability to pay dividends, incur additional debt and to take other actions might significantly impair PCT's ability to obtain other financing, generate sufficient cash flow from operations to enable PCT to pay its debt or to fund other liquidity needs. Such consequences would adversely affect PCT's business, financial condition, results of operations and prospects.

PCT's projections are subject to significant risks, assumptions, estimates and uncertainties. As a result, PCT's projected revenues, expenses and profitability may differ materially from expectations.

In connection with the Business Combination, the ROCH Board of Directors considered, among other things, internal financial forecasts for the post-Business Combination company. They speak only as of the date made and will not be updated. These financial projections are subject to significant economic, competitive, industry and other uncertainties, including availability of capital, and may not be achieved in full, at all or within projected timeframes. For example, the financial projections provided to the ROCH Board of Directors are derived in part from PCT's projections of future UPRP production volumes. Those future production volumes include volumes associated with both current and projected feedstock sources. Projected feedstock sources and associated future production volumes and related future cash flows are inherently more uncertain than those related to current volumes, and the impact of that uncertainty increases for periods further from the date of this proxy statement/prospectus. Further, as a result of unprecedented market disruption resulting from the global coronavirus (COVID-19), these projections are even more uncertain in terms of reflecting actual future results. In addition, the failure of PCT's business to achieve projected results could have a material adverse effect on the Combined Company's share price and financial position following the Business Combination.

24

Risks Related to PCT's Operations

PCT's business, financial condition, results of operations and prospects may be adversely affected by the impact of the global outbreak of COVID-19.

The United States is being affected by the COVID-19 pandemic, the full effect of which on global financial markets as well as national, state and local economies is unknown. There can be no assurances as to the materiality, severity and duration of negative economic conditions caused by the pandemic.

In addition to keeping PCT employees healthy and safe, the immediate impact of COVID-19 on PCT relates to the challenges that PCT's suppliers and contractors may be facing. PCT is a party to certain agreements, including construction contracts and certain long-term feedstock agreements that provide for the supply to PCT of post-industrial and post-consumer resin that contains polypropylene as feedstock with guaranteed minimum and maximum volumes at prices linked to an index for virgin polypropylene in a price schedule with collared pricing and a minimum price floor. The feedstock agreements contain typical provisions for termination by either party due to force majeure, breach of contract, and/or company insolvency. The impact of COVID-19 on such agreements, or the applicable agreements' termination provisions, is uncertain, and could result in the termination of such agreements.

When PCT is producing UPRP, if the pandemic has not abated, the impact of COVID-19, while uncertain, could be manifested in the challenges faced by PCT's customers. For example, certain UPRP is intended for use in consumer packaging by consumer goods companies, and there could be volatility in the packaged consumer goods market due to interruptions in consumer access to products resulting from government actions that impact the ability of those companies to produce and ship goods. Product demand trends caused by future economic trends are unclear. PCT has executed offtake agreements providing for a combined guaranteed minimum sale of 63 million pounds per year ("MMlb/yr.") of UPRP and a maximum volume of 138 MMlb/yr at PCT's option, which reduces the ability of PCT to quickly respond to changes caused by COVID-19, particularly as the amount of UPRP to be provided for sale under each offtake agreement is determined prior to each year as an annual volume commitment.

There may be additional unknown risks presented by the COVID-19 pandemic that could impact PCT's operating results. For example, the deadly global outbreak and continuing spread of COVID-19 could have an adverse effect on the value, operating results and financial condition of PCT's business; as well as the ability of PCT to maintain operations and grow revenue generated from offtake partners and customers and could delay or prevent completion of the Phase II Facility or result in additional costs or reduced revenues. In addition, the impact of COVID-19 is likely to cause substantial changes in consumer behavior and has caused restrictions on business and individual activities, which are likely to lead to reduced economic activity. Extraordinary actions taken by international, federal, state, and local public health and governmental authorities to contain and combat the outbreak and spread of COVID-19 in regions throughout the world, including travel bans, quarantines, "stay-at-home" orders, and similar mandates for many individuals and businesses to substantially restrict daily activities could have an adverse effect on PCT's business, financial condition, results of operations and prospects.

25

Construction of the Phase II Facility may not be completed in the expected timeframe or in a cost-effective manner. Any delays in the construction of the Phase II Facility could severely impact PCT's business, financial condition, results of operations and prospects.

The Project will constitute the first of its kind. Construction on the Project commenced in 2018 with the construction of the Phase I Facility comprised of the FEU, operating

within an 11,000 square foot building located on the Project site. The FEU was brought online on July 1, 2019. Construction of the Phase II Facility has commenced, will include modifications to 150,000 square feet of existing buildings, utilities and the Project storage area, and is expected to be substantially completed by October 2022. The Combined Company might not be able to achieve completion of the Phase II Facility in the expected timeframe, in a cost-effective manner or at all due to a variety of factors, including, but not limited to, a stoppage of work as a result of the COVID-19 outbreak, unexpected construction problems or severe weather. Significant unexpected delays in construction could result in additional costs or reduced revenues, and it could limit the amount of UPRP PCT can produce, which could severely impact PCT's business, financial condition, results of operations and prospects.

The construction and commissioning of any new project is dependent on a number of contingencies some of which are beyond PCT's control. There is a risk that significant unanticipated costs or delays could arise due to, among other things, errors or omissions, unanticipated or concealed Project site conditions, including subsurface conditions, unforeseen technical issues or increases in plant and equipment costs, insufficiency of water supply and other utility infrastructure, or inadequate contractual arrangements. Should significant unanticipated costs arise, this could have a material adverse impact on PCT's business, financial performance and operations. No assurance can be given that construction will be completed, will be completed on time or will be completed at all, or as to whether PCT, which has provided a Guaranty of Completion of the Project, will have sufficient funds available to complete construction. If the Project is not completed, funds are not likely to be available to pay debt service on PCT's outstanding debt.

Initially, PCT will rely on a single facility for all of its operations.

Initially, PCT will rely solely on the operations at the Project. Adverse changes or developments affecting the Project could impair PCT's ability to produce UPRP and its business, prospects, financial condition and results of operations. Any shutdown or period of reduced production at the Project, which may be caused by regulatory noncompliance or other issues, as well as other factors beyond its control, such as severe weather conditions, natural disaster, fire, power interruption, work stoppage, disease outbreaks or pandemics (such as COVID-19), equipment failure or delay in supply delivery, would significantly disrupt PCT's ability to grow and produce UPRP in a timely manner, meet its contractual obligations and operate its business. PCT's equipment is costly to replace or repair, and PCT's equipment supply chains may be disrupted in connection with pandemics, such as COVID-19, trade wars or other factors. If any material amount of PCT's machinery were damaged, it would be unable to predict when, if at all, it could replace or repair such machinery or find co-manufacturers with suitable alternative machinery, which could adversely affect PCT's business, financial condition, results of operations and prospects. Performance guarantees may not be sufficient to cover damages or losses, or the guarantors under such guarantees may not have the ability to pay. Any insurance coverage PCT has may not be sufficient to cover all of its potential losses and may not continue to be available to PCT on acceptable terms, or at all.

Cyber risk and the failure to maintain the integrity of PCT's operational or security systems or infrastructure, or those of third parties with which PCT does business, could have a material adverse effect on PCT's business, financial condition, results of operations and prospects.

PCT is subject to an increasing number of information technology vulnerabilities, threats and targeted computer crimes which pose a risk to the security of its systems and networks and the confidentiality, availability and integrity of data. Disruptions or failures in the physical infrastructure or operating systems that support PCT's businesses, offtake partners, feedstock suppliers and customers, or cyber attacks or security breaches of PCT's networks or systems, could result in the loss of customers and business opportunities, legal liability, regulatory fines, penalties or intervention, reputational damage, reimbursement or other compensatory costs, and additional compliance costs, any of which could materially adversely affect PCT's business, financial condition, results of operations and prospects. While PCT attempts to mitigate these risks, PCT's systems, networks, products, solutions and services remain potentially vulnerable to advanced and persistent threats.

PCT also maintains and has access to sensitive, confidential or personal data or information in its business that is subject to privacy and security laws, regulations and customer controls. Despite PCT's efforts to protect such sensitive, confidential or personal data or information, PCT's facilities and systems and those of its customers, offtake partners, feedstock suppliers and third-party service providers may be vulnerable to security breaches, theft, misplaced or lost data, programming and/or human errors that could lead to the compromise of sensitive, confidential or personal data or information or improper use of PCT's systems and software.

PCT may be unable to sufficiently protect its proprietary rights and may encounter disputes from time to time relating to its use of the intellectual property of third parties.

PCT relies on its proprietary intellectual property, including numerous patents and registered trademarks, as well as its licensed intellectual property under the License Agreement and others to market, promote and sell UPRP products. PCT monitors and protects against activities that might infringe, dilute, or otherwise harm its patents, trademarks and other intellectual property and relies on the patent, trademark and other laws of the U.S. and other countries. However, PCT may be unable to prevent third parties from using its intellectual property without authorization. In addition, the laws of some non-U.S. jurisdictions, particularly those of certain emerging markets, provide less protection for PCT's proprietary rights than the laws of the U.S. and present greater risks of counterfeiting and other infringement. To the extent PCT cannot protect its intellectual property, unauthorized use and misuse of PCT's intellectual property could harm its competitive position and have a material adverse effect on PCT's business, financial condition, results of operations and prospects.

Despite PCT's efforts to protect these rights, unauthorized third parties may attempt to duplicate or copy the proprietary aspects of its technology and processes. PCT's competitors and other third parties independently may design around or develop similar technology or otherwise duplicate PCT's services or products such that PCT could not assert its intellectual property rights against them. In addition, PCT's contractual arrangements may not effectively prevent disclosure of its intellectual property and confidential and proprietary information or provide an adequate remedy in the event of an unauthorized disclosure. Measures in place may not prevent misappropriation or infringement of PCT's intellectual property or proprietary information and the resulting loss of competitive advantage, and PCT may be required to litigate to protect its intellectual property and proprietary information from misappropriation or infringement by others, which is expensive, could cause a diversion of resources and may not be successful.

PCT also may encounter disputes from time to time concerning intellectual property rights of others, and it may not prevail in these disputes. Third parties may raise claims against PCT alleging that PCT, or consultants or other third parties retained or indemnified by PCT, infringe on their intellectual property rights. Some third-party intellectual property rights may be extremely broad, and it may not be possible for PCT to conduct its operations in such a way as to avoid all alleged violations of such intellectual property rights. Given the complex, rapidly changing and competitive technological and business environment in which PCT operates, and the potential risks and uncertainties of intellectual property-related litigation, an assertion of an infringement claim against PCT may cause PCT to spend significant amounts to defend the claim, even if PCT ultimately prevails, pay significant money damages, lose significant revenues, be prohibited from using the relevant systems, processes, technologies or other intellectual property (temporarily or permanently), cease offering certain products or services, or incur significant license, royalty or technology development expenses.

Moreover, it has become common in recent years for individuals and groups to purchase intellectual property assets for the sole purpose of making claims of infringement and attempting to extract settlements from companies such as PCT. Even in instances where PCT believes that claims and allegations of intellectual property infringement against it are without merit, defending against such claims is time consuming and expensive and could result in the diversion of time and attention of PCT's management and employees. In addition, although in some cases a third party may have agreed to indemnify PCT for such costs, such indemnifying party may refuse or be unable to uphold its contractual obligations. In other cases, insurance may not cover potential claims of this type adequately or at all, and PCT may be required to pay monetary damages, which may be significant.

Risks Related to PCT's Production of UPRP

There is no guarantee the Technology is scalable to commercial-scale operation.

The Technology is based upon generally available commercial equipment to process contaminated polypropylene into clean recycled polypropylene product. Certain of the equipment to be utilized in the Phase II Facility has not operated with the same feedstock in a commercial mode. While PCT has constructed the FEU to demonstrate the process using the same or similar equipment (except at a smaller scale) as the commercial-scale Phase II Facility, the FEU does not operate at a commercial-scale. The collective test data was used to design the Phase II Facility equipment for commercial scale and testing under the intended operating conditions and configuration for the commercial-scale operation to verify reproducibility of results including color, melt flow index, moldability (tensile modulus and other measures) and the odor of the final PCT-produced polypropylene product. While that testing indicated that the FEU can generate recycled polypropylene product that on average meets all of its key parameter targets, PCT cannot guarantee these results will be achieved in commercial-scale operation. Further, of the four quality parameters for UPRP, odor is the most difficult to characterize and measure. PCT's goal is to generate product that will significantly reduce the odor of the offtake and be comparable or nearly comparable to virgin polypropylene with respect to level of odor, but PCT cannot guarantee that the Project will be capable of achieving the performance guarantees or meeting the requirements of the currently applicable environmental permits. The Project's failure to achieve the performance guarantees or meet the requirements of the currently applicable environmental permits could impact PCT's business, financial condition, results of operations and prospects if the possible shortfalls versus specification are not effectively remedied per contract.

PCT may not be successful in finding future strategic partners for continuing development of additional offtake and feedstock opportunities.

PCT may seek to develop additional strategic partnerships to increase feedstock supply and offtake amount due to capital costs required to develop the UPRP product or manufacturing constraints. PCT may not be successful in efforts to establish such strategic partnerships or other alternative arrangements for the UPRP product or Technology because PCT's research and development pipeline may be insufficient, PCT's product may be deemed to be at too early of a stage of development for collaborative effort or third parties may not view PCT's product as having the requisite potential to demonstrate commercial success.

If PCT is unable to reach agreements with suitable collaborators on a timely basis, on acceptable terms or at all, PCT may have to curtail the development of UPRP product, reduce or delay the development program, delay potential commercialization, reduce the scope of any sales or marketing activities or increase expenditures and undertake development or commercialization activities at PCT's own expense. If PCT elects to fund development or commercialization activities on its own, PCT may need to obtain additional expertise and additional capital, which may not be available on acceptable terms or at all. If PCT fails to enter into collaborations and does not have sufficient funds or expertise to undertake the necessary development and commercialization activities, PCT may not be able to further develop product candidates and PCT's business, financial condition, results of operations and prospects may be materially and adversely affected.

27

PCT's failure to secure waste polypropylene could have a negative impact on PCT's business, financial condition, results of operations and prospects.

PCT's ability to procure a sufficient quantity and quality of post-industrial and post-consumer resin that contains polypropylene as feedstock is dependent upon certain factors outside of PCT's control including, but not limited to, changes to pricing levels for waste polypropylene, recycled polypropylene and non-recycled polypropylene, shortages in supply, interruptions affecting suppliers (including those due to operational restraints, industrial relations, transportation difficulties, accidents or natural disasters), or the introduction of new laws or regulations that make access to waste polypropylene more difficult or expensive. PCT has entered into four feedstock supply agreements each for a term of three years with automatic one-year renewals for 17 years, and one feedstock supply agreement for a term ending October 31, 2023 (collectively, the "Feedstock Supply Agreements"). The Feedstock Supply Agreements are subject to prior termination by either party upon ninety days' notice prior to expiration of the current term. The Feedstock Supply Agreements provide for a combined guaranteed minimum of 60 MMlb/yr. of feedstock and at PCT's option for a combined maximum of 195 MMlb/yr., and up to a combined 210 MMlb/yr. as an option to be mutually agreed to. The amount of feedstock to be supplied each year by each supplier is determined prior to each year in an Annual Volume Commitment (as defined therein). The feedstock suppliers guarantee that they will not sell to other parties or otherwise dispose of any portion of feedstock up to the Annual Volume Commitment. While there are no penalties stated in the Feedstock Supply Agreements for failure of either party to deliver and/or accept the committed quantity of feedstock, PCT may terminate an agreement by giving notice of nonrenewal as indicated above. While PCT believes it has sourced sufficient feedstock of desirable quality, it cannot guarantee that feedstock suppliers will have sufficient quantities available and at the appropriate specifications in accordance with their respective agreements with PCT. If feedstock is not available to PCT in sufficient quantity and of requisite quality, PCT's business, financial condition, results of operations and prospects could be materially adversely impacted.

28

Because PCT's global expansion requires sourcing feedstock and supplies from around the world, including Europe, changes to international trade agreements, tariffs, import and excise duties, taxes or other governmental rules and regulations could adversely affect PCT's business, financial condition, results of operations and prospects.

PCT's global expansion model will require sourcing feedstock from suppliers around the world. The U.S. federal government or other governmental bodies may propose changes to international trade agreements, tariffs, taxes and other government rules and regulations. If any restrictions or significant increases in costs or tariffs are imposed related to feedstock sourced from Europe, or elsewhere, as a result of amendments to existing trade agreements, and PCT's supply costs consequently increase, PCT may be required to raise UPRP prices, which may result in decreased margins, the loss of customers, and a material adverse effect on PCT's financial results. The extent to which PCT's margins could decrease in response to any future tariffs is uncertain. PCT continues to evaluate the impact of effective trade agreements, as well as other recent changes in foreign trade policy on its supply chain, costs, sales and profitability. PCT is actively working through strategies to mitigate such impact, including reviewing feedstock sourcing options and working with feedstock suppliers. In addition, COVID-19 has resulted in increased travel restrictions and the extended shutdown of certain businesses throughout the world. The impact of COVID-19 on PCT's business is uncertain at this time and will depend on future developments; however, prolonged closures in Europe, and elsewhere, may disrupt the operations of certain feedstock suppliers, which could, in turn, negatively impact PCT's business, financial condition, results of operations and prospects. Any such impact could be material.

Risks Related to the Market for UPRP

The market for UPRP is still in the development phase and the acceptance of UPRP by manufacturers and potential customers is not guaranteed.

The customer approval process for the UPRP product may take longer than expected and certain potential customers may be slow to accept the product produced by PCT or may not accept it at all. PCT has agreed to a strategic partnership term sheet to enter into an offtake agreement with a term of 20 years, whereby PCT guarantees the UPRP product to meet specific criteria for color and opacity. There is no odor specification in the offtake agreements. Any such changes may require modifications to its executed offtake agreements, which provide for a combined guaranteed minimum sale of 63 MMlb/yr of UPRP at PCT's option, and a combined maximum of 138 MMlb/yr. The amount of UPRP to be provided for sale under each agreement is determined prior to each year as an Annual Volume Commitment. PCT must provide samples of the product to each customer so that the customer may determine if the product meets specifications, regulatory and legal requirements, customer's internal policies, and technical, safety, and other qualifications for UPRP use in the customer's products. Upon delivery, the customer will have 30 days to inspect the UPRP and either accept or reject the material. Provided PCT has sufficient feedstock and that the UPRP meets the product specifications and conditions as determined in each offtake agreement, PCT should have sufficient product offtake capacity to accommodate a production rate of 107 MMlb/yr. The inability of PCT to provide, and there is no guarantee that PCT will be able to provide, product of sufficient quantity and quality for sale pursuant to the offtake agreements is likely to materially adversely affect PCT's business, financial condition, results of operations and prospects.

Certain of PCT's offtake agreements are subject to index pricing, and fluctuation in index prices may adversely impact PCT's financial results.

While PCT expects the price of its UPRP to continue to command a premium over the price of virgin resin and not be subject to fluctuations in the price of virgin PP, there is no guarantee of this result. Offtake agreements contain pricing for PCT's products at both fixed prices and Index prices. PCT is using Information Handling Services provided by IHS Market Ltd ("IHS") as it relates to the monthly market movement price mechanism index known as "Global Plastics & Polymers Report, Month-End: Polypropylene (PP)" and "Homopolymer (GP Inj. Mldg.)," with the price description terms of "Contract-market; HC Bulk, Delivered; Ex-Discounts, rebates" (delivered via railcar), based on the lower value listed in "Cts/Lb." Over the last two years the index has been as high as \$0.93 in October 2018 and as low as \$0.54 in April 2020. Should the modeled index price forecasted by IHS be materially lower than the IHS estimate, PCT's business, financial condition, results of operations and prospects may be materially adversely impacted.

Competition could reduce demand for PCT's products or negatively affect PCT's sales mix or price realization. Failure to compete effectively by meeting consumer preferences, developing and marketing innovative solutions, maintaining strong customer service and distribution relationships, and expanding solutions capabilities and reach could adversely affect PCT's business, financial condition, results of operations and prospects.

While PCT expects to produce a unique product in its UPRP, PCT operates in a competitive global market for polypropylene sources — virgin and recycled polypropylene. Competitors or new entrants might develop new products or technologies which compete with PCT and its proprietary Technology. PCT cannot predict changes that might affect its competitiveness or whether existing competitors or new entrants might develop products that reduce demand for PCT's UPRP. The development of new products or technologies which compete with PCT's UPRP may have a material adverse effect on PCT's business, financial condition, results of operations and prospects.

In addition, PCT has granted a sublicense of P&G intellectual property back to P&G under the terms of the License Agreement, with a limited right to sublicense by P&G (the "Grant Back"). Under the Grant Back, for five years after the effective date of the License Agreement, the aggregate tonnage that may be produced under the Grant Back will be capped at a certain level per year worldwide. Beyond year 5, that aggregate annual tonnage will be expanded for each of the six regions worldwide. P&G has agreed that territory under the Grant Back will exclude the start of construction of a plant within a certain radius of the Project for five years from the effective date of the License Agreement. If P&G is able to establish production, either on its own or through a sublicense agreement with another partner, in any territory, P&G production will remain capped within that territory beyond the 5 years. If P&G sublicenses the P&G intellectual property under the Grant Back to other manufacturers, UPRP production and supply could increase, adversely impacting PCT's business, financial condition, results of operations and prospects.

Risks Related to Regulatory Developments

PCT may not be able to meet applicable regulatory requirements for the use of PCT's UPRP in food grade applications, and, even if the requirements are met, complying on an ongoing basis with the numerous regulatory requirements applicable to the UPRP and PCT's facilities will be time-consuming and costly.

The use of UPRP in food grade applications is subject to regulation by the U.S. Food and Drug Administration ("FDA"). The FDA has established certain guidelines for the use of recycled plastics in food packaging, as set forth in the "Guidance for Industry - Use of Recycled Plastics in Food Packaging: Chemistry Considerations (August 2006)". In order for the UPRP to be used in food grade applications, PCT will request one or more Letters of No Objection ("LNO") from the FDA. The process for obtaining an LNO will include FDA evaluation of both the PCT purification process, the Technology, as well as the recycled feedstock resin. As such, PCT may seek multiple LNOs for type of use and for different sources of feedstock. In addition, as needed, individual surrogate challenge testing and migration studies will be conducted to simulate articles in contact with food.

PCT cannot guarantee the receipt of the LNOs and a failure to receive the requested LNOs will have an adverse effect on PCT's business, financial condition, results of operations and prospects.

Furthermore, changes in regulatory requirements, laws and policies, or evolving interpretations of existing regulatory requirements, laws and policies, may result in increased compliance costs, delays, capital expenditures and other financial obligations that could adversely affect PCT's business, financial condition, results of operations and prospects.

PCT expects to encounter regulations in most if not all of the countries in which PCT may seek to expand, and PCT cannot be sure that it will be able to obtain necessary approvals in a timely manner or at all. If PCT's UPRP does not meet applicable regulatory requirements in a particular country or at all, then PCT may face reduced market demand in those countries and PCT's business, financial condition, results of operations and prospects will be adversely affected.

The various regulatory schemes applicable to PCT's UPRP will continue to apply following initial approval. Monitoring regulatory changes and ensuring our ongoing compliance with applicable requirements is time-consuming and may affect our business, financial condition, results of operation and prospects. If PCT fails to comply with such requirements on an ongoing basis, PCT may be subject to fines or other penalties, or may be prevented from selling UPRP, and PCT's business, financial condition, results of operation and prospects may be harmed.

The operation of and construction of the Project is subject to governmental regulation.

Under the loan agreement entered into in connection with PCT's outstanding Revenue Bonds (the "Loan Agreement"), PCT must: (i) not commence construction or operation of the Project prior to receipt of all applicable permits and easements required for the particular phase of construction or operation; (ii) abide by the terms and conditions of all such permits and easements; and (iii) operate the Project at all times in the manner required or permitted by such permits and easements.

PCT has not identified any technical or engineering circumstances that it believes would prevent the issuance of the key permits and approvals required for construction and operation of the Project in the ordinary course consistent with the planned construction of the Project. Delays in or failure to obtain and maintain any required permit or approval, or delay in satisfying or failure to satisfy any condition or requirement or any approval or permit could delay or prevent completion of the Project or result in additional costs or reduced revenues. Federal, state and local statutory and regulatory requirements applicable to construction and operation of the Project are subject to change. No assurance can be given that PCT or any other affected party will be able to comply with such changes. Additional statutory or regulatory requirements may be imposed upon the Project in the future, which might materially increase costs of operation or maintenance.

Legislative, regulatory or judicial developments could affect PCT's business, financial condition, results of operations and prospects.

PCT is subject to extensive air, water and other environmental and workplace safety laws and regulations at the federal and state level. In addition, PCT will be subject to additional regulatory regimes upon expanding to new regions, including foreign regulatory authorities in the European Union ("EU") such as the European Commission, the European Food Safety Authority ("EFSA"), and similar regulatory authorities elsewhere, such as in Asia. Some of these laws require or may require PCT to operate under a

number of environmental permits. These laws, regulations and permits can often require pollution control equipment or operational changes to limit actual or potential impacts to the environment. These laws, regulations and permit conditions may change and become more difficult to comply with. A violation of these laws, regulations or permit conditions could result in substantial fines, damages, criminal sanctions, permit revocations and/or a plant shutdown. Any such action may have a material adverse effect on PCT's business, financial condition, results of operations and prospects.

Risks Related to Human Capital Management

PCT is dependent on management and key personnel, and PCT's business would suffer if it fails to retain its key personnel and attract additional highly skilled employees.

PCT's success is dependent on the specialized skills of its management team and key operating personnel. This may present particular challenges as PCT operates in a highly specialized industry sector, which may make replacement of its management team and key operating personnel difficult. A loss of the managers or key employees, or their failure to satisfactorily perform their responsibilities, could have an adverse effect on PCT's business, financial condition, results of operations and prospects.

PCT's future success will depend on its ability to identify, hire, develop, motivate and retain highly qualified personnel for all areas of its organization, particularly research and development, recycling technology, operations and sales. Trained and experienced personnel are in high demand and may be in short supply. Many of the companies with which PCT competes for experienced employees have greater resources than PCT does and may be able to offer more attractive terms of employment. In addition, PCT invests significant time and expense in training employees, which increases their value to competitors that may seek to recruit them. PCT may not be able to attract, develop and maintain the skilled workforce necessary to operate its business, and labor expenses may increase as a result of a shortage in the supply of qualified personnel, which will negatively impact PCT's business, financial condition, results of operations and prospects.

31

While ROCH and PCT work to complete the Business Combination, management's focus and resources may be diverted from operational matters and other strategic opportunities.

Successful completion of the Business Combination may place a significant burden on management and other internal resources. The diversion of management's attention and any difficulties encountered in the transition process could harm the new Combined Company's business financial condition, results of operations and prospects. In addition, uncertainty about the effect of the Business Combination on PCT's systems, employees, customers, partners, and other third parties, including regulators, may have an adverse effect on the new Combined Company. These uncertainties may impair the new Combined Company's ability to attract, retain and motivate key personnel for a period of time after the completion of the Business Combination.

PCT's management has limited experience in operating a public company.

PCT's executive officers and directors have limited experience in the management of a publicly traded company subject to significant regulatory oversight and the reporting obligations under federal securities laws. PCT's management team may not successfully or effectively manage its transition to a public company following the Merger. Their limited experience in dealing with the increasingly complex laws pertaining to public companies could be a significant disadvantage in that it is likely that an increasing amount of their time may be devoted to these activities which will result in less time being devoted to the management and growth of PCT. It is possible that the Combined Company will be required to expand its employee base and hire additional employees to support its operations as a public company, which will increase its operating costs in future periods.

Risks Related to the Combined Company's Common Stock

An active trading market for the Combined Company's Common Stock may never develop or be sustained, which may make it difficult to sell the shares of the Combined Company's Common Stock you purchase.

An active trading market for the Combined Company's Common Stock may not develop or continue or, if developed, may not be sustained, which would make it difficult for you to sell your shares of the Combined Company's Common Stock at an attractive price (or at all). The market price of the Combined Company's Common Stock may decline below your purchase price, and you may not be able to sell your shares of the Combined Company's Common Stock at or above the price you paid for such shares (or at all).

There can be no assurance that Combined Company's Common Stock will be approved for listing on NASDAQ upon the Closing, or if approved, that the Combined Company will be able to comply with the continued listing standards of NASDAQ.

ROCH's Common Stock is currently listed on NASDAQ. In connection with the Closing, PCT intends to apply to list the ParentCo Common Stock, warrants and units on NASDAQ upon the Closing under the symbol "PCT", "PCTTW" and "PCTTU", respectively. As part of the application process, PCT is required to provide evidence that the Combined Company is able to meet the initial listing requirements of NASDAQ, which are more rigorous than NASDAQ's continued listing requirements and include, among other things, a requirement that the Combined Company have 300 or more unrestricted round lot holders, at least 150 of which hold unrestricted shares with a minimum value of \$2,500, and meet a minimum public float. The Combined Company's ability to meet these listing requirements may depend, in part, on the number of shares of Common Stock that are redeemed in connection with the Business Combination, as the number of redemptions may impact whether the Combined Company has at least 300 unrestricted round lot holders upon the Closing, among other initial listing requirements. The Combined Company's application has not yet been approved, and may not be approved if the Combined Company is unable to provide evidence satisfactory to NASDAQ that the Combined Company will meet these listing requirements.

If the Combined Company's Common Stock is not approved for listing on NASDAQ or, after the Closing, NASDAQ delists the Combined Company's shares from trading on its exchange for failure to meet the listing standards, the Combined Company and its stockholders could face significant material adverse consequences including:

- a limited availability of market quotations for the Combined Company's securities;

32

- reduced liquidity for the Combined Company's securities;
- a determination that the Combined Company's Common Stock is a "penny stock" which will require brokers trading in the Combined Company's Common Stock to adhere to more stringent rules and possibly result in a reduced level of trading activity in the secondary trading market for the Combined Company's securities;
- a limited amount of news and analyst coverage; and
- a decreased ability to issue additional securities or obtain additional financing in the future.

The market price of the Combined Company's common stock is likely to be highly volatile, and you may lose some or all of your investment.

Following the Business Combination, the market price of Combined Company's common stock is likely to be highly volatile and may be subject to wide fluctuations in response to a variety of factors, including the following:

- the impact of COVID-19 pandemic on PCT's business;
- the inability to obtain or maintain the listing of the Combined Company's shares of Common Stock on NASDAQ;
- the inability to recognize the anticipated benefits of the Business Combination, which may be affected by, among other things, competition, PCT's inability to grow and manage growth profitably, and retain its key employees;
- changes in applicable laws or regulations;
- risks relating to the uncertainty of PCT's projected financial information;
- risks related to the organic and inorganic growth of PCT's business and the timing of expected business milestones; and
- the amount of redemption requests made by ROCH's stockholders.

In addition, the stock markets have experienced extreme price and volume fluctuations that have affected and continue to affect the market prices of equity securities of many companies. These fluctuations have often been unrelated or disproportionate to the operating performance of those companies. Broad market and industry factors, as well as general economic, political, regulatory and market conditions, may negatively affect the market price of the Combined Company's Common Stock, regardless of the Combined Company's actual operating performance.

ROCH has the right to elect a certain number of directors to our board of directors.

The terms of the Investor Rights Agreement provide a majority of those stockholders of ROCH party to such agreement (which does not include public stockholders of ROCH) the right to elect two directors to the board of directors of the Combined Company for a period of two years following the Closing Date, provided that in the event a majority of the holders of the Pre-PIPE shares choose to select one of such designees, they are entitled to so choose one until the Pre-PIPE Investors no longer hold 10% or more of the Combined Company's outstanding Common Stock and such stockholders of ROCH are entitled to choose the other. Pursuant to these provisions, ROCH has designated Mr. Fernando Musa to assume a seat on the Combined Company's board of directors upon the consummation of the Business Combination and the holders of the Pre-PIPE Shares have designated Mr. Jeffrey Fieler to assume the other seat as an IRA Designee upon such consummation. As a result of the percentage of the Combined Company Common Stock expected to be represented by parties to the Investor Rights Agreement following the Closing Date, it is unlikely that public stockholders of the Combined Company will have the ability to effectively influence the election of directors during the period these provisions of the Investor Rights Agreement are applicable. While the directors designated pursuant to the Investor Rights Agreement are obligated to act in accordance with their applicable fiduciary duties, their interests may be aligned with the interests of the investors they represent, which may not always coincide with our corporate interests or the interests of our other stockholders.

Volatility in the Combined Company's share price could subject the Combined Company to securities class action litigation.

In the past, securities class action litigation has often been brought against a company following a decline in the market price of its securities. If the Combined Company faces such litigation, it could result in substantial costs and a diversion of management's attention and resources, which could harm its business.

If securities or industry analysts do not publish research or reports about the Combined Company, or publish negative reports, the Combined Company's stock price and trading volume could decline.

The trading market for the Combined Company's common stock will depend, in part, on the research and reports that securities or industry analysts publish about the Combined Company. The Combined Company does not have any control over these analysts. If the Combined Company's financial performance fails to meet analyst estimates or one or more of the analysts who cover the Combined Company downgrade its common stock or change their opinion, the Combined Company's stock price would likely decline. If one or more of these analysts cease coverage of the Combined Company or fail to regularly publish reports on the Combined Company, it could lose visibility in the financial markets, which could cause the Combined Company's stock price or trading volume to decline.

Because the Combined Company does not anticipate paying any cash dividends in the foreseeable future, capital appreciation, if any, would be your sole source of gain.

The Combined Company currently anticipates that it will retain future earnings for the development, operation and expansion of its business and do not anticipate declaring or paying any cash dividends for the foreseeable future. As a result, capital appreciation, if any, of the Combined Company's shares of common stock would be your sole source of gain on an investment in such shares for the foreseeable future.

The exercise of registration rights or sales of a substantial amount of the Combined Company's Common Stock after the Business Combination may adversely affect the market price of the Combined Company's Common Stock.

In connection with the consummation of the Business Combination, the Merger Agreement provides that Roth Capital Partners, LLC ("Roth"), Craig-Hallum Capital Group, LLC ("C-H"), the Combined Company and certain Initial Stockholders and PCT Unitholders (collectively, the "IRA Holders") will enter into an Investor Rights Agreement pursuant to which the Combined Company will be obligated to file a registration statement to register the resale of certain securities of the Combined Company held by the IRA Holders. IRA Holders will have certain demand rights and "piggy-back" registration rights, subject to certain requirements and customary conditions. The Combined Company also has agreed to register the shares of the Combined Company's Common Stock issued in connection with the PIPE prior to the consummation of the Business Combination pursuant to the PIPE Registration Rights Agreement.

In connection with its issuance of Convertible Notes, PCT has entered into a registration rights agreement (the "Magnetar Registration Rights Agreement") with a series of funds affiliated with Magnetar Capital LLC (the "Magnetar Investors"). Pursuant to the Magnetar Registration Rights Agreement, PCT, ROCH, or an affiliate thereof is required to file a registration statement to register the resale of the Common Stock (as defined therein) held by the Magnetar Investors upon conversion of the Convertible Notes no later than 60 days following the consummation of the Business Combination, and is required to have such registration statement declared effective by a certain period of time or pay liquidated damages. The Magnetar Investors also have certain demand rights, subject to certain requirements and customary conditions.

The aggregate number of shares of Combined Company's Common Stock that will be entitled to registration under the Investor Rights Agreement (based on the minimum number of PCT Unitholders required to enter into the Investor Rights Agreement to satisfy a closing condition from the Merger Agreement to the Business Combination), the PIPE Registration Rights Agreement and the Magnetar Registration Rights Agreement is approximately 94,294,290. The registration and availability of such a significant number of securities for trading in the public market may have an adverse effect on the market price of the Combined Company's Common Stock. See "*Shares Eligible for Future Sale.*"

Future offerings of debt or offerings or issuances of equity securities by the Combined Company may adversely affect the market price of the Combined Company's Common Stock or otherwise dilute all other stockholders.

In the future, the Combined Company may attempt to obtain financing or to further increase the Combined Company's capital resources by issuing additional shares of the Combined Company's Common Stock or offering debt or other equity securities, including commercial paper, medium-term notes, senior or subordinated notes, debt securities convertible into equity or shares of preferred stock. The Combined Company also expects to grant equity awards to employees, directors, and consultants under the Combined Company's stock incentive plans. Future acquisitions could require substantial additional capital in excess of cash from operations. The Combined Company would expect to obtain the capital required for acquisitions through a combination of additional issuances of equity, corporate indebtedness and/or cash from operations.

Issuing additional shares of the Combined Company's Common Stock or other equity securities or securities convertible into equity may dilute the economic and voting rights of the Combined Company's existing stockholders or reduce the market price of the Combined Company's Common Stock or both. Upon liquidation, holders of such debt securities and preferred shares, if issued, and lenders with respect to other borrowings would receive a distribution of the Combined Company's available assets prior to the holders of the Combined Company's Common Stock. Debt securities convertible into equity could be subject to adjustments in the conversion ratio pursuant to which certain events may increase the number of equity securities issuable upon conversion. Preferred shares, if issued, could have a preference with respect to liquidating distributions or a preference with respect to dividend payments that could limit the Combined Company's ability to pay dividends to the holders of the Combined Company's Common Stock. The Combined Company's decision to issue securities in any future offering will depend on market conditions and other factors beyond the Combined Company's control, which may adversely affect the amount, timing and nature of the Combined Company's future offerings.

Certain provisions of the Amended and Restated Certificate of Incorporation and the Amended and Restated Bylaws (both as defined in "Description of Securities to be Registered") could hinder, delay or prevent a change in control of the Combined Company, which could adversely affect the price of the Combined Company's Common Stock.

Certain provisions of the Amended and Restated Certificate of Incorporation and the Amended and Restated Bylaws could make it more difficult for a third party to acquire the Combined Company without the consent of the Combined Company's board of directors. These provisions include:

- authorizing the issuance of undesignated preferred stock, the terms of which may be established and the shares of which may be issued without stockholder approval, and which may include super voting, special approval, dividend, or other rights or preferences superior to the rights of the holders of the Combined Company's Common Stock;
- prohibiting stockholder action by written consent, requiring all stockholder actions be taken at a meeting of our stockholders;
- providing that the board of directors is expressly authorized to make, alter or repeal the Amended and Restated Bylaws;
- until the fifth anniversary of the effectiveness of the Amended and Restated Certificate of Incorporation, providing that directors may be removed only for cause and then only by the affirmative vote of the holders of a majority of the voting power of the outstanding shares then entitled to vote in an election of directors, voting together as a single class;
- providing that vacancies on the Combined Company's board of directors, including newly-created directorships, may be filled only by a majority vote of directors then in office;
- prohibiting stockholders from calling special meetings of stockholders;
- until the fifth anniversary of the effectiveness of the Amended and Restated Certificate of Incorporation, requiring the affirmative vote of the holders of at least 66 2/3% in voting power of the outstanding shares then entitled to vote in an election of directors, voting together as a single class, to amend certain provisions of the Amended and Restated Bylaws and certain provisions of the Amended and Restated Certificate of Incorporation;
- establishing advance notice requirements for nominations for elections to the board of directors or for proposing matters that can be acted upon by stockholders at stockholder meetings; and
- establishing a classified board of directors until the fifth anniversary of the effectiveness of the Amended and Restated Certificate of Incorporation, as a result of which the Combined Company's board of directors will be divided into three classes, with each class serving for staggered three-year terms, which prevents stockholders from electing an entirely new board of directors at an annual meeting.

In addition, these provisions may make it difficult and expensive for a third party to pursue a tender offer, change in control or takeover attempt that is opposed by the Combined Company's management or our board of directors. Stockholders who might desire to participate in these types of transactions may not have an opportunity to do so, even if the transaction is favorable to them. These anti-takeover provisions could substantially impede your ability to benefit from a change in control or change the Combined Company's management and board of directors and, as a result, may adversely affect the market price of the Combined Company's Common Stock and your ability to realize any potential change of control premium. See "*Description of Securities to be Registered — Anti-Takeover Effects of the Combined Company's Amended and Restated Certificate of Incorporation and Amended and Restated Bylaws and Certain Provisions of Delaware Law.*"

General Risk Factors

Each of ROCH and PCT have incurred and will incur substantial costs in connection with the Business Combination and related transactions, such as legal, accounting, consulting and financial advisory fees.

As part of the Business Combination, each of ROCH and PCT are utilizing professional service firms for legal, accounting and financial advisory services. Although the parties have been provided with estimates of the costs for each advisory firm, the total actual costs may exceed those estimates. In addition, the companies are retaining consulting services to assist in the integration of the businesses, including but not limited to organizational decisions, Combined Company business process design, cultural integration and go-to-market integration. These consulting services may extend beyond the current estimated time frame thus resulting in higher than expected costs.

The Combined Company may be unable to obtain additional financing to fund the operations and growth of the business following the consummation of the Business Combination.

The Combined Company may require additional financing to fund its operations or growth following the consummation of the Business Combination. The failure to secure additional financing could have a material adverse effect on the continued development or growth of the Combined Company. Such financings may result in dilution to stockholders, issuance of securities with priority as to liquidation and dividend and other rights more favorable than common stock, imposition of debt covenants and repayment obligations, or other restrictions that may adversely affect its business. In addition, the Combined Company may seek additional capital due to favorable market conditions or strategic considerations even if it believes that it has sufficient funds for current or future operating plans. There can be no assurance that financing will be available to the Combined Company on favorable terms, or at all. The inability to obtain financing when needed may make it more difficult for the Combined Company to operate its business or implement its growth plans.

The Combined Company will be an emerging growth company, and the Combined Company cannot be certain if the reduced reporting requirements applicable to emerging growth companies will make its shares less attractive to investors.

After the completion of the Business Combination, the Combined Company will be an emerging growth company, as defined in the JOBS Act. For as long as the Combined Company continues to be an emerging growth company, it may take advantage of exemptions from various reporting requirements that are applicable to other public companies that are not “emerging growth companies,” including exemption from compliance with the auditor attestation requirements of Section 404, reduced disclosure obligations regarding executive compensation and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. The Combined Company will remain an emerging growth company until the earlier of (1) the date (a) May 7, 2025, (b) in which the Combined Company has total annual gross revenue of at least \$1.07 billion or (c) in which the Combined Company is deemed to be a large accelerated filer, which means the market value of shares of the Combined Company’s common stock that are held by non-affiliates exceeds \$700 million as of the prior June 30th, and (2) the date on which the Combined Company has issued more than \$1.0 billion in non-convertible debt during the prior three-year period.

In addition, under the JOBS Act, emerging growth companies can delay adopting new or revised accounting standards until such time as those standards apply to private companies. The Combined Company has irrevocably elected not to avail itself of this exemption from new or revised accounting standards and, therefore, the Combined Company will be subject to the same new or revised accounting standards as other public companies that are not emerging growth companies.

Even after the Combined Company no longer qualifies as an emerging growth company, it may still qualify as a “smaller reporting company,” which would allow it to take advantage of many of the same exemptions from disclosure requirements including exemption from compliance with the auditor attestation requirements of Section 404 and reduced disclosure obligations regarding executive compensation in this prospectus and the Combined Company’s periodic reports and proxy statements.

The Combined Company cannot predict if investors will find its common stock less attractive because the Combined Company may rely on these exemptions. If some investors find the Combined Company’s common stock less attractive as a result, there may be a less active trading market for the common stock and its market price may be more volatile.

PCT identified certain material weaknesses in its internal control over financial reporting. If PCT is unable to remediate these material weaknesses, or if PCT identifies additional material weaknesses in the future or otherwise fails to maintain an effective system of internal controls, PCT may not be able to accurately or timely report its financial condition or results of operations, which may adversely affect PCT’s business and stock price.

In connection with the preparation and audit of PCT’s consolidated financial statements for the years ended December 31, 2020, 2019 and 2018 and the balance sheet data as of December 31, 2020, 2019 and 2018, certain material weaknesses were identified in PCT’s internal control over financial reporting. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of PCT’s interim or annual consolidated financial statements will not be prevented or detected on a timely basis. The material weaknesses were as follows:

- PCT did not have sufficient, qualified personnel to determine the appropriate accounting treatment for its complex agreements or transactions that required technical accounting analysis;
- PCT’s lack of sufficient personnel also resulted in inadequate segregation of duties in the design and operation of the internal controls over financial reporting;
- PCT’s lack of formal processes and controls resulted in an ineffective control environment, which led to an inadequate review of the financial statements and financial reporting;
- PCT did not design and maintain effective controls over certain information technology (“IT”) controls for information systems that are relevant to the preparation of its financial statements, specifically with respect to user access, to ensure appropriate segregation of duties that adequately restrict user access to financial applications, programs, and data to appropriate company personnel; and
- PCT did not design and maintain effective controls surrounding the completeness and cutoff of expenses and payables, such that certain expenses paid by a related entity on behalf of PCT were not appropriately allocated to PCT, and certain transactions were recorded in the period when the invoice was received rather than accrued in the period when the activity took place.

These material weaknesses could result in a misstatement of substantially all of PCT’s accounts or disclosures, which would result in a material misstatement to the interim or annual consolidated financial statements that would not be prevented or detected. PCT has begun implementation of a plan to remediate the material weaknesses described above. Those remediation measures are ongoing and include the following:

- Previously, there were two accounting employees; both were part time, and one of which was an accounts payable clerk. PCT management is increasing staffing and has brought in outside technical accounting resources. PCT has since hired a CFO, a Vice President of Finance, a Corporate Controller, a Plant Controller and an AP/AR Analyst and will continue to build a qualified accounting and finance team. PCT has also engaged a public accounting firm to assist with financial reporting and advise on technical accounting issues;
- PCT is evaluating its IT systems user access and developing formal policies; and
- PCT is establishing a process to maintain checklists tracking related entity payments as part of its monthly close processes and is instituting policies to strengthen its receipt and processing of purchase orders to monitor accrual determinations. Furthermore, payment for almost all PCT expenses has been moved to PCT, with only a limited number of expenses paid by a related entity for situations where there is a shared contract.

PCT plans to continue to assess its internal controls and procedures and intends to take further action as necessary or appropriate to address any other matters it identifies or are brought to its attention. PCT cannot assure you that the measures it has taken to date and may take in the future will be sufficient to remediate the control deficiencies that led to PCT’s material weaknesses in internal control over financial reporting or that PCT will prevent or avoid potential future material weaknesses. The effectiveness of PCT’s internal control over financial reporting is subject to various inherent limitations, including cost limitations, judgments used in decision making, assumptions about the likelihood of future events, the possibility of human error and the risk of fraud. If PCT is unable to remediate the material weaknesses, its ability to record, process and report financial information accurately, and to prepare financial statements within the time periods specified by the forms of the SEC, could be adversely affected which, in turn, may adversely affect PCT’s reputation and business and the market price of the Combined Company’s Common Stock.

In addition, any such failures could result in litigation or regulatory actions by the SEC or other regulatory authorities, loss of investor confidence, delisting of the Combined Company's securities and harm to the Combined Company's reputation and financial condition, or diversion of financial and management resources from the operation of PCT's business.

Following the consummation of the Business Combination, the Combined Company will incur significant increased expenses and administrative burdens as a public company, which could have an adverse effect on its business, financial condition and results of operations.

Following the consummation of the Business Combination, the Combined Company will face increased legal, accounting, administrative and other costs and expenses as a public company that PCT does not incur as a private company. The Sarbanes-Oxley Act of 2002 (the "Sarbanes-Oxley Act"), including the requirements of Section 404, as well as rules and regulations subsequently implemented by the SEC, the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 and the rules and regulations promulgated and to be promulgated thereunder, the Public Company Accounting Oversight Board (United States) and the securities exchanges, impose additional reporting and other obligations on public companies. Compliance with public company requirements will increase costs and make certain activities more time-consuming. A number of those requirements will require the Combined Company to carry out activities PCT has not done previously. For example, the Combined Company will create new board committees and adopt new internal controls and disclosure controls and procedures. In addition, additional expenses associated with SEC reporting requirements will be incurred. Furthermore, if any issues in complying with those requirements are identified (for example, if the auditors identify material weaknesses in addition to those disclosed herein or a significant deficiency in the internal control over financial reporting), the Combined Company could incur additional costs rectifying those issues, and the existence of those issues could adversely affect the Combined Company's reputation or investor perceptions of it. It may also be more expensive to obtain director and officer liability insurance in such a situation. Risks associated with the Combined Company's status as a public company may make it more difficult to attract and retain qualified persons to serve on the board of directors or as executive officers. The additional reporting and other obligations imposed by these rules and regulations will increase legal and financial compliance costs and the costs of related legal, accounting and administrative activities. These increased costs will require the Combined Company to divert a significant amount of money that could otherwise be used to expand the business and achieve strategic objectives. Advocacy efforts by stockholders and third parties may also prompt additional changes in governance and reporting requirements, which could further increase costs.

The Combined Company's failure to timely and effectively implement controls and procedures required by Section 404(a) of the Sarbanes-Oxley Act that will be applicable to it after the Business Combination is consummated could negatively impact its business.

PCT is currently not subject to Section 404 of the Sarbanes-Oxley Act. However, following the consummation of the Business Combination, the Combined Company will be required to provide management's attestation on internal controls. The standards required for a public company under Section 404(a) of the Sarbanes-Oxley Act are significantly more stringent than those required of PCT as a privately held company. Management may not be able to effectively and timely implement controls and procedures that adequately respond to the increased regulatory compliance and reporting requirements that will be applicable after the Business Combination. If the Combined Company is not able to implement the additional requirements of Section 404(a) in a timely manner or with adequate compliance, it may not be able to assess whether its internal controls over financial reporting are effective, which may subject it to adverse regulatory consequences and could harm investor confidence and the market price of its securities.

USE OF PROCEEDS

We will not receive any proceeds from the sale of the ParentCo Common Stock by the Selling Stockholders.

UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL INFORMATION

Defined terms included below shall have the same meaning as terms defined and included elsewhere in this prospectus.

Introduction

ParentCo is providing the following unaudited pro forma condensed combined financial information to aid you in your analysis of the financial aspects of the Business Combination.

ROCH is a special purpose acquisition company whose purpose is to acquire, through a merger, share exchange, asset acquisition, stock purchase, reorganization or other similar business combination with one or more businesses. ROCH was incorporated in Delaware on February 13, 2019, as Roth CH Acquisition I Co. On May 4, 2020, ROCH consummated its IPO. The IPO, of 7,500,000 of its Units consisting of Common Stock and Warrants, generated gross proceeds to ROCH of \$75.0 million. Simultaneously with the consummation of the IPO, ROCH completed the private sale of 262,500 Private Units (consisting of Private Shares and related Private Warrants) at a purchase price of \$10.00 per unit to its Initial Stockholders generating gross proceeds of \$2.6 million. Each Private Unit consists of one share of ParentCo Common Stock and three quarters of a warrant to purchase shares of ParentCo Common Stock at an exercise price of \$11.50. Following the closing of the IPO on May 7, 2020, an amount of \$75.0 million (\$10.00 per Unit) from the net proceeds of the sale of the Units in the IPO and the sale of the Private Units was placed in a Trust Account which will be invested only in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act of 1940, with a maturity of 180 days or less or in a money market fund meeting the conditions of Rule 2a-7 of the Investment Company Act. On May 26, 2020, in connection with the underwriters' election to partially exercise their over-allotment option, ROCH sold an additional 150,000 Units at a purchase price of \$10.00 per Unit, generating gross proceeds of \$1.5 million. In addition, in connection with the underwriters' partial exercise of their over-allotment option, ROCH also consummated the sale of an additional 3,000 Private Units at a purchase price of \$10.00 per Private Unit, generating gross proceeds of \$30,000. Following such closing, an additional \$1.5 million was deposited into the Trust Account, resulting in \$76.5 million being held in the Trust Account. ROCH has 18 months from the closing of the IPO (by November 7, 2021) to complete an initial business combination.

PCT and its wholly owned subsidiaries, Purecycle: Ohio LLC, PCT Managed Services LLC and PCO Holdco LLC, are businesses whose planned principal operations are to conduct business as a plastics recycler using a patented recycling process. Developed and licensed by P&G (as defined herein), the patented recycling process separates color, odor and other contaminants from plastic waste feedstock to transform it into virgin-like resin, referred to as ultra-pure recycled polypropylene ("UPRP"). PCT is currently constructing its Phase II Facility and conducting research and development activities to operationalize the Technology.

The unaudited pro forma condensed combined balance sheet as of December 31, 2020 combines the historical balance sheet of ROCH and the historical balance sheet of PCT

on a pro forma basis as if the Business Combination and the related transactions contemplated by the Merger Agreement, summarized below, had been consummated on December 31, 2020. The unaudited pro forma condensed combined statement of operations for the year ended December 31, 2020, combine the historical statements of operations of ROCH and PCT for such periods on a pro forma basis as if the Business Combination and related Transactions, summarized below, had been consummated on January 1, 2020, the beginning of the earliest period presented. The related transactions contemplated by the Merger Agreement that are given pro forma effect include:

- Transaction accounting adjustments represent adjustments that are expected to occur in connection with the Closing of the Business Combination, including the following:

40

- The reverse recapitalization between Merger Sub and PCT; and
- The net proceeds from the issuance of ParentCo Common Stock in the PIPE.

The pro forma condensed combined financial information may not be useful in predicting the future financial condition and results of operations of the Combined Company. The actual financial position and results of operations may differ significantly from the pro forma amounts reflected herein due to a variety of factors.

The historical financial information of ROCH was derived from the audited financial statements of ROCH as of and for the year ended December 31, 2020, which are included elsewhere in this prospectus. The historical financial information of PCT was derived from the audited consolidated financial statements of PCT as of and for the year ended December 31, 2020, which are included elsewhere in this prospectus. This information should be read together with ROCH's and PCT's audited financial statements and related notes, the section titled "Management's Discussion and Analysis of Financial Condition and Results of Operations" and other financial information included elsewhere in this prospectus.

The Business Combination will be accounted for as a reverse recapitalization, in accordance with U.S. GAAP. Under this method of accounting, ROCH will be treated as the "acquired" company for financial reporting purposes. Accordingly, the Business Combination will be treated as the equivalent of PCT issuing stock for the net assets of ROCH, accompanied by a recapitalization. The net assets of ROCH will be stated at historical cost, with no goodwill or other intangible assets recorded. Operations prior to the Business Combination will be those of PCT.

PCT has been determined to be the accounting acquirer based on evaluation of the following facts and circumstances:

- PCT will have the largest single voting interest block in the Combined Company;
- PCT will have the ability to nominate the majority of the members of the board of directors following the closing;
- PCT will hold executive management roles for the post-combination company and be responsible for the day-to-day operations;
- The Combined Company will assume PCT's name; and
- The intended strategy of the Combined Company will continue PCT's current strategy of being a leader in plastics recycling.

As of the Closing Date of the Business Combination, ROCH received redemption requests from the holders of an aggregate of 5,100 shares of Common Stock.

41

Description of the Business Combination

The aggregate consideration for the Business Combination will be \$1,156.9 million, payable in the form of shares of the ParentCo Common Stock and assumed indebtedness.

The following summarizes the purchase consideration:

Total shares transferred*	83,500,000
Value per share	\$ 10.00
Total Share Consideration	\$ 835,000,000
Assumed indebtedness	
Revenue Bonds	249,600,000
The Convertible Notes	60,000,000
Term Loan	313,500
Related Party Promissory Note**	12,000,000
Total merger consideration	\$ 1,156,913,500

*Amount excludes the issuance of 4.0 million earnout shares to certain shareholders of PCT as a result of the Combined Company satisfying the performance and operational targets subsequent to the closing of the Business Combination.

**Related party promissory note was repaid prior to the closing of the Business Combination.

42

The following summarizes the pro forma ParentCo Common Stock outstanding (in thousands):

	Shares Outstanding	%
PCT Shareholders	83,500	70.6%

Total PCT Inc Merger Shares	83,500	70.6%
ROCH Public Shares	7,640	6.5%
ROCH Founder and Private Shares	2,183	1.8%
Total ROCH Shares	9,823	8.3%
PIPE investors	25,000	21.1%
Pro Forma ParentCo Common Stock at December 31, 2020	118,323	100.0%

The outstanding shares exclude PCT's outstanding warrants, options, and unvested Class C Units. Pursuant to the Merger Agreement, 143,619 outstanding warrants will be canceled, and such agreement terminated pursuant to the issuance of conditional replacement warrants by ParentCo. The 143,092 outstanding unvested Class C Units will be ParentCo's restricted shares, subject to the same vesting schedule and forfeiture restrictions as the unvested PCT Class C Units.

The following unaudited pro forma condensed combined balance sheet as of December 31, 2020 and the unaudited pro forma condensed combined statement of operations for the year ended December 31, 2020 are based on the historical financial statements of ROCH and PCT. The unaudited pro forma adjustments are based on information currently available, and assumptions and estimates underlying the unaudited pro forma adjustments are described in the accompanying notes. Actual results may differ materially from the assumptions used to present the accompanying unaudited pro forma condensed combined financial information.

NOTES TO UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL INFORMATION

1. Basis of Presentation

The Business Combination will be accounted for as a reverse recapitalization in accordance with U.S. GAAP. Under this method of accounting, ROCH will be treated as the "acquired" company for financial reporting purposes. Accordingly, the Business Combination will be treated as the equivalent of PCT issuing stock for the net assets of ROCH, accompanied by a recapitalization. The net assets of ROCH will be stated at historical cost, with no goodwill or other intangible assets recorded. Operations prior to the Business Combination will be those of PCT.

The unaudited pro forma condensed combined balance sheet as of December 31, 2020 assumes that the Business Combination occurred on December 31, 2020. The unaudited pro forma condensed combined statement of operations for the year ended December 31, 2020 gives pro forma effect to the Business Combination as if it had been completed on January 1, 2020. These periods are presented on the basis of PCT as the accounting acquirer.

The unaudited pro forma condensed combined balance sheet as of December 31, 2020 has been prepared using, and should be read in conjunction with, the following:

- ROCH's audited balance sheet as of December 31, 2020 and the related notes for the period ended December 31, 2020, included elsewhere in this prospectus; and
- PCT's audited consolidated balance sheet as of December 31, 2020 and the related notes for the period ended December 31, 2020, included elsewhere in this prospectus.

The unaudited pro forma condensed combined statement of operations for the year ended December 31, 2020 has been prepared using, and should be read in conjunction with, the following:

- ROCH's audited statement of operations for the year ended December 31, 2020 and the related notes, included elsewhere in this prospectus; and
- PCT's audited consolidated statement of operations for the year ended December 31, 2020 and the related notes, included elsewhere in this prospectus.

Management has made significant estimates and assumptions in its determination of the pro forma adjustments. As the unaudited pro forma condensed combined financial information has been prepared based on these preliminary estimates, the final amounts recorded may differ materially from the information presented.

The unaudited pro forma condensed combined financial information does not give effect to any anticipated synergies, operating efficiencies, tax savings, or cost savings that may be associated with the Business Combination.

The pro forma adjustments reflecting the consummation of the Business Combination are based on certain currently available information and certain assumptions and methodologies that ROCH believes are reasonable under the circumstances. The unaudited condensed combined pro forma adjustments, which are described in the accompanying notes, may be revised as additional information becomes available and is evaluated. Therefore, it is likely that the actual adjustments will differ from the pro forma adjustments and it is possible the difference may be material. ROCH believes that its assumptions and methodologies provide a reasonable basis for presenting all of the significant effects of the Business Combination based on information available to management at this time and that the pro forma adjustments give appropriate effect to those assumptions and are properly applied in the unaudited pro forma condensed combined financial information.

The unaudited pro forma condensed combined financial information is not necessarily indicative of what the actual results of operations and financial position would have been had the Business Combination taken place on the dates indicated, nor are they indicative of the future consolidated results of operations or financial position of the Combined Company. The unaudited pro forma condensed combined financial information should be read in conjunction with the historical financial statements and notes thereto of ROCH and PCT.

2. Accounting Policies

Upon consummation of the Business Combination, the Combined Company will perform a comprehensive review of the two entities' accounting policies. As a result of the review, management may identify differences between the accounting policies of the two entities which, when conformed, could have a material impact on the financial statements of the Combined Company. ROCH's historical Accounts payable and accrued expenses of \$0.01 million was reclassified as Accrued expense to conform to PCT's balance sheet presentation.

3. Adjustments to Unaudited Pro Forma Condensed Combined Financial Information

The unaudited pro forma condensed combined financial information has been prepared to illustrate the effect of the Business Combination and has been prepared for informational purposes only.

The following unaudited pro forma condensed combined financial information has been prepared in accordance with Article 11 of Regulation S-X as amended by the final rule, Release No. 33-10786 "Amendments to Financial Disclosures about Acquired and Disposed Businesses." Release No. 33-10786 replaces the existing pro forma adjustment criteria with simplified requirements to depict the accounting for the transaction ("Transaction Accounting Adjustments") and present the reasonably estimable synergies and other transaction effects that have occurred or are reasonably expected to occur ("Management's Adjustments"). ParentCo has elected not to present Management's Adjustments and will only be presenting Transaction Accounting Adjustments in the following unaudited pro forma condensed combined financial information.

The pro forma condensed combined financial information does not include an income tax adjustment. Upon closing of the Business Combination, it is likely that the Combined Company will record a valuation allowance against the full value of U.S. and state deferred tax assets since the recoverability of the tax assets is uncertain. The pro forma combined provision for income taxes does not necessarily reflect the amounts that would have resulted had the Combined Company filed consolidated income tax returns during the periods presented.

The pro forma basic and diluted loss per share amounts presented in the unaudited pro forma condensed combined statements of operations are based upon the number of the Combined Company's shares outstanding, assuming the Business Combination occurred on January 1, 2020.

Adjustments to Unaudited Pro Forma Condensed Combined Balance Sheet

The adjustments included in the unaudited pro forma condensed combined balance sheet as of December 31, 2020 are as follows:

- (A) Reflects the reclassification of \$76.5 million of marketable securities held in the Trust Account at the balance sheet date that becomes available to fund the Business Combination.
- (B) Represents the net proceeds from the private placement of 25.0 million shares of common stock at \$10.00 per share pursuant to the PIPE Investment.
- (C) Reflects the settlement of \$2.7 million of deferred underwriters' fees. The fees are expected to be paid at the close of the Business Combination.
- (D) Represents preliminary estimated transaction costs of \$33.6 million, in addition to the \$2.7 million of deferred underwriting fees noted above, inclusive of advisory, banking, printing, legal and accounting fees that are expensed as a part of the Business Combination and equity issuance costs that are capitalized into additional paid-in capital. The unaudited pro forma condensed combined balance sheet reflects these costs as a reduction of cash of \$29.1 million as \$4.4 million has been paid as of December 31, 2020. \$1.9 million was accrued as of December 31, 2020. Equity issuance costs of \$25.4 million are offset to additional paid-in capital and the remaining balance is expensed through accumulated deficits.
- (E) Represents the actual redemption of 5,100 shares of the Company's Common Stock at \$10.00 per share.
- (F) Reflects the reclassification of approximately \$68.4 million of common stock subject to possible redemption to permanent equity.
- (G) Represents recapitalization of PCT's Units and the issuance of 83.5 million shares of ParentCo Common Stock to PCT Unitholders as consideration for the reverse recapitalization, less shares reserved for 143,619 PCT outstanding warrants that were canceled pursuant to the issuance of conditional replacement warrants by ParentCo and 143,092 PCT outstanding unvested Class C Units that will become ParentCo's restricted shares, subject to the same vesting schedule and forfeiture restrictions as the unvested PCT Class C Units.

- (H) Reflects the reclassification of ROCH's historical accumulated deficit.

Adjustments to Unaudited Pro Forma Condensed Combined Statements of Operations

The pro forma adjustments included in the unaudited pro forma condensed combined statement of operations for the year ended December 31, 2020, respectively are as follows:

- (AA) Reflects elimination of historical interest expense on the promissory notes repaid during the period to arrive at Assumed Indebtedness for the Business Combination.

(BB) Reflects the total estimated transaction costs in the unaudited pro forma condensed combined statement of operations for the year ended December 31, 2020. Transaction costs are reflected as if incurred on January 1, 2020, the date the Business Combination occurred for the purposes of the unaudited pro forma condensed combined statement of operations. This is a non-recurring item.

(CC) Reflects elimination of investment income and unrealized loss on the Trust Account.

4. Loss per Share

Represents the net loss per share calculated using the historical weighted average shares outstanding, and the issuance of additional shares in connection with the Business Combination, assuming the shares were outstanding since January 1, 2020. As the Business Combination and related equity transactions are being reflected as if they had occurred at the beginning of the periods presented, the calculation of weighted average shares outstanding for basic and diluted net income (loss) per share assumes that the shares issuable relating to the Business Combination have been outstanding for the entirety of all periods presented.

(in thousands, except per share data)

	For the Year Ended December 31, 2020
Pro forma net loss	\$ (59,162)
Weighted average shares outstanding of common stock	118,322,900
Net loss per share (Basic and Diluted) attributable to common stockholders ⁽¹⁾	\$ (0.50)

(1) As PCT had a net loss on a pro forma combined basis, the outstanding warrants and unvested Class C Units had no impact to diluted net loss per share as they are considered anti-dilutive.

MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis provides information which PCT's management believes is relevant to an assessment and understanding of PCT's consolidated results of operations and financial condition. The discussion should be read together with "Selected Historical Consolidated Financial Information" and the audited annual consolidated financial statements, together with related notes thereto, included elsewhere in this prospectus. The discussion and analysis should also be read together with our unaudited pro forma condensed combined financial information as of December 31, 2020 and for the year ended December 31, 2020 (in the section of this prospectus entitled "Unaudited Pro Forma Condensed Combined Financial Information." This discussion may contain forward-looking statements based upon current expectations that involve risks, uncertainties, and assumptions. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of various factors, including those set forth under "Risk Factors" or in other parts of this prospectus. Unless the context otherwise requires, references in this "PCT Management's Discussion and Analysis of Financial Condition and Results of Operations" to "we", "us", "our", and "the Company" are intended to mean the business and operations of PCT and its consolidated subsidiaries.

Overview

PCT is commercializing a patented purification recycling technology (the “Technology”), originally developed by The Procter & Gamble Company (“P&G”), for restoring waste polypropylene into resin with near-virgin characteristics. We call this resin ultra-pure recycled polypropylene (“UPRP”), which has nearly identical properties and applicability for reuse as virgin polypropylene. PCT has a global license for the technology from P&G. We intend to build our first commercial-scale plant in Ironton, Ohio, which is expected to have nameplate capacity of approximately 107 million pounds/year when fully operational. Production is expected to commence in late 2022 and the plant is expected to be fully operational in 2023. We have secured and contracted all of the feedstock and offtake for this initial plant. Our goal is to create an important new segment of the global polypropylene market that will assist multinational entities in meeting their sustainability goals, provide consumers with polypropylene-based products that are sustainable, and reduce overall polypropylene waste in the world’s landfills and oceans.

PCT intends to build new recycling production facilities globally, with the goal of having approximately 30 commercial lines operational by 2030 and approximately 50 by 2035. In addition to our first plant in Ironton, Ohio, we currently expect the next plants to be located in the United States, followed by Europe. Additional expansion in the United States is expected to include a scaled up “cluster” site model. Pre-engineering for the design and installation of multiple commercial lines in a single cluster site is currently underway and is expected to create efficiencies across the construction and permitting processes, as well as reduce average capital expenditures per plant and reduce overall operating costs. From this next wave of expansion, PCT expects to produce approximately 1 billion pounds of annual recycled polypropylene by the end of 2024, which is less than 1% of the total annual projected demand for virgin and virgin parity resin.

PCT is regarded as a leader in polypropylene recycling and polymers sustainability. The Company's Feedstock Evaluation Unit (“FEU”), which has been operational since July of 2019, is a smaller scale replica of the commercial line currently under construction. The FEU was designed to simulate commercial production and validate for PCT’s customers and suppliers the viability of our process, which has helped PCT secure 20+ year signed offtake agreements and supply agreements with blue chip partners and industry players. Since its commissioning, the FEU has successfully processed more than 145 feedstocks from the US and Europe and produced recycled polypropylene nearly identical to virgin polypropylene.

The Technology has been evaluated by third parties with a focus on the Technology's efficacy and commercial scalability. Certain of our strategic partners have conducted testing on PCT's UPRP. In these evaluations, PCT's UPRP compared favorably to virgin polypropylene in common Food & Beverage industry benchmarks for melt flow and mechanical properties, purity, and function (lift decay, hinge break, and impact resistance). Additionally, we have received recognition from multiple media outlets and plastics industry groups including Time Magazine, the American Chemistry Council, and the Plastics Industry Association.

The Business Combination

On November 16, 2020, ROCH, ParentCo, Merger Sub LLC, Merger Sub Corp and PCT entered into the Merger Agreement pursuant to which the Business Combination was consummated. The consideration payable to PCT Unitholders in connection with the Business Combination consists of a combination of shares of ParentCo and the assumption of all PCT indebtedness. The Business Combination estimates a \$835.0 million pre-money valuation, and includes \$250.0 million of proceeds from the PIPE Investment. PCT will be deemed the accounting predecessor and the combined entity will be the successor registrant with the SEC, meaning that PCT’s consolidated financial statements for previous periods will be disclosed in ParentCo’s future periodic reports filed with the SEC.

While the legal acquirer in the Business Combination Agreement is ParentCo, for financial accounting and reporting purposes under GAAP, PCT will be the accounting acquirer and the Business Combination will be accounted for as a “reverse recapitalization.” A reverse recapitalization does not result in a new basis of accounting, and the consolidated financial statements of the combined entity represent the continuation of the consolidated financial statements of PCT in many respects. Under this method of accounting, ROCH will be treated as the “acquired” company for financial reporting purposes. For accounting purposes, PCT will be deemed to be the accounting acquirer in the transaction and, consequently, the transaction will be treated as a recapitalization of PCT. Accordingly, the consolidated assets, liabilities and results of operations of PCT will become the historical consolidated financial statements of the ParentCo, and ROCH’s assets, liabilities and results of operations will be consolidated with PCT beginning on the acquisition date. Operations prior to the Business Combination will be presented as those of the ParentCo in future reports. The net assets of ROCH will be recognized at historical cost (which is expected to be consistent with carrying value), with no goodwill or other intangible assets recorded upon execution of the Business Combination.

Upon consummation of the Business Combination and the closing of the PIPE, the most significant change in PCT’s future reported financial position and results of operations is an estimated increase in cash and cash equivalents (as compared to PCT’s consolidated balance sheet at December 31, 2020) to approximately \$359.3 million, including \$250.0 million in gross proceeds from the PIPE Investment. Total direct and incremental transaction costs of ROCH and PCT are estimated at approximately \$33.6 million, which will be treated as a reduction of the cash proceeds with \$25.4 million deducted from Surviving Company additional paid-in capital for equity issuance costs and the remaining balance is expensed through accumulated deficits. See the section entitled “*Unaudited Pro Forma Condensed Combined Financial Information*.”

As a result of the Business Combination, we are the successor to an SEC-registered and NASDAQ-listed company, which will require us to hire additional personnel and implement procedures and processes to address public company regulatory requirements and customary practices. We expect to incur additional annual expenses as a public company for, among other things, directors’ and officers’ liability insurance, director fees and additional internal and external accounting and legal and administrative resources, including increased personnel costs, audit and legal fees.

Factors Affecting Our Financial Condition and Results of Operations

We are a pre-commercial company and our future financial condition and operating performance will depend on our ability to successfully begin, sustain and expand the manufacturing and sale of UPRP, as discussed below, which in turn is subject to significant risks and challenges, including those described in the section of this prospectus titled “*Risk Factors*.”

Cutting-Edge Licensed Polypropylene Recycling Technology

We apply a unique resin purification process to produce near-virgin quality polypropylene resin using waste polypropylene feedstock. The physical purification process separates colors, contaminants and odors from waste polypropylene to achieve a potentially “food grade” product while also expanding the range of feedstock quality in comparison to traditional polypropylene recycling. We believe that the Technology is the only sound and economically viable method of recycling polypropylene to near-virgin quality and that no other technologies can effectively address polypropylene recycling at scale. Upon commencement of production at the Phase II Facility, we expect to become the first global producer of UPRP.

If demand for UPRP continues to increase, as we expect, other companies, some of which may be better capitalized and have access to stronger research and development capabilities, may seek to develop new or improved polypropylene recycling technologies. New technologies may lead to the production of cheaper or higher quality UPRP, which in turn could adversely affect our prospects.

Relationship with P&G

P&G, which designed and owns the patents to the Technology for manufacturing UPRP, granted us an exclusive, worldwide license to their patents and other intellectual property for the manufacture of recycled polypropylene (the “License Agreement”). The License Agreement was granted for the duration of the relevant patents and we, in turn, granted back a limited sublicense to P&G for the same period, including to any intellectual property Improvements (as defined in the License Agreement) made by us, allowing P&G to produce or sublicense the production of up to a certain amount of UPRP worldwide per year for a set period of time and up to a certain higher threshold of UPRP per region (the License Agreement defines six separate geographic regions) per year thereafter. The exclusivity period terminates with the last to expire of the licensed patents. Patents expire at or near twenty years from their earliest effective filing date in the United States Patent and Trademark Office. The first of the licensed patents was filed in June 2016 and have an expected expiration date of June 2036. The most recent patents were filed in 2019 and expire in 2039.

P&G has the right to purchase UPRP, at “most favored nation” pricing, from the Phase II Facility in its first year of operations at a guaranteed minimum amount and a guaranteed minimum amount each year thereafter. Following the opening of our second plant, P&G will have the right to annually purchase a certain amount or maximum percentage of our total manufacturing capacity each year, whichever is greater. The License Agreement provides for royalties to P&G on production sold to third parties, with the royalty rate upon commencement of production ranging from 0.25% to 7.0% driven by the number of plants, product pricing and time. Pursuant to the License Agreement, we prepaid a portion of this royalty amount in April 2019. The License Agreement may be subject to stepped up royalty rates, become non-exclusive or become subject to termination by P&G in certain circumstances, including if we fail to meet mutually agreeable resin technical specifications within six months of the start of operations at the Phase II Facility, are unable or unwilling to provide P&G with the aforementioned UPRP offtake quantity on terms specified in the License Agreement, if we fail to pay required royalties or upon a change of control (excluding the Business Combination). See the section entitled “*Description of PCT Business — Intellectual Property*.”

If P&G exercises its right to produce or sublicense the production of UPRP using its technology, we may come into competition with P&G or its sublicensees, which will have access to the same technology and may not be subject to royalties or may enjoy preferential royalty terms. Competition may drive down pricing and, to the extent such future competitors are able to produce UPRP more efficiently than we are, our margins and profits could be adversely affected. In addition, any breach by us of certain terms of the License Agreement may entitle P&G to terminate the License Agreement or make it non-exclusive, which would have a material and adverse impact on our business, financial condition and results of operations.

Completion of the Phase II Facility and Expansion of Our Manufacturing Footprint

Construction of our first manufacturing plant began in October 2020. The plant, which we refer to as the “Phase II Facility” or “Plant 1,” is on the 26-acre site of a former Dow Chemical plant near the Ohio River and close to rail, highway and barge transportation. We expect the Phase II Facility to be commercially operational by the end of 2022, with an annual production capacity of 107 million pounds when fully operational, currently expected to occur in 2023.

Our initial testing production line — the Feedstock Evaluation Unit (“FEU” or “Phase I Facility”) — was developed to test and optimize the efficiency and throughput of our recycling process, was completed in July 2019 and will remain a critical component for testing feedstock for polypropylene content. The next phase is to construct, renovate, equip and install an approximately 150,000 square foot facility housing commercial-scale equipment including the repurposing of three existing buildings for feedstock pre-processing and storage. We estimate the total remaining cost to complete the Phase II Facility at approximately \$345 million.

The timely completion of our construction of the Phase II Facility depends on several factors, some of which are outside of our control. We have contracted the construction to several third parties. One contractor will repurpose existing buildings, another will construct the core purification process equipment, and several others will supply certain pre-processing equipment. In addition, PCT is required to obtain or modify certain additional construction permits for the timely completion of the Phase II Facility.

While our contractors are subject to performance guarantees that equipment will be free from defects for 12 months and PCT's key contractors are subject to delay damage liability in the event that the Phase II Facility is not delivered by the fourth quarter of 2022, there is no assurance that the Phase II Facility will be completed at our anticipated cost, that it will become operational on our anticipated timeline, or that any indemnity for delay will be sufficient to compensate us for the consequences of the defect or delay, such as the termination of or loss of exclusivity under the License Agreement. In the event that the Phase II Facility is completed above anticipated cost then PCT is responsible for construction cost overruns.

Strong Demand for High Quality Recycled Polypropylene

According to the 2017 United States National Postconsumer Plastic Bottle Recycling Report published by The Association of Plastic Recyclers and the American Chemistry Council, global demand for virgin or near-virgin polypropylene is expected to exceed 200 billion pounds by 2024, of which approximately 27% is expected to come from the United States. However, less than 1% of U.S. polypropylene was recycled as of 2019 according to the American Chemistry Council.

Waste polypropylene ends up in landfills and the environment, creating a long-term problem. Regulators and consumers have increasingly focused on the need for polypropylene recycling solutions. Multiple large corporations have specifically committed to reducing their plastics footprint, resulting in premium pricing for recycled polypropylene relative to its virgin counterpart. PCT has entered into legally binding offtake agreements with three blue-chip customers for the purchase of UPRP from the production expected at the Phase II Facility at premium prices relative to virgin polypropylene. These commitments account for a minimum of 47.5 million pounds of the Phase II Facility's annual production capacity. Combined with the three additional secured offtake agreements, a minimum of 63 million pounds of total capacity is committed at PCT's sole option, up to a quantity of 138 million pounds per year at PCT's sole option. The terms of these offtake agreements range from 3 to 7 years and we have entered into several offtake letters of intent with other potential customers. We have also secured the feedstock required to run the Phase II Facility at its 107 million pounds nameplate capacity for at least the first 3 years.

Pursuant to one binding offtake term sheet with a blue-chip customer, entered into on April 22, 2020 (and subsequently amended, the "Pre-Purchase Term Sheet"), PCT and Purecycle Ohio (as defined below) agreed to work in good faith with a third party to finalize an Offtake Agreement. On March 16, 2021, PCT received a \$5 million pre-payment under the Pre-Purchase Term Sheet for future receipt of UPRP meeting certain purity, color and other technical specifications set forth in the Pre-Purchase Term Sheet. Additionally, PCT and Purecycle Ohio agreed to allocate to, and at the option of, the Pre-Purchase Term Sheet's counterparty, between five to eight million pounds of UPRP over each of the next 20 years. Furthermore, the Pre-Purchase Term Sheet provides for the reimbursement of the \$5 million pre-payment upon PCT's failure to (1) proceed with the construction and commissioning of the Phase II Facility; (2) begin commercial production and delivery of UPRP by January 2, 2023 and (3) provide the counterparty with certain agreed-upon rebate payments (the "Reimbursement"). Lastly, PCT and Purecycle Ohio agreed not to enter into any strategic partnership agreement or offtake agreement with a competitor of the Purchase Term Sheet's counterparty until the third quarter of 2021—six months after the counterparty is expected to receive a sample batch of UPRP. Innventure LLC (then known as We-Innventure LLC), unconditionally guaranteed PCT's obligation to make the Reimbursement pursuant to a separate Guaranty entered into with the Pre-Purchase Term Sheet counterparty on April 22, 2020.

Basis of Presentation

Our consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"). Currently, we conduct business through one operating segment. The consolidated financial statements have been prepared assuming that we will continue as a going concern. See Note 1 in the accompanying consolidated financial statements for further details.

Components of Results of Operations

Revenue

To date, we have not generated any operating revenue. We expect to begin to generate revenue in the fourth fiscal quarter of 2022, which is when we expect the Phase II Facility to become commercially operational.

Operating Costs

Operating expenses to date have consisted mainly of personnel costs (including wages, salaries and benefits) and other costs directly related to operations at the Phase I Facility, including rent, depreciation, repairs and maintenance, utilities and supplies. Costs attributable to the design and development of the Phase II Facility are capitalized and will be depreciated over the useful life of the Phase II Facility, which we expect to be approximately 40 years. We expect our operating costs to increase substantially as we continue to scale operations and increase headcount.

Research and Development Expense

Research and development expenses consist primarily of costs related to the development of our facilities and licensed product. These include mainly personnel costs and third-party consulting costs. In 2019 and 2020, our research and development expenses were related primarily to the development of the Phase I Facility and design and development of our UPRP Process. We expect our research and development expenses to increase for the foreseeable future as we increase investment in feedstock evaluation, including investment in new frontend feedstock mechanical separators to improve feedstock purity and increase the range of feedstocks PCT can process economically. In addition, we are increasing our in house feedstock analytical capabilities, which will include additional supporting equipment and personnel.

Selling, General and Administrative Expense

Selling, general and administrative expenses consist primarily of personnel-related expenses for our corporate, executive, finance and other administrative functions and professional services, including legal, audit and accounting services. We expect our selling, general, and administrative expenses to increase for the foreseeable future as we scale headcount with the growth of our business, and as a result of operating as a public company, including compliance with the rules and regulations of the SEC, legal, audit, additional insurance expenses, investor relations activities, and other administrative and professional services.

Results of Operations

Comparison of years ended December 31, 2020 and 2019

The following table summarizes our operating results for the years ended December 31, 2020 and 2019:

Years ended December 31

<i>(in thousands, except %)</i>			\$	%
	2020	2019	Change	Change
Costs and expenses				
Operating costs	\$ 8,603	\$ 5,966	2,637	44%
Research and development	648	526	122	23%
Selling, general and administrative	39,525	11,478	28,047	244%
Total operating costs and expenses	48,776	17,970	30,806	171%
Interest expense	7,954	1,012	6,942	686%
Other (income) expense	111	330	(219)	(66%)
Net loss	\$ 56,841	\$ 19,312	37,529	194%

Operating Costs

Operating costs for the year ended December 31, 2020 amounted to \$8.6 million, compared to \$6.0 million for the year ended December 31, 2019, an increase of \$2.6 million, or 44%. The increase was primarily attributable to an increase in repairs and maintenance expense of \$1.3 million, higher depreciation expense of \$1.0 million following the Phase I Facility's placement into service in July 2019, and an increase in consulting and professional fees of \$0.5 million.

Research and Development Expenses

Research and development expenses for year ended December 31, 2020 amounted to \$0.6 million compared to \$0.5 million for the year ended December 31, 2019, representing an increase of \$0.1 million or 23%. The research and development expenses remained mostly consistent for each period.

Selling, General and Administrative Expenses

Selling, general and administrative expenses for year ended December 31, 2020 amounted to \$39.5 million compared to \$11.5 million for the year ended December 31, 2019, representing an increase of \$28.0 million or 244%. The increase was primarily attributable to higher wages and salaries of \$9.0 million and higher personnel costs and equity based compensation of \$4.2 million related to wages and salaries and operating outside services, reflecting the hiring of operational staff at the Phase I Facility and filling of key positions in general sales, operations, and human resources, increase in P&G warrants expense of \$5.1 million, higher consulting and professional fees of \$2.9 million, and transaction costs of \$6.2 million.

Interest Expense

Interest expense for the year ended December 31, 2020 amounted to \$7.9 million compared to \$1.0 million for the year ended December 31, 2019, representing an increase of \$6.9 million or 686%. The increase was primarily attributable to interest on the Revenue Bonds and convertible notes of \$5.8 million, with the remaining increase attributable to interest on notes paid off during the year.

Other Income/Expense

Other expense for the year ended December 31, 2020 amounted to \$0.1 million compared to other expense of \$0.3 million for the year ended December 31, 2019, or a decrease of \$0.2 million or 66%. The other expense remained mostly consistent for each period.

Liquidity and Capital Resources

We have not yet begun commercial operations and we do not have any sources of revenue. Our ongoing operations have, to date, been funded by a combination of equity financing through the issuance of units and debt financing through the issuance of convertible notes and revenue bonds totaling over \$375 million. As of December 31, 2020, we had cash and cash equivalents on hand of \$64.5 million and restricted cash of \$266.1 million reserved for the construction of the Phase II Facility. On a pro forma basis, assuming the consummation of the Business Combination as of December 31, 2020, assuming receipt of \$250.0 million in gross proceeds from the PIPE Investment, we would have cash and cash equivalents of approximately \$359.3 million. We also had \$309.5 million in debt as of December 31, 2020.

Our consolidated financial statements have been prepared assuming that we will continue as a going concern; however, certain conditions raise substantial doubt about the Company's ability to do so. See Note 1 in the accompanying consolidated financial statements for further details. We believe that our existing cash and cash equivalents, the proceeds of the recently consummated Revenue Bonds financing and Convertible Notes offering and the expected proceeds of the Business Combination and related PIPE Investment, taken together, will be sufficient to meet our projected cash requirements for at least the next 12 months from the date of this prospectus. Our future capital requirements will depend on many factors, including actual construction costs for our Phase II Facility, the construction of additional plants, funding needs to support our business growth and to respond to business opportunities, challenges or unforeseen circumstances. If our forecasts prove inaccurate, we may be required to seek additional equity or debt financing from outside sources, which we may not be able to raise on terms acceptable to us, or at all. If we are unable to raise additional capital when desired, our business, financial condition and results of operations would be adversely affected.

Indebtedness

Revenue Bonds

In October 2020, we entered into a project financing arrangement, whereby the Southern Ohio Port Authority (the "Authority"), an Ohio port authority and political subdivision in Scioto County, Ohio, issued Exempt Facility Revenue Bonds, including tax-exempt senior secured bonds in the aggregate principal amount of \$219.55 million ("the Series 2020A Bonds" or "the Senior Bonds"), tax-exempt subordinate secured bonds in the aggregate principal amount of \$20.0 million ("the Series 2020B Bonds" or "the Tax-Exempt Subordinate Bonds") and taxable subordinate secured bonds in the aggregate principal amount of \$10.0 million ("the Series 2020C Bonds" or "the Taxable Subordinate Bonds" and together with the Series 2020A and Series 2020B Bonds, the "Revenue Bonds"). The Series 2020A Bonds comprised three terms and were issued with a total original discount of \$5.5 million, resulting in net proceeds of \$214.1 million, while the Series 2020B, issued in two terms, and 2020C bonds, issued in a single term, were issued at par. Issuance costs related to the Revenue Bonds, which will be recognized on a deferred basis over the life of the debt, amounted to \$1.36 million.

Pursuant to a loan agreement with the Authority dated as of October 1, 2020 (the "Loan Agreement"), the Authority agreed to loan our indirect, wholly-owned subsidiary

Purecycle: Ohio LLC (“Purecycle Ohio”), as borrower, the proceeds of the Revenue Bonds. The Revenue Bonds are special obligations of the Authority issued under an Indenture of Trust dated as of October 1, 2020 (the “Indenture”) between the Authority and UMB Bank, N.A., as trustee (the “Revenue Bonds Trustee”) payable solely from the Trust Estate consisting of the Authority’s right, title and interest in and to Purecycle Ohio’s Gross Revenues (as defined therein) and moneys in certain funds and accounts established by the Indenture or the Loan Agreement and held by the Trustee. The Revenue Bonds are further secured by a mortgage, an equity pledge, a security agreement, a collateral assignment to the Trustee of Purecycle Ohio’s sublicense to the Technology and the Guaranty of Completion described herein. We have entered into a Guaranty of Completion dated as of October 7, 2020 and further described herein, in favor of the Trustee whereby we guarantee the lien free completion of the Phase II Facility and, together with Purecycle Ohio, an Environmental Indemnity Agreement dated October 7, 2020, in favor of the Trustee providing certain indemnities for losses related to environmental matters on the site of Plant 1.

Interest on the Revenue Bonds is payable semi-annually on June 1 and December 1 of each year, until maturity. The Loan Agreement requires Purecycle Ohio to make periodic principal prepayments, reflecting the Authority’s obligation to mandatorily redeem a portion of the Revenue Bonds from time to time (“the sinking fund redemption amounts”), beginning in 2024, according to a sinking fund schedule.

The following table sets forth the original stated principal amounts, interest rates, final maturity dates and mandatory principal repayments according to the sinking fund schedule applicable to Purecycle Ohio’s obligations under the Loan Agreement, in relation to each relevant term of the Revenue Bonds:

(\$ in millions)	Original Principal Amount	Interest Rate	Final Maturity Date	Mandatory Principal Repayment
Series 2020A				
Term 1	\$ 12.37	6.25%	December 1, 2025	Semi-annual payment of \$2.9 million beginning on June 1, 2024 and incrementally higher semi-annual payments thereafter
Term 2	38.70	6.50%	December 1, 2030	Semi-annual payment of \$3.3 million beginning on June 1, 2026 and incrementally higher semi-annual payments thereafter
Term 3	168.48	7.00%	December 1, 2042	Semi-annual payment of \$4.6 million beginning on June 1, 2031 and incrementally higher semi-annual payments thereafter
Series 2020B				
Term 1	10.00	10.0%	December 1, 2025	Semi-annual payment of \$0.2 million beginning on June 1, 2024 and incrementally higher semi-annual payments thereafter ⁽¹⁾
Term 2	10.00	10.0%	December 1, 2027	Semi-annual payment of \$0.2 million beginning on June 1, 2024 and incrementally higher semi-annual payments thereafter ⁽²⁾
Series 2020C				
	10.00	13.0%	December 1, 2027	Semi-annual payment of \$0.1 million beginning on June 1, 2024 and incrementally higher semi-annual payments thereafter ⁽³⁾
Total	\$ 249.55			

(1) Principal due at December 1, 2025 maturity of \$9.5 million.

(2) Principal due at December 1, 2027 maturity of \$8.6 million.

(3) Principal due at December 1, 2027 maturity of \$8.8 million.

The Loan Agreement requires Purecycle Ohio to use the proceeds of the Revenue Bonds exclusively to construct and equip the Phase II Facility, fund a debt service reserve fund for the Series 2020A Bonds, finance capitalized interest, and pay the costs of issuing the Revenue Bonds. Construction of the Phase II Facility has commenced and is expected to be substantially completed by October 2022, and is expected to have an estimated useful life beyond the final maturity of the Revenue Bonds. Pursuant to the Indenture, the proceeds of the Revenue Bonds will be placed in various trust funds and non-interest-bearing accounts established and administered by the Revenue Bonds Trustee. In addition, 100% of Purecycle Ohio’s revenue attributable to the production of the Phase II Facility must be deposited into a revenue escrow fund. Funds in the trust accounts and revenue escrow account will be disbursed by the Revenue Bonds Trustee when certain conditions are met, and will be used to pay costs and expenditures related to the development of the Phase II Facility, make required interest and principal payments (including sinking fund redemption amounts) and, in certain circumstances required under the Indenture, to redeem the Revenue Bonds.

The Revenue Bonds are secured by Purecycle Ohio pursuant to an Open-End Mortgage, Assignment of Leases and Rents, Security Agreement and Fixture Filing and a Security Agreement pursuant to which, among other things, Purecycle Ohio has granted a security interest in all of Purecycle Ohio’s assets and gross revenues. The Revenue Bonds are further secured by Purecycle Ohio’s sublicense rights to certain intellectual property, all right, title and interest to moneys in certain funds and accounts established pursuant to the Indenture and the Loan Agreement, and all equity interests in Purecycle Ohio, held by Purecycle Ohio’s sole member, PCTO Holdco.

We made a \$60.0 million equity contribution to Purecycle Ohio in October of 2020 in connection with the Revenue Bond closing. We are also required to make an additional \$40.0 million equity contribution to Purecycle Ohio by January 31, 2021 if there are not sufficient funds on deposit with the Trustee. As of January 31, the Company maintained sufficient funds on deposit with the Trustee. The proceeds of these equity contributions must be used for the construction of the Phase II Facility.

In addition, as of the Revenue Bond closing, we entered into a Guaranty of Completion (the “Guaranty”) with respect to the Phase II Facility, whereby we guaranteed the lien free completion of the Phase II Facility and established a liquidity reserve (the “Guarantor Liquidity Account”) held by U.S. Bank, as Escrow Agent, under an Escrow Agreement dated October 7, 2020. The Guarantor Liquidity Account is to be fully funded by us in the amount of \$50.0 million (the “Guarantor Liquidity Reserve Amount”), no later than January 31, 2021; provided, that the Guaranty provides for an alternate funding schedule for the Guarantor Liquidity Account in the event we do not raise \$250.0 million of equity by January 31, 2021. As of January 31, the Company maintained sufficient funds on deposit with the Trustee. Pursuant to the Escrow Agreement, only the Revenue Bonds Trustee, as secured party, can give direction to the Escrow Agent concerning the release or investment of the Guarantor Liquidity Account and sale and liquidation of its investments. We have no right to exercise any control over the Guarantor Liquidity Account and we are required under the Guaranty to replenish the Guarantor Liquidity Account to the Guarantor Liquidity Reserve Amount throughout the term of the Guaranty if funds are withdrawn by the Revenue Bonds Trustee. The Guaranty requires that funds be transferred from the Guarantor Liquidity Account to the Equity Account of the Project Fund (one of the funds created upon the issuance of the Revenue Bond proceeds under the Indenture that is held and maintained by the Revenue Bonds Trustee, which contains certain subaccounts, including the Equity Account, from which funds can be disbursed by the Revenue Bonds Trustee to pay project expenses if certain conditions are met, as further described in the Loan Agreement) held by the Revenue Bonds Trustee under the Indenture if the contingency funds on deposit in the Equity Account are reduced to an amount below \$21.2 million in order to maintain the contingency fund at that level. The Guaranty will terminate one year after the Phase II Facility operates at full capacity for 30 consecutive days, as long as we have fulfilled all of our obligations under the Guaranty, and the distribution test set forth in the Loan Agreement is satisfied. Thereafter, our covenant not to finance, develop or construct a plastics recycling plant within a 250-mile radius of the Phase II Facility shall remain in full force and effect until the Revenue Bonds are paid in full; provided we can participate in the financing, development or construction of an expansion and/or addition to the Phase II Facility.

In addition, the Guaranty requires us to raise at least \$250.0 million in equity no later than January 31, 2021. To the extent we fail to do so, we must deposit into the Guarantor Liquidity Account an amount equal to the difference between \$250.0 million and the amount of equity actually raised less the Guarantor Liquidity Reserve Amount, in twelve equal monthly installments, commencing on February 28, 2021, until a total of \$200.0 million has been deposited. We must give written evidence of such deposits to the Trustee by the last day of each month, commencing February 28, 2021. As of January 31, the Company maintained sufficient funds on deposit with the Trustee. The Guaranty

provides that (i) we may not use any of the initial \$250 million of equity raised for any future project of ours or any of our affiliates at a level greater than 30% of the total project cost prior to the date the Guaranty terminates, and (ii) unless we have provided written evidence to the Trustee that we have \$100 million (including the Guarantor Liquidity Reserve Amount) of equity to support our obligations under the Guaranty, we cannot contribute equity to any additional project in an amount greater than 30% of total project costs for such additional project.

We must also have at least \$75.0 million and \$100.0 million of cash (including the Guarantor Liquidity Account) on our balance sheet by July 31, 2021 and January 31, 2022, respectively, or provide for the issuance of an irrevocable direct-pay letter of credit for the benefit of the Trustee for these amounts.

The Loan Agreement contains certain customary financial and other covenants of Purecycle Ohio, including a prohibition on distributions to its members prior to January 1, 2024, and thereafter only if certain conditions are met, and two financial maintenance covenants. These include a debt service coverage ratio covenant and days cash on hand covenant, which are measured at the end of each fiscal year, commencing with the fiscal year ended December 31, 2023. The following table summarizes the requirements of the debt service coverage ratio and days cash on hand covenants.

	Definition per Indenture	Must retain independent consultant⁽¹⁾	Event of default
Debt service ratio			
Senior Parity Coverage Requirement	The ratio of adjusted income (“net income available for debt service” as defined in the Indenture) to the maximum annual debt service (principal, including mandatory sinking fund redemption amounts, interest and fees) of the Series 2020A Bonds and any parity indebtedness	150%	125%
Overall Coverage Requirement	The ratio of adjusted income (“net income available for debt service” as defined in the Indenture) to the maximum annual debt service (principal, including mandatory sinking fund redemption amounts, interest and fees) of all of the Revenue Bonds and any parity indebtedness	110%	110%
Days cash on hand			
	The sum of cash and cash equivalents (as defined in the Indenture, with certain exceptions) divided by one day of operating expenses (calculated based on GAAP, including all scheduled debt service obligations payable during the period, and less depreciation and amortization)	75 days	60 days

(1) In accordance with the Loan Agreement, in the circumstances displayed in the table, we are required to retain an independent consultant, which must be approved by the majority of bondholders, to make recommendations to increase net income available to debt service or days cash on hand. We are required to transmit a copy of the independent consultant’s report to the Revenue Bonds Trustee and take such actions as will be in substantial conformity with such recommendations.

The Loan Agreement also restricts Purecycle Ohio, subject to certain baskets and exceptions, from incurring additional debt or liens, entering into derivatives, making asset sales, acquiring certain assets and making certain investments, licensing or sublicensing certain intellectual property and financing, developing, or constructing plastic recycling plants within a 250-mile radius of the Phase II Facility. We are also required to maintain certain offtake and feedstock supply contracts and are allowed only certain transfers of property, plant and equipment and creation of liens. In addition, Purecycle Ohio is prohibited from making distributions on any membership interests (including to us), license fees or management fees relating to the Phase II Facility, prior to January 1, 2024, and beginning on January 1, 2024, Purecycle Ohio cannot make distributions unless the distribution test is satisfied, under the Loan Agreement.⁽⁴⁾

Certain Revenue Bonds are subject to redemption at Purecycle Ohio’s option at a progressively declining premium to par, beginning on the following dates:

(\$ in millions)	Principal Amount	Date subject to optional redemption	Redemption price
Series 2020A			
Term 3	\$ 168.48	December 1, 2027	103% beginning on December 1, 2027; price decreases 1% per year until price is at par
Series 2020B			
Term 1	10.00	December 1, 2024	105%
Term 2	10.00	December 1, 2026	105%
Series 2020C			
	10.00	December 1, 2025	105% if redeemed before December 1, 2026; otherwise 104%
Total	\$ 198.48		

In addition, provided that no Subordinate Bonds shall be redeemed so long as any Senior Bonds remain outstanding, Purecycle Ohio may voluntarily redeem the Revenue Bonds at 103% of principal amount outstanding in the event that the Phase II Facility is damaged or destroyed and becomes inoperable or inaccessible to us resulting from damage to the facility or title taken by condemnation, as further described in the Indenture. The Revenue Bonds are also subject to mandatory redemption upon certain events, including the termination or expiration of the agreements under which we obtain the rights to commercialize UPRP using our licensed technology or Purecycle Ohio’s failure to make the additional \$40.0 million equity contribution, or our failure to deposit to the Guarantor Liquidity Account \$50.0 million, in each case by January 31, 2021. In addition, the tax-exempt Revenue Bonds are subject to mandatory redemption prior to maturity in whole in the event of the occurrence of a determination of taxability.

Convertible Notes Offering

On October 6, 2020, we entered into a Note Purchase Agreement (the “Note Purchase Agreement”) with certain funds managed by Magnetar Capital LLC or its affiliates (“Magnetar Investors”), providing for the purchase of up to \$60.0 million in aggregate principal amount of our Convertible Senior Secured Notes due 2022 (the “Convertible Notes”) issuable under an indenture dated as of October 7, 2020 (the “Magnetar Indenture”) between us and U.S. Bank National Association, as trustee and collateral agent.

(4) In order to satisfy the distribution test, all of the following must be met: (A) the Senior Parity Coverage Ratio is at least 150%, the Overall Coverage Requirement is at least 110%, the Days cash on hand is at least 75 days with respect to the fiscal year prior to the date on which distributions are to be made, (B) no event of default has occurred and

no condition exists which with the passage of time would constitute or become an Event of Default under the Bond Documents or prior Documents (as defined in the Indenture), (C) Purecycle Ohio has made all required deposits in various funds, and (D) there will remain following any distribution, no less than 75 days cash on hand (“the distribution test”). Contributions from any member of Purecycle Ohio or Affiliate of a member of Purecycle Ohio shall be excluded from any calculations.

On October 7, 2020, we issued \$48.0 million in aggregate principal amount of Convertible Notes (the “First Tranche Notes”). On December 29, 2020, we issued \$12.0 million in aggregate principal amount of Second Tranche Notes. In the event that the Business Combination is not consummated within 180 days of the entry into the Merger Agreement, the Second Tranche Notes are subject to a special mandatory redemption at a redemption price equal to 100% of their aggregate principal amount, plus accrued and unpaid interest.

In connection with the Business Combination, the Combined Company and each subsidiary of the Combined Company that is a direct or indirect parent of us (the “Magnetar Guarantors”), is required to unconditionally guarantee, on a senior basis, all of our obligations in respect of the Convertible Notes. The Convertible Notes are our senior obligations and upon the consummation of the Business Combination, will be fully and unconditionally guaranteed by the Combined Company and any of our other direct or indirect parent entities. On March 17, 2021, the Combined Company entered into a supplemental indenture (the “Second Supplemental Indenture”) with PureCycle Technologies LLC, PureCycle Technologies Holding Corp., and U.S. Bank, National Association, as trustee and collateral agent, pursuant to which (i) the Combined Company and PureCycle Technologies Holding Corp. agreed to guarantee our obligations under the Convertible Notes and (ii) the Combined Company and PureCycle Technologies Holding Corp. unconditionally assumed all of our obligations under the Convertible Notes and the Magnetar Indenture relating to, among other things, our obligations relating to the authorization, issuance and delivery of the ParentCo Common Stock issuable upon conversion of the Convertible Notes.

Also, on March 17, 2021, the Combined Company signed the Joinder Agreement (the “Joinder Agreement”) to the Note Purchase Agreement. The Joinder Agreement made the Combined Company a party to the Notes Purchase Agreement for purposes of the indemnification provisions therein. Execution of the Joinder Agreement was a closing condition to the Merger Agreement.

Under the Magnetar Indenture for the Convertible Notes, we and the Magnetar Guarantors will, subject to certain exceptions, be restricted from incurring indebtedness that ranks senior in right of payment to the Convertible Notes and if we or the Magnetar Guarantors incur pari passu indebtedness that is secured by a lien, we and such Magnetar Guarantors are required to also provide an equal and ratable lien in favor of the holders of the Convertible Notes. The Convertible Notes are subject to certain customary events of default.

Unless earlier converted, redeemed or repurchased in accordance with the terms of the Magnetar Indenture, the Convertible Notes will mature on October 15, 2022, subject to an extension that may be exercised at our sole discretion to April 15, 2023 with respect to 50% of the then outstanding Convertible Notes. The Convertible Notes will bear interest from their date of issue at a rate of 5.875% per year, payable semi-annually in arrears on April 15 and October 15 of each year, beginning on April 15, 2021. Interest on the Convertible Notes is payable, at our option, entirely in cash or entirely in kind in the form of additional Convertible Notes.

The Convertible Notes are convertible at the option of the holders at any time, until the close of business on the business day immediately preceding the maturity date. Prior to the consummation of the Business Combination, the initial conversion rate for the Convertible Notes is (i) prior to the issuance of the Second Tranche Notes, 12.8403 shares of our Class A Units per \$1,000 principal amount of Convertible Notes and (ii) upon issuance of the Second Tranche Notes, 13.1423 shares of such Class A Units per \$1,000 principal amount of Convertible Notes. Following the consummation of the Business Combination, the conversion rate per \$1,000 principal amount of Convertible Notes will generally be based on 80% of the lesser of (a) \$10.00 and (b), if applicable, the weighted average cash price per share of ParentCo Common Stock at which ROCH sells shares of its Common Stock in the PIPE Investment, subject to certain limitations. The conversion rate will increase in the event the equity value of the Business Combination exceeds certain thresholds.

In connection with certain transactions resulting in a change of control (not including the Business Combination), the Convertible Notes will be convertible at the option of the holders until the 35th business day following the change of control becoming effective at an initial conversion rate equal to the quotient of \$1,000 and 80% of the per share consideration received by holders of common stock in such change of control transaction. In each case, the conversion rate is subject to adjustment under certain circumstances, including certain dilutive events, in accordance with the terms of the Magnetar Indenture.

If certain fundamental change or change of control transactions occur with respect to us or, following the consummation of the Business Combination, the Combined Company, holders of the Convertible Notes may require the repurchase for cash of all or any portion of their Convertible Notes at a fundamental change repurchase price equal to 100% of the principal amount of the Convertible Notes to be repurchased, plus accrued and unpaid interest to, but excluding, the repurchase date.

We may not redeem the Convertible Notes at our option at any time, and no sinking fund is provided for by the Magnetar Indenture.

Cash Flows

A summary of our cash flows for the periods indicated is as follows:

(in thousands)

	Years Ended December 31	
	2020	2019
Net cash used in operating activities	\$ (17,953)	\$ (6,315)
Net cash used in investing activities	(29,812)	(5,882)
Net cash provided by financing activities	378,188	12,246
Cash and cash equivalents, beginning of year	150	101
Cash and cash equivalents, end of year	\$ 330,573	\$ 150

Cash Flows from Operating Activities. Net cash used in operating activities was \$18.0 million for the year ended December 31, 2020 compared to \$6.3 million for the year ended December 31, 2019, representing an increase of \$11.7 million or 186%. The increase was primarily attributable to an increase in professional and consulting fees of \$5.1 million, transaction costs of \$4.4 million, interest paid of \$2.1 million, and repairs and maintenance of \$1.3 million, offset by a decrease in prepaid royalties of 1.1 million.

Cash Flows from Investing Activities. Net cash used in investing activities was \$29.8 million for the year ended December 31, 2020 compared to \$5.9 million for the year ended December 31, 2019, representing an increase of \$23.9 million or 405%. Our capital asset investment in 2019 was solely attributable to the construction of the Phase I Facility and the capital asset investment in 2020 was attributable to the Phase II Facility as well as the purchase of the land and a building of \$3.6 million. The increase in cash outflows from investing activities is primarily related to an increase in payments made for the construction of the Company's plant of \$20.2 million in 2020 and an increase in purchases of property, plant, and equipment of \$3.6 million.

Cash Flows from Financing Activities. Net cash provided by financing activities was \$378.2 million for the year ended December 31, 2020 compared to \$12.2 million for the year ended December 31, 2019, representing an increase of 3,000%. The increase is primarily attributable to an increase of cash received from the issuance of revenue bonds of \$235.5 million, issuance of convertible notes of \$56.6 million, issuance of units of \$96.3 million, offset by cash paid for the repayment of related party debt of \$15.3 million and an additional repayment of debt of \$6.1 million.

Contractual Obligations and Commitments

The following table summarizes our contractual obligations and other commitments as of December 31, 2020:

	Payments Due by Period				
	Total (in thousands)	Less than 1 Year	1-3 Years	3-5 Years	More than 5 Years
Contractual obligations:					
Long-Term debt obligations ⁽¹⁾	\$ 309,550	\$ —	\$ 60,000	\$ 23,705	\$ 225,845
Interest payments	254,621	24,445	40,436	36,038	153,702
Operating lease obligations ⁽²⁾	466	143	182	141	—
	<u>\$ 564,637</u>	<u>\$ 24,588</u>	<u>\$ 100,618</u>	<u>\$ 59,884</u>	<u>\$ 379,547</u>

(1) Includes principal obligations related to the Revenue Bonds and Convertible Notes we entered into in October 2020 described in the “Liquidity and Capital Resources” section.

(2) Represents future minimum lease payments as of December 31, 2020 under our 2-year operating lease for office space in Florida. Includes future minimum lease payments for a 5-year operating lease entered into in January 2021 for office space in Lawrence County, Ohio.

We have not included our Feedstock agreements in the table above since the payment obligations under these agreements are contingent upon future events, such as the completion of Phase II Facility construction, funding requirements, quantity of feedstocks and IHS Index. The total minimum feedstock volume for all agreements, which are set to commence in 2022, amount to 60 million pounds of feedstock per year. The price per pound on the feedstock is variable, taking into account factors such as the quality of product, initial feedstock price, movements of price based on the fluctuations in the IHS Index, and product delivery point considerations. The Feedstock agreements are legally binding and contain a clause which allows for the termination of the agreement in the event we are unable to obtain sufficient financing by October 31, 2020, which is subject to negotiation and execution of a revised agreement.

We have not included our License Agreement in the table above since the obligations under this agreement are contingent upon future events, such as the completion of the Phase II Facility construction, funding requirements and quantity of P&G orders. P&G will receive royalties during the term of the license as a percentage of net sales to parties other than P&G at certain royalty rates based on the net price of the licensed product. The term of the License Agreement will terminate at the later of (a) the expiry date of the warrants or (b) upon expiration of the licensed patent held by P&G, unless terminated earlier. In addition, P&G has the option to purchase or assign offtake from the Phase II Facility at “most favored nation” pricing up to a certain amount in year one, and up to a certain higher amount per year or a percentage of nameplate capacity, whichever is greater, in each subsequent year of production. In 2019, we made a one-time, non-refundable, royalty-prepayment, which will be used to offset the future royalties payable to P&G under the License Agreement.

We have not included the Impact Sublicense Agreement (as defined below) in the table above since the obligations under this Impact Sublicense Agreement are contingent upon future events, such as PCT’s payment of the Initial License Fee, the use of the sublicensed separation technology for purification treatment involving the P&G technology or not and either the volume of purified product produced using the Technology or a percent of Net Sales from the Licensed Product. The Impact Sublicense Agreement will remain in full force and effect until the last to expire of any of the Patents (as defined in the Impact Sublicense Agreement) that make up the sublicensed separation technology, unless terminated earlier due to a material breach of the Impact Sublicense Agreement, PCT’s failure to pay the Initial License Fee (as modified) or royalties or the bankruptcy of PCT. The last of the Patents that make up the sublicensed separation technology are expected to remain in full force and effect until July 27, 2035.

We have not included the Pre-Purchase Term Sheet (as defined above) in the table above since the obligations under the Pre-Purchase Term Sheet are contingent upon future events, such as the triggering of a Reimbursement, as outlined previously. The Pre-Purchase Term Sheet will remain in full force and effect until the parties enter into an offtake agreement, or unless terminated earlier due to a material breach of the Pre-Purchase Term Sheet.

In addition, we enter into agreements in the normal course of business with vendors for research and development services and outsourced services, which are generally cancelable upon written notice. These payments are not included in this table of contractual obligations.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors. We do not have any off-balance sheet arrangements or interests in variable interest entities that would require consolidation. Note that while certain legally binding offtake arrangements have been entered into with customers, these arrangements are not unconditional and definitive agreements subject only to customary closing conditions, and do not qualify as off-balance sheet arrangements required for disclosure.

Internal Control Over Financial Reporting

A company’s internal control over financial reporting is a process designed by, or under the supervision of, that company’s principal executive and principal financial officers, or persons performing similar functions, and influenced by that company’s board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with generally accepted accounting principles. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with policies or procedures may deteriorate.

In connection with the preparation and audit of PCT’s consolidated financial statements for the years ended December 31, 2020, 2019 and 2018 and the balance sheet data as of December 31, 2020, 2019 and 2018, certain material weaknesses were identified in PCT’s internal control over financial reporting. A material weakness is a deficiency, or

combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of PCT's interim or annual consolidated financial statements will not be prevented or detected on a timely basis. The material weaknesses were as follows:

- PCT did not have sufficient, qualified personnel to determine the appropriate accounting treatment for its complex agreements or transactions that required technical accounting analysis;
- PCT's lack of sufficient personnel also resulted in inadequate segregation of duties in the design and operation of the internal controls over financial reporting;
- PCT's lack of formal processes and controls resulted in an ineffective control environment, which led to an inadequate review of the financial statements and financial reporting;
- PCT did not design and maintain effective controls over certain information technology ("IT") controls for information systems that are relevant to the preparation of its financial statements, specifically with respect to user access, to ensure appropriate segregation of duties that adequately restrict user access to financial applications, programs, and data to appropriate company personnel; and
- PCT did not design and maintain effective controls surrounding the completeness and cutoff of expenses and payables, such that certain expenses paid by a related entity on behalf of PCT were not appropriately allocated to PCT, and certain transactions were recorded in the period when the invoice was received rather than accrued in the period when the activity took place.

These material weaknesses could result in a misstatement of substantially all of PCT's accounts or disclosures, which would result in a material misstatement to the interim or annual consolidated financial statements that would not be prevented or detected. PCT has begun implementation of a plan to remediate the material weaknesses described above. Those remediation measures are ongoing and include the following:

- Previously, there were two accounting employees; both were part time, and one of which was an accounts payable clerk. PCT management is increasing staffing and has brought in outside technical accounting resources. PCT has since hired a CFO, a Vice President of Finance, a Corporate Controller, a Plant Controller, and an AP/AR Analyst and will continue to build a qualified accounting and finance team. PCT has also engaged a public accounting firm to assist with financial reporting and advise on technical accounting issues;

- PCT is evaluating its IT systems user access and developing formal policies; and
- PCT is establishing a process to maintain checklists tracking related entity payments as part of its monthly close processes and is instituting policies to strengthen its receipt and processing of purchase orders to monitor accrual determinations. Furthermore, payment for almost all PCT expenses has been moved to PCT, with only a limited number of expenses paid by a related entity for situations where there is a shared contract.

PCT plans to continue to assess its internal controls and procedures and intends to take further action as necessary or appropriate to address any other matters it identifies or are brought to its attention. PCT cannot assure you that the measures it has taken to date and may take in the future will be sufficient to remediate the control deficiencies that led to PCT's material weaknesses in internal control over financial reporting or that PCT will prevent or avoid potential future material weaknesses. The effectiveness of PCT's internal control over financial reporting is subject to various inherent limitations, including cost limitations, judgments used in decision making, assumptions about the likelihood of future events, the possibility of human error and the risk of fraud. If PCT is unable to remediate the material weaknesses, its ability to record, process and report financial information accurately, and to prepare financial statements within the time periods specified by the forms of the SEC, could be adversely affected which, in turn, may adversely affect PCT's reputation and business and the market price of the Combined Company's Common Stock.

In addition, any such failures could result in litigation or regulatory actions by the SEC or other regulatory authorities, loss of investor confidence, delisting of the Combined Company's securities and harm to the Combined Company's reputation and financial condition, or diversion of financial and management resources from the operation of PCT's business.

See the section title "*Risk Factors — PCT identified certain material weaknesses in its internal control over financial reporting. If PCT is unable to remediate these material weaknesses, or if PCT identifies additional material weaknesses in the future or otherwise fails to maintain an effective system of internal controls, PCT may not be able to accurately or timely report its financial condition or results of operations, which may adversely affect PCT's business and stock price.*"

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States ("GAAP") requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Although these estimates are based on the Company's knowledge of current events and actions the Company may undertake in the future, actual results could differ from those estimates and assumptions.

Equity-Based Compensation

The Company issues grants of incentive units to select employees and service providers. The equity-based compensation cost for the incentive units is measured at the grant date based on the fair value of the award over the requisite service period, which is the vesting period on the straight-line basis. In the event of modification, the Company recognizes the remaining compensation cost based on the grant date fair value over the new requisite service period. The Company applies a zero-forfeiture rate for its equity-based awards, as such awards have been granted to a limited number of employees and service providers. The Company revises the forfeiture rate prospectively as a change in an estimate, when a significant forfeiture or an indication that significant forfeiture occurs.

The fair value of the incentive units is estimated on the date of grant using the Black-Scholes option-pricing model using the following assumptions:

	2020	2019
Expected annual dividend yield	0.0%	0.0%
Expected volatility	42.1 - 78.2%	42.1 - 67.2%
Risk-free rate of return	0.1 - 1.8%	1.55 - 2.0%
Expected option term (years)	0.14 - 4.9	1.0 - 5.0

curve in effect at the time of grant. The expected volatility was based on the Company's capital structure and volatility of similar entities referred to as guideline companies. In determining similar entities, the Company considered industry, stage of life cycle, size and financial leverage. The dividend yield on the Company's units is assumed to be zero since the Company has not historically paid dividends. The fair value of the underlying Company units was determined using a hybrid method consisting of an option pricing method and an initial public offering scenario.

Warrants

The Company measures the warrants issued to nonemployees at the fair value of the equity instruments issued as of the warrant issuance date and recognizes that amount as SG&A expense in accordance with the vesting terms of the warrant agreement. In the event that the terms of the warrants qualify as a liability, the Company accounts for the instrument as a liability recorded at fair value each reporting period through earnings.

The Company has determined the warrants issued to P&G in connection with the patent licensing agreement are liability classified. Accordingly, the warrant units are remeasured at fair value each reporting period. The Company has determined its warrant to be a Level 3 fair value measurement and has used the Black-Scholes option pricing model to calculate its fair value using the following assumptions:

Expected annual dividend yield	0.0%
Expected volatility	42.7 – 67.2%
Risk-free rate of return	1.6 – 2.0%
Expected option term (years)	1.0 – 5.0

The Company determined the warrants issued in connection with Class B-1 Preferred Unit Purchase Agreement are equity classified. Accordingly, the warrant units are held at their initial fair value with no subsequent remeasurement. The Company has determined its warrant to be a Level 3 fair value measurement and has used the Black-Scholes option pricing model to calculate its fair value using the following assumptions:

Expected annual dividend yield	0.0%
Expected volatility	54.2 – 63.6%
Risk-free rate of return	1.5 – 1.7%
Expected option term (years)	4.4 – 4.7

The Company has determined the warrants issued to RTI in connection with terms of a professional services agreement are equity classified. Accordingly, the warrant units are held at their initial fair value with no subsequent remeasurement. The Company has determined its warrant to be a Level 3 fair value measurement and has used the Black-Scholes option pricing model to calculate its fair value using the following assumptions:

Expected annual dividend yield	0.0%
Expected volatility	50.0%
Risk-free rate of return	2.82%
Expected option term (years)	5.0

Recent Accounting Pronouncements

See Note 2 to the audited consolidated financial statements included elsewhere in this prospectus for more information about recent accounting pronouncements, the timing of their adoption, and our assessment, to the extent we have made one, of their potential impact on our financial condition and our results of operations.

Emerging Growth Company Election

ROCH is an "emerging growth company" as defined in Section 2(a) of the Securities Act of 1933, as amended, and has elected to take advantage of the benefits of the extended transition period for new or revised financial accounting standards. Following the consummation of the Business Combination, the Combined Company expects to remain an emerging growth company at least through the end of the 2020 fiscal year and the Combined Company expects to continue to take advantage of the benefits of the extended transition period, although it may decide to early adopt such new or revised accounting standards to the extent permitted by such standards. The Combined Company expects to use this extended transition period for complying with new or revised accounting standards that have different effective dates for public and non-public companies until the earlier of the date the Combined Company (i) is no longer an emerging growth company or (ii) affirmatively and irrevocably opts out of the extended transition period provided in the JOBS Act. This may make it difficult or impossible to compare the Combined Company's financial results with the financial results of another public company that is either not an emerging growth company or is an emerging growth company that has chosen not to take advantage of the extended transition period exemptions because of the potential differences in accounting standards used.

In addition, the Combined Company intends to rely on the other exemptions and reduced reporting requirements provided by the JOBS Act. Subject to certain conditions set forth in the JOBS Act, if, as an emerging growth company, the Combined Company intends to rely on such exemptions, the Combined Company is not required to, among other things: (a) provide an auditor's attestation report on PCT's system of internal control over financial reporting pursuant to Section 404(b) of the Sarbanes-Oxley Act of 2002; (b) provide all of the compensation disclosure that may be required of non-emerging growth public companies under the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010; (c) comply with any requirement that may be adopted by the Public Company Accounting Oversight Board regarding mandatory audit firm rotation or a supplement to the auditor's report providing additional information about the audit and the financial statements (auditor discussion and analysis); and (d) disclose certain executive compensation-related items such as the correlation between executive compensation and performance and comparisons of the Chief Executive Officer's compensation to median employee compensation.

The Combined Company will remain an emerging growth company under the JOBS Act until the earliest of (a) December 31, 2026, (b) the last date of the Combined Company's fiscal year in which it had total annual gross revenue of at least \$1.07 billion, (c) the date on which the Combined Company is deemed to be a "large accelerated filer" under the rules of the SEC or (d) the date on which the Combined Company has issued more than \$1.0 billion in non-convertible debt securities during the previous three years.

DESCRIPTION OF PCT BUSINESS

Unless the context otherwise requires, all references in this section to "PCT," the "Company," "we," "us," or "our" refer to PureCycle Technologies LLC and its subsidiaries

prior to the consummation of the Business Combination. Following the Business Combination, the Combined Company's business is that of PCT described below.

Overview

PureCycle Technologies LLC ("PCT") is commercializing a patented purification recycling technology (the "Technology"), originally developed by The Procter & Gamble Company ("P&G"), for restoring waste polypropylene into resin with near-virgin characteristics. We call this resin ultra-pure recycled polypropylene ("UPRP"), which has nearly identical properties and applicability for reuse as virgin polypropylene. PCT has a global license for the technology from P&G. We intend to build our first commercial-scale plant in Ironton, Ohio (referred to herein as "Plant 1" or the "Phase II Facility"), which is expected to have nameplate capacity of approximately 107 million pounds/year when fully operational. Production is expected to commence in late 2022 and the plant is expected to be fully operational in 2023. We have secured and contracted all of the feedstock and product offtake for this initial plant. Our goal is to create an important new segment of the global polypropylene market that will assist multinational entities in meeting their sustainability goals, provide consumers with polypropylene-based products that are sustainable, and reduce overall polypropylene waste in the world's landfills and oceans.

PCT intends to build new recycling production facilities globally, with the goal of having approximately 30 commercial lines operational by 2030 and approximately 50 by 2035. In addition to our first plant in Ironton, Ohio, we currently expect the next plants to be located in the United States, followed by Europe. Additional expansion in the United States is expected to include a scaled up "cluster" site model. Pre-engineering for the design and installation of multiple commercial lines in a single cluster site is currently underway and is expected to create efficiencies across the construction and permitting processes, as well as reduce average capital expenditures per plant and reduce overall operating costs. From this next wave of expansion PCT expects to produce approximately 1 billion pounds of annual recycled polypropylene by the end of 2024, which is less than 1% of the total annual projected demand for virgin and virgin parity resin.

PCT is regarded as a leader in polypropylene recycling and polymers sustainability. The Company's Feedstock Evaluation Unit ("FEU"), which has been operational since July of 2019, is a smaller scale replica of the commercial line currently under construction. The FEU was designed to simulate commercial production and validate for PCT's customers and suppliers the viability of our process, which has helped PCT secure 20+ year signed offtake agreements and supply agreements with blue chip partners and industry players. Since its commissioning, the FEU has successfully processed more than 145 feedstocks from the US and Europe and produced recycled polypropylene nearly identical to virgin polypropylene.

The Technology has been evaluated by third parties with a focus on the Technology's efficacy and commercial scalability. Certain of our strategic partners have conducted testing on PCT's UPRP. In these evaluations, PCT's UPRP compared favorably to virgin polypropylene in common Food & Beverage industry benchmarks for melt flow and mechanical properties, purity, and function (lift decay, hinge break, and impact resistance). Additionally, we have received recognition from multiple media outlets and plastics industry groups including Time Magazine, the American Chemistry Council, and the Plastics Industry Association.

Industry Background

Currently, polypropylene is one of the largest contributors to the global plastics waste crisis. Each year more than 150 billion pounds of polypropylene are manufactured and incorporated into a wide array of consumer facing and industrial products. Less than 1% of polypropylene is collected and recycled annually, compared to 20% of polyethylene terephthalate ("PET"), and less than 12% of the overall plastics market is collected and recycled. Many of the advantages attributed to polypropylene (strength, toughness, elasticity) also contribute to its problematic waste stream after initial use. Due to its chemical makeup, polypropylene does not react with diluted bases and acids. As such, it does not break down and can remain a pollutant in our oceans, landfills, and food chain for centuries. Despite these environmental consequences, polypropylene utilization continues to increase, growing at a 5.3% average annual growth rate ("AAGR") since 2010 with a projected AAGR of 4.3% over the next 5 years.

In response to these issues, multinational companies have partnered with NGOs and trade associations to encourage recycling of plastics. Significant capital has been raised to combat the global plastics crisis, including multinational collaboration, ocean clean-up initiatives, new plastic economies, and global infrastructure investments. For example, over 450 multinationals have signed the Ellen MacArthur Foundation's New Plastics Economy Global Commitment. This commitment is focused on: (i) eliminating unnecessary packaging waste, (ii) reusing plastic where possible, (iii) making all packaging 100% reusable, recyclable, or compostable, and (iv) the reuse, recycling, or composting of all plastic packaging.

Multinationals have taken this pledge even further by committing to reduce the use of virgin plastic packaging by 50% by 2025. These commitments are being driven by consumer demand for sustainable products, which is expected to continue to drive many multinational corporations to source sustainable materials to achieve publicly announced sustainability objectives.

While there are a range of ways that plastics can be recycled today, there are very limited options available for polypropylene. The current options are chemical and mechanical recycling, both of which have significant drawbacks that have resulted in extremely low recycling rates.

Chemical Recycling

Chemical recycling is a type of plastics reclamation that typically creates a chemical reaction to break the molecular bonds of the plastic, resulting in the separated molecules from which plastics are made. This process uses a combination of high energy, heat, pressure, and typically other chemicals to break down the plastic into its most basic monomer form while burning off and removing any contaminants.

In the two most common forms of chemical recycling, the output requires further processing to become a viable product for fuel or plastic. Because additional steps in the supply chain are required to return the output back to plastic, as well the substantially high energy expenditure and carbon dioxide ("CO₂") emissions from the process itself, we do not believe current chemical recycling methods are a true circular solution to the plastics waste crisis. In addition, the cost of the end plastic, once finally returned to its original state, can be inflated due to energy and processing costs.

Mechanical Recycling

Mechanical recycling is the most common recycling method currently performed by solid waste collectors and material reclamation facilities. Mechanical recycling involves several steps, including various levels of optical sortation, manual sortation, washing, density separation or electrostatic separation, shredding, compounding, and pelletizing. The process is currently the most energy efficient recycling solution for polypropylene; however, due to the nature of mechanical reclamation, many of the original additives from within the waste material as well as outside contaminants remain in the end product. Accordingly, the process can lead to wide variations in end product quality and low-value end uses. Currently, mechanically recycled polypropylene can only be downcycled into products with lower specifications that are unable to meet the requirements for food and consumer grade packaging.

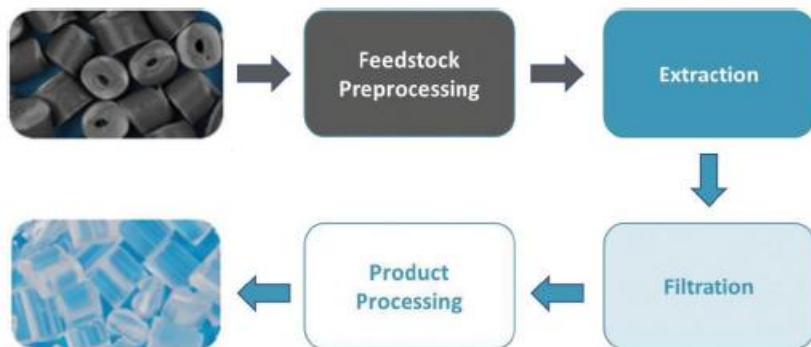

We believe the combination of demand for more sustainable products, the growing use of polypropylene, and the inadequacy of existing recycling processes creates a significant opportunity for a company like PCT that has demonstrated that it can turn polypropylene waste into near-virgin polypropylene.

PureCycle's Solution: Ultra-Pure Recycled Polypropylene

PCT's recycling technology is a purification recycling process that uses a combination of solvent, temperature and pressure. Waste stream polypropylene is returned to near

near-virgin condition through a novel configuration of commercially available equipment and unit operations. The process puts the plastic through a physical extraction process using super critical fluids that both extract and filter out contaminants and purify the color, opacity, and odor of the plastic with minimal controlled alteration of the physical characteristics of the polymer. By not altering the chemical makeup of the polymer, the Company is able to use significantly less energy and reduce production costs as compared to virgin resin.

The unique 'super-critical fluid' extraction process does not require chemical reactions and involves the key components shown in the diagram below:

Key benefits of the Technology include:

- all equipment is standard processing equipment, commercially available and widely used;
- use of a physical separation/purification process without chemical reactions;
- expected to utilize approximately 1/4 the amount of energy required to produce virgin polypropylene resin; and
- ability to recycle a wide range of polypropylene waste.

Our UPRP technology results in near-virgin equivalent quality and color, and substantially improved odor profile compared to traditional recycled polypropylene. Independent lab data from FDA trials is anticipated in the first quarter of 2021. Resin UPRP provides our customers with 100% recycled content without compromising appearance, purity or performance in finished products. UPRP is interchangeable with virgin polypropylene and based on efforts underway, is expected to be approved for use in food-grade applications. UPRP's characteristics are nearly identical to virgin polypropylene for key plastic resin metrics, including yellowness index value, opacity and melt flow index.

PCT Strengths

Large and Underserved Market

Polypropylene is one of the most-widely produced polymers globally with annual production in excess of 150 billion pounds and expected to exceed 200 billion pounds by 2024. Recycling rates for waste polypropylene are below 1%, compared to almost 20% for PET, resulting in continuous landfilling of nearly all polypropylene waste. The limited polypropylene recycling conducted today is primarily mechanical recycling, which results in a dark, odorous, non-food grade recycled product with limited applications and is not a viable substitute for virgin polypropylene. Consistent with increasing environmental awareness and activism more broadly, there is growing demand for a solution to reduce waste polypropylene by many stakeholders including consumers, corporations, governments and regulators, etc. We believe PCT's UPRP is a viable substitute and alternative for virgin polypropylene providing a near-term solution to the massive and growing polypropylene waste problem. PCT believes the size of the addressable market for its UPRP is so large that it will only ever be able to serve a small portion. As an example, PCT expects to develop plants with annual UPRP production capacity of approximately 1 billion pounds in the next five years, representing less than 0.5% of the expected global polypropylene market.

Proprietary and Proven Technology Developed by Procter & Gamble

PCT utilizes a proprietary purification process that converts waste polypropylene feedstock into UPRP pellets with similar characteristics to virgin polypropylene. The Technology was developed by P&G, and PCT has a global license from P&G. PCT's process utilizes a broad range of feedstocks including waste carpet, stadium cups and supersacks and produces near-virgin-quality UPRP pellets that are clear and contaminant-free, with a substantially improved odor profile compared to traditional recycled polypropylene, making it suitable for use in almost all polypropylene applications including high-value, and potentially food grade, consumer products. This patented process was developed by P&G over the course of eight years and has been refined by PCT over the past five years with more than 350 laboratory tests and with over 1,000 pounds of UPRP produced at the Feedstock Evaluation Unit (also called the "FEU" or "Phase I Facility") since its commissioning in July 2019. In addition, PCT's purification process and UPRP quality have been validated by independent technical consultants and many of PCT's strategic partners and initial customers.

High Barriers to Entry

PCT has a global license to P&G's recycling technology. PCT has spent the last five years developing the actual production process. It has tested over 145 feedstocks, conducted more than 350 laboratory tests and sent samples to large end customers including P&G, Aptar and Total. We have developed a pilot line which we call our Feedstock Evaluation Unit which we use to screen potential feedstock sources and demonstrate that we can process a wide range of polypropylene feedstock. In October 2020, we closed a \$250 million Revenue Bonds financing that is expected to substantially fund our first commercial plant, which we expect to start commercial production in late 2022.

Third-Party Validation of Our Product and Process

PCT and independent third parties have validated both PCT's UPRP production process and finished product. The FEU, commissioned in July 2019, utilizes a smaller scale of the same or similar equipment and processes as PCT's planned full-scale production plants and serves as a valuable pilot plant with regards to both plant construction and plant operation. The plant design is modular, utilizing well-known and widely utilized industrial processing equipment, but in a novel and proprietary way. All future plants,

regardless of size and location, are expected to utilize the same or similar equipment and configuration. The Company has also validated the customer demand for UPRP and signed offtake agreements for up to 20-years for its first plant. Based on signed offtake agreements and Letters of Intent (“LOI”), demand for the first plant is approximately four times greater than the plant’s nameplate capacity. Similarly, PCT secured all required feedstock for its first plant with long-term agreements. With the support of long-term customer offtake and supplier feedstock contracts, highly reputable engineering and construction firms leading the construction, demonstrated success of the FEU and other factors, PCT closed the \$250.0 million Revenue Bonds offering in October 2020 to finance a substantial portion of the first plant, with the remaining required capital provided by PCT LLC equity contributions. PCT expects to use a similar approach with future plants to pursue similar project financing arrangements and de-risk the financial profile of each plant and PCT overall.

Blue Chip Customers, Partners and Strategic Investors

PCT has developed mutually beneficial relationships and partnerships with many established, blue-chip industry leaders. PCT’s partnership with P&G began in October 2015 with the signing of the License Agreement for the Technology P&G invented. P&G is also a PCT offtake customer, along with a range of other well-known global and regional firms. In addition to P&G, PCT has key partnerships and relationships supporting plant site identification, plant development and construction, research and development, product sales and customer contracts, feedstock sourcing and contracts, operating expertise and other elements of its business. These partners include:

	<p>P&G’s research yielded the 13 U.S. process patents that form the basis of the Technology. Additionally, P&G provides continued research and development support in collaboration with the Company. P&G is a longstanding and critical partner for PCT as the Technology inventor, sustainability leader and patent owner. P&G also has the right, but is not required, to purchase our offtake.</p>
	<p>PCT has entered into a strategic partnership with Aptar as PCT’s preferred converter. Aptar has played, and we expect will continue to play, a crucial role in providing product performance studies on the UPRP and assessing how the UPRP performs through the transformation process. Aptar also has the right, but is not required, to purchase our offtake.</p>
	<p>Nestlé has provided financial support through a research and development grant to develop new packaging materials that help avoid plastic waste, in line with Nestlé’s commitment to make 100% of its packaging recyclable or reusable by 2025. As PCT continues to scale, we will continue to explore opportunities to expand our partnership with Nestlé.</p>
	<p>Total, in a strategic partnership with PCT, conducted an extensive evaluation of PCT’s process and plant engineering and provided valuable feedback to PCT. Total also has the right, but is not required, to purchase our offtake. Total and PCT continue to explore further mutually beneficial commercial partnership options, particularly as we execute our geographic expansion in Europe and other regions around the world.</p>
	<p>PCT has entered into a strategic partnership with Milliken as PCT’s predominant provider of performance additives. We expect Milliken and their innovative additive portfolio to play a pivotal role in our future product development, which will allow us to achieve the specifications of our customers and their unique applications.</p>
	<p>L’Oréal is an offtake partner of PCT and has been instrumental in connecting PCT to key players across the plastics value chain, including converters, resin producers, and feedstock sources. We expect to continue our collaborative relationship with L’Oréal as we pursue our global expansion, with the current focus of our partnership efforts on the US and Europe.</p>
	<p>Ravago has an extensive network across the supply chain for both offtake and feedstock and has helped PCT build relationships across the industry. Ravago is an offtake partner and feedstock supplier for Plant 1 and we are exploring collaboration and supply opportunities for additional plants in the US and in Europe.</p>

Experienced Leadership Team

The PCT management team has broad experience across plastics manufacturing, plant development, technology, R&D, sales, marketing, accounting and finance. PCT Chief Executive Officer Mike Otworth has over 23 years’ experience leading and scaling early stage companies, holding multiple senior management positions with a proven track record of founding and capitalizing startups. Chief Financial Officer Michael Dee was a senior executive at Morgan Stanley and has over 30 years of public markets, corporate finance, and M&A experience. Chief Science Officer John Scott holds a dual Ph.D. in Physics and Astrophysics, authored over 60 academic papers, and was the CEO of the XL TechGroup, the precursor company of Innventure LLC, an affiliate of PCT. Chief Commercial Officer David Brenner brings over 15 years’ experience leading transformational projects in a range of industries and was a Senior Manager at Deloitte prior to joining PCT. Director of Technology Jason Vitioe holds two product patents in polystyrene and decades of engineering leadership experience working for Americas Styrenics and Dow Chemical Company. Senior Director of Operations Chris Talarek has over 20 years of operations leadership at BP Oil, P&G, and Timbertech. Combined, the PCT executive team has over 100 years’ experience leading operations and over 70 years operating equipment. Chief Manufacturing Officer Dustin Olson previously served as a Vice President for LyondellBasell, one of the largest plastics, chemicals and refining companies in the world, where he had commercial responsibilities for all Advanced Polymer Solutions activities across Asia-Pacific, Africa, the Middle East and India. General Counsel and Corporate Secretary Brad Kalter previously served as General Counsel, Chief Legal Officer and Corporate Secretary for United Insurance Holdings Corp., a greater than \$1 billion property and casualty insurance holding company, and General Counsel for Exide Technologies, a global manufacturer in the stored energy and recycling sector with annual revenues of \$3 billion and 10,000 employees.

Attractive Plant Economics

PCT is offering a unique UPRP product to a large and growing global polypropylene market and expects market demand to far exceed supply into the foreseeable future. This demand / supply dynamic supports PCT’s planned buildout strategy and supports premium pricing for UPRP that PCT is realizing today and expects to continue to realize in the future. As a result, PCT expects to sell much of the production volume for each new plant prior to construction. Primary components of PCT’s operating costs include feedstock, labor, utilities, and other variable process inputs. These costs are relatively fixed on a per unit basis, providing significant upside to increasing prices. Through its cluster plant strategy, PCT expects to realize capital investment and operational efficiencies for future plants, reducing the investment per pound of capacity produced and allowing capacity to be added more quickly. PCT expects that rapid volume scale-up, long-term fixed price contracts and stable unit cost economics will result in strong EBITDA margins, which combined with limited maintenance capital expenditure requirements should provide significant and growing cash flow as plant construction is completed.

PCT Strategy

Fully Unlock and Develop Polypropylene Circular Economy

PCT's mission is to fully unlock the circular economy for polypropylene at sustainable economics across the supply chain. Comprising approximately 28% of annual global plastic production, polypropylene represents one of the largest challenges in plastics recycling and the plastics waste crisis. PCT's patented and licensed Technology provides a truly unique waste-plastic-to-near-virgin-plastic solution to increase polypropylene recycling rates and allow stakeholders to achieve sustainability goals. As global demand for recycled polypropylene continues to grow, PCT expects demand for its UPRP to grow exponentially and support continued premium pricing compared to virgin polypropylene.

Complete Development and Commissioning of Plant 1 in Ironton, Ohio

PCT intends to address the world's growing appetite for recycled polypropylene with the construction of its first commercial production facility located in Ironton, Ohio. After securing funding through a \$250 million solid waste Revenue Bonds offering, construction commenced on the Plant 1 in October 2020. This includes site construction and issuance of long-lead time purchase orders from key equipment and system vendors. Plant 1 leverages the existing infrastructure of PCT's pilot facility known as the Feedstock Evaluation Unit (FEU), which became operational in 2019. PCT's plants use standardized equipment that is used in large plants globally, further facilitating scale-up of production. Additionally, PCT is supported by global construction and engineering partners that have commenced development on Plant 1 and are expected to be leveraged in the development of future plants. Plant 1 is expected to be operational in late 2022 and will have a nameplate capacity of 107 million pounds per year of UPRP.

Global Plant Development Buildout

To meet the growing global supply-demand gap for near-virgin recycled polypropylene, PCT is evaluating strategies to expand its annual production capacity to approximately one billion pounds by late 2024. PCT will leverage its extensive network of strategic partners and customers to support its global plant buildout strategy. We believe this expansion plan is achievable due to PCT's underlying technology, which is comprised of commercially available equipment as well as top tier construction partners that operate globally. PCT currently expects the next wave of plants will be constructed in the United States followed by Europe. PCT is pursuing a "cluster" site model, which will include multiple commercial production lines, each with an expected annual capacity equal to or greater than the current Ironton, Ohio plant. This scaled up cluster strategy offers process and construction efficiencies including single construction teams to install all lines, reduced capital expenditure from pre-existing infrastructure, reduced operational costs, and a single permitting process. The first cluster site is expected to be located in the United States, beginning construction in 2021, and with its first unit beginning operations in 2023. Further site expansion plans include a goal of having approximately 30 commercial lines operational by 2030 and approximately 50 by 2035.

Continue Identifying New Customers / Product Applications and Additional Feedstocks / Sources

To support its global expansion, PCT plans to invest in its sales and offtake partner development to identify new potential partners and unique product applications whose value to end consumers can be enhanced by the inclusion of UPRP. Already, PCT has seen significant interest from potential offtake partners willing to pay premium pricing for its UPRP production, including over 200 non-solicited offtake inquiries, including many top global producers. As global sustainability trends continue, the pursuit of optimal feedstocks will be critical to the company's success. To date, PCT has evaluated over 145 various feedstocks through its FEU. PCT intends to further expand its universe of acceptable feedstocks through strategic partnerships with waste collectors for post-consumer waste (PCR), manufacturers for post industrial waste (PIR), and inclusion of the latest pre-processing and sortation technologies.

Maintain Capital Structure Flexibility to Finance Plant Buildout

PCT plans to develop global production plants with approximately one billion pounds of capacity by 2025. The Company recently issued \$250 million non-recourse Revenue Bonds to partially fund Plant 1 along with PCT LLC equity. PCT expects to finance future plants primarily with a combination of debt and equity financing. The Company, supported by its ESG profile, believes there is significant interest and demand from debt and equity sources, including traditional debt and equity, strategic partners, government grants and loans, etc. As the initial plants become operational, PCT expects to generate cash flow that could also support funding for future plant development.

The Product: UPRP

Polypropylene has multiple applications including packaging and labeling for consumer products, piping, ropes, cabling and plastic parts for many industries and, in particular, the automotive industry. It is one of the most commonly used plastics in the world due to its flexibility as a "living hinge" on consumer product lids (shampoo, ketchup) since it typically will not break when bent even after multiple movements and ranges of motion.

PCT's unique purification separates colors, odors, and contaminants through a physical separation process. This process and end product quality have been tested and validated by P&G, prospective offtake partners, and independent third party labs. When compared to virgin resin, PCT's UPRP expresses near identical mechanical properties across Melt Flow Index (a measure of viscosity), Tensile Modulus (measure of stiffness), and Impact Strength (a measure of sudden resistance to force).

PCT has leveraged strategic partners with expertise in operations, the use of additives to improve the physical properties of polymers, and Consumer Packaged Goods companies to conduct early testing to confirm that the product meets the expectations of the end users and offtake partners.

Offtake and Customers

Based on current offtake subscription agreements and LOIs, PCT intends to market and sell the UPRP to a wide range of industries, including but not limited to: resin distributors, resin converters, consumer goods manufacturers, food and beverage producers, toy manufacturers and personal care goods producers. Polypropylene is used in a variety of end markets, including consumer packaged goods, electronics, automotive, building & construction, household goods and agriculture. Due to a growing awareness around sustainability and many multinational companies shifting their strategic focus to sustainability as a key differentiator, PCT intends to provide UPRP to a diversified customer base across end markets over time.

Certain offtake pricing agreements are established based on a monthly index published by the IHS Global Plastics and Polymers Report. Since PCT began accepting LOIs from other potential offtake customers, PCT has received significant interest for its UPRP at a premium price to commodity polypropylene pricing. The premium pricing demonstrated in the LOIs supports a de-linking of UPRP pricing from the price of virgin polypropylene. Assuming the continuation of current trends in global sustainability and lack of competing alternatives, PCT expects the price of its UPRP to continue to command a premium over the price of virgin resin and not be subject to fluctuations in the price of virgin PP. For each of the offtake agreements, PCT guarantees the UPRP product to meet specific criteria for both color, opacity and other key technical targets such as MFI (Melt Flow Index) and tensile strength (aka tensile modulus).

The Company has entered into minimum offtake subscriptions agreements for UPRP from its first plant in the amount of 63 million pounds per year, and at PCT's sole option, up to a quantity of 138 million pounds per year. In addition to the fully executed contracts for these volumes, an additional volume of 35 million pounds annually is secured pursuant to agreements with three strategic partners at their option. Additionally, PCT has entered into LOIs with over twenty-five companies, including large global consumer product companies, distributors and manufacturers that use polypropylene. These LOIs would secure a minimum of 94 million additional pounds of volume and up to 250 million pounds at the Company's option. The Company continues to maintain active dialogue with potential offtake customers to secure additional volume for future plants.

Pursuant to the Pre-Purchase Term Sheet, as described above, on March 16, 2021 PCT received a pre-payment of \$5.0 million for future receipt of UPRP meeting certain purity, color and other technical specifications set forth in the Pre-Purchase Term Sheet. For a full description of the Pre-Purchase Term Sheet, please see “*Management’s Discussion and Analysis of Financial Condition and Results of Operations—Factors Affecting Our Financial Condition and Results of Operations—Strong Demand for High Quality Recycled Polypropylene.*”

Feedstock Supply

Over 150 billion pounds of polypropylene waste feedstocks are generated every year across multiple industries. Most of these feedstocks are untapped by the market today and are disposed of in landfills and oceans. These feedstocks include flexible & rigid packaging, plastic waste from textiles, and large business segments including consumer products, medical, automotive, industrial, and agricultural.

PCT has tested over 145 feedstocks from over 35 suppliers and reached definitive feedstock agreements with five suppliers representing 60 million minimum and up to 210 million pounds at PCT’s option, with pricing linked in part to the IHS Markit Index that tracks the prices of General Purpose Homopolymer prices and is reported out on a monthly basis (the “IHS Index”). Each supplier agreement includes multiple waste streams across post-industrial and post-consumer polypropylene resin. Each year, the Company will request a quantity of feedstock between the minimum and maximum quantities specified in each feedstock supply agreement. The feedstock price will be linked in part to changes in the index for virgin polypropylene in a price schedule that contains a fixed, collared price around an index price range that is also known as the “baseline” price. These contract prices are linked to the IHS Index which provides a tracking mechanism and collar for feedstock prices. Additionally, the contract prices are tied to tranches based on the percentage of polypropylene in the feedstock supplied to ensure and incentivize suppliers to provide the highest percent of polypropylene. The price schedule also contains a minimum price floor.

PCT has chosen to process most polypropylene feedstock sources across film, fiber, and rigids. Each feedstock type has immediate advantages as well as long-term benefits for PCT:

- Rigids, commonly referred to as post-consumer recycled plastic, are the most commonly reclaimed plastics in the industry today. Existing recycling infrastructure in the United States today provides a range of opportunities to acquire rigid feedstocks through mixed bales with price transparency. Though traditional mixed bales are not currently desirable as an alternative option for obtaining additional feedstock supply. The implementation of China’s National Sword, a regulatory policy enacted in 2018 that stopped China’s importation of mixed plastics/trash has created a market need to find alternative buyers for recycled polypropylene. Increased social awareness has resulted in a specific focus on recycling polypropylene and efforts like The Recycling Partnership have created a \$35 million fund to help grow polypropylene collection domestically.
- Film is typically not processed by traditional reclaimers, resulting in a favorable acquisition price for PCT. Today, only 15% of film is reclaimed, which represents a strong opportunity for PCT to expand in the future. The Technology allows PCT to unlock the value of this feedstock at a favorable cost.
- Fiber is the least recycled of the 3 waste streams, due to the limited infrastructure, innovation, and market for this material. Each year, approximately four billion pounds of carpet head to the landfill, which represents approximately 500 million pounds of polypropylene.

The Processing Facilities

The Feedstock Evaluation Unit

The FEU (also called the “Phase I Facility”) is an 11,000 square foot facility located in Ironton in Lawrence County, Ohio with over 1 mile of stainless-steel piping. The facility was completed in July 2019 and has been producing UPRP product since that time. The FEU is considered a pilot scale replica of the larger commercial line being developed at Plant 1. It serves the strategic purpose of determining if new feedstock streams are of sufficient quality before introducing them into the commercial line at Plant 1 initially, and later facilities as built. The FEU is designed to project the throughput and uptime of the commercial line by validating feedstocks prior to industrial use. Quantities of offtake from the FEU have been provided to offtake partners for evaluation. To date, the product produced is within ranges acceptable under contractual offtake agreements. When the commercial line is operational, the FEU will remain a critical component for testing feedstock.

Plant 1

Located on the same site as the FEU, PCT commenced construction in October 2020 on its first commercial scale recycling facility (“Plant 1” or the “Phase II Facility”). The property is formerly owned by The Dow Chemical Company, where a plant is no longer in operation, but significant infrastructure remains. PCT intends to construct, renovate, equip and install an approximately 150,000 square foot facility housing commercial-scale equipment designed to process 182 tons per day of waste polypropylene, including the repurposing of three existing buildings for feedstock pre-processing and storage. Once operational, Plant 1 should be capable of annual production of 107 million pounds of UPRP when operating at 90% capacity and with expected process losses. We expect Plant 1 to begin production in late 2022 and are using the same team that brought the Phase I Facility online, specifically:

- The core process, known as the Inside Battery Limit (“ISBL”), is comprised of process equipment, extruders, pelletizers, and related equipment and is to be provided under an equipment supply contract with Koch Modular Process Systems, LLC (“KMPS”), a leading global engineering, procurement and construction group.
- Denham-Blythe Company, Inc., (“Denham-Blythe”), a provider of architectural, engineering, construction management, general contracting, and start-up services, has been selected to serve as the Outside Battery Limit (“OSBL”) and will perform all civil and structural construction aspects of Plant 1, in addition to plant components related to materials handling and transfer.
- M. A. Mortenson Company, a construction company, will be the Company’s agent responsible for, among other things, coordinating PCT, Denham-Blythe and its subcontractor, EN Engineering, Inc., and KMPS.

Most importantly, each of KMPS and Denham-Blythe, among other suppliers and third party vendors are providing process guarantees, warranties of performance, and/or have entered into agreements with liquidated damage provisions if certain progress milestones are not reached.

Government Regulation

PCT is subject to laws and regulations administered by various federal, state and local government agencies in the United States that prescribe the requirements and establish the standards for quality and safety, regulate PCT’s products, and the manufacturing, labeling, marketing, promotion, and advertising thereof.

PCT is also subject to labor and employment laws, laws governing advertising, privacy laws, safety regulations, marketing claims and other laws, including but not limited to consumer protection regulations that regulate retailers or govern the promotion and sale of merchandise. PCT's operations, and those of its suppliers, are subject to various laws and regulations relating to environmental protection and worker health and safety matters.

FDA Requirements

Recycled polypropylene in food packaging applications in the U.S. is regulated by the FDA. Components in food packaging that are not used in accordance with an applicable exemption, regulation, or Food Contact Notification are considered adulterated under § 402(a)(2)(C) of the Federal Food, Drug and Cosmetic Act ("FFDCA"). The FDA has established certain requirements for the use of polypropylene in food packaging, as well as guidelines for the use of recycled plastics in food packaging:

- 21 C.F.R. § 177.1520 ("Olefin polymers") specifies that polypropylene may be employed as components of resinous or polymeric food-contact surfaces subject to the provisions of the regulation, with no associated limitation on its use.
- Good manufacturing practices ("GMPs") apply such that, per 21 C.F.R. §110.80, materials used in making food containers must be "safe and suitable" for their intended use. Compliance requires a quality assurance system, a quality control system and documentation.
- All additives must be in accordance with an applicable exemption, regulation, or food contact notification.
- FDA's "Guidance for Industry - Use of Recycled Plastics in Food Packaging: Chemistry Considerations (August 2006)" is designed to assist manufacturers of food packaging in testing and evaluating processes for recycling plastic for use in food packaging. On a voluntary basis, companies may ask FDA to issue a Letter of No Objection ("LNO") to provide assurance to customers regarding the regulatory compliance and safety of systems that recycle polymers (Section II of the 2006 Guidance).

PCT expects to file a LNO request in approximately the 1st Q 2021, with the end goal of understanding the level of contaminant removal by PCT's Technology. Surrogate challenge test results may be used without individual migration testing for FDA's evaluation of PCT's Technology. The need for individual migration testing is informed by results from the surrogate challenge test, which is not yet completed. PCT has demonstrated contaminant removal efficiency within the range that will allow the FDA to provide, but PCT cannot guarantee receipt of, an LNO in 2021 which confirms that the Company's process produces UPRP for use in all allowable food packaging applications. The process of obtaining FDA regulatory approval requires the expenditure of substantial time, of up to one year, and significant financial resources. FDA could refuse to approve a LNO application, a decision may be delayed if FDA has questions about the data or other aspects of the filing, or the review schedule may be extended if there are a significant number of LNO requests pending since the FDA is under no time limit to decide on LNO requests.

PCT's planned LNO request will specify the use of food-grade post-consumer recycled ("PCR") polypropylene and/or food-grade post-industrial recycled ("PIR") polypropylene feedstock based on the reasonable availability of this feedstock. PCT may need or want to expand the type of polypropylene feedstock it uses to make UPRP for food packaging in the future. PCT would then need to conduct additional testing and make further LNO submissions to process different plastic feedstocks from those described herein.

Environmental and Workplace Safety Laws

PCT is subject to air, water, waste and other environmental and workplace safety laws and regulations at the federal and state level in the United States including requirements of the Environmental Protection Agency ("EPA"), the Occupational Safety and Health Administration ("OSHA"), and the Federal Trade Commission ("FTC").

Recycled polypropylene for use in non-food packaging uses complies with or is exempt from EPA's requirements under the Toxic Substances Control Act ("TSCA"), since polypropylene (Chemical Abstracts Service Registry Number (CASRN) 9003-07-0) is approved for use on the TSCA Chemical Substances Inventory and the manufacture of polymers is exempt from TSCA Chemical Data Reporting. Additive selection will also comply with the TSCA.

PCT is subject to local, state and federal laws and regulations that address the release of hazardous substances into the air, water and land, and the storage, handling, disposal and transportation of hazardous materials. PCT holds various state and local licenses and permits, some of which are perpetual, and others which renew periodically. These include both environmental and general business licenses. Larger multi-line locations may also fall under federal Title V permitting rules.

OSHA and the delegated states implement the Occupational Safety and Health Act and relevant state counterparts. In relevant part, this requires hazard identification and communication about materials used or produced in operations to employees, state and local government authorities and citizens. Other workplace safety rules, such as those governing confined space entry and process safety management, also apply to PCT's operations, and PCT's facility is subject to OSHA inspection. PCT's operations are subject to privacy laws and federal and state laws governing labor and employment matters such as minimum wage, overtime, working conditions and employment eligibility requirements.

The FTC requires that marketing and advertising by PCT and its feedstock suppliers be truthful, non-misleading, not deceptive to consumers, and consistent with the Guides for the Use of Environmental Marketing Claims, 16 C.F.R. Part 260, concerning recycling claims. The federal Lanham Act and federal antitrust laws govern PCT's business activities and advertising claims. State law equivalents of false advertising claims laws apply and these laws may differ from each other in significant ways. They often are not preempted by federal laws.

Regulation Outside the United States

The commercialization of our product in countries other than the U.S. may require that PCT, or companies with whom PCT partners for such foreign commercialization, obtain necessary approvals for food packaging use under foreign regulatory regimes comparable to that of the FDA. Applicable approval processes and ongoing requirements in international markets vary from country to country and may involve more time and expense than that required to obtain approvals in the U.S. We intend to meet these requirements ourselves or through distributors as required.

The European Union's ("EU") goal to harmonize legislation on food-contact substances is comparatively mature with respect to plastics, with a general framework of rules for clearing and marketing food packaging materials through a positive list system as well as specific rules for recycled plastics. The requirements are found in Commission Regulation No. 1935/2004/EC ("Framework Regulation"), Commission Regulation No. 2023/2006/EC ("GMP Regulation"), Commission Regulation No. 10/2011/EC ("Plastics Regulation") and Commission Regulation No. 282/2008/EC ("Recycled Plastics"). The Framework Regulation is the umbrella and the other requirements fall underneath it. Listings for polypropylene and propylene monomer (CASRN 75-56-9) are accompanied by reasonable overall or specific migration limits.

The safety of residual additives in recycled resins is reviewed by The European Food Safety Authority ("EFSA") under the Recycled Plastics Regulation, while new additives will need to comply with the applicable specifications in the Plastics Regulation. For in scope processes, EFSA reviews the source and quality of the input material, the efficiency of the process to decontaminate the plastic and the intended use of the recycled plastic. There is no filing fee, and the EFSA review takes several months. The two-part process established by the Recycled Plastics Regulation calls for a secondary recycling process to also obtain authorization by the European Commission ("EC"). To-date, the EC has not authorized any recycling processes for the over 140 recycling systems reviewed by EFSA. Until the EC places more resources toward implementing the program, the timing of this review is uncertain for most if not all suppliers of recycled plastic. Falling outside the scope of this regulation are recycled plastics used behind a

plastic functional barrier and PIR from the production of plastic food contact materials that have not yet been in contact with food and which are recycled within the manufacturing site. PCT has not yet selected feedstock, applied for authorization or determined the status of PCT's polypropylene resin under the applicable EU Directives.

Imports of UPRP into the EU under the REACH ("Registration, Evaluation, Authorisation and Restriction of Chemicals," EC No. 1907/2006) regulation are subject to registration for the monomer propylene and will require PCT to certify to the presence, if any, of any ingredients that are listed on the Candidate List as substances of very high concern ("SVHC"), the Authorization List in Annex XIV, the Restricted List under Annex XVII, or banned substances. PCT will engage an Only Representative ("OR") to support REACH registration. PCT believes that UPRP complies with the EU Directive on the Restriction of Hazardous Substances in Electrical and Electronic Equipment known as RoHS 2 (Directive 2011/65/EU, 1 July 2011), which sets restrictions on the heavy metals lead, mercury, cadmium, and hexavalent chromium and polybrominated biphenyls and polybrominated diphenyl ethers flame retardants. UPRP is classified as non-hazardous under the EU CLP (Classification, Labelling, and Packaging) regulation (EC 1272/2008).

Post-Marketing Requirements

Following the grant of an FDA LNO, PCT and the UPRP (that is produced) are subject to continuing regulation by the FDA and other federal and state regulatory authorities. PCT's manufacturing process must comply with the suitable purity requirements of 21 C.F.R. § 174.5 and operate in a manner to prevent adulteration as required by section 402(a)(3) of the FFDCFA. Modifications or enhancements to the products or labeling or changes of site of manufacture may warrant additional voluntary notification through the LNO process.

PCT is committed to acting in accordance with all applicable environmental laws and regulations. As part of PCT's environmental risk management process, PCT engages environmental and regulatory consultants and service providers to assist in compliance and provide other environmental and stewardship services.

Intellectual Property

Pursuant to the License Agreement, P&G has granted PCT a license to utilize P&G's intellectual property and PCT, subject to the Grant Back, licenses to P&G a right to sublicense, subject to volume and geographic restrictions, the P&G technology. Under the Grant Back, for five years after the effective date of the License Agreement, the aggregate tonnage that may be produced under the Grant Back will be capped at 500,000 metric tons per year worldwide. Beyond year 5, that aggregate annual tonnage will be expanded to enable modest expansion across each of the six regions worldwide (generally, North America, Europe, China, Asia, Africa and Latin America).

PCT has a limited right to sublicense the technology to PCT affiliates and select third parties with the consent of P&G. All nine filed and granted patents and four pending patent applications are utility patents (as opposed to design patents and applications). All of the patents (whether filed and granted or pending) relate to the same core PCT technology processes. This patent estate covers the proprietary process by which waste polypropylene is converted into ultra-pure recycled polypropylene, specifically the method for separating and purifying polymers from the reclaimed and contaminated polypropylene, polyethylene and other polymers. The License Agreement also governs the ownership of process improvements. Improvements (as defined in the License Agreement) invented by PCT are owned by PCT and are licensed back to P&G for the purpose of selling licensed product, while Improvements (as defined in the License Agreement) invented by P&G or jointly by P&G and PCT are owned by P&G and licensed to PCT. The license may become non-exclusive if PCT fails to make payments or undergoes a change of control without the prior written consent of P&G. If PCT defaults under the License Agreement and the License Agreement is terminated, P&G fails to perform its obligations under these agreements, or PCT's relationship with P&G is otherwise damaged or severed, this could have a material adverse effect on PCT's business, results of operations or financial performance. In addition, P&G's failure to consent to future sublicenses by PCT to PCT affiliates and select third parties would limit PCT's ability to expand as contemplated by its current business plan.

The License Agreement will terminate upon the later of (a) the expiration of the last Licensed Patent (as defined in the License Agreement) to expire and (b) the expiry date of the warrant between PCT and P&G (which was executed on October 16, 2020). Under the License Agreement, eleven Utility Patents were filed and granted by the United States Patent and Trademark Office ("USPTO"). Each Utility Patent will expire on the 20-year anniversary of the original application filing date. There are two additional Utility Patents pending having the same filing date as the last two to issue. Together, these thirteen Utility Patents make up the Licensed Patents.

On November 13, 2019, PCT entered into a Technology Sublicense Agreement with Impact Recycling Limited, a Scottish company and Impact Laboratories Limited, a limited Scottish company (together, "Impact Recycling"), an Amendment and Addendum to Technology Sublicense Agreement, dated as of May 27, 2020, with Impact Recycling and a Second Amendment and Addendum to Technology Sublicense Agreement, date as of December 15, 2020, with Impact Recycling (together and as amended, the "Impact Sublicense Agreement"). Pursuant to the Impact Sublicense Agreement, PCT has been granted a limited sublicense by Impact Recycling to, after payment of the Initial License Fee (as defined below), use the sublicensed separation technology to prepare feedstock for purification treatment involving the Technology in order to manufacture and sell License Products (as defined in the Impact Sublicense Agreement).

PCT is required to pay a one-time, nonrefundable initial fee of \$2,500,000 (the "Initial License Fee") pursuant to the Impact Sublicense Agreement. PCT is also required to pay certain royalties. Specifically, for all Licensed Product produced in a calendar year under the Impact Sublicense Agreement for purification treatment involving the P&G technology, PCT is required to pay royalties in the amount of \$22 per metric ton for production volumes of between 228,000 metric tons and 342,000 metric tons and \$33 per metric ton for production volumes of more than 342,000 metric tons. For all Licensed Product produced in a calendar year under the Impact Sublicense Agreement but not for purification treatment involving the P&G technology, PCT is required to pay royalties equal to 10% of Net Sales (as defined in the Impact Sublicense Agreement) from such Licensed Product. PCT is also required to pay royalties equal to 10% of Net Sales from such Licensed Product produced in a calendar year using the P&G technology and either (i) the feedstock has less than the targeted five percent by weight of polyolefins or (ii) the commercial facility has a production capacity of less than 10,000 metric tons per annum.

The terms of payment of the Initial License Fee, including due date, ability to pay in installments, and certain related fees have been modified in the amendments to the initial Impact Sublicense Agreement. As of March 19, 2021, PCT has paid \$1,640,000 to Impact Recycling and \$934,615 is due to Impact Recycling on the earlier of (i) 10 days after the Closing Date and (ii) May 31, 2021.

The Impact Sublicense Agreement will remain in full force and effect until the last to expire of any of the Patents (as defined in the Impact Sublicense Agreement) that make up the sublicensed separation technology, unless terminated earlier due to a material breach of the Impact Sublicense Agreement, PCT's failure to pay the Initial License Fee (as modified) or royalties or the bankruptcy of PCT. The last of the Patents that make up the sublicensed separation technology are expected to remain in full force and effect until July 27, 2035.

Facilities

From May 2018 to September 2020, PCT leased the Lawrence County, Ohio property from Innventure LLC, an affiliate of PCT. On October 8, 2020, a PCT subsidiary purchased the land from Innventure LLC. See the section entitled "*Certain Relationships and Related Party Transactions.*"

PCT leases its office space, which consists of 2,870 square feet located at 5950 Hazeltine National Drive, Suite 650, Orlando, Florida 32822 expiring September 2022 and 2,714 square feet located at 325 County Road 1A, Ironton, OH 45638. The lease was renegotiated and, pursuant to the lease entered into in January of 2021, expires in January 2026.

PCT believes that its current facilities are suitable and adequate to meet its current needs.

Human Capital Resources

Employees & Demographics. As of December 31, 2020, PCT employs 38 employees. None of PCT's employees are represented by a labor union. With respect to demographics, approximately 30% of our employees are female and 70% are male. There will be additions to our staff in the coming months as our operations expand to support the initial operation of the Project and the contemplated future expansion.

Talent & Turnover. With a focus on talent acquisition, the leadership team seeks out the most qualified candidates for open roles and endeavors to keep them at PCT. We have a robust program for seeking out those candidates, which ranges from sourcing through talent applications, reviewing direct applicants and using internal referrals to fill roles. Additionally, we strive to promote internally, if applicable. Our program has resulted in a low turnover rate of 6% to date.

Compensation Practice & Pay Equality. As PCT evolves and expands operations, Human Resources in partnership with the leadership team will continue to evaluate the existing workforce to ensure that best practices are maintained across the entire team without risk of inequality. Pay structures will be reviewed annually to ensure best practices in a competitive market and, as part of that review, compensation will be realigned where appropriate for existing employees and new hires.

75

Legal Proceedings

As of the date of this prospectus, PCT was not party to any material legal proceedings. In the future, PCT may become party to legal matters and claims arising in the ordinary course of business, the resolution of which PCT does not anticipate would have a material adverse impact on its financial position, results of operations or cash flows.

76

COMBINED COMPANY MANAGEMENT

References in this section to "we", "our", "us" and the "Company" generally refer to PCT and its consolidated subsidiaries prior to the Business Combination and ParentCo and its consolidated subsidiaries after giving effect to the Business Combination, also referred to as the Combined Company.

Executive Officers and Directors After the Business Combination

The following persons are expected to serve as the Combined Company's executive officers and directors following the Business Combination.

Name	Age	Position
Executive Officers		
Michael Otworth ⁽³⁾	59	Chairman, Chief Executive Officer and Director
Michael Dee	64	Chief Financial Officer
David Brenner	35	Chief Commercial Officer
Dustin Olson	44	Chief Manufacturing Officer
Brad Kalter	54	General Counsel and Corporate Secretary
Non-Employee Directors		
Tanya Burnell ⁽¹⁾	44	Director
Richard Brenner ⁽²⁾	66	Director
Dr. John Scott ⁽¹⁾	70	Director
Jeffrey Fieler ⁽²⁾	51	Director
Timothy Glockner ⁽¹⁾	44	Director
Fernando Musa ⁽³⁾	55	Director

(1) Class I director, with a term expiring at the annual meeting of stockholders to be held in 2022.

(2) Class II director, with a term expiring at the annual meeting of stockholders to be held in 2023.

(3) Class III director, with a term expiring at the annual meeting of stockholders to be held in 2024.

Michael Otworth will serve as the Combined Company's Chairman and Chief Executive Officer and as a member of the Combined Company's board of directors. Mr. Otworth has served as Chief Executive Officer of PCT and as a member of PCT's board of directors since October 2015. Mr. Otworth also served as Chief Executive Officer of Innventure LLC, an affiliate of PCT, from October 2015 to January 2021. Previously, Mr. Otworth served as President and Founding Partner of Green Ocean Innovation from 2008 to 2015, which provided technology sourcing and innovation strategy and development services to Lilly/Elanco Animal Health primarily focusing on therapeutics, diagnostics and various medical devices. Prior to Green Ocean Innovation, he served as Vice-President and Founding CEO of multiple start-ups at XL TechGroup ("XLTG"), a venture capital firm, from 1996 to 2000. Additionally, Mr. Otworth was a key senior management leader of XLTG, which founded, capitalized and advanced companies successfully to late stage funding from 2000 to 2008. He began his career on Capitol Hill working as a legislative aide and committee staff member in the U.S. House of Representatives after attending Otterbein University. We believe Mr. Otworth is qualified to serve as Chief Executive Officer of the Combined Company and as a member of the Combined Company's board due to his more than 24 years of experience leading start-ups in the technology industry.

Michael Dee will serve as the Combined Company's Chief Financial Officer. Mr. Dee joined as the Company's Chief Financial Officer in October 2020. Previously, Mr. Dee served as the Managing Member of Bird Creek Capital LLC, a consulting services company, providing advice and services to the Company. Before joining the Company, Mr. Dee served as the President and Chief Financial Officer and a member of the board of directors of Graf Industrial Corp., a special purpose acquisition company from October 2018 to September 2020, which acquired a lidar technology company in September 2020. Previously, Mr. Dee was involved in a number of personal investment and philanthropic activities. In 2015 and 2016, Mr. Dee was a Senior Advisor to the President for Finance of the Asian Infrastructure Investment Bank, a \$100 billion multilateral development bank, and served as a member of its Management and Investment Committee. From 2010 to 2015, Mr. Dee managed various private investments, including providing advice to SeaOne Maritime Corp., a startup focused on the monetization of natural gas and gas liquids. Mr. Dee was Senior Managing Director - International of Temasek Holdings Private Limited, Singapore's sovereign investment company, from 2008 to 2010 and also served as a senior member of its Management Committee and Investment Committee. Prior to joining Temasek, Mr. Dee worked at Morgan Stanley from 1981 to 2007 in a variety of senior positions in its capital markets, mergers and acquisitions and firm management divisions, including acting as Head of Fixed Income Capital Markets, Sovereign and Financial Institutions Coverage for Asia, Regional Chief Executive Officer for Southeast Asia and as Head of Morgan Stanley's regional office in Houston. He was also appointed Singapore's Honorary Consul General in Houston.

Mr. Dee received a Bachelor of Science degree in Economics from the Wharton School of the University of Pennsylvania in 1981. Mr. Dee's qualifications include his extensive global experience in public markets, corporate finance, and mergers and acquisitions.

David Brenner will serve as the Combined Company's Chief Commercial Officer. Mr. Brenner has served as the Company's Chief Commercial Officer since August 2020. He also served as PCT's Chief Integration Officer from January 2017 to August 2020. Prior to joining PCT, Mr. Brenner was a Senior Solution Manager, from September 2016 to November 2016, and a Manager, from September 2012 to September 2016, at Deloitte Touche Tohmatsu Limited, a division of a multinational professional services network. Mr. Brenner's prior experience also includes leading the implementation of Electronic Medical Records for orthopedic surgeons, modernizing flagship applications for the Centers for Medicare and Medicaid Services, and supporting the implementation of the Affordable Care Act at Health Care Service Corporation. He earned his MBA from Texas A&M and holds a B.A. in Business Administration, Operations Management from The University of Texas.

Dustin Olson will serve as the Combined Company's Chief Manufacturing Officer. Mr. Olson has served as the Company's Chief Manufacturing Officer since January 1, 2021. Previously, Mr. Olson served as the Vice President of Advanced Polymer Solutions of LyondellBasell, a multinational chemical company and licensor of polyethylene and polypropylene technologies, from August 2018 to December 2020, where he had commercial responsibilities for all advanced polymer solution activities across Asia-Pacific, Africa, the Middle East and India. From June 2017 to August 2018, Mr. Olson served as LyondellBasell's Director of Polypropylene Compounds, where he was commercially and functionally responsible for polypropylene compounds activities across Asia-Pacific, Africa, the Middle East and India. In addition, Mr. Olson also served as Director of Manufacturing for Compounding, Catalyst and Ethanol for LyondellBasell from June 2015 to June 2017, where he was responsible for all compounding, catalyst and ethanol manufacturing activities across the Americas. Mr. Olson received a B.S. in Chemical Engineering from the University of Missouri-Rolla, a Master's degree in Chemical Engineering from the University of Houston, and an MBA from Rice University's Jesse H. Jones Graduate School of Management.

Brad Kalter will serve as the Combined Company's General Counsel and Corporate Secretary. Mr. Kalter has served as the Company's General Counsel and Corporate Secretary since January 25, 2021. Previously, Mr. Kalter served as General Counsel, Chief Legal Officer and Secretary of United Insurance Holdings Corp., a property and casualty insurance holding company, from February 2019 to January 2021. From October 2015 to February 2019, Mr. Kalter served as Executive Vice President, General Counsel and Corporate Secretary of Exide Technologies ("Exide"), a battery manufacturing and energy storage business, overseeing global legal from 2015 to February 2019. Mr. Kalter was responsible for overseeing the legal functions of the organization including corporate governance, compliance, litigation and subsidiary management, as well as overseeing legal aspects of corporate financing transactions and mergers and acquisitions. Mr. Kalter previously served as Vice President, Deputy General Counsel and Corporate Secretary at Exide from 2009 to September 2015 and also as Exide's Deputy General Counsel and Corporate Secretary from 2006 to 2008. Prior to joining Exide, Mr. Kalter served as General Counsel at Cotton States Insurance Group, a multi-line insurance group, from 1999 through 2003. Mr. Kalter holds a J.D. from Emory University and a B.A. in Political Science and Communications from the University of Pennsylvania.

Non-Employee Directors

Tanya Burnell will serve as a member of the Combined Company's board of directors. Ms. Burnell has been a member of the board of directors of PCT since August 2020. Since June 2013, Ms. Burnell has served as a Director of CC Industries, Inc., an affiliate of Henry Crown and Company, a privately owned investment company that invests in public and private securities, real estate, and operating companies. In her role, Ms. Burnell focuses primarily on sourcing and executing new investment opportunities, and providing strategic, financial and operational oversight to operating companies. We believe Ms. Burnell is well-qualified to serve as a member of the Combined Company's board due to her expertise and experience in finance, operational oversight, and strategy.

Richard Brenner will serve as a member of the Combined Company's board of directors. Mr. Brenner has served as the Chief Operating Officer of Innventure LLC, an affiliate of PCT, and as a member of the board of directors of PCT since October 16, 2015. Previously, he was the CEO and Co-founder of SPRIM Strategy & Intelligent Innovation, a strategy consulting firm, from 2012 to March 2017, where he oversaw the company's business operations and ensured the company had effective operational and financial procedures in place. Earlier in his career, Mr. Brenner served as Marketing Director at P&G for Noxzema skin care, followed by Secret and Sure antiperspirants in Cincinnati. He earned his MBA from Northwestern University and his B.S. in Business Administration from the University of Maryland. We believe Mr. Brenner is well-qualified to serve as a member of the Combined Company's board due to his experience in strategy marketing, finance and operations.

Dr. John Scott will serve as a member of the Combined Company's board of directors. Dr. Scott is the Founder and Principal of the Company and has served as PCT's Chief Science Officer and as a member of the Company's board of directors since October 2015. Additionally, he has served as a senior scientific advisor to PCT's management team since 2015. Additionally, Dr. Scott is a founder of XLTG and served as its CEO from 1993 to 2013. For the early part of his career, Dr. Scott was an academic scientist for various universities and government labs including the Universities of Maryland, North Carolina and Arizona and the NASA Goddard Space Flight Center. Additionally, he served as a scientific consultant to six national governments and has advised NATO and the Institute for Defense Analysis. Based on these experiences, Dr. Scott devised a systematic methodology for founding, funding and scaling start-up disruptive technology companies. He is a dual program Ph.D. in Physics/Astrophysics with over 60 papers published. We believe Dr. Scott is qualified to serve as a member of the Combined Company's board due to his vast scientific expertise and his over 45 years of experience in scientific development, consulting and leadership.

Jeffrey Fieler will serve as a member of the Combined Company's board of directors. From June 2010 to March 2018, Mr. Fieler served as the Founder and Portfolio Manager of Sylebra Capital Management, a global investment manager, where he managed an active portfolio in the global technology, media and telecommunications sectors with assets under management in excess of \$1.5 billion. From May 2003 until June 2010, Mr. Fieler served as a Senior Partner (from January 2007 until June 2010) and Partner (from May 2003 until January 2007) at Coatue Management, a global investment manager, where he managed investment research and portfolio positions related to the internet, media and telecom industries. From March 2000 until May 2003, Mr. Fieler was a Managing Director and Senior Internet Analyst at Bear Stearns, an investment bank. Mr. Fieler has an MBA from the New York University Stern School of Business and a B.A. from Brown University. We believe Mr. Fieler is well-qualified to serve as a member of the Combined Company's board due to his broad experience in finance and investing.

Timothy Glockner will serve as a member of the Combined Company's board of directors. Since 2019, Mr. Glockner has served as the president of Glockner Enterprises, a transportation finance, insurance and investment company. Mr. Glockner served as Vice President of Glockner Enterprises from 2002 until 2019. We believe Mr. Glockner is well-qualified to serve as a member of the Combined Company's board due to his over 18 years of experience in operations, leadership and company development.

Fernando Musa will serve as a member of the Combined Company's board of directors. Since March 2020, Mr. Musa has served as an Operating Partner of Advent International, a global private equity firm. Previously, Mr. Musa served as the Global CEO of Braskem S.A., a petrochemical company, from May 2016 to December 2019, as CEO of Braskem America from May 2012 to April 2016, and as Braskem's Vice President of Planning and Business Development in 2011. In 2010, Mr. Musa was responsible for Braskem's Quattor Planning and Integration process. Prior to joining Braskem, Mr. Musa was a Partner of Pragma Gestão de Patrimônio Ltda., a wealth management firm, from 2008 to 2009. From 1998 to 2007, Mr. Musa was Managing Partner and Co-Head of the Latin American Practice of Monitor Group, a multinational strategy consulting practice. From 1997 to 2001, Mr. Musa served as Founding Partner of MGDK, a local consulting firm focused on turnaround and venture capital. In 1995 and 1996, Mr. Musa was a Strategic Planning Director at Editora Abril, a publishing and printing company, and was a Business Analyst and Engagement Manager at McKinsey, a worldwide management consulting firm, from 1990 to 1995. Mr. Musa also participated in the Management Trainee Program at Dow Chemical in 1989. Since March 2020, Mr. Musa has served as a Senior Advisor of Bain & Company, a global management consultancy firm, and from March to December 2020 was a member of the Advisory Board of Oxiteno, a multinational manufacturer of surfactants and chemicals. Mr. Musa received a degree in Mechanical Engineering from the Instituto Tecnológico da Aeronáutica in 1988, and also received an MBA from Insead in 1992. We believe Mr. Musa is well-qualified to serve as a member of the Combined Company's board due to his vast experience in chemical sciences and his over 30 years of experience in strategic management and finance in leadership roles.

Company Related Party Transactions

Other than described below, there are no related party transactions between the Company and the anticipated executive officers and directors of the Combined Company.

Mr. Fieler agreed to purchase 1,000,000 shares of Common Stock in the PIPE for an aggregate purchase price of \$10.0 million, which amount was reduced to 700,000 shares for an aggregate purchase price of \$7.0 million in connection with the finalization of the PIPE Placement allocations.

For more details regarding the related party transactions between the Company and its other anticipated executive officers and directors, see the section entitled “*Certain Relationships and Related Party Transactions.*”

Corporate Governance

We will structure our corporate governance in a manner the Combined Company believes will closely align our interest with those of our stockholders following the Business Combination. Notable features of this corporate governance include:

- we will have independent director representation on our audit, compensation and nominating and corporate governance committees immediately at the time of the Business Combination, and our independent directors will meet regularly in executive sessions without the presence of our corporate officers or non-independent directors; and
- at least one of our directors will qualify as an “audit committee financial expert” as defined by the SEC.

Election of Officers

Each executive officer serves at the discretion of our board of directors and holds office until his or her successor is duly appointed or until his or her earlier resignation or removal. Other than Richard Brenner and David Brenner, who are father and son, respectively, there are no family relationships among any of our directors and executive officers.

Board Composition

Our board of directors will consist of seven directors upon closing of the Business Combination. Each of the Combined Company’s directors will continue to serve as a director until the election and qualification of his or her successor or until his or her earlier death, resignation or removal. The authorized number of directors may be changed by resolution of our board of directors. Vacancies on our board of directors can be filled by resolution of our board of directors.

Our board of directors is divided into three classes, each serving staggered, three-year terms until the date (the “Sunset Date”) of the first annual meeting of the stockholders that is held after the fifth anniversary of the effectiveness of the Amended and Restated Certificate of Incorporation:

- our Class I directors will be Dr. John Scott, Tanya Burrell and Timothy Glockner, and their terms will expire at the first annual meeting of stockholders following the date of this prospectus;
- our Class II directors will be Richard Brenner and Jeffrey Fieler, and their terms will expire at the second annual meeting of stockholders following the date of this prospectus; and
- our Class III directors will be Michael Otworth and Fernando Musa, and their terms will expire at the third annual meeting of stockholders following the date of this prospectus.

Each of Mr. Musa and Mr. Fieler is a director designated by certain of the ROCH Investors (as defined therein) and the Pre-PIPE Investors (as defined therein), respectively, pursuant to the Investor Rights Agreement. Pursuant to the Investor Rights Agreement, one of the two directors will be designated by certain of the ROCH Investors for two years following the date of the Investor Rights Agreement and, in that two year period, the other director will be designated by certain of the Pre-PIPE Investors until the Pre-PIPE Investors no longer hold 10% or more of the Combined Company’s outstanding Common Stock (the “Threshold”). Following the end of the above-mentioned two year period and until the Pre-PIPE Investors no longer hold the Threshold, certain of the Pre-PIPE Investors shall continue to have the right to designate one director to the Combined Company’s board of directors. Ms. Burnell is a director designated by Pure Crown LLC pursuant to the Pure Crown Letter Agreement. For more details, see the section entitled “*Certain Relationships and Related Party Transactions — Class A Unit Purchase Agreement with Pure Crown LLC.*”

Prior to the Sunset Date and as a result of the staggered board, only one class of directors will be elected at each annual meeting of stockholders, with the other classes continuing for the remainder of their respective terms. At any meeting of stockholders at which directors are to be elected prior to the Sunset Date, the number of directors elected may not exceed the greatest number of directors then in office in any class of directors. The directors first elected to Class I will hold office for a term expiring at the annual meeting of stockholders to be held in 2021; the directors first elected to Class II will hold office for a term expiring at the annual meeting of stockholders to be held in 2022; and the directors first elected to Class III will hold office for a term expiring at the annual meeting of stockholders to be held in 2023, with the members of each class to hold office until their successors are elected and qualified. At each succeeding annual meeting of the stockholders of the Combined Company held prior to the Sunset Date, the successors to the class of directors whose term expires at that meeting will be elected by plurality vote of all votes cast at such meeting to hold office for a term expiring at the annual meeting of stockholders held in the third year following the year of their election and until their successors are elected and qualified. All directors elected at annual meetings of stockholders held on or after the Sunset Date will be elected for terms expiring at the next annual meeting of stockholders and will not be subject to the classification provisions set forth above. Subject to the rights, if any, of the holders of any series of preferred stock to elect additional directors under circumstances specified in a preferred stock designation, directors may be elected by the stockholders only at an annual meeting of stockholders.

Our board of directors will be chaired by Mr. Otworth, the current Chief Executive Officer of PCT. Our board of directors believes that combining the positions of Chief Executive Officer and Chairman helps to ensure that our board of directors and management act with a common purpose. In addition, our board of directors believes that a combined Chief Executive Officer and Chairman is better positioned to act as a bridge between management and our board of directors, facilitating the regular flow of information. Our board of directors also believes that it is advantageous to have a chairperson with significant history with and extensive knowledge of PCT, as is the case with Mr. Otworth.

Independence of our Board of Directors

Our board of directors has undertaken a review of the independence of each director. Based on information provided by each director concerning his or her background, employment, and affiliations, our board of directors has determined that the Combined Company’s board of directors will meet independence standards under the applicable

rules and regulations of the SEC and the listing standards of NASDAQ. In making these determinations, our board of directors considered the current and prior relationships that each non-employee director has with our company and all other facts and circumstances our board of directors deemed relevant in determining their independence, including the beneficial ownership of our capital stock by each non-employee director, and the transactions involving them described in the section titled “*Certain Relationships and Related Party Transactions*.” In making these determinations, our board of directors considered, among other things, the Glockner Line of Credit in light of Mr. Timothy Glockner’s position as President of Glockner Enterprises, an affiliate of Glockner Finance and Auto Now Acceptance Co., LLC. The interest expense paid by the Company in connection with the Glockner Line of Credit was less than the greater of \$200,000 or 5% of the annual consolidated gross revenues of Glockner Enterprises in the current year and in each of the past three fiscal years. Our board of directors ultimately concluded that this relationship did not impair Mr. Timothy Glockner’s independence. The Glockner Line of Credit was paid off in full on December 21, 2020.

Board Committees

Our board of directors has three standing committees: an audit committee; a compensation committee and a nominating and corporate governance committee. Each of the committees will report to the board of directors as it deems appropriate and as the board of directors may request. The expected composition, duties and responsibilities of these committees are set forth below. In the future, our board of directors may establish other committees, as it deems appropriate, to assist it with its responsibilities.

Each member of our three standing committees will be independent under applicable SEC and NASDAQ rules. Therefore, Mr. Michael Otworth, Mr. Richard Brenner and Dr. John Scott will not serve on any of our three standing committees.

Audit Committee

The audit committee provides assistance to our board of directors in fulfilling its legal and fiduciary obligations in matters involving our accounting, auditing, financial reporting and legal compliance functions by approving the services performed by our independent registered public accounting firm and reviewing their reports regarding our accounting practices and systems of internal accounting controls. The audit committee also oversees the audit efforts of our independent registered public accounting firm and takes those actions as it deems necessary to satisfy itself that the independent registered public accounting firm is independent of management. Subject to phase-in rules and a limited exception, the rules of NASDAQ and Rule 10A-3 of the Exchange Act require that the audit committee of a listed company be comprised solely of independent directors. Our audit committee will meet the requirements for independence of audit committee members under applicable SEC and NASDAQ rules. All of the members of our audit committee meet the requirements for financial literacy under the applicable rules and regulations of the SEC and NASDAQ. In addition, each of Ms. Burnell, Mr. Musa and Mr. Fieler qualifies as our “audit committee financial expert,” as such term is defined in Item 407 of Regulation S-K.

Our board of directors will adopt a new written charter for the audit committee, which will be available on our website after adoption. The information on our website is not intended to form a part of or be incorporated by reference into this prospectus.

Compensation Committee

The compensation committee will determine our general compensation policies and the compensation provided to our officers. The compensation committee will also make recommendations to our board of directors regarding director compensation. In addition, the compensation committee will review and determine security-based compensation for our directors, officers, employees and consultants and will administer our equity incentive plans. Our compensation committee will also oversee our corporate compensation programs. Each member of our compensation committee will be independent, as defined under the NASDAQ listing rules, and will also satisfy NASDAQ’s additional independence standards for compensation committee members. Each member of our compensation committee will be a non-employee director (within the meaning of Rule 16b-3 under the Exchange Act).

Our board of directors will adopt a new written charter for the compensation committee, which will be available on our website after adoption. The information on our website is not intended to form a part of or be incorporated by reference into this prospectus.

Nominating and Corporate Governance Committee

The nominating and corporate governance committee is responsible for making recommendations to our board of directors regarding candidates for directorships and the size and composition of the board. In addition, the nominating and corporate governance committee will be responsible for overseeing our corporate governance and reporting and making recommendations to the board of directors concerning corporate governance matters. Each member of our nominating and corporate governance committee will be independent as defined under the NASDAQ listing rules.

Our board of directors will adopt a new written charter for the nominating and corporate governance committee, which will be available on our website after adoption. The information on our website is not intended to form a part of or be incorporated by reference into this prospectus.

Role of Our Board of Directors in Risk Oversight

One of the key functions of our board of directors is informed oversight of our risk management process. Our board of directors administers this oversight function directly through our board of directors as a whole, as well as through various standing committees of our board of directors that address risks inherent in their respective areas of oversight. In particular, our board of directors is responsible for monitoring and assessing strategic risk exposure, and our audit committee will have the responsibility to consider and discuss our major financial risk exposures and the steps our management has taken to monitor and control these exposures, including guidelines and policies to govern the process by which risk assessment and management is undertaken. The audit committee will also have the responsibility to review with management the process by which risk assessment and management is undertaken, monitor compliance with legal and regulatory requirements, and review the adequacy and effectiveness of our internal controls over financial reporting. Our nominating and corporate governance committee will be responsible for periodically evaluating our company’s corporate governance policies and systems in light of the governance risks that our company faces and the adequacy of our company’s policies and procedures designed to address such risks. Our compensation committee will assess and monitor whether any of our compensation plans, policies and programs comply with applicable legal and regulatory requirements.

Compensation Committee Interlocks and Insider Participation

Other than our Chief Executive Officer’s, Mr. Otworth’s, service on the board of managers of Innventure LLC, where ParentCo director Mr. Rick Brenner is an executive officer, no interlocking relationship exists between our board of directors or compensation committee and the board of directors or compensation committee of any other entity, nor has any interlocking relationship existed in the past. None of the members of our compensation committee has at any time during the prior three years been one of our officers or employees.

Code of Business Conduct and Ethics for Employees, Executive Officers, and Directors

Following the Closing of the Business Combination, our board of directors will adopt a Code of Business Conduct and Ethics, or the Code of Conduct, applicable to all of our employees, executive officers and directors, including our Chief Executive Officer, Chief Financial Officer and other executive and senior financial officers. The Code of Conduct will be available on our website after adoption. Any amendments to the Code of Conduct, or any waivers of its requirements, are expected to be disclosed on its website to the extent required by applicable rules and exchange requirements. The information on our website is not intended to form a part of or be incorporated by reference into this prospectus.

Compensation of Directors and Officers

Employment Agreements

PCT has entered into employment agreements with certain of its executive officers that are expected to govern certain terms and conditions of such executive officers' employment following the Business Combination. The employment agreements with Mike Otworth, Michael Dee and David Brenner, which were entered into in November 2020, are described below under "*PCT Executive Compensation — Employment Agreements/Arrangements with our NEOs — New Employment Agreements*" and "*PCT Executive Compensation — Severance and Change in Control Compensation*."

82

Overview of Anticipated Executive Compensation Program

Following the closing of the Business Combination, decisions with respect to the compensation of our executive officers, including our named executive officers, will be made by the compensation committee of our board of directors. The following discussion is based on the present expectations as to the compensation of our named executive officers and directors following the Business Combination. The actual compensation of our named executive officers will depend on the judgment of the members of the compensation committee and may differ from that set forth in the following discussion. Such compensation will also generally be governed by our executive officers' employment agreements, as in effect from time to time, including as described above.

We anticipate that compensation for our executive officers will have the following components: base salary, cash bonus opportunities, equity compensation, employee benefits, executive perquisites and severance benefits. Base salaries, employee benefits, executive perquisites and severance benefits will be designed to attract and retain senior management talent. We will also use annual cash bonuses and equity awards to promote performance-based pay that aligns the interests of our named executive officers with the long-term interests of our equity-owners and to enhance executive retention.

83

Annual Bonuses

We expect that we will use annual cash incentive bonuses for the named executive officers to motivate their achievement of short-term performance goals and tie a portion of their cash compensation to performance. We expect that, near the beginning of each year, the compensation committee will select the performance targets, target amounts, target award opportunities and other terms and conditions of annual cash bonuses for the named executive officers, other than the CEO, making recommendations to the board of directors with regard to the CEO, subject to the terms of their employment agreements. Following the end of each year, the compensation committee will determine the extent to which the performance targets were achieved and the amount of the award that is payable to the named executive officers, other than the CEO, and making recommendations to the board of directors with regard to the CEO.

Stock-Based Awards

We expect to use stock-based awards in future years to promote our interest by providing these executives with the opportunity to acquire equity interests as an incentive for their remaining in our service and aligning the executives' interests with those of our equity holders.

Other Compensation

We expect to continue to offer various employee benefit plans currently offered by PCT (or similar plans). We may also provide our named executive officers with perquisites and personal benefits that are not generally available to all employees.

Director Compensation

Following the Business Combination, our non-employee directors will receive varying levels of compensation for their services as directors and members of committees of our board of directors. We anticipate determining director compensation in accordance with industry practice and standards.

Limitation on Liability and Indemnification of Directors and Officers

The Amended and Restated Certificate of Incorporation, which will be effective upon consummation of the Business Combination, will limit a directors' liability to the fullest extent permitted under the Delaware General Corporation Law ("DGCL"). The DGCL provides that directors of a corporation will not be personally liable for monetary damages for breach of their fiduciary duties as directors, except for liability:

- for any transaction from which the director derives an improper personal benefit;
- for any act or omission not in good faith or that involves intentional misconduct or a knowing violation of law;
- for any unlawful payment of dividends or redemption of shares; or
- for any breach of a director's duty of loyalty to the corporation or its stockholders.

If the DGCL is amended to authorize corporate action further eliminating or limiting the personal liability of directors, then the liability of the directors will be eliminated or limited to the fullest extent permitted by the DGCL, as so amended.

Delaware law and the Amended and Restated Bylaws provide that ParentCo will, in certain situations, indemnify its directors and officers and may indemnify other employees and other agents, to the fullest extent permitted by law. Any indemnified person is also entitled, subject to certain limitations, to advancement, direct payment, or reimbursement

of reasonable expenses (including attorneys' fees and disbursements) in advance of the final disposition of the proceeding.

In addition, ParentCo expects to enter into separate indemnification agreements with its directors and officers. These agreements, among other things, require ParentCo to indemnify its directors and officers for certain expenses, including attorneys' fees, judgments, fines, and settlement amounts incurred by a director or officer in any action or proceeding arising out of their services as one of its directors or officers or any other company or enterprise to which the person provides services at its request.

ParentCo plans to maintain a directors' and officers' insurance policy pursuant to which its directors and officers are insured against liability for actions taken in their capacities as directors and officers. We believe these provisions in the Amended and Restated Certificate of Incorporation Amended and Restated Bylaws and these indemnification agreements are necessary to attract and retain qualified persons as directors and officers.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers, or control persons, in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

PCT EXECUTIVE COMPENSATION

This section discusses the material components of the fiscal year 2020 executive compensation programs for the executive officers of PCT who were "named executive officers" for 2020. This discussion may contain forward-looking statements that are based on PCT's current plans, considerations, expectations and determinations regarding future compensation programs. Actual compensation programs that PCT adopts following the completion of the Business Combination may differ materially from the existing and currently planned programs summarized or referred to in this discussion.

As an emerging growth company, PCT has opted to comply with the executive compensation disclosure rules applicable to "smaller reporting companies" as such term is defined in the rules promulgated under the Securities Act, which, in general, require compensation disclosure for PCT's principal executive officer and its two other most highly compensated executive officers, referred to herein as our named executive officers (the "NEOs").

Mike Otworth was PCT's principal executive officer for the entirety of fiscal 2020. The two most highly compensated executive officers of PCT that were serving in such capacity at the end of fiscal 2020 (other than Mr. Otworth) and are expected to serve as executive officers of the Combined Company following the Business Combination are Michael Dee and David Brenner.

Therefore, for the fiscal year ended December 31, 2020, PCT's NEOs were:

- Mike Otworth, Chief Executive Officer;
- Michael Dee, Chief Financial Officer; and
- David Brenner, Chief Commercial Officer.

The NEOs are expected to continue to serve as executive officers of the Combined Company following the consummation of the Business Combination.

The following table provides information regarding the compensation of PCT's NEOs for the 2020 and 2019 fiscal years. No compensation is reported for Mr. Dee for the 2019 fiscal year, because he did not serve as an executive officer or employee of PCT at any time during 2019 or any prior fiscal year.

Summary Compensation Table

Name and Principal Position	Fiscal Year	Salary (\$) ⁽¹⁾	Bonus (\$)	Stock Awards (\$) ⁽²⁾	Option Awards (\$)	Non-Equity Incentive Plan Compensation (\$)	All Other Compensation (\$) ⁽³⁾	Total (\$)
Mike Otworth <i>Chief Executive Officer</i>	2020	436,875	—	1,548,000	—	—	9,606	1,994,481
	2019	255,000	—	936,600	—	—	—	1,191,600
Michael Dee <i>Chief Financial Officer</i> ⁽⁴⁾	2020	56,250	—	—	—	—	—	56,250
David Brenner <i>Chief Commercial Officer</i> ⁽⁵⁾	2020	231,042	—	1,032,000	—	—	—	1,263,042
	2019	187,751	—	—	—	—	—	187,751

(1) Base salary paid to Mr. Otworth for 2020 represented payment for services to Innventure LLC and PCT. Amounts reported for Mr. Otworth in the table above represent the portions allocated to services to PCT. On February 16, 2020, Mr. Otworth's total base salary rate (for all services) was increased from \$380,000 to \$506,000. On September 1, 2020, David Brenner's base salary rate was increased from \$200,000 to \$265,000. Effective November 14, 2020, pursuant to their New Employment Agreements (as defined below), the base salary rate of Mr. Otworth and Mr. Brenner was further adjusted to be \$750,000 and \$340,000, respectively. Effective November 15, pursuant to his New Employment Agreement, Mr. Dee's initial base salary was established at \$450,000.

(2) Amounts in this column reflect the aggregate grant date fair value of Incentive Unit (as defined below) awards, in each case calculated in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718 ("ASC 718"). For information regarding assumptions underlying the valuation of equity awards, see the discussion under "Management's Discussion and Analysis of Financial Condition and Results of Operations — Critical Accounting Policies and Estimates — Equity-Based Compensation" included elsewhere in this prospectus.

(3) Amounts in this column represent automobile lease payments for Mr. Otworth.

(4) Mr. Dee commenced service as PCT's Chief Financial Officer in November 2020. Prior to such time, Mr. Dee provided consulting services to PCT through Bird Creek Capital LLC ("Bird Creek"), as further described below.

(5) During 2020 and until August 2020, David Brenner served as Chief Integration Officer of PCT. In August 2020, he was appointed Chief Commercial Officer of PCT.

Employment Agreements/Arrangements with our NEOs

Prior Arrangements

Mr. Otworth did not have an employment agreement with PCT prior to the execution of his New Employment Agreement in November 2020.

Since July 2020, Bird Creek, for which Mr. Dee has served as the Managing Director, has provided advisory services to PCT regarding the negotiation of PCT's potential financings. In September 2020, PCT entered into a Consulting Services Agreement (the "Bird Creek Agreement") with Bird Creek to memorialize the terms of the consulting arrangement, including with respect to services provided before the date of the agreement. The fee under the Bird Creek Agreement was to be negotiated between the parties in good faith following the date of the Bird Creek Agreement. Certain payments made pursuant to the Mr. Dee's New Employment Agreement (described below) are deemed to satisfy, in full, PCT's obligations under the Bird Creek Agreement.

Prior to the execution of David Brenner's New Employment Agreement Innventure Management Services LLC was party to an employment agreement, dated April 25, 2018, with Mr. Brenner (the "Prior Brenner Agreement"). The Prior Brenner Agreement provided for, among other things, an initial base salary rate of \$150,000 per year. Pursuant to the Prior Brenner Agreement, either Innventure Management Services LLC or Mr. Brenner could terminate Mr. Brenner's employment at any time, upon which Mr. Brenner would have received any accrued but unpaid base salary and any unpaid business expense reimbursements, but would not have received any severance compensation or benefits. The Prior Brenner Agreement included customary employee and customer non-solicitation provisions that extended for one year following Mr. Brenner's termination of employment, as well as customary confidentiality, intellectual property and non-disparagement provisions in favor of Innventure Management Services LLC.

New Employment Agreements

In November 2020, PCT entered into employment agreements with Mr. Otworth, Mr. Dee and David Brenner (the "New Employment Agreements"). Notwithstanding the terms described below, the New Employment Agreements will terminate if a business combination of PCT with a company formed to raise capital through an initial public offering for the purpose of acquiring an existing company (such as the Business Combination) (a "SPAC Transaction") is not completed on or before December 31, 2021.

Mr. Otworth's New Employment Agreement provides that Mr. Otworth serves as the Chief Executive Officer of PCT and will be nominated to serve on PCT's Board of Directors as Chairman during his term as Chief Executive Officer. Mr. Otworth's base salary under his New Employment Agreement is \$750,000, subject to increase as determined by the Board of Directors of PCT. Mr. Otworth is also entitled to a cash bonus equal to \$5,000,000 in the event that a SPAC Transaction is successfully completed and Mr. Otworth remains continuously employed with PCT through the completion of the SPAC Transaction. The initial term of Mr. Otworth's New Employment Agreement ends on November 14, 2022, but the term will be automatically extended for additional one-year periods thereafter unless either party provides written notice of non-renewal at least 90 days prior to the end of the applicable term.

Mr. Dee's New Employment Agreement provides that Mr. Dee serves as the Chief Financial Officer of PCT. Mr. Dee's base salary under his New Employment Agreement is \$450,000, subject to annual review by the Board of Directors of PCT. The initial term of Mr. Dee's New Employment Agreement ends on November 15, 2022, but the term will be automatically extended for additional one-year periods thereafter unless either party provides written notice of non-renewal at least 30 days prior to the end of the applicable term.

Pursuant to the Mr. Dee's New Employment Agreement, upon the completion of a SPAC Transaction, Mr. Dee will become entitled to total cash payments of \$3,000,000 (the "Negotiated Payment"), payable in two installments during 2021. The Negotiated Payment represents a negotiated fee under the Bird Creek Agreement and reflects the significant contributions made by Mr. Dee with respect to the negotiation of financing transactions to fund working capital and continue construction on the Phase II Facility, as well as his contribution to negotiating and structuring the Merger, the pre-PIPE Investment and the PIPE Investment during the term of the Bird Creek Agreement.

In further recognition of Mr. Dee's significant contributions to PCT during the Bird Creek consulting relationship, his considerable public company experience in finance and accounting and his experience in M&A and the capital markets generally and as an inducement to join the PCT management team, Mr. Dee's New Employment Agreement also provides for the following initial equity awards to Mr. Dee (the "Dee Initial Equity Awards"), contingent upon the successful completion of a SPAC Transaction (assumed for purposes of this disclosure to be the Business Combination) and certain other securities law and stock exchange-based conditions:

- A stock option with a grant date Black-Scholes value of \$7,000,000 and an exercise price equal to the fair market value of the Combined Company's common stock on the date of grant, which stock option will generally vest in substantially equal installments on each of the first three anniversaries of the grant date and have a term of seven years;
- 1,000,000 restricted shares that will generally vest in substantially equal installments on (1) the date that is six months after the Closing Date, (2) the date that is 12 months after the Closing Date, and (3) the date on which PCT's Ironton, Ohio plant becomes operational (as certified in accordance with the terms of Mr. Dee's New Employment Agreement); and
- 200,000 performance-based restricted stock units ("PRsUs") that will generally vest upon the achievement of the Target Price Earnout milestone under the Merger Agreement. Each PRsU will represent the right to receive one share of common stock of the Combined Company.

David Brenner's New Employment Agreement, which supersedes and replaces the Prior Brenner Agreement, provides that Mr. Brenner serves as the Chief Commercial Officer of PCT. Mr. Brenner's base salary under his New Employment Agreement is \$340,000, subject to annual review by the Board of Directors of PCT. The initial term of Mr. Brenner's New Employment Agreement ends on November 14, 2022, but the term will be automatically extended for additional one-year periods thereafter unless either party provides written notice of non-renewal at least 30 days prior to the end of the applicable term.

Under the New Employment Agreements, Mr. Otworth, Mr. Dee and David Brenner are each eligible to receive, for each calendar year during the term of the executive's employment beginning with the calendar year in which a SPAC Transaction is consummated, an annual bonus upon terms determined in the discretion of PCT's Board of Directors. For 2021, Mr. Brenner's annual bonus will consist of cash payments of \$33,333.33 that will be earned upon successful completion of each of the following objectives, subject to the closing of a SPAC Transaction and Mr. Brenner's continued employment through the date of completion of the applicable objective: (1) a SPAC

Transaction closes in 2021; (2) all feedstock is contracted for PCT's second commercial plant in 2021; and (3) all product offtake is contracted for PCT's second commercial plant in 2021.

Also during their term of employment following the consummation of a SPAC Transaction, each NEO will be eligible to participate in PCT's equity compensation plans as determined by PCT's Board of Directors or the compensation committee thereof. Throughout the term of the New Employment Agreement, each of the NEOs will be entitled to fringe benefits and other perquisites consistent with those provided to similarly situated executives of PCT and to employee benefit participation on a basis that is no less favorable than other similarly situated executives of PCT. Under the New Employment Agreements, each of the NEOs agree to enter into a restrictive covenants agreement with PCT, which agreement includes customary non-competition, non-solicitation, and confidentiality provisions.

The New Employment Agreements provide for certain severance benefits for the NEOs in the event of certain terminations of employment, as further described below under "*Severance and Change in Control Compensation*."

2020 Bonus Compensation

None of the NEOs received bonus or cash incentive compensation with respect to fiscal 2020.

2020 Equity-Based Compensation

PCT has granted Class C Units of PCT ("Incentive Units") to certain service providers, including the NEOs, pursuant to the PCT Technologies LLC Amended and Restated Equity Incentive Plan (the "LLC Equity Plan"). The Incentive Units are intended to be "profits interests" for U.S. federal income tax purposes, and holders of Incentive Units do not have any voting rights with respect to such Incentive Units. The Incentive Units entitle the holders thereof to participate in distributions of PCT after certain members of PCT have received the return of an amount specified with respect to the Incentive Unit award (the "Distribution Threshold").

On July 17, 2018, David Brenner was granted 75,328 Incentive Units with a Distribution Threshold of \$12, of which 40% were automatically vested on the grant date, and 20% were scheduled to vest on each of February 1, 2019, February 1, 2020 and February 1, 2021. In August 2019, David Brenner's Incentive Units were amended to provide for a modified vesting schedule. As modified, 25% of the Incentive Units were deemed vested as of February 1, 2017, and 1/36 of the remaining Incentive Units were generally scheduled to vest (or deemed to have vested) on the first day of each month thereafter.

On August 7, 2019, Mr. Otworth was granted 52,500 Incentive Units. These Incentive Units have a Distribution Threshold of \$12 and were 100% vested on the date of grant.

On August 26, 2020, Mr. Otworth was granted 60,000 Incentive Units and David Brenner was granted 40,000 Incentive Units. These Incentive Units have a Distribution Threshold of \$31.20 and were 100% vested on the date of grant.

No Incentive Units have been granted to Mr. Dec.

2021 Equity and Incentive Compensation Plan

Purpose of the Equity Plan

We have adopted the Equity Plan to allow the Combined Company to provide cash awards and equity-based compensation in the form of stock options, stock appreciation rights ("SARs"), restricted stock, restricted stock units ("RSUs"), performance shares, performance units, dividend equivalents, and certain other awards, including those denominated or payable in, or otherwise based on, shares of the Combined Company's common stock, for the purpose of providing incentives and rewards for service and/or performance to the Combined Company's non-employee directors, as well as officers, employees and certain consultants of the Combined Company and its subsidiaries. The Equity Plan will afford the Compensation Committee (as defined below) the ability to design compensatory awards that are responsive to the Combined Company's needs and authorizes a variety of award types designed to advance the interests and long-term success of the Combined Company by encouraging stock ownership among its participants. In addition, the Board believes that the ability to grant cash and equity-based awards will help the Combined Company to attract, retain, and motivate employees, consultants, and directors and encourage them to devote their best efforts to the Combined Company's business and financial success.

Promotion of Good Corporate Governance Practices

The Board believes the use of stock-based incentive awards promotes best practices in corporate governance by incentivizing the creation of stockholder value. By providing participants in the Equity Plan with a stake in the Combined Company's success, the interests of the participants are further aligned with those of stockholders. Specific features of the Equity Plan that are consistent with commonly viewed good corporate governance practices include, but are not limited to:

- the Equity Plan prohibits the grant of dividend equivalents with respect to options and SARs and subjects all dividends and dividend equivalents paid with respect to other awards to the same vesting conditions as the underlying shares subject to the awards;
- the Equity Plan does not contain a liberal change in control definition;
- except in connection with a corporate transaction, options and SARs under the Equity Plan may not be granted with exercise or base prices lower than the fair market value of the underlying shares on the grant date;
- outside of certain corporate transactions or adjustment events described in the Equity Plan or in connection with a "change in control," the exercise or base price of stock options and SARs cannot be reduced, and "underwater" stock options or SARs cannot be cancelled in exchange for cash or replaced with other awards with a lower exercise or base price, without stockholder approval under the Equity Plan; and
- non-employee directors may not be awarded compensation for their service as a director having an aggregate maximum value on the grant date that exceeds \$750,000 during any calendar year, and such limit may not be amended without first seeking stockholder approval.

Potential Dilution

The initial number of shares that may be issued under the Equity Plan represents approximately seven percent of the total number of shares of Common Stock outstanding after the closing of the Business Combination. This initial number of shares will increase on the first day of each fiscal year, beginning in 2022 and ending in 2031, by an amount equal to the lesser of (i) 3% of the shares of Common Stock outstanding on the last day of the immediately preceding fiscal year and (ii) such smaller amount as may be determined by the Board.

Summary of the Equity Plan

The following summary of the material terms of the Equity Plan is qualified in its entirety by reference to a copy of the Equity Plan, a copy of which has been filed as an exhibit

to the registration statement of which this prospectus forms a part.

Administration

The Equity Plan will generally be administered by the compensation committee (or its successor) of the Combined Company's board of directors (for purposes of this section, the "Compensation Committee"), or any other committee of the Combined Company's board of directors (the "Combined Company Board") designated by the Combined Company Board to administer the Equity Plan. However, at the Combined Company Board's discretion, the Equity Plan may be administered by the Combined Company Board, including with respect to the administration of any responsibilities and duties held by the Compensation Committee under the Equity Plan. References to the "Committee" in this section generally refer to the Compensation Committee or such other committee designated by the Combined Company Board, or the Combined Company Board, as applicable. Among other responsibilities, the Committee will select participants and determine the type of awards to be granted to participants, the number of shares of Common Stock to be covered by awards and the terms and conditions of awards, interpret the Equity Plan and awards granted under it, and make any other determination and take any other action that it deems necessary or desirable to administer the Equity Plan. The Committee may from time to time delegate all or any part of its authority under the Equity Plan as permitted by the Equity Plan and applicable law. In addition, the Committee may by resolution, subject to certain restrictions set forth in the Equity Plan, authorize one or more officers of the Combined Company to (1) designate employees to be recipients of awards under the Equity Plan, and (2) determine the size of such awards. The Committee may not, however, delegate such responsibilities to officers for awards granted to non-employee directors or certain officers who are subject to the reporting requirements of Section 16 of the Exchange Act.

Eligibility

Any person who is selected by the Committee to receive benefits under the Equity Plan and who is at that time an officer or other employee of the Combined Company or any of its subsidiaries (including a person who has agreed to commence serving in such capacity within 90 days of the date of grant) is eligible to participate in the Equity Plan. In addition, non-employee directors of the Combined Company and certain persons (including consultants) who provide services to the Combined Company or any of its subsidiaries that are equivalent to those typically provided by an employee (provided such persons satisfy the Form S-8 definition of "employee"), may also be selected by the Committee to participate in the Equity Plan. Based on current expectations as of March 19, 2021, there will be approximately 35 employees of the Combined Company or its subsidiaries and 6 non-employee directors of the Combined Company eligible to participate in the Equity Plan following the Business Combination, if selected by the Committee. Although the Equity Plan permits participation by consultants, there are currently no consultants who are expected to participate in the Equity Plan following the Business Combination. The basis for participation in the Equity Plan by eligible persons is the selection of such persons for participation by the Committee (or its proper delegate) in its discretion.

Shares available for awards under the Equity Plan

Subject to adjustment as described in the Equity Plan and the Equity Plan's share counting rules, the number of shares of Common Stock available under the Equity Plan for awards of:

- stock options or SARs;
- restricted stock;
- RSUs;
- performance shares or performance units;
- other stock-based awards under the Equity Plan; or
- dividend equivalents paid with respect to awards under the Equity Plan

will not exceed, in the aggregate, 8,282,960 shares of Common Stock (the "Share Limit") plus Common Stock that becomes available under the Equity Plan as a result of forfeiture, cancellation, expiration, cash settlement or less-than-maximum earning of Equity Plan awards after the effective date of the Equity Plan. The Share Limit will be automatically increased on the first day of each fiscal year, beginning in 2022 and ending in 2031, by an amount equal to the lesser of (i) 3% of the shares of Common Stock outstanding on the last day of the immediately preceding fiscal year and (ii) such smaller number of shares as determined by the Board.

If any award granted under the Equity Plan expires unexercised, is canceled, forfeited, settled in cash or unearned (in whole or in part), shares of Common Stock subject to such award will again be made available for future grants under the Equity Plan. Use of shares of our common stock to pay the required exercise price or tax obligations, or shares not issued in connection with settlement of an option or stock-settled SAR, or reacquired by the Combined Company on the open market or otherwise using cash proceeds from the exercise of an option will not be available again for other awards under the Equity Plan; provided, however, that shares of our common stock used to satisfy tax obligations for awards other than stock options and SARs will be available for issuance again under the Equity Plan (for up to 10 years from the date of stockholder approval of the Equity Plan if such recycling involves shares that have already been issued). If a participant elects to give up the right to receive compensation in exchange for shares of common stock based on fair market value, such shares of common stock will not count against the aggregate limit of shares authorized under the Equity Plan to the extent permitted by applicable laws and regulations.

Subject to adjustment as provided in the Equity Plan, the aggregate number of shares of Common Stock actually issued or transferred upon the exercise of stock options that are intended to qualify as "incentive stock options" under Section 422 of the Code will not exceed 8,282,960 shares of Common Stock (the "ISO Limit"), provided that the ISO Limit will increase by 3,549,840 shares of Common Stock on the first day of each fiscal year beginning in 2022 and ending in 2031 (subject in all events to the Share Limit).

Types of awards under the Equity Plan

Pursuant to the Equity Plan, the Combined Company may grant cash awards and stock options, SARs, restricted stock, RSUs, performance shares, performance units, and certain other awards based on or related to the Common Stock.

Generally, each grant of an award under the Equity Plan will be evidenced by an award agreement, certificate, resolution or other type or form of writing or other evidence approved by the Committee (an "Evidence of Award"), which will contain such terms and provisions as the Committee may determine, consistent with the Equity Plan. A brief description of the types of awards which may be granted under the Equity Plan is set forth below.

Stock options

A stock option is a right to purchase Common Stock upon exercise of the stock option. Stock options granted to an employee under the Equity Plan may consist of either a stock option intended to be an "incentive stock option" as defined in Section 422 of the Code or a non-qualified stock option, or a combination of both. Incentive stock options may only be granted to employees of the Combined Company or certain of its related corporations. Except with respect to awards issued in substitution for, in conversion of, or in connection with an assumption of stock options held by awardees of an entity engaging in a corporate transaction (including an acquisition or merger) with the Combined Company or any of its subsidiaries, stock options must have an exercise price per share of Common Stock that is not less than the fair market value of a share of Common Stock on the date of grant. The term of a stock option may not extend more than 10 years from the date of grant. The Committee may provide in an Evidence of Award for the automatic exercise of a stock option.

Each grant of a stock option will specify the applicable terms of the stock option, including the number of shares of Common Stock subject to the stock option and the required period or periods of the participant's continuous service, if any, before any stock option or portion of a stock option will become exercisable. Stock options may provide for continued vesting or the earlier exercise of the stock options, including in the event of retirement, death, disability or termination of employment or service of the participant or in the event of a change in control.

Any grant of stock options may specify management objectives regarding the vesting of the stock options. Each grant will specify whether the consideration to be paid in satisfaction of the exercise price will be payable: (1) in cash, by check acceptable to the Combined Company, or by wire transfer of immediately available funds; (2) by the actual or constructive transfer to the Combined Company of Common Stock owned by the participant with a value at the time of exercise that is equal to the total exercise price; (3) subject to any conditions or limitations established by the Committee, by a net exercise arrangement pursuant to which the Combined Company will withhold Common Stock otherwise issuable upon exercise of a stock option; (4) by a combination of the foregoing methods; or (5) by such other methods as may be approved by the Committee. To the extent permitted by law, any grant may provide for deferred payment of the exercise price from the proceeds of a sale through a bank or broker of some or all of the shares to which the exercise relates. Stock options granted under the Equity Plan may not provide for dividends or dividend equivalents.

SARs

The Committee may, from time to time and upon such terms and conditions as it may determine, authorize the granting of SARs. A SAR is a right to receive from the Combined Company an amount equal to 100%, or such lesser percentage as the Committee may determine, of the spread between the base price and the fair market value of a share of Common Stock on the date of exercise.

Each grant of SARs will specify the period or periods of continuous service, if any, by the participant with the Combined Company or any subsidiary that is necessary before the SARs or installments of such SARs will become exercisable. SARs may provide for continued vesting or earlier exercise, including in the case of retirement, death, disability or termination of employment or service of the participant or in the event of a change in control. Any grant of SARs may specify management objectives regarding the vesting of such SARs. A SAR may be paid in cash, Common Stock or any combination of the two.

Except with respect to awards issued in substitution for, in conversion of, or in connection with an assumption of SARs held by awardees of an entity engaging in a corporate transaction (including an acquisition or merger) with the Combined Company or any of its subsidiaries, the base price of a SAR may not be less than the fair market value of a share of Common Stock on the date of grant. The term of a SAR may not extend more than 10 years from the date of grant. SARs granted under the Equity Plan may not provide for dividends or dividend equivalents.

Restricted Stock

Restricted stock constitutes an immediate transfer of the ownership of shares of Common Stock to the participant in consideration of the performance of services, entitling such participant to voting, dividend and other ownership rights, but subject to the substantial risk of forfeiture and restrictions on transfer determined by the Committee for a period of time determined by the Committee or until certain management objectives specified by the Committee are achieved. Each such grant or sale of restricted stock may be made without additional consideration or in consideration of a payment by the participant that is less than the fair market value per share of Common Stock on the date of grant.

Any grant of restricted stock may specify management objectives regarding the vesting of the restricted stock. Any grant of restricted stock may require that any and all dividends or other distributions paid on restricted stock that remains subject to a substantial risk of forfeiture be automatically deferred and/or reinvested in additional restricted stock, which will be subject to the same restrictions as the underlying restricted stock, but any such dividends or other distributions on restricted stock must be deferred until, and paid contingent upon, the vesting of such restricted stock. Restricted stock may provide for continued vesting or the earlier vesting of such restricted stock, including in the event of retirement, death, disability or termination of employment or service of the participant or in the event of a change in control.

RSUs

RSUs awarded under the Equity Plan constitute an agreement by the Combined Company to deliver Common Stock, cash, or a combination of the two, to the participant in the future in consideration of the performance of services, but subject to the fulfillment of such conditions (which may include achievement regarding management objectives) during the restriction period as the Committee may specify. Each grant or sale of RSUs may be made without additional consideration or in consideration of a payment by the participant that is less than the fair market value per share of Common Stock on the date of grant.

RSUs may provide for continued vesting or the earlier lapse or other modification of the restriction period, including in the event of retirement, death, disability or termination of employment or service of the participant or in the event of a change in control. During the restriction period applicable to RSUs, the participant will have no right to transfer any rights under the award and will have no rights of ownership in the Common Stock deliverable upon payment of the RSUs and no right to vote them. Rights to dividend equivalents may be extended to and made part of any RSU award at the discretion of the Committee, on a deferred and contingent basis, either in cash or in additional shares of Common Stock, based upon the vesting of such RSUs. Each grant or sale of RSUs will specify the time and manner of payment of the RSUs that have been earned. An RSU may be paid in cash, Common Stock or any combination of the two.

Performance shares, performance units and cash incentive awards

Performance shares, performance units and cash incentive awards may also be granted to participants under the Equity Plan. A performance share is a bookkeeping entry that records the equivalent of one share of Common Stock, and a performance unit is a bookkeeping entry that records a unit equivalent to \$1.00 or such other value as determined by the Committee. Performance shares and performance units each may be payable in cash, Common Stock, or a combination of the two. Each grant will specify the number or amount of performance shares or performance units, or the cash amount payable with respect to a cash incentive award being awarded, which number or amount may be subject to adjustment to reflect changes in compensation or other factors.

Each grant of a cash incentive award, performance shares or performance units will specify management objectives regarding the earning of the award. Each grant will specify the time and manner of payment of a cash incentive award, performance shares or performance units that have been earned.

At the discretion of the Committee, any grant of performance shares or performance units may provide for the payment of dividend equivalents in cash or in additional shares of Common Stock, which dividend equivalents will be subject to deferral and payment on a contingent basis based on the participant's earning and vesting of the performance shares or performance units, as applicable, with respect to which such dividend equivalents are paid.

The performance period with respect to each grant of performance shares or performance units or cash incentive award will be a period of time determined by the Committee and within which the management objectives relating to such award are to be achieved. The performance period may be subject to continued vesting or earlier lapse or modification, including in the event of retirement, death, disability or termination of employment or service of the participant or in the event of a change in control.

Other awards

Subject to applicable law and applicable share limits under the Equity Plan, the Committee may grant to any participant Common Stock or such other awards ("Other Awards") that may be denominated or payable in, valued in whole or in part by reference to, or otherwise based on, or related to, shares of Common Stock or factors that may influence the value of such Common Stock, including, without limitation, convertible or exchangeable debt securities; other rights convertible or exchangeable into shares of Common Stock; purchase rights for shares of Common Stock; awards with value and payment contingent upon performance of the Combined Company or its specified subsidiaries, affiliates or other business units or any other factors designated by the Committee; and awards valued by reference to the book value of the shares of Common Stock or the value of securities of, or the performance of, the subsidiaries, affiliates or other business units of the Combined Company. The terms and conditions of any such awards will be determined by the Committee. Common Stock delivered under such an award in the nature of a purchase right granted under the Equity Plan will be purchased for such consideration, paid for at such time, by such methods, and in such forms, including, without limitation, Common Stock, other awards, cash, notes or other property, as the Committee determines.

In addition, the Committee may grant cash awards, as an element of or supplement to any other awards granted under the Equity Plan. The Committee may also authorize the grant of shares of Common Stock as a bonus or may authorize the grant of Other Awards in lieu of obligations of the Combined Company or a subsidiary to pay cash or deliver other property under the Equity Plan or under other plans or compensatory arrangements, subject to terms determined by the Committee in a manner that complies with Section 409A of the Code.

Other Awards may provide for the earning or vesting of, or earlier elimination of restrictions applicable to, such award, including in the event of the retirement, death, disability or termination of employment or service of the participant or in the event of a change in control. The Committee may provide for the payment of dividends or dividend equivalents on Other Awards on a deferred and contingent basis, in cash or in additional shares of Common Stock; provided, however, that dividend equivalents or other distributions of Common Stock underlying Other Awards will be deferred until and paid contingent upon the earning and vesting of such awards.

Change in control

The Equity Plan includes a definition of "change in control." In general, except as may be otherwise prescribed by the Committee in an Evidence of Award or as otherwise provided in another plan or agreement applicable to a participant, a change in control shall be deemed to have occurred upon the occurrence of any of the following events occurring after the Business Combination (subject to certain exceptions and limitations and as further described in the Equity Plan): (1) any individual, entity or group is or becomes the beneficial owner of voting securities of the Combined Company where such acquisition causes such person to own more than 50% of the combined voting power of the then outstanding voting shares of the Combined Company (subject to certain exceptions); (2) a majority of the Combined Company Board ceases to be comprised of incumbent directors; (3) stockholder approval of a reorganization, merger or consolidation, or sale or other disposition of all or substantially all of the assets of the Combined Company or the acquisition of assets of another corporation or other transaction, as described in the Equity Plan (subject to certain exceptions); or (4) consummation of a complete liquidation or dissolution of the Combined Company (subject to certain qualifying exceptions).

Management objectives

The Equity Plan generally provides that any of the awards set forth above may be granted subject to the achievement of specified management objectives. Management objectives are defined as performance objective or objectives established pursuant to the Equity Plan for participants who have received grants of performance shares, performance units or cash incentive awards or, when so determined by the Committee, stock options, SARs, restricted stock, RSUs, dividend equivalents or Other Awards. The definition of "Management Objectives" set forth in the Equity Plan includes a list of examples of measures (which is not exhaustive) that may be used as management objectives in awards granted under the Equity Plan.

Additionally, if the Committee determines that a change in the business, operations, corporate structure or capital structure of the Combined Company, or the manner in which it conducts its business, or other events or circumstances render the management objectives unsuitable, the Committee may in its discretion modify such management objectives or the goals or actual levels of achievement, in whole or in part, as the Committee deems appropriate and equitable.

Transferability of awards

Except as otherwise provided by the Committee, and subject to the terms of the Equity Plan with respect to Section 409A of the Code, no stock option, SAR, restricted stock, RSU, performance share, performance unit, cash incentive award, Other Award or dividend equivalents paid with respect to awards made under the Equity Plan will be transferable by a participant except by will or the laws of descent and distribution. In no event will any such award granted under the Equity Plan be transferred for value. Except as otherwise determined by the Committee, stock options and SARs will be exercisable during the participant's lifetime only by him or her or, in the event of the participant's legal incapacity to do so, by his or her guardian or legal representative acting on behalf of the participant in a fiduciary capacity under state law or court supervision.

Under certain circumstances, the Committee may specify on the grant date that part or all of the shares of Common Stock that are subject to certain awards under the Equity Plan will be subject to further restrictions on transfer.

Adjustments

The Committee will make or provide for such adjustments in: (1) the number and kind of shares of Common Stock covered by outstanding stock options, SARs, restricted stock, RSUs, performance shares and performance units granted under the Equity Plan; (2) if applicable, the number and kind of shares of Common Stock covered by Other Awards; (3) the exercise price or base price provided in outstanding stock options and SARs, respectively; (4) cash incentive awards; and (5) other award terms, as the Committee in its sole discretion, determines, in good faith, is equitably required in order to prevent dilution or enlargement of the rights of participants that otherwise would result from (a) any extraordinary cash dividend, stock dividend, stock split, combination of shares, recapitalization or other change in the capital structure of the Combined Company; (b) any merger, consolidation, spin-off, spin-out, split-off, split-up, reorganization, partial or complete liquidation or other distribution of assets, issuance of rights or warrants to purchase securities; or (c) any other corporate transaction or event having an effect similar to any of the foregoing.

In the event of any such transaction or event, or in the event of a change in control of the Combined Company, the Committee may provide in substitution for any or all outstanding awards under the Equity Plan such alternative consideration (including cash), if any, as it may in good faith determine to be equitable under the circumstances and will require in connection therewith the surrender of all awards so replaced in a manner that complies with Section 409A of the Code. In addition, for each stock option or SAR with an exercise price or base price, respectively, greater than the consideration offered in connection with any such transaction or event or change in control of the Combined Company, the Committee may in its discretion elect to cancel such stock option or SAR without any payment to the person holding such stock option or SAR. The Committee will make or provide for such adjustments to the numbers of shares of Common Stock available under the Equity Plan and the share limits of the Equity Plan as the Committee in its sole discretion, determines, in good faith, is appropriate to reflect such transaction or event. Any adjustment to the limit on the number of shares of Common Stock that may be issued upon exercise of incentive stock options, however, will be made only if and to the extent such adjustment would not cause any stock option intended to qualify as an incentive stock option to fail to so qualify.

Prohibition on repricing

Except in connection with certain corporate transactions or changes in the capital structure of the Combined Company or in connection with a change in control, the terms of outstanding awards may not be amended to (1) reduce the exercise price or base price of outstanding stock options or SARs, respectively, or (2) cancel outstanding “underwater” stock options or SARs in exchange for cash, other awards or stock options or SARs with an exercise price or base price, as applicable, that is less than the exercise price or base price of the original stock options or SARs, as applicable, without stockholder approval. These restrictions are intended to prohibit the repricing of “underwater” stock options and SARs and they may not be amended without approval by the Combined Company’s stockholders.

Detrimental activity and recapture

Any Evidence of Award may reference a clawback policy of the Combined Company or provide for the cancellation or forfeiture of an award or forfeiture and repayment to the Combined Company of any gain related to an award, or other provisions intended to have a similar effect, upon such terms and conditions as may be determined by the Committee from time to time, if any participant, either during employment or other service with the Combined Company or its subsidiary or within a specified period after such employment or service, engages in any detrimental activity, as described in the applicable Evidence of Award or such clawback policy. In addition, any Evidence of Award or such clawback policy may provide for cancellation or forfeiture of an award or the forfeiture and repayment of any Common Stock issued under and/or any other benefit related to an award, or other provisions intended to have a similar effect, including upon such terms and conditions as may be required by the Committee or under Section 10D of the Exchange Act and any applicable rules and regulations promulgated by the SEC or any national securities exchange or national securities association on which the Common Stock may be traded.

Non-U.S. participants

In order to facilitate the making of any grant or combination of grants under the Equity Plan, the Committee may provide for such special terms for awards to participants who are foreign nationals or who are employed by the Combined Company or its subsidiary outside of the United States of America or who provide services to the Combined Company or its subsidiary under an agreement with a foreign nation or agency, as the Committee may consider necessary or appropriate to accommodate differences in local law, tax policy or custom. The Committee may approve such supplements to, or amendments, restatements or alternative versions of, the Equity Plan (including sub-plans) as it may consider necessary or appropriate for such purposes, provided that no such special terms, supplements, amendments or restatements will include any provisions that are inconsistent with the terms of the Equity Plan as then in effect unless the Equity Plan could have been amended to eliminate such inconsistency without further approval by the Combined Company’s stockholders.

Withholding

To the extent the Combined Company is required to withhold federal, state, local or foreign taxes or other amounts in connection with any payment made or benefit realized by a participant or other person under the Equity Plan, and the amounts available to the Combined Company for such withholding are insufficient, it will be a condition to the receipt of such payment or the realization of such benefit that the participant or such other person make arrangements satisfactory to the Combined Company for payment of the balance of such taxes or other amounts required to be withheld, which arrangements, in the discretion of the Committee, may include relinquishment of a portion of such benefit. When a participant is required to pay the Combined Company an amount required to be withheld under applicable income, employment, tax or other laws, the Committee may require the participant to satisfy the obligation, in whole or in part, by having withheld, from the shares of Common Stock delivered or required to be delivered to the participant, shares of Common Stock having a value equal to the amount required to be withheld or by delivering to the Combined Company other shares of Common Stock held by such participant. The Common Stock used for tax or other withholding will be valued at an amount equal to the fair market value of such Common Stock on the date the benefit is to be included in the participant’s income. In no event will the fair market value of the Common Stock to be withheld and delivered pursuant to the Equity Plan exceed the minimum amount required to be withheld, unless (1) an additional amount can be withheld and not result in adverse accounting consequences, and (2) such additional withholding amount is authorized by the Committee. Participants will also make such arrangements as the Combined Company may require for the payment of any withholding tax or other obligation that may arise in connection with the disposition of Common Stock acquired upon the exercise of stock options.

Amendment and termination of the Equity Plan

The Combined Company Board generally may amend the Equity Plan from time to time in whole or in part. If any amendment, however, for purposes of applicable stock exchange rules (and except as permitted under the adjustment provisions of the Equity Plan) (1) would materially increase the benefits accruing to participants under the Equity Plan, (2) would materially increase the number of securities which may be issued under the Equity Plan, (3) would materially modify the requirements for participation in the Equity Plan or (4) must otherwise be approved by the Combined Company’s stockholders in order to comply with applicable law or the rules of the NASDAQ, or, if the Common Stock is not traded on NASDAQ, the principal national securities exchange upon which the Common Stock is traded or quoted, all as determined by the Combined Company Board, then such amendment will be subject to stockholder approval and will not be effective unless and until such approval has been obtained.

Further, subject to the Equity Plan’s prohibition on repricing, the Committee generally may amend the terms of any award prospectively or retroactively. Except in the case of certain adjustments permitted under the Equity Plan, no such amendment may be made that would materially impair the rights of any participant without his or her consent. If permitted by Section 409A of the Code, but subject to the subject to the preceding sentence, including in the case of termination of employment or service, or in the case of unforeseeable emergency or other circumstances or in the event of a change in control, the Committee may provide for continued vesting or accelerate the timing of vesting or exercisability or the time at which the substantial risk of forfeiture or prohibition or restriction on transfer will lapse or the time when the period of restriction will end, or the time at which cash incentive awards, performance shares or performance units will be deemed to have been earned or the time when such transfer restriction will terminate, in each case as applicable to certain awards granted under the Equity Plan, or waive any other limitation or requirement under any such award.

The Combined Company Board may, in its discretion, terminate the Equity Plan at any time. Termination of the Equity Plan will not affect the rights of participants or their successors under any awards outstanding and not exercised in full on the date of termination. No grant will be made under the Equity Plan on or after the tenth anniversary of the effective date of the Equity Plan, but all grants made prior to such date will continue in effect thereafter subject to their terms and the terms of the Equity Plan.

Allowances for conversion awards and assumed plans

Common Stock (1) subject to awards granted under the Equity Plan in substitution for or conversion of, or in connection with an assumption of, stock options, SARs, restricted stock, RSUs, or other stock or stock-based awards held by awardees of an entity engaging in a corporate transaction (including an acquisition or merger) with the Combined Company or any of its subsidiaries or (2) available for issuance under a previously-approved plan sponsored by a company that is acquired by, or merges with, the Combined Company or any of its subsidiaries, and which then become available for issuance of awards under the Equity Plan, will not count against (or be added to) the aggregate share limit or other Equity Plan limits described above, except as otherwise provided in the Equity Plan.

Outstanding Equity Awards at 2020 Fiscal Year-End

The following table and related footnotes set forth information about the outstanding equity awards held by the NEOs as of December 31, 2020, which was the last day of fiscal 2020.

Outstanding Equity Awards at 2020 Fiscal Year-End

Name	Option Awards				Stock Awards

(1) The NEOs did not hold any unvested stock or option awards as of December 31, 2020. For a discussion of the treatment of the NEOs' vested Incentive Units in the Business Combination, see "Severance and Change in Control of Compensation — Treatment of Incentive Units in Business Combination" below.

Tax Qualified Retirement Plan

PCT offers a tax-qualified retirement savings plan to its employees, under which participating employees may contribute a portion of their eligible compensation into their plan accounts. No company contributions were made to the plan for 2020. Each of the NEOs was eligible to participate in the plan during fiscal 2020.

Severance and Change in Control Compensation

Severance Under Employment Agreements

Pursuant to his New Employment Agreement, if Mr. Otworth's employment is terminated by PCT without "cause" or by Mr. Otworth for "good reason" (as such terms are defined in his New Employment Agreement) after completion of a SPAC Transaction, Mr. Otworth will be entitled to receive: (1) a lump sum payment equal to his base salary for the unexpired portion of the initial two-year term of his New Employment Agreement; and (2) reimbursement of COBRA continuation coverage premiums for up to 12 months to the extent they exceed the premiums paid by similarly situated active executives of PCT.

Pursuant to Mr. Dee's and David Brenner's New Employment Agreement, if the executive's employment is terminated by PCT without "cause" or by the executive for "good reason" (as such terms are defined in the applicable New Employment Agreement) after completion of a SPAC Transaction, the executive will be entitled to receive: (1) continued base salary payments for six months; and (2) reimbursement of COBRA continuation coverage premiums for up to six months to the extent they exceed the premiums paid by similarly situated executives of PCT.

Payment of the severance amounts described above for the NEOs is generally subject to the executive's compliance with certain restrictive covenants and execution of a customary release of claims in favor of PCT.

If an NEO's employment is terminated due to the executive's death or disability (as defined in the New Employment Agreements) following the completion of a SPAC Transaction, the NEO will be entitled to receive a lump sum cash payment equal to the annual bonus that the executive would have earned for the calendar year of termination based on actual performance achievement for the full performance year, pro-rated based on the executive's period of service during such year.

Equity Compensation

If an NEO's employment is terminated, then PCT may (in the discretion of the PCT Board of Directors), redeem such NEO's vested Incentive Units for fair market value (as defined in the LLC Equity Plan), except that if the termination is by PCT for cause (as defined in the LLC Equity Plan) or PCT would have had the right to terminate the NEO's employment for cause, such vested Incentive Units may be redeemed for 80% of their fair market value.

In the event that an NEO's employment is terminated without cause (as defined in the LLC Equity Plan) within 12 months after a change in control (as defined in the LLC Equity Plan), all unvested Incentive Units held by such NEO will become fully vested. The Business Combination will constitute a change in control for purposes of the Incentive Units.

In addition, Mr. Dee's New Employment Agreement provides that if his employment is terminated by PCT without "cause" or by him for "good reason," his initial equity awards expected to be granted following completion of the SPAC Transaction (as described above) will vest in full (and, in the case of the initial option award, remain exercisable until the earlier of two years after the date of such termination and the original expiration date of such option).

Transaction Bonus

As described above under “— *Employment Agreements/Arrangements with Our NEOs*,” Mr. Otworth is entitled to a cash bonus equal to \$5,000,000 in the event that a SPAC Transaction is successfully completed and Mr. Otworth remains continuously employed with PCT through the completion of the SPAC Transaction.

Pursuant to Mr. Dee’s New Employment Agreement, upon the completion of a SPAC Transaction, Mr. Dee will become entitled to the Negotiated Payment, payable in two installments during 2021, as well as the Dee Initial Equity Awards.

Other than as described above, the NEOs are not covered by any contracts, agreements or arrangements that provide for severance payments or benefits in connection with a termination of employment or a change in control.

Treatment of Incentive Units in Business Combination

At the time of the Business Combination, unvested Incentive Units held by the NEOs will be exchanged for restricted shares of common stock of the Combined Company that will be subject to the same vesting schedule and forfeiture restrictions as the unvested Incentive Units to which they relate. As of January 18, 2021, the NEOs did not hold any unvested Incentive Units.

As of January 18, 2021, the NEOs held the following vested Incentive Units: Mr. Otworth, 52,500 with a Distribution Threshold of \$12, and 60,000 with a Distribution Threshold of \$31.20; and David Brenner, 75,328 with a Distribution Threshold of \$12, and 40,000 with a Distribution Threshold of \$31.20. Mr. Dee did not hold any Incentive Units as of such date. At the time of the Business Combination, these vested Incentive Units are expected to be exchanged for shares of common stock of the Combined Company. In accordance with the applicable allocation schedule pursuant to the Merger Agreement, the NEOs are expected to receive approximately the following numbers of shares of Combined Company common stock with respect to their vested Incentive Units: Mr. Otworth, 930,278; and David Brenner, 994,955.

PCT Director Compensation

The following table presents the total compensation for services to PCT for each person who served as a member of PCT’s Board of Directors during the year ended December 31, 2020 (other than Mr. Otworth and Dr. Scott). PCT did not have standard compensation arrangements for its directors during 2020, and none of the members of PCT’s Board of Directors received cash, equity or other non-equity compensation specifically for service in their capacity as directors. The amounts reflected in the table below represent compensation for consulting or other services provided to PCT. Mike Otworth also served on PCT’s Board of Directors during 2020, but his compensation for services to PCT during 2020 is fully reflected in the 2020 Summary Compensation Table above.

2020 Director Compensation

Name	Fees Earned or Paid in Cash (\$)	Stock Awards (\$) ⁽¹⁾	Option Awards (\$)	Non-Equity Incentive Plan Compensation (\$)	All Other Compensation (\$) ⁽²⁾	Total (\$)
Rick Brenner	—	—	—	—	—	—
Tanya Burnell	—	967,500	—	—	—	967,500
Andy Glockner	—	27,158	—	—	—	27,158
Jim Donnally	—	27,090	—	—	—	27,090
Dr. John Scott	—	—	—	—	1,591,625	1,591,625

(1) Amounts in this column reflect the aggregate grant date fair value of Incentive Units granted in 2020, calculated in accordance with ASC 718. Each of these grants was 100% vested on the grant date. For Mr. Glockner, the amount represents a portion of the grant date fair value of an award granted in 2020 to Assured Solutions Company, Ltd. (\$338,625), an entity in which Mr. Glockner held an 8.02% interest. For Mr. Donnally, the amount represents a portion of the aggregate grant date fair value of awards granted in 2020 to Assured Solutions Company, Ltd. (\$338,625), Dam Insurance Management, Ltd. (\$338,625), Gleim Insurance Management, Ltd. (\$338,625), and Patriot Insurance Management, Ltd. (\$338,625). Mr. Glockner held a 2% interest in each of those entities. For Ms. Burnell, the amount represents the grant date fair value of an award of Incentive Units made to Pure Crown LLC in August 2020 as compensation for Ms. Burnell’s service on PCT’s Board of Directors. For information regarding assumptions underlying the valuation of equity awards, see the discussion under “*Management’s Discussion and Analysis of Financial Condition and Results of Operations — Critical Accounting Policies and Estimates — Equity-Based Compensation*” included elsewhere in this prospectus. None of the directors listed in this table held unvested Incentive Units as of December 31, 2020, but they held (following certain restructuring activities) the following amounts of vested Incentive Units as of such date: Mr. Brenner, 37,500 Incentive Units; Mr. Glockner, 101 Incentive Units; Mr. Donnally, 4,073 Incentive Units; and Dr. Scott, 37,500 Incentive Units.

(2) Pursuant to a 2019 agreement with Innventure LLC and PCT, Dr. Scott and a certain consultant of Innventure LLC are entitled to share equally in a project fee calculated based on a percentage of certain financing secured with respect to PCT’s business. Pursuant to such agreement, the fee is equal to 1.5% of the total financing, reduced by the amount of retainer fees paid to such consultant. The financing closed in October 2020, and, as a result, Dr. Scott became entitled to a total project fee equal to approximately \$1,519,125, which amount was paid on November 13, 2020 and is included in the table above, along with other consulting fees allocated to PCT.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

The following is a description of each transaction since January 1, 2018 and each currently proposed transaction in which PCT or ParentCo has been or is to be a participant and:

- the amount involved exceeded or exceeds \$120,000; and
- any of PCT’s directors, executive officers, or holders of more than 5% of its capital stock, or any immediate family member of, or person sharing the household with, any of these individuals, had or will have a direct or indirect material interest.

Agreements with Capital Stockholders

Investor Rights Agreement

At the Closing of the transactions contemplated by the Merger Agreement, ParentCo, certain PCT Unitholders representing at least 70% of PCT's outstanding membership interests and certain stockholders of ROCH (including certain ROCH officers, directors and sponsors) will also enter into an Investor Rights Agreement, which is a closing condition of the parties to consummate the Business Combination. Pursuant to the Investor Rights Agreement, such PCT Unitholders have agreed to vote in favor of two board designees nominated by a majority of such stockholders of ROCH for a period of two years following the Closing Date (the "IRA Designees"), provided that in the event a majority of the holders of the Pre-PIPE Shares (as defined in the Investor Rights Agreement) choose to select one of the IRA Designees, the majority of such stockholders of ROCH will select one of the IRA Designees and such holders of the Pre-PIPE Shares will select the other. The holders of the Pre-PIPE Shares may continue to select an IRA Designee until they no longer hold 10% or more of the outstanding Combined Company's Common Stock. Such PCT Unitholders have also agreed, subject to certain limited exceptions, not to transfer ParentCo Common Stock received in the Business Combination except in certain circumstances as described therein. The Investor Rights Agreement also contains registration rights in favor of the PCT Unitholders and ROCH stockholders.

Company Support Agreement

In connection with the execution of the Merger Agreement, PCT Unitholders representing 74.78% of the voting issued and outstanding Company LLC Interests entered into the Company Support Agreement with ROCH, ParentCo, and PCT, pursuant to which such PCT Unitholders agreed to vote all LLC Interests beneficially owned by them in favor of each of the Proposals, to use their reasonable best efforts to take all actions reasonably necessary to consummate the Business Combination and to not take any action that would reasonably be expected to materially delay or prevent the satisfaction of the conditions to the Business Combination set forth in the Merger Agreement. In addition, such PCT Unitholders also agreed that they would not sell, assign or otherwise transfer any of the Company LLC Interests held by them, with certain limited exceptions, unless the buyer, assignee or transferee executes a joinder agreement to the Company Support Agreement.

Business Combination Private Placement

In connection with the execution of the Merger Agreement, ROCH entered into Subscription Agreements with the Subscribers (as defined in the Subscription Agreements), pursuant to which the Subscribers agreed to purchase, and ROCH agreed to sell the Subscribers, an aggregate of 25,000,000 shares of ROCH Common Stock, for a purchase price of \$10.00 per share and an aggregate purchase price of \$250.0 million, in the PIPE.

Sylebra Capital (as defined below) agreed to purchase 10,000,000 shares of Common Stock in the PIPE for an aggregate purchase price of \$100.0 million.

The Magnetar Investors, in conjunction with certain other investors, agreed to purchase approximately 3,100,000 shares of Common Stock in the PIPE for an aggregate purchase price of approximately \$31.0 million.

100

Class A Unit Purchase Agreement with Sylebra Capital

On November 12, 2020, pursuant to four Class A Unit Purchase Agreements dated as of the same date, by and between PCT and each of BEMAP Master Fund Ltd., Blackwell Partners LLC — Series A, Sylebra Capital Parc Master Fund and Sylebra Capital Partners Master Fund, Ltd. (each an entity subject to an investment management agreement or sub-management agreement with Sylebra Capital Limited, together, "Sylebra Capital" and the agreements entered into, collectively, the "Sylebra Capital Class A Unit Purchase Agreements"), PCT issued and sold an aggregate of 684,190 Class A Common Units to Sylebra Capital for an aggregate purchase price of approximately \$60,000,000 or approximately \$87.69 per unit, subject to certain adjustments.

In connection with the Sylebra Capital Class A Unit Purchase Agreements, and as documented in the Investor Rights Agreement, Sylebra Capital will be entitled to select one member of ParentCo's Board of Directors and has initially designated Mr. Fieler to serve in such role.

Note Purchase Agreement with Magnetar Capital LLC

On October 6, 2020, pursuant to the Note Purchase Agreement, the Magnetar Investors agreed to purchase from PCT, and PCT agreed to issue to the Magnetar Investors (in one or more transactions), up to \$60,000,000 principal amount of Convertible Notes. The Convertible Notes are convertible into PCT Common Stock (as defined in the Magnetar Indenture) on the terms and subject to the limitations set forth in the Magnetar Indenture.

Since the date of the Note Purchase Agreement, the largest aggregate amount of principal outstanding under the Convertible Notes was \$60,000,000. Since October 6, 2020, the total principal paid under the Convertible Notes was \$0 and total interest paid was \$0.

In connection with the Note Purchase Agreement, PCT and the Magnetar Investors entered into the Magnetar Registration Rights Agreement granting the Magnetar Investors certain registration rights for the PCT Common Stock issuable upon conversion of the Convertible Notes.

Right of First Refusal Agreement

On October 7, 2020, and in connection with the Note Purchase Agreement, PCT entered into a right of first refusal agreement (the "ROFR Agreement") with the Magnetar Investors pursuant to which PCT granted to the Magnetar Investors a right of first refusal with respect to any such Indebtedness (as defined in the Magnetar Indenture) or any other debt, indebtedness or preferred equity of any nature that may be incurred by PCT or any of its respective Subsidiaries (as defined in the Magnetar Indenture) from time to time (collectively, the "Company Group") on or after October 7, 2020. After October 15, 2022, subject to extension to April 15, 2023 at the election of PCT, PCT may terminate the ROFR Agreement at any time and for any reason. The Magnetar Investors may terminate the ROFR Agreement at any time and for any reason.

Class A Unit Purchase Agreement with Pure Crown LLC

On October 4, 2020, pursuant to the Class A Unit Purchase Agreement dated as of the same date, by and between PCT and Pure Crown LLC (the "Pure Crown Class A Unit Purchase Agreement"), PCT issued and sold an aggregate of 115,428 Class A Common Units to Pure Crown LLC for an aggregate purchase price of \$10,000,000 or \$86.634 per unit, subject to certain adjustments.

In connection with the Class A Unit Purchase Agreement, PCT entered into a letter agreement, dated October 5, 2020, with Pure Crown LLC (the "Pure Crown Letter Agreement") whereby, provided certain conditions are met, (1) Pure Crown LLC will be entitled to select one member of ParentCo's Board of Directors and (2) Pure Crown LLC agreed to purchase an additional 173,142 Class A Common Units from PCT.

101

In October 2020, PCT issued an aggregate of 50,000 Class C Units to Pure Crown LLC, with an approximate aggregate value of \$1,560,000, as an inducement to enter into the Pure Crown Class A Unit Purchase Agreement.

On December 2, 2020, pursuant to the Pure Crown Letter Agreement, PCT issued and sold an aggregate of 173,142 Class A Common Units to Pure Crown LLC for an aggregate purchase price of \$15,000,000 or \$86.634 per unit, subject to certain adjustments.

Agreements with Innventus Fund I, L.P., Innventure1, LLC, Innventure LLC and Innventure Management Services LLC

Innventus Fund I, L.P. (“Innventus”) is a holder of PCT’s capital stock and is affiliated with Innventure1, LLC (“Innventure1”). Innventure1 is the majority member of Innventure LLC, which is the largest holder of PCT’s capital stock. Wasson Enterprise, LLC, through a subsidiary which is a greater than 5% unit holder in PCT, owns a minority interest in Innventure LLC.

Director and Chief Executive Officer Michael Otworth is the former Chief Executive Officer and a current Director of Innventure1, former Chief Executive Officer of Innventure LLC and is on the Investment Committee of Innventus. Director and officer Dr. John Scott is a co-founder and member of Innventure1 and is also on the Investment Committee of Innventus. Director Rick Brenner is a Director of Innventure1. Due to these affiliations with material capital stockholders of PCT, Messrs. Otworth, Scott and R. Brenner may be deemed to have a direct or indirect material interest in transactions with Innventus, Innventure1 and Innventure LLC.

Management Services

For the years ended December 31, 2020, 2019 and 2018 the Company paid \$291,142, \$579,620 and \$537,606 respectively, for management services provided by certain personnel of Innventure Management Services LLC (“Management Services”), an affiliate of Innventure LLC, and as of December 31, 2019 and 2018, the company owed to Management Services \$17,521 and \$62,212, respectively. As of December 31, 2020, the Company owed \$30,455 to Management Services.

Warrant Agreements

On July 22, 2019, PCT and Innventus entered into a Bridge Note and Warrant Purchase Agreement pursuant to which PCT issued a Unit Purchase Warrant (the “Original July 2019 Warrant”) for 4,787 warrant units at an exercise price of \$27.61, allowing Innventus to purchase a variable number of Class B-1 Preferred Units during the exercise period of July 22, 2019 through July 22, 2024. In connection with the Business Combination, the Original July 2019 Warrant will be canceled and PCT will owe no further obligation to Innventus in connection with the Original July 2019 Warrant.

On June 5, 2019, PCT and Innventus entered into a Warrant to Purchase Securities, pursuant to which PCT issued a Unit Purchase Warrant (the “Original June 2019 Warrant”) for 7,978 warrant units at an exercise price of \$37.61, allowing Innventus to purchase a variable number of Class B-1 Preferred Units during the exercise period of June 5, 2019 through June 4, 2024. In connection with the Business Combination, the Original June 2019 Warrant will be canceled and PCT will owe no further obligation to Innventus in connection with the Original June 2019 Warrant.

Lease

From May 2018 to September 2020, PCT leased the land for the Project (excluding the leased office space described in the section titled *Description of PCT Business—Facilities*) from Innventure LLC and paid \$28,000 per month over that period for a total of \$812,000. Innventure LLC had purchased the land from the Lawrence County Economic Development Corporation (“LCED”) with a term loan from Closed Loop Fund, LP. On October 8, 2020, a PCT subsidiary purchased the land from Innventure LLC by paying in full the remaining Closed Loop Fund, LP term loan of \$2,658,010, consisting of principal, accrued and unpaid interest and legal fees.

Project Fee

Pursuant to an Amended and Restated Agreement for Services dated February 25, 2019 (the “Agreement for Services”) by and among Innventure LLC, PCT, and a certain consultant of Innventure LLC (the “consultant”), PCT agreed to pay the consultant 1.5% of the proceeds (the “Project Fee”) of the Series 2020A Bonds offered pursuant to the Loan Agreement. The total Project Fee is \$3,293,250. Director John Scott is listed as a beneficiary of this agreement and received 50% of the Project Fee minus a retainer fee kept by the consultant. On November 13, 2020, PCT paid Director John Scott's wholly-owned entity Corporate Development Group \$1,519,125, representing the portion of the Project Fee due to him under the Agreement for Services.

Indebtedness

On July 19, 2019, in connection with the Note and Warrant Purchase Agreement between PCT and Innventus, PCT borrowed \$600,000 from Innventus pursuant to a Negotiable Promissory Note (the “Innventus Note”) at an annual interest rate of 1-month LIBOR plus 8.00%. Since the date of the Innventus Note, the largest aggregate amount of principal outstanding under the Innventus Note was \$600,000. On February 15, 2020, the Innventus Note was paid in full. Until paid in full, the total interest paid on the Innventus Note was \$26,266.

Since January 1, 2018, PCT has received funding and support services from Innventure1 LLC. These advances were unsecured, non-interest bearing with no formal terms of repayment. Since January 1, 2018, the largest aggregate amount of principal advanced from Innventure1 LLC to PCT was \$4,231,163. Since January 1, 2018, the total amount paid to Innventure1 LLC was \$7,268,867 and total interest paid was \$0. As of December 31, 2020, there is no principal outstanding.

On April 22, 2020, in connection with the Pre-Purchase Agreement, Innventure LLC (then known as We-Innventure LLC) entered into a Guaranty with the Pre-Purchase Term Sheet counterparty to unconditionally guarantee PCT’s obligation to reimburse the received \$5 million pre-payment upon PCT’s failure to meet certain performance thresholds (as described above). The total amount paid by Innventure LLC under the guaranty is \$0 and total interest paid is \$0. As of December 31, 2020, there is no principal outstanding under the guaranty. For a full description of the Pre-Purchase Term Sheet, please see “*Management’s Discussion and Analysis of Financial Condition and Results of Operations—Factors Affecting Our Financial Condition and Results of Operations—Strong Demand for High Quality Recycled Polypropylene.*”

Since January 1, 2018, PCT has received funding and support services from Wasson Enterprise, LLC, an affiliate and greater than 5% shareholder of Innventure LLC. Since January 1, 2018, the largest aggregate amount of principal advanced from Wasson Enterprise, LLC to PCT was \$746,083, which was the outstanding balance due to Wasson Enterprise as of December 31, 2019. These advances were unsecured, non-interest bearing with no formal terms of repayment. On March 26, 2020, PCT repaid \$375,000 of the advances from Wasson Enterprise, LLC. On March 31, 2020 under an Assignment of Indebtedness agreement, Wasson Enterprise, LLC assigned the remaining amount of \$371,083 to Innventure, LLC. PCT paid off the balance in full on August 31, 2020.

Agreements with Directors and Executive Officers

Private Placements of PCT’s Securities

Class A Units

In October 2020 and December 2020, PCT issued and sold an aggregate of 346,284 Class A Units at a purchase price of \$86.634 per unit, for an aggregate purchase price of \$30,000,000.

The table below sets forth the number of Class A Units purchased by PCT's related parties in the above referenced transactions:

Stockholder	Class A Units	Purchase Price
Pure Crown LLC*	288,570	\$ 25,000,000

* Pure Crown LLC is a greater than 5% unit holder in PCT pursuant to the Pure Crown Class A Unit Purchase Agreement and Pure Crown Letter Agreement, as disclosed above.

Class B-1 Preferred Units

Between September 2018 and January 2020, PCT issued and sold an aggregate of 644,885 Class B-1 Preferred Units, at a purchase price of \$37.605 per unit, for an aggregate purchase price of \$24,250,891 to the PCT related parties set forth in the table below:

Stockholder	Class B-1 Preferred Units	Purchase Price
Innventus Fund I, L.P.*	378,963	\$ 14,250,891
Pure Crown LLC**	265,922	\$ 10,000,000

* Innventus Fund I, L.P. is a greater than 5% unit holder in PCT.

** Pure Crown LLC is a greater than 5% unit holder in PCT pursuant to the Pure Crown Class A Unit Purchase Agreement and Pure Crown Letter Agreement, as disclosed above.

Class C Units

In August 2020, PCT issued an aggregate of 37,500 Class C Units to Pure Crown LLC, with an approximate aggregate value of \$1,170,000, as compensation for director Tanya Burnell's board service.

Glockner Finance, a division of Auto Now Acceptance Co., LLC

On May 5, 2017, PCT entered into a revolving line of credit facility (the "Glockner Line of Credit") with Glockner Finance, a division of Auto Now Acceptance Co., LLC, which is an entity affiliated with and controlled by director Andy Glockner. Director and former Chief Financial Officer James O. Donnally is the Vice President and Chief Financial Officer of Glockner Finance. Anticipated ParentCo Director Timothy Glockner is the president of Glockner Enterprises, an entity affiliated with Glockner Finance. Since the initiation of the Glockner Line of Credit, the largest aggregate amount of principal outstanding was \$14,000,000 and as of September 30, 2020, there was \$12,000,000 outstanding. Since the initiation of the Glockner Line of Credit, the total principal paid under the Line of Credit was \$14,000,000 and total interest paid was \$2,939,370.42. As of September 30, 2020, the interest payable on the Glockner Line of Credit was 16% per year. The Glockner Line of Credit was paid off in full on December 21, 2020.

Bird Creek Capital Consulting Services Agreement

On September 29, 2020, PCT entered into a Consulting Services Agreement (the "Bird Creek Agreement") with Bird Creek Capital, LLC ("Bird Creek"). Chief Financial Officer Michael Dee served as the Managing Member of Bird Creek during this time. Pursuant to the Bird Creek Agreement, Bird Creek provided certain consulting services to PCT, including in connection with the negotiation of PCT's potential financings and capital structure. The fee payable to Bird Creek pursuant to the Bird Creek Agreement was to be negotiated between the parties in good faith following the date of the Bird Creek Agreement. Certain payments made pursuant to the Dee Employment Agreement (as defined below) are deemed to satisfy, in full, PCT's obligations under the Bird Creek Agreement. For more details, see the section entitled "*PCT Executive Compensation—Employment Agreements/Arrangements with our NEOs.*"

Executive Officer and Director Compensation

Incentive Stock Units

PCT has granted management incentive units to its executive officers and certain of its directors. See the sections titled "*PCT Executive Compensation — 2019 Equity-Based Compensation — Outstanding Equity Awards at 2019 Fiscal Year End*" and "*PCT Executive Compensation — Director Compensation*" for a description of these incentive units.

Employment Arrangements

Since January 1, 2018, PCT has entered into employment arrangements with Innventure LLC and Wasson Enterprises, LLC, pursuant to which certain employees received allocated compensation from Innventure LLC or Wasson Enterprises, LLC for services rendered to PCT. For the years ended December 31, 2020, 2019 and 2018, Tayt Rule received compensation from Wasson Enterprises, LLC in the amount of \$210,000, \$171,792 and \$180,574, respectively, for services provided as Chief Operating Officer of PCT.

For the years ended December 31, 2019 and 2018, David Brenner received compensation from Innventure LLC in the amounts of \$187,751 and \$173,549, respectively, for services provided as VP, Operations and Chief Integration Officer of PCT. For the year ended December 31, 2020, Mr. Brenner received no compensation from Innventure LLC.

For further information regarding management services provided by certain personnel of Management Services, the Innventure LLC affiliate, please see "*Agreements with Innventus Fund I, L.P., Innventure1, LLC, Innventure LLC and Innventure Management Services LLC — Management Services*" above.

Other Compensation

Director John Scott's wholly-owned entity, Corporate Development Group, receives cash compensation for Director John Scott's services as an officer and director of PCT at the annual rate of \$57,500, payable monthly, beginning on January 1, 2020. Since January 1, 2018, PCT has paid a total of \$1,657,044 to Corporate Development Group, including the payment of the portion of the Project Fee (as defined in "*Certain Relationships and Related Party Transactions—Agreements with Capital Stockholders—Agreements with Innventus Fund I, L.P., Innventure1, LLC, Innventure LLC and Innventure Management Services LLC—Project Fee*") due to Director John Scott of \$1,519,125

pursuant to the Agreement for Services.

Limitation of Liability and Indemnification of Directors and Executive Officers

In connection with the merger, PCT plans to enter into indemnification agreements with each of PCT's directors and executive officers, the form of which is attached as an exhibit to the registration statement of which this prospectus is a part. The indemnification agreements will require PCT to indemnify its directors and executive officers to the fullest extent permitted by Delaware law.

Policies and Procedures for Related Person Transactions

Although PCT has not had a written policy for the review and approval of transactions with related persons, its board of directors has historically reviewed and approved any transaction where a director or officer had a financial interest, including the transactions described above. Prior to approving such a transaction, the material facts as to a director or officer's relationship or interest in the agreement or transaction were disclosed to the board of directors.

Following the Business Combination, the Combined Company's audit committee will have the primary responsibility for reviewing and approving or disapproving "related party transactions," which are transactions between the Combined Company and related persons in which the aggregate amount involved exceeds or may be expected to exceed \$120,000 and in which a related person has or will have a direct or indirect material interest. The written charter of the Combined Company's audit committee will provide that the Combined Company's audit committee shall review and approve in advance any related party transaction.

Review and Approval of Review and Approval of Related Person Transactions

In connection with the Business Combination, the Combined Company plans to adopt a formal written policy for the review and approval of transactions with related persons. Such policy will require, among other things, that:

- The audit committee shall review the material facts of all related person transactions.
- In reviewing any related person transaction, the committee will take into account, among other factors that it deems appropriate, whether the related person transaction is on terms no less favorable to the Combined Company than terms generally available in a transaction with an unaffiliated third-party under the same or similar circumstances and the extent of the related person's interest in the transaction.
- In connection with its review of any related person transaction, the Combined Company shall provide the committee with all material information regarding such related person transaction, the interest of the related person and any potential disclosure obligations of the Combined Company in connection with such related person transaction.
- If a related person transaction will be ongoing, the committee may establish guidelines for the Combined Company's management to follow in its ongoing dealings with the related person.

DESCRIPTION OF SECURITIES TO BE REGISTERED

As a result of the Business Combination, ROCH stockholders and PCT Unitholders who receive shares of ParentCo Common Stock in the Business Combination will become stockholders of the Combined Company. Your rights as stockholders of the Combined Company will be governed by Delaware law and the Combined Company's Amended and Restated Certificate of Incorporation ("Amended and Restated Certificate of Incorporation") and Amended and Restated Bylaws ("Amended and Restated Bylaws"), each of which will be effective upon closing of the Business Combination, as described further below. The following description of the material terms of the Combined Company's capital stock, including the Combined Company's Common Stock to be issued in the Business Combination, reflects the anticipated state of affairs upon completion of the Business Combination. We urge you to read the applicable provisions of Delaware law and the Combined Company's forms of Amended and Restated Certificate of Incorporation and Amended and Restated Bylaws carefully and in their entirety because they describe your rights as a holder of shares of the Combined Company's Common Stock.

The following is a description of the material terms of, and is qualified in its entirety by, the Amended and Restated Certificate of Incorporation and Amended and Restated Bylaws, each of which became effective upon closing of the Business Combination, the forms of which are filed as Exhibits 3.3 and 3.4, respectively, to the registration statement of which this prospectus forms a part.

The Combined Company's purpose is to engage in any lawful act or activity for which corporations may now or hereafter be organized under the DGCL. Upon the consummation of the Business Combination, the Combined Company's authorized capital stock consists of 250,000,000 shares of common stock, par value \$0.001 per share, and 25,000,000 shares of preferred stock, par value \$0.001 per share. No shares of preferred stock are currently issued or outstanding.

Common Stock

Holders of the Combined Company's Common Stock will be entitled to one vote for each share held of record on all matters submitted to a vote of stockholders. The holders of the Combined Company's Common Stock do not have cumulative voting rights in the election of directors. Upon the Combined Company's liquidation, dissolution or winding up and after payment in full of all amounts required to be paid to creditors and to the holders of preferred stock having liquidation preferences, if any, the holders of the Combined Company's Common Stock will be entitled to receive pro rata the Combined Company's remaining assets available for distribution. Holders of the Combined Company's Common Stock do not have preemptive, subscription, redemption or conversion rights. The Combined Company's Common Stock will not be subject to further calls or assessment by the Combined Company. There will be no redemption or sinking fund provisions applicable to the Combined Company's Common Stock. All shares of the Combined Company's Common Stock that will be outstanding at the time of the completion of the Business Combination will be fully paid and non-assessable. The rights, powers, preferences and privileges of holders of the Combined Company's Common Stock will be subject to those of the holders of any shares of the Combined Company's preferred stock the Combined Company may authorize and issue in the future.

When a quorum is present at any meeting, any matter other than the election of directors to be voted upon by the stockholders at such meeting will be decided by a majority vote of the holders of shares of capital stock present or represented at the meeting and voting affirmatively or negatively on such matter. At all meetings of stockholders for the election of directors at which a quorum is present, a plurality of the votes cast will be sufficient to elect such directors.

After the Business Combination, there are approximately 118,322,900 shares of the Combined Company's Common Stock outstanding, including approximately 95.7 million shares held by certain stockholders of ROCH and PCT that will be subject to certain lock-up or transfer restrictions resulting from the IPO or pursuant to the Investor Rights Agreement.

Preferred Stock

The Amended and Restated Certificate of Incorporation authorizes the Combined Company's board of directors to establish one or more series of preferred stock. Unless required by law or by NASDAQ, the authorized shares of preferred stock will be available for issuance without further action by you. The Combined Company's board of directors is authorized to fix from time to time before issuance the number of preferred shares to be included in any such series and the designation, powers, preferences and relative participating, optional or other rights, if any, and the qualifications, limitations or restrictions thereof. The authority of the Combined Company's board of directors with respect to each such series will include, without limiting the generality of the foregoing, the determination of any or all of the following:

- the number of shares of any series and the designation to distinguish the shares of such series from the shares of all other series;
- the voting powers, if any, and whether such voting powers are full or limited in such series;
- the redemption provisions, if any, applicable to such series, including the redemption price or prices to be paid;
- whether dividends, if any, will be cumulative or noncumulative, the dividend rate of such series, and the dates and preferences of dividends on such series;
- the rights of such series upon the voluntary or involuntary dissolution of, or upon any distribution of the assets of, the Combined Company;
- the provisions, if any, pursuant to which the shares of such series are convertible into, or exchangeable for, shares of any other class or classes or of any other series of the same or any other class or classes of stock, or any other security, of the Combined Company or any other corporation or other entity, and the rates or other determinants of conversion or exchange applicable thereto;
- the right, if any, to subscribe for or to purchase any securities of the Combined Company or any other corporation or other entity;
- the provisions, if any, of a sinking fund applicable to such series; and
- any other relative, participating, optional, or other special powers, preferences or rights and qualifications, limitations, or restrictions thereof;

all as may be determined from time to time by the Combined Company's board of directors and stated or expressed in the resolution or resolutions providing for the issuance of such preferred stock (collectively, a "Preferred Stock Designation").

The Combined Company could issue a series of preferred stock that could, depending on the terms of the series, impede or discourage an acquisition attempt or other transaction that some, or a majority, of the holders of the Combined Company's Common Stock might believe to be in their best interests or in which the holders of the Combined Company's Common Stock might receive a premium for their Combined Company Common Stock over its market price. Additionally, the issuance of preferred stock may adversely affect the rights of holders of the Combined Company's Common Stock by restricting dividends on the Combined Company's Common Stock, diluting the voting power of the Combined Company's Common Stock or subordinating the liquidation rights of the Combined Company's Common Stock. As a result of these or other factors, the issuance of preferred stock could have an adverse impact on the market price of the Combined Company's Common Stock. The Combined Company has no current plans to issue any series of preferred stock.

Warrants

The warrants issued in connection with ROCH's IPO (including in several contemporaneous private placements to insiders, collectively, and for purposes of this section, the "Warrants") entitle the holder of each whole Warrant to purchase one share of Common Stock at a price of \$11.50 per share, subject to adjustment. There currently are 5,936,625 Warrants issued and outstanding, consisting of 5,737,500 Public Warrants to purchase Common Stock originally sold as part of ROCH Units in ROCH's IPO and 199,125 Private Warrants to purchase Common Stock that were sold as part of the Private Units. Pursuant to the Warrant Agreement (as defined below), a warrant holder may exercise its Warrants only for a whole number of shares of Common Stock. This means that only a whole Warrant may be exercised at any given time by a warrant holder. No fractional Warrants were issued upon separation of the Units (as defined below) and only whole Warrants trade on NASDAQ. Each Warrant will become exercisable on the later of May 7, 2021 or the consummation of ROCH's initial business combination (including the Business Combination), and will expire five years after the completion of such initial business combination, or earlier upon redemption.

No public Warrants will be exercisable for cash unless there is an effective and current registration statement covering the shares of Common Stock issuable upon exercise of the Warrants and a current prospectus relating to such shares of Common Stock. Notwithstanding the foregoing, if a registration statement covering the shares of Common Stock issuable upon exercise of the public Warrants is not effective within 120 days from the closing of ROCH's initial business combination (including the Business Combination), Warrant holders may, until such time as there is an effective registration statement and during any period when the ROCH (or the Combined Company, as successor under the Warrant Agreement (as defined below)) shall have failed to maintain an effective registration statement, exercise Warrants on a cashless basis pursuant to an available exemption from registration under the Securities Act. Under the terms of the Warrant Agreement, a current prospectus relating to the shares of Common Stock issuable upon exercise of the Warrants is required to be maintained until the expiration of the Warrants. However, there can be no assurance that this will be case and, if a current prospectus relating to the shares of Common Stock issuable upon exercise of the Warrants is not maintained, holders will be unable to exercise their Warrants for cash and any such warrant exercise is not required to be settled. If the prospectus relating to the shares of Common Stock issuable upon the exercise of the Warrants is not current or if the Common Stock is not qualified or exempt from qualification in the jurisdictions in which the holders of the Warrants reside, there is no requirement to net cash settle or cash settle the Warrant exercise, the Warrants may have no value, the market for the Warrants may be limited and the Warrants may expire worthless.

If (x) ROCH issues additional shares of common stock or equity-linked securities for capital raising purposes in connection with the closing of its initial business combination at an issue price or effective issue price of less than \$9.20 per share (with such issue price or effective issue price to be determined in good faith by ROCH's board of directors), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of ROCH's initial business combination, and (z) the volume weighted average trading price of the Common Stock during the 20 trading day period starting on the trading day prior to the day on which ROCH consummates its initial business combination (such price, the "Market Price") is below \$9.20 per share, the exercise price of the Warrants will be adjusted (to the nearest cent) to be equal to 115% of the Market Price, and the \$18.00 per share redemption trigger price described above will be adjusted (to the nearest cent) to be equal to 180% of the Market Price.

The outstanding Warrants (excluding the Warrants issued to the insiders in the private placements contemporaneous with the IPO) may be called for redemption, in whole and not in part, at a price of \$.01 per Warrant:

- at any time after the Warrants become exercisable,
- upon not less than 30 days' prior written notice of redemption to each Warrant holder,

- if, and only if, the reported last sale price of the shares of Common Stock equals or exceeds \$18.00 per share, for any 20 trading days within a 30-day trading period commencing after the Warrants become exercisable and ending on the third business day prior to the notice of redemption to Warrant holders, and
- if, and only if, there is a current registration statement in effect with respect to the shares of Common Stock underlying such Warrants at the time of redemption and for the entire 30-day trading period referred to above and continuing each day thereafter until the date of redemption.

The right to exercise will be forfeited unless the Warrants are exercised prior to the date specified in the notice of redemption. On and after the redemption date, a record holder of a Warrant will have no further rights except to receive the redemption price for such holder's Warrant upon surrender of such Warrant.

The redemption criteria for the Warrants have been established at a price which is intended to provide Warrant holders a reasonable premium to the initial exercise price and provide a sufficient differential between the then-prevailing share price and the Warrant exercise price so that if the share price declines as a result of a redemption call, the redemption will not cause the share price to drop below the exercise price of the Warrants.

If the Warrants are called for redemption as described above, management will have the option to require all holders that wish to exercise Warrants to do so on a "cashless basis." In such event, each holder would pay the exercise price by surrendering the Warrants for that number of shares of Common Stock equal to the quotient obtained by dividing (x) the product of the number of shares of Common Stock underlying the Warrants, multiplied by the difference between the exercise price of the Warrants and the "fair market value" (defined below) by (y) the fair market value. The "fair market value" for this purpose shall mean the average reported last sale price of the Common Stock for the 10 trading days ending on the third trading day prior to the date on which the notice of redemption is sent to the holders of Warrants. Whether we will exercise our option to require all holders to exercise their Warrants on a "cashless basis" will depend on a variety of factors including the price of the Common Stock at the time the Warrants are called for redemption, ongoing cash needs at such time and concerns regarding dilutive share issuances.

The Warrants have been issued in registered form under a warrant agreement (the "Warrant Agreement") between Continental Stock Transfer & Trust Company, as warrant agent, and ROCH. The Warrant Agreement provides that the terms of the Warrants may be amended without the consent of any holder to cure any ambiguity or correct any defective provision, but requires the approval, by written consent or vote, of the holders of a majority of the then outstanding Warrants in order to make any change that adversely affects the interests of the registered holders.

The exercise price and number of shares of common stock issuable on exercise of the Warrants may be adjusted in certain circumstances including in the event of a share dividend, extraordinary dividend or recapitalization, reorganization, merger or consolidation. However, the Warrants will not be adjusted for issuances of shares of Common Stock at a price below the applicable exercise price.

The Warrants may be exercised upon surrender of the Warrant certificate on or prior to the expiration date at the offices of the warrant agent, with the exercise form on the reverse side of the Warrant certificate completed and executed as indicated, accompanied by full payment of the exercise price, by certified or official bank check, for the number of Warrants being exercised. The Warrant holders do not have the rights or privileges of holders of shares of Common Stock and any voting rights until they exercise their warrants and receive shares of common stock. After the issuance of shares of Common Stock upon exercise of the Warrants, each holder will be entitled to one vote for each share held of record on all matters to be voted on by stockholders.

Warrant holders may elect to be subject to a restriction on the exercise of their Warrants such that an electing Warrant holder would not be able to exercise their Warrants to the extent that, after giving effect to such exercise, such holder would beneficially own in excess of 9.9% of the shares of Common Stock outstanding.

No fractional shares will be issued upon exercise of the Warrants. If, upon exercise of the Warrants, a holder would be entitled to receive a fractional interest in a share, upon exercise, the number of shares of Common Stock to be issued to the Warrant holder will be rounded down to the nearest whole number.

In connection with the RH Merger, the Combined Company will become the successor to ROCH under the warrant agreement and the Warrants will become exercisable for Combined Company Common Stock on the same terms, and subject to the same conditions, as described above. The Warrants and the shares of Combined Company Common Stock issuable upon exercise of the Warrants have been registered pursuant to the registration statement of which this prospectus forms a part.

Units

The shares of Common Stock and Warrants issued in connection with the IPO (including in several contemporaneous private placements to insiders) were sold in the form of units ("Units"), each Unit consisting of one share of Common Stock and three-quarters of one redeemable Warrant. In connection with the RH Merger, the Combined Company became the successor to ROCH with respect to the Common Stock and under the Warrant Agreement and accordingly, any Units outstanding from and after the Business Combination reflect a unit consisting of one share of Combined Company Common Stock and three-quarters of one redeemable Warrant to purchase Combined Company Common Stock.

Dividends

The DGCL permits a corporation to declare and pay dividends out of "surplus" or, if there is no "surplus", out of its net profits for the fiscal year in which the dividend is declared and/or the preceding fiscal year. "Surplus" is defined as the excess of the net assets of the corporation over the amount determined to be the capital of the corporation by the board of directors. The capital of the corporation is typically calculated to be (and cannot be less than) the aggregate par value of all issued shares of capital stock. Net assets equals the fair value of the total assets minus total liabilities. The DGCL also provides that dividends may not be paid out of net profits if, after the payment of the dividend, capital is less than the capital represented by the outstanding stock of all classes having a preference upon the distribution of assets.

Declaration and payment of any dividend will be subject to the discretion of the Combined Company's board of directors. The time and amount of dividends will be dependent upon the Combined Company's financial condition, operations, cash requirements and availability, debt repayment obligations, capital expenditure needs and restrictions in the Combined Company's debt instruments, industry trends, the provisions of Delaware law affecting the payment of distributions to stockholders and any other factors the Combined Company's board of directors may consider relevant.

Subject to the rights of the holders of any series of preferred stock, holders of the Combined Company's Common Stock will be entitled to receive such dividends and distributions and other distributions in cash, stock or property of the Combined Company when, as and if declared thereon by the Combined Company's board of directors from time to time out of assets or funds of the Combined Company legally available therefor.

ParentCo has no current plans to pay dividends on the ParentCo Common Stock and the Combined Company likewise has no plans to pay dividends on the Combined Company's Common Stock. Any decision to declare and pay dividends in the future will be made at the sole discretion of the Combined Company's board of directors and will

depend on, among other things, the Combined Company's results of operations, cash requirements, financial condition, contractual restrictions and other factors that the Combined Company's board of directors may deem relevant. Because the Combined Company will be a holding company with no direct operations, the Combined Company will only be able to pay dividends from funds it receive from its subsidiaries.

Annual Stockholder Meetings

The Amended and Restated Bylaws will provide that annual stockholder meetings will be held wholly or partially by means of remote communication or at such place, within or without the State of Delaware, on such date and at such time as may be determined by the Combined Company's board of directors, the Chief Executive Officer of the Combined Company (the "Chief Executive Officer") or the chairman of the board of directors of the Combined Company (the "Chairman") and as will be designated in the notice of the annual meeting.

Anti-Takeover Effects of the Combined Company's Amended and Restated Certificate of Incorporation and Amended and Restated Bylaws and Certain Provisions of Delaware Law

The Amended and Restated Certificate of Incorporation and Amended and Restated Bylaws will contain and the DGCL contains provisions, which are summarized in the following paragraphs, that are intended to enhance the likelihood of continuity and stability in the composition of the Combined Company's board of directors. These provisions are intended to avoid costly takeover battles, reduce the Combined Company's vulnerability to a hostile change of control and enhance the ability of the Combined Company's board of directors to maximize stockholder value in connection with any unsolicited offer to acquire the Combined Company. However, these provisions may have an anti-takeover effect and may delay, deter or prevent a merger or acquisition of the Combined Company by means of a tender offer, a proxy contest or other takeover attempt that a stockholder might consider in its best interest, including those attempts that might result in a premium over the prevailing market price for the shares of the Combined Company's Common Stock held by stockholders.

Authorized but Unissued Capital Stock

Delaware law does not require stockholder approval for any issuance of authorized shares. However, the listing requirements of NASDAQ, which would apply if and so long as the Combined Company's Common Stock remains listed on NASDAQ, require stockholder approval of certain issuances equal to or exceeding 20% of the then outstanding voting power or then outstanding number of shares of common stock. Additional shares that may be used in the future may be issued for a variety of corporate purposes, including future public offerings, to raise additional capital or to facilitate acquisitions.

The Combined Company's board of directors may generally issue preferred shares on terms calculated to discourage, delay or prevent a change of control of the Combined Company or the removal of the Combined Company's management. Moreover, the Combined Company's authorized but unissued shares of preferred stock will be available for future issuances without stockholder approval and could be utilized for a variety of corporate purposes, including future offerings to raise additional capital, to facilitate acquisitions and employee benefit plans.

One of the effects of the existence of unissued and unreserved common stock or preferred stock may be to enable the Combined Company's board of directors to issue shares to persons friendly to current management, which issuance could render more difficult or discourage an attempt to obtain control of the Combined Company by means of a merger, tender offer, proxy contest or otherwise, and thereby protect the continuity of the Combined Company's management and possibly deprive the Combined Company's stockholders of opportunities to sell their shares of the Combined Company's Common Stock at prices higher than prevailing market prices.

Classified Board of Directors

The Combined Company's directors, other than those who may be elected by the holders of any future series of preferred stock, will be classified with respect to the time for which they severally hold office into three classes, as nearly equal in number as possible, designated Class I, Class II, and Class III, until the date (the "Sunset Date") of the first annual meeting of the stockholders that is held after the fifth anniversary of the effectiveness of the Amended and Restated Certificate of Incorporation. At any meeting of stockholders at which directors are to be elected prior to the Sunset Date, the number of directors elected may not exceed the greatest number of directors then in office in any class of directors. The directors first elected to Class I will hold office for a term expiring at the annual meeting of stockholders to be held in 2022; the directors first elected to Class II will hold office for a term expiring at the annual meeting of stockholders to be held in 2023; and the directors first elected to Class III will hold office for a term expiring at the annual meeting of stockholders to be held in 2024, with the members of each class to hold office until their successors are elected and qualified. At each succeeding annual meeting of the stockholders of the Combined Company held prior to the Sunset Date, the successors to the class of directors whose term expires at that meeting will be elected by plurality vote of all votes cast at such meeting to hold office for a term expiring at the annual meeting of stockholders held in the third year following the year of their election and until their successors are elected and qualified. All directors elected at annual meetings of stockholders held on or after the Sunset Date will be elected for terms expiring at the next annual meeting of stockholders and will not be subject to the classification provisions set forth above. Subject to the rights, if any, of the holders of any future series of preferred stock to elect additional directors under circumstances specified in a Preferred Stock Designation, directors may be elected by the stockholders only at an annual meeting of stockholders.

Removal of Directors; Vacancies

Subject to the rights, if any, of the holders of any series of preferred stock to elect additional directors under circumstances specified in a Preferred Stock Designation and other than a ROCH Designated Director (as defined in the Investor Rights Agreement), who may be removed for any reason following the expiration of the Director Designation Period (as defined in the Investor Rights Agreement) with the approval of a majority of the directors of the Combined Company (other than the ROCH Designated Directors), the Amended and Restated Certificate of Incorporation will provide that, until the Sunset Date, directors may be removed by the stockholders only for cause and following the Sunset Date, directors may be removed by the stockholders with or without cause, in each case, by the affirmative vote of the holders of a majority of the voting power of the outstanding voting stock, voting together as a single class, at any annual meeting or special meeting of the stockholders where the notice of which states that the removal of a director or directors is among the purposes of the meeting and identifies the director or directors proposed to be removed.

Subject to (a) the rights, if any, of the holders of any future series of preferred stock to elect additional directors under circumstances specified in a Preferred Stock Designation and (b) the Investor Rights Agreement, newly created directorships resulting from any increase in the number of directors and any vacancies on the board of directors resulting from death, resignation, disqualification, removal, or other cause will be filled solely by the affirmative vote of a majority of the remaining directors then in office, even though less than a quorum of the board of directors, or by a sole remaining director. Any director elected in accordance with the preceding sentence will hold office for the remainder of the full term of the class of directors in which the new directorship was created or the vacancy occurred (or, if such directorship was created or vacancy occurred after the Sunset Date, until the next annual meeting of stockholders) and until such director's successor has been elected and qualified. No decrease in the number of directors constituting the board of directors may shorten the term of any incumbent director.

Special Stockholder Meetings

Subject to the rights of the holders of any future series of preferred stock, special meetings of stockholders may be called only (i) by the Chairman, (ii) by the Chief Executive Officer, or (iii) by the Secretary of the Combined Company (the "Secretary") acting at the request of the Chairman, the Chief Executive Officer or a majority of the total number of directors that the Combined Company would have if there were no vacancies on its board of directors. At any annual meeting or special meeting of stockholders, only such business will be conducted or considered as has been brought before such meeting in the manner provided in the Amended and Restated Bylaws.

Requirements for Advance Notification of Director Nominations and Stockholder Proposals

The Amended and Restated Bylaws, which are attached as Exhibit 3.4 to the registration statement of which this prospectus forms a part, will establish advance notice procedures with respect to stockholder proposals and the nomination of candidates for election as directors, other than nominations made by or at the direction of the board of directors or a committee of the board of directors. In order for any matter to be properly brought before a meeting, a stockholder will have to comply with advance notice requirements and provide the Combined Company with certain information. Generally, to be timely, a stockholder's notice relating to any nomination or other business to be brought before an annual meeting must be delivered to the Secretary at the Combined Company's principal executive offices not less than 90 days nor more than 120 days prior to the first anniversary date of the immediately preceding annual meeting of stockholders. Notwithstanding the foregoing, in the event that the number of directors to be elected to the board of directors at the annual meeting is increased effective after the time period for which nominations would otherwise be due and there is no public announcement by the Combined Company naming the nominees for the additional directorships at least 100 days prior to the first anniversary of the preceding year's annual meeting, a stockholder's notice will also be considered timely, but only with respect to nominees for the additional directorships, if it will be delivered to the Secretary at the principal executive offices of the Combined Company not later than the close of business on the 10th day following the day on which such public announcement is first made by the Combined Company.

To be timely, a stockholder's notice relating to the nomination of a director to the Combined Company's board of directors to be brought before a special meeting will be delivered to the Secretary at the principal executive offices of the Combined Company not earlier than the close of business on the 120th day prior to such special meeting and not later than the close of business on the later of the 90th day prior to such special meeting or the 10th day following the day on which public announcement is first made of the date of the special meeting and of the nominees proposed by the board of directors to be elected at such meeting. The Amended and Restated Bylaws also specify requirements as to the form and content of a stockholder's notice. Notwithstanding the foregoing notice requirements, the notice requirements will not apply to director nominations pursuant to the Pure Crown Side Letter (as defined in the Amended and Restated Bylaws).

112

These notice provisions may defer, delay or discourage a potential acquirer from conducting a solicitation of proxies to elect the acquirer's own slate of directors or otherwise attempting to influence or obtain control of the Combined Company.

Consent of Stockholders in Lieu of Meeting

Subject to the rights of the holders of any series of preferred stock, any action required or permitted to be taken by the stockholders may be taken only at a duly called annual or special meeting of stockholders and may not be taken without a meeting by means of any consent in writing of such stockholder.

Dissenters' Rights of Appraisal and Payment

Under the DGCL, with certain exceptions, the Combined Company's stockholders will have appraisal rights in connection with a merger or consolidation of the Combined Company. Pursuant to the DGCL, stockholders who properly request and perfect appraisal rights in connection with such merger or consolidation will have the right to receive payment of the fair value of their shares as determined by the Delaware Court of Chancery.

Stockholders' Derivative Actions

Under the DGCL, any of the Combined Company's stockholders may bring an action in the Combined Company's name to procure a judgment in the Combined Company's favor, also known as a derivative action, provided that the stockholder bringing the action is a holder of the Combined Company's shares at the time of the transaction to which the action relates or such stockholder's stock thereafter devolved by operation of law.

Amendment of the Amended and Restated Certificate of Incorporation

The Amended and Restated Certificate of Incorporation will provide that the Combined Company reserves the right at any time from time to time to amend, alter, change or repeal any provision contained in the Amended and Restated Certificate of Incorporation. Notwithstanding any inconsistent provision of the Amended and Restated Certificate of Incorporation or any provision of law that might otherwise permit a lesser vote or no vote, but in addition to any affirmative vote of the holders of any series of preferred stock required by law, (a) until the Sunset Date, the affirmative vote of the holders of at least 66 2/3% of the voting power, and (b) following the Sunset Date, the affirmative vote of the holders of a majority of the voting power, in the case of each of (a) and (b), of the outstanding capital stock entitled to vote, voting together as a single class, will be required to amend, alter, change or repeal, or adopt any provision inconsistent with, certain provisions, as noted in the Amended and Restated Certificate of Incorporation, or the definition of any capitalized terms used therein or any successor provision.

Amendment of the Amended and Restated Bylaws

The Amended and Restated Bylaws may be amended in any respect or repealed at any time, either (a) at any meeting of stockholders, provided that any amendment or supplement proposed to be acted upon at any such meeting has been properly described or referred to in the notice of such meeting, or (b) by the Combined Company's board of directors, provided that no amendment adopted by the board of directors may vary or conflict with any amendment adopted by the stockholders in accordance with the Amended and Restated Certificate of Incorporation and the Amended and Restated Bylaws. Notwithstanding the foregoing and anything contained in the Amended and Restated Bylaws, certain provisions of the Amended and Restated Bylaws may not be amended or repealed by the stockholders, and no provision inconsistent therewith may be adopted by the stockholders, without (a) until the Sunset Date, the affirmative vote of the holders of at least 66 2/3% of the Combined Company's outstanding capital stock entitled to vote, voting together as a single class and (b) following the Sunset Date, the affirmative vote of the holders of a majority of the Combined Company's outstanding capital stock entitled to vote, voting together as a single class.

113

Exclusive Forum Selection

The Amended and Restated Certificate of Incorporation will provide that, unless the Combined Company consents in writing to the selection of an alternative forum, (a) the Court of Chancery (the "Chancery Court") of the State of Delaware (or, in the event that the Chancery Court does not have jurisdiction, the federal district court for the District

of Delaware) will, to the fullest extent permitted by law, be the sole and exclusive forum for (i) any derivative action, suit or proceeding brought on behalf of the Combined Company, (ii) any action, suit or proceeding asserting a claim of breach of a fiduciary duty owed by any director, officer, employee or stockholder of the Combined Company to the Combined Company or to the Combined Company's stockholders, (iii) any action, suit or proceeding arising pursuant to any provision of the DGCL or the Amended and Restated Bylaws or the Amended and Restated Certificate of Incorporation (as either may be amended and/or restated from time to time) or as to which the DGCL confers jurisdiction on the Chancery Court, or (iv) any action, suit or proceeding asserting a claim against the Combined Company governed by the internal affairs doctrine; and (b) subject to the preceding provisions, the federal district courts of the United States will be the exclusive forum for the resolution of any complaint asserting a cause of action arising under the Securities Act or the Exchange Act. If any action the subject matter of which is within the scope of clause (a) of the immediately preceding sentence is filed in a court other than the courts in the State of Delaware (a "Foreign Action") in the name of any stockholder, such stockholder will be deemed to have consented to (1) the personal jurisdiction of the state and federal courts in the State of Delaware in connection with any action brought in any such court to enforce the provisions of clause (a) of the immediately preceding sentence and (2) having service of process made upon such stockholder in any such action by the resolution of any complaint asserting a cause of action arising under the Securities Act or the Exchange Act. Any person or entity purchasing or otherwise acquiring or holding any interest in any security of the Combined Company will be deemed to have notice of and consented to such provisions of the Amended and Restated Certificate of Incorporation. Notwithstanding the foregoing, the exclusive forum provision will not apply to suits brought to enforce any liability or duty created by the Securities Act the Exchange Act, or any other claim for which the federal courts of the United States have exclusive jurisdiction. Unless the Company consents in writing to the selection of an alternative forum, the federal district courts of the United States of America shall, to the fullest extent permitted by applicable law, be the sole and exclusive forum for the resolution of any complaint asserting a cause of action arising under the Securities Act of 1933, as amended.

Limitations on Liability and Indemnification of Officers and Directors

The DGCL authorizes corporations to limit or eliminate the personal liability of directors to corporations and their stockholders for monetary damages for breaches of directors' fiduciary duties, subject to certain exceptions. The Amended and Restated Certificate of Incorporation will include a provision that eliminates the personal liability of directors for monetary damages for any breach of fiduciary duty as a director, except to the extent such exemption from liability or limitation thereof is not permitted under the DGCL. The effect of these provisions is to eliminate the rights of the Combined Company and its stockholders, through stockholders' derivative suits on the Combined Company's behalf, to recover monetary damages from a director for breach of fiduciary duty as a director, including breaches resulting from grossly negligent behavior. However, exculpation does not apply to any director for any breach of the director's duty of loyalty to the Combined Company or its stockholders, or if the director has acted in bad faith, knowingly or intentionally violated the law, authorized illegal dividends or redemptions or derived an improper benefit from his or her actions as a director.

The Amended and Restated Certificate of Incorporation will provide that the Combined Company must indemnify and advance expenses to the Combined Company's directors and officers to the fullest extent authorized by the DGCL. The Combined Company also is expressly authorized maintain insurance, at its expense, to protect itself and any director, officer, employee or agent of the Combined Company or another corporation, partnership, joint venture, trust or other enterprise against any expense, liability or loss, whether or not the Combined Company would have the power to indemnify such person against such expense, liability or loss under the DGCL. The Combined Company believes that these indemnification and advancement provisions and insurance are useful to attract and retain qualified directors and executive officers.

114

The limitation of liability, advancement and indemnification provisions in the Amended and Restated Certificate of Incorporation may discourage stockholders from bringing a lawsuit against directors for breach of their fiduciary duty. These provisions also may have the effect of reducing the likelihood of derivative litigation against directors and officers, even though such an action, if successful, might otherwise benefit the Combined Company and its stockholders. In addition, your investment may be adversely affected to the extent the Combined Company pays the costs of settlement and damage awards against directors and officers pursuant to these indemnification provisions.

There is currently no pending material litigation or proceeding involving any of ROCH's and PCT's directors, officers or employees for which indemnification is sought.

115

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth pro forma information regarding the beneficial ownership of ParentCo Common Stock immediately after the consummation of the Business Combination by each person who beneficially owns or is expected to beneficially own more than 5% of ParentCo's Common Stock and each officer, each director and all officers and directors as a group of ParentCo. Immediately after the consummation of the Business Combination, ParentCo will have 118,322,900 shares of Common Stock issued and outstanding, after giving effect to all redemption requests received on or prior to the Closing Date and not including the 8,661,290.32 shares issuable upon conversion of the Convertible Notes.

Shares which an individual or group has a right to acquire within 60 days pursuant to the exercise or conversion of options, warrants or other similar convertible or derivative securities are deemed to be outstanding for the purpose of computing the percentage ownership of such individual or group, but are not deemed to be outstanding for the purpose of computing the percentage ownership of any other person shown in the table.

The beneficial ownership of shares of ParentCo's Common Stock post-Business Combination assumes:

- no exercise of the 5,936,625 ParentCo Warrants that will remain outstanding post-Business Combination; and
- that the Magnetar Funds (as defined below) do not convert the Convertible Notes prior to the consummation of the Business Combination.

The beneficial ownership of shares of ParentCo's Common Stock post-Business Combination reflects the completion by Innventure1, LLC, the sole owner of Innventure LLC, of the distribution of approximately 80% of the PCT Class A Units owned by Innventure LLC (approximately 1.5 million of the 1.9 million PCT Class A Units owned, the only PCT Units owned by Innventure LLC) to the members of Innventure1, LLC (the "Innventure Recapitalization"). The Innventure Recapitalization was undertaken to simplify the ownership of the applicable PCT Units. The Innventure Recapitalization took place in two stages, a 50% move effective in December of 2020 and a 30% move effective in early February of 2021. As a result of the Innventure Recapitalization, the number of PCT Class A Units beneficially owned by Messrs. Otworth, R. Brenner, T. Glockner and Dr. Scott increased and the number of PCT Class A Units beneficially owned by Innventure LLC decreased, a change reflected in the increase of the number of the post-Business Combination ParentCo Common Stock beneficially owned by such individuals and a decrease in the number of the post-Business Combination ParentCo Common Stock beneficially owned by Innventure LLC.

Following the Business Combination, 8,661,290.32 shares of ParentCo's Common Stock will be issuable to the Magnetar Funds upon conversion of the Convertible Notes.

Unless otherwise indicated, ParentCo believes that all persons named in the table below have sole voting and investment power with respect to all shares of capital stock beneficially owned by them. To ParentCo's knowledge, no shares of ParentCo Common Stock beneficially owned by any executive officer, director or director nominee have been pledged as security.

Name and Address of Beneficial Owner ⁽¹⁾	Amount and Nature of Beneficial Ownership	Percentage of Outstanding ParentCo Shares

(1) Unless otherwise indicated, the business address of each of the directors and officers of the Combined Company is c/o PureCycle Technologies, Inc., 5950 Hazeltine National Drive, Suite 650 Orlando, Florida 32822.

(2) Consists of 3,997,165 shares of ParentCo Common Stock to be issued in exchange for (i) 291,223 outstanding pre-Closing PCT Class A Units at the Closing and (ii) 112,500 outstanding pre-Closing PCT Class C Units at the Closing.

(3) Consists of 998,110 shares of ParentCo Common Stock to be issued in exchange for 115,328 outstanding pre-Closing PCT Class C Units at the Closing.

(4) Consists of 143,235 shares of ParentCo Common Stock to be issued in exchange for 52,133 outstanding pre-Closing PCT Class C Units at the Closing.

(5) Consists of 3,516,754 shares of ParentCo Common Stock to be issued in exchange for (i) 301,054 outstanding pre-Closing PCT Class A Units at the Closing and (ii) 37,500 outstanding pre-Closing PCT Class C Units at the Closing.

(6) Consists of 2,724,945 shares of ParentCo Common Stock to be issued in exchange for (i) 225,790 outstanding pre-Closing PCT Class A Units at the Closing and (ii) 37,500 outstanding pre-Closing PCT Class C Units at the Closing.

(7) Consists of (i) 439,640 ROCH shares, (ii) 700,000 shares of ParentCo Common Stock purchased by Mr. Fieler in the PIPE and (iii) 393,889 ROCH Warrants to be exchanged for 393,889 ParentCo Warrants, exercisable on May 7, 2021.

(8) Consists of 5,581,933 shares of ParentCo Common Stock to be issued to the Timothy E. Glockner Revocable Trust in exchange for (a) 107,486 outstanding pre-Closing PCT Class A Units at the Closing, (b) 403,303 outstanding pre-Closing PCT Class B Preferred Units at the Closing and (c) 19,462 outstanding pre-Closing PCT Class C Units at the Closing. Timothy Glockner is the trustee of the Timothy E. Glockner Revocable Trust and is deemed to hold the sole voting and investment power with respect to the shares held by the Timothy E. Glockner Revocable Trust. Timothy Glockner is not deemed to be the beneficial owner of (i) 845,614 shares of ParentCo Common Stock to be issued to the Barbara G. Glockner Trust fbo Timothy E. Glockner in exchange for (a) 76,619 outstanding pre-Closing PCT Class B Preferred Units at the Closing and (b) 3,697 outstanding pre-Closing PCT Class C Units at the Closing; (ii) 845,573 shares of ParentCo Common Stock to be issued to the Barbara G. Glockner Trust fbo Joseph C. Glockner in exchange for (a) 76,615 outstanding pre-Closing PCT Class B Preferred Units at the Closing and (b) 3,697 outstanding pre-Closing PCT Class C Units at the Closing and (iii) 845,573 shares of ParentCo Common Stock to be issued to the Barbara G. Glockner Trust fbo Michael P. Glockner in exchange for (a) 76,615 outstanding pre-Closing PCT Class B Preferred Units at the Closing and (b) 3,697 outstanding pre-Closing PCT Class C Units at the Closing. Voting and investment power over the shares held by each of the Barbara G. Glockner Trust fbo Timothy E. Glockner, Barbara G. Glockner, Barbara G. Glockner Trust fbo Joseph C. Glockner and Barbara G. Glockner Trust fbo Michael P. Glockner may be exercised by Timothy Glockner, James Donnally, and Joshua Howard, none of whom individually have voting or investment power pursuant to Exchange Act Rule 13d-3. Timothy Glockner has a life estate interest in the Barbara G. Glockner Trust fbo Timothy E. Glockner. The beneficiaries of the Barbara G. Glockner Trust fbo Timothy E. Glockner are the issue of Timothy Glockner. The beneficiaries of the Barbara G. Glockner Trust fbo Joseph C. Glockner are the issue of Joseph C. Glockner. The beneficiaries of the Barbara G. Glockner Trust fbo Michael P. Glockner are the issue of Michael P. Glockner. The business address of the reporting person is P.O. Box 1505, Portsmouth, Ohio 45662.

(9) Consists of (i) an aggregate of 7,182,391 shares of ParentCo Common Stock to be issued in exchange for 683,092 outstanding pre-Closing PCT Class A Units held by BEMAP Master Fund Ltd., Blackwell Partners LLC — Series A, Sylebra Capital Parc Master Fund and Sylebra Capital Partners Master Fund, Ltd (collectively, the “Sylebra Funds”) and (ii) 10,000,000 shares of ParentCo Common Stock purchased by the Sylebra Funds in the PIPE. Sylebra Capital Limited may be deemed to have sole investment and voting power over the shares held by the Sylebra Funds pursuant to investment management agreements with each of the Sylebra Funds. None of the Sylebra Funds has beneficial ownership (within the meaning of Exchange Act Rule 13d-3) of any shares held by such fund. Sylebra Capital Limited is fully owned by Sylebra Capital Management, which is in turn fully owned by Daniel Patrick Gibson. The address for the beneficial owner is c/o Sylebra Capital Limited, 20th Floor, 28 Hennessy Road, Wanchai, Hong Kong.

(10) Consists of (i) 3,982,675 shares of ParentCo Common Stock to be issued in exchange for 378,563 outstanding pre-Closing PCT Class A Units held by Innventure LLC at the Closing and (ii) 5,692,292 shares of ParentCo Common Stock to be issued in exchange for 378,963 outstanding pre-Closing PCT Class B-1 Preferred Units held by Innventus Fund I, L.P. at the Closing. Innventure1, LLC is the sole owner of the assets of Innventure LLC, and as such, Innventure1, LLC exercises voting and investment power over the shares held by Innventure LLC. Voting and investment power over the shares held by Innventure LLC is exercised by the board of directors of Innventure1 LLC, which consists of Michael Otworth, Dr. John Scott, James Donnally, and Richard Brenner, none of whom individually have voting or investment power pursuant to Exchange Act Rule 13d-3. The business address of Innventure1, LLC is 5950 Hazeltine National Dr. Suite 650, Orlando, Florida 32822. Innventus Fund I, L.P. is an affiliate of Innventure LLC. Voting and investment power over the shares held by Innventus Fund I, L.P. is exercised by the investment committee of Innventus Fund I, L.P., which consists of Michael Otworth, Dr. John Scott, and Lucas Harper, none of whom individually have voting or investment power pursuant to Exchange Act Rule 13d-3. The business address of Innventus Fund I, L.P., is 5950 Hazeltine National Dr. Suite 650, Orlando, Florida 32822.

(11) Pure Crown LLC is managed by HCC Manager LLC pursuant to the Limited Liability Company Agreement of Pure Crown LLC. The shares to be held by Pure Crown LLC consist of 7,573,538 shares of ParentCo Common Stock to be issued in exchange for (i) 288,570 outstanding pre-Closing PCT Class A Units at the Closing, (ii) 87,500 outstanding pre-Closing PCT Class C Units at the Closing and (iii) 265,922 outstanding pre-Closing PCT Class B-1 Preferred Units at the Closing. Voting and investment power over these shares is exercised jointly by the three individuals who are the managers of HCC Manager LLC, and voting and disposition decisions require the approval of a majority of such managers. Accordingly, none of these managers individually has voting or investment power over such shares pursuant to Exchange Act Rule 13d-3, and therefore no individual is deemed to be the beneficial owner of the shares held by Pure Crown LLC. The business address of HCC Manager LLC is 222 N LaSalle Street, Suite 2000, Chicago, Illinois 60601.

(12) Consists of 7,543,442 shares of ParentCo Common Stock to be issued in exchange for (i) 540,362 outstanding pre-Closing PCT Class A Units held by WE-INN LLC at the Closing, (ii) 160,323 outstanding pre-Closing PCT Class B Preferred Units held by WE-INN LLC at the Closing and (iii) 13,296 outstanding pre-Closing PCT Class B Preferred Units held by the Wasson Family 2015 GST Irrevocable Gift Trust dated 10/19/2015 at the Closing. WE-INN LLC is wholly owned by G&K Investment Holdings. In such capacity, G&K Investment Holdings exercises voting and investment power over the securities listed above held for the accounts of WE-INN LLC. Greg Wasson and Kim Wasson may be deemed to share voting and investment control over the shares controlled by G&K Investment Holdings. Greg Wasson is the investment advisor to the Wasson Family 2015 GST Irrevocable Gift Trust dated 10/19/2015 and has the authority to direct the actions of the co-trustees with regards to voting and investment decisions for shares held by the Wasson Family 2015 GST Irrevocable Gift Trust dated 10/19/2015. As such, Greg Wasson may be deemed to exercise sole voting and investment power over the shares held by the Wasson Family 2015 GST Irrevocable Gift Trust dated 10/19/2015. The business address of the reporting person is 233 N Michigan Avenue, Suite 1410, Chicago, Illinois 60557.

(13) Does not include 8,661,290.32 shares of ParentCo Common Stock that could be issued on the conversion (at the election of the Magnetar Funds (as defined below)), upon or after 180 days following the Closing, of the convertible notes in the amount of \$60 million held by Magnetar PRCL Holdings Limited, Purpose Alternative Credit Fund — T LLC, Purpose Alternative Credit Fund — F LLC, Magnetar Structured Credit Fund, LP, Magnetar Longhorn Fund LP, and Magnetar Lake Credit Fund LLC. Magnetar Financial LLC (“MFL”) serves as investment manager of each of Magnetar PRCL Holdings Limited, Purpose Alternative Credit Fund — T LLC, Purpose Alternative Credit Fund — F LLC, Magnetar Longhorn Fund LP, and Magnetar Lake Credit Fund LLC. MFL is the general partner of Magnetar Structured Credit Fund, LP (together with all of the foregoing funds, the “Magnetar Funds”). In such capacities, MFL exercises voting and investment power over the securities listed above held for the accounts of the Magnetar Funds. MFL is a registered investment adviser under Section 203 of the Investment Advisers Act of 1940, as amended. Magnetar Capital Partners LP (“MCP”), is the sole member and parent holding company of MFL. Supernova Management LLC (“Supernova”), is the sole general partner of MCP. The manager of Supernova is Alec N. Litowitz, a citizen of the United States of America. Each of the Magnetar Funds, MFL, MCP, Supernova and Alec N. Litowitz disclaim beneficial ownership of these securities except to the extent of their pecuniary interest in the securities.

SELLING STOCKHOLDERS

The shares of ParentCo Common Stock being offered by the Selling Stockholders are those previously issued to the Selling Stockholders in connection with the Business Combination. We are registering the shares of ParentCo Common Stock in order to permit the Selling Stockholders to offer the shares for resale from time to time. Except for the ownership of the shares of ParentCo Common Stock, the Selling Stockholders have not had any material relationship with us within the past three years.

The table below lists the Selling Stockholders and other information regarding the beneficial ownership of the shares of ParentCo Common Stock by each of the Selling Stockholders. The second column lists the number of shares of ParentCo Common Stock expected to be beneficially owned by each Selling Stockholder upon consummation of the Business Combination, based on its ownership of the shares of Common Stock, as of March 17, 2021. The third column lists the shares of ParentCo Common Stock being offered by this prospectus by the Selling Stockholders.

In accordance with the terms of a registration rights agreement with the Selling Stockholders, this prospectus generally covers the resale of the sum of the number of shares of ParentCo Common Stock issued to the Selling Stockholders in the Business Combination. The fourth column assumes the sale of all of the shares offered by the Selling Stockholders pursuant to this prospectus.

We have determined beneficial ownership in accordance with the rules of the SEC and the information is not necessarily indicative of beneficial ownership for any other purpose. Unless otherwise indicated below, to our knowledge, the persons and entities named in the table have sole voting and sole investment power with respect to all securities that they beneficially own, subject to community property laws where applicable.

The Selling Stockholders may sell all, some or none of their shares in this offering. See *Plan of Distribution*."

(16) Matthew B. Smith has sole voting and dispositive power over these shares. The address for the beneficial owner is 520 Madison Ave, New York, NY 10022.

(17) Whitebox Advisors LLC, is a Delaware limited liability company and investment adviser registered with the SEC. Whitebox Advisors LLC is the investment manager of Whitebox Multi-Strategy Partners, LP and holds voting and disposable power over the shares of the Company held by Whitebox Multi-Strategy Partners, LP. Whitebox Advisors LLC is owned by Robert Vogel, Paul Twitchell, Jacob Mercer and Paul Roos and such individuals disclaim beneficial ownership of the securities referenced herein except to the extent of its or his direct or indirect economic interest in Whitebox Advisors LLC or Whitebox Multi-Strategy Partners, LP.

(18) Whitebox Advisors LLC, is a Delaware limited liability company and investment adviser registered with the SEC. Whitebox Advisors LLC is the investment manager of Whitebox Relative Value Partners, LP and holds voting and disposable power over the shares of the Company held by Whitebox Relative Value Partners, LP. Whitebox Advisors LLC is owned by Robert Vogel, Paul Twitchell, Jacob Mercer and Paul Roos and such individuals disclaim beneficial ownership of the securities referenced herein except to the extent of its or his direct or indirect economic interest in Whitebox Advisors LLC or Whitebox Relative Value Partners, LP.

(19) Greenlight Capital, Inc. ("Greenlight Inc.") is the investment advisor for Greenlight Capital Offshore Partners, Ltd., and as such has voting and dispositive power over 62,020 shares of common stock held by Greenlight Capital Offshore Partners, Ltd. DME Capital Management, LP ("DME Management") is the investment advisor for Greenlight Capital Offshore Master, Ltd., and as such has voting and dispositive power over 37,980 shares of common stock held by Greenlight Capital Offshore Master, Ltd. DME Advisors GP, LLC ("DME GP") is the general partner of DME Management, and as such has voting and dispositive power over 37,980 shares of common stock. David Einhorn is the principal of Greenlight Inc., DME Management and DME GP, and as such has voting and dispositive power over 100,000 shares of common stock held by these affiliates of Greenlight, Inc. Each of Mr. Einhorn, Greenlight Inc., DME Management and DME GP disclaims beneficial ownership of these shares of common stock, except to the extent of any pecuniary interest therein.

(20) Empery Asset Management LP, the authorized agent of Empery Tax Efficient III, LP ("ETE III"), has discretionary authority to vote and dispose of the shares held by ETE III and may be deemed to be the beneficial owner of these shares. Martin Hoe and Ryan Lane, in their capacity as investment managers of Empery Asset Management LP, may also be deemed to have investment discretion and voting power over the shares held by ETE III. ETE III, Mr. Hoe and Mr. Lane each disclaim any beneficial ownership of these shares.

(21) Empery Asset Management LP, the authorized agent of Empery Tax Efficient, LP ("ETE"), has discretionary authority to vote and dispose of the shares held by ETE and may be deemed to be the beneficial owner of these shares. Martin Hoe and Ryan Lane, in their capacity as investment managers of Empery Asset Management LP, may also be deemed to have investment discretion and voting power over the shares held by ETE. ETE, Mr. Hoe and Mr. Lane each disclaim any beneficial ownership of these shares.

(22) Empery Asset Management LP, the authorized agent of Empery Asset Master Ltd ("EAM"), has discretionary authority to vote and dispose of the shares held by EAM and may be deemed to be the beneficial owner of these shares. Martin Hoe and Ryan Lane, in their capacity as investment managers of Empery Asset Management LP, may also be deemed to have investment discretion and voting power over the shares held by EAM. EAM, Mr. Hoe and Mr. Lane each disclaim any beneficial ownership of these shares.

(23) Joan S. Blaine and James G. Blaine, Sr. have shared voting and dispositive power over these shares. The address for the beneficial owners is c/o Baldwin Brothers, 204 Spring St., Marion, MA 02738, Attn: Dylan Sage.

(24) Magnetar Financial LLC (“MFL”) serves as investment manager of each of Longhorn Special Opportunities Fund LP, Magnetar Capital Master Fund, Ltd., Magnetar Constellation Fund II, Ltd., Magnetar Constellation Master Fund, Ltd., Magnetar Longhorn Fund LP, Magnetar SC Fund Ltd., Magnetar Structured Credit Fund, LP and Magnetar Xing He Master Fund Ltd. MFL is the manager of Magnetar Lake Credit Fund LLC, Purpose Alternative Credit Fund - F LLC, and Purpose Alternative Credit Fund - T LLC (together with all of the foregoing funds, the “Magnetar Funds”). In such capacities, MFL exercises voting and investment power over the securities listed above held for the accounts of the Magnetar Funds. MFL is a registered investment adviser under Section 203 of the Investment Advisers Act of 1940, as amended. Magnetar Capital Partners LP (“MCP”), is the sole member and parent holding company of MFL. Supernova Management LLC (“Supernova”), is the sole general partner of MCP. The manager of Supernova is Alec N. Litowitz, a citizen of the United States of America. Each of the Magnetar Funds, MFL, MCP, Supernova and Alec N. Litowitz disclaim beneficial ownership of these securities except to the extent of their pecuniary interest in the securities.

(25) Martin A. Hall & Jennifer S. Ewing have shared voting and dispositive power over these shares. The address for the beneficial owners is c/o Wilmington Trust Company, 1100 North Market Street, Wilmington, DE 19890, Attn: Allison Patni.

(26) Martin A. Hall & Jennifer S. Ewing have shared voting and dispositive power over these shares. The address for the beneficial owners is c/o Wilmington Trust Company, 1100 North Market Street, Wilmington, DE 19890, Attn: Allison Patni.

(27) Martin A. Hall & Jennifer S. Ewing have shared voting and dispositive power over these shares. The address for the beneficial owners is c/o Wilmington Trust Company, 1100 North Market Street, Wilmington, DE 19890, Attn: Allison Patni.

(28) Martin A. Hall & Jennifer S. Ewing have shared voting and dispositive power over these shares. The address for the beneficial owners is c/o Wilmington Trust Company, 1100 North Market Street, Wilmington, DE 19890, Attn: Allison Patni.

(29) Martin A. Hall & Jennifer S. Ewing have shared voting and dispositive power over these shares. The address for the beneficial owners is c/o Wilmington Trust Company, 1100 North Market Street, Wilmington, DE 19890, Attn: Allison Patni.

(30) Martin A. Hall & Jennifer S. Ewing have shared voting and dispositive power over these shares. The address for the beneficial owners is c/o Wilmington Trust Company, 1100 North Market Street, Wilmington, DE 19890, Attn: Allison Patni.

(31) Martin A. Hall & Jennifer S. Ewing have shared voting and dispositive power over these shares. The address for the beneficial owners is c/o Wilmington Trust Company, 1100 North Market Street, Wilmington, DE 19890, Attn: Allison Patni.

(32) Sylebra Capital Limited may be deemed to have sole investment and voting power over the shares held by each of BEMAP Master Fund Ltd., Blackwell Partners LLC — Series A, Sylebra Capital Parc Master Fund and Sylebra Capital Partners Master Fund, Ltd. (together, the “Sylebra Funds”) pursuant to investment management agreements with each of the Sylebra Funds. None of the Sylebra Funds has beneficial ownership (within the meaning of Exchange Act Rule 13d-3) of any shares held by such fund. Sylebra Capital Limited is fully owned by Sylebra Capital Management, which is in turn fully owned by Daniel Patrick Gibson. The address for the beneficial owner is c/o Sylebra Capital Limited, 20th Floor, 28 Hennessy Road, Wanchai, Hong Kong. In connection with the Sylebra Capital Class A Unit Purchase Agreements (as defined above), and as documented in the Investor Rights Agreement, Sylebra Capital will be entitled to select one member of ParentCo’s Board of Directors.

(33) Kathryn Ilene Murtagh has sole voting and dispositive power over these shares. The address for the beneficial owner is c/o Harvard Management Company, Inc., 600 Atlantic Avenue, Boston, MA 02210.

(34) Mousserena, L.P. and Charles Heilbronn have shared voting and dispositive power over these shares. The address for Mousserena, L.P. is Ugland House, 135 South Church Street, George Town, Grand Cayman KY1-1104 Cayman Islands. The address for Mr. Heilbronn is c/o Mousse Partners Limited, 9 West 57th Street, New York, NY 10019.

(35) Mr. Fieler has agreed to serve as a member of the Board of Directors of ParentCo following the consummation of the Business Combination.

(36) Howard Hughes Medical Institute (“HHMI”) is a nonprofit Delaware corporation qualified under 501(d)(3) of the Internal Revenue Code of 1986 and has no stockholders or beneficial owners. Voting and dispositive power with respect to the shares by HHMI is exercised by Landis Zimmerman, as Chief Investment Officer. The principal business address of HHMI is 4000 Jones Bridge Road, Chevy Chase, MD 20815.

SHARES ELIGIBLE FOR FUTURE SALE

Upon the consummation of the Business Combination, ParentCo will have 250,000,000 shares of ParentCo Common Stock authorized and 118,322,900 shares of ParentCo Common Stock issued and outstanding, after giving effect to all redemption requests received on or prior to the Closing Date. All of the shares of ParentCo Common Stock issued in connection with the Business Combination will be freely transferable by persons other than by ParentCo’s “affiliates” or ROCH’s “affiliates” without restriction or further registration under the Securities Act. Sales of substantial amounts of the ParentCo Common Stock in the public market could adversely affect prevailing market prices of the ParentCo Common Stock. Prior to the Business Combination, there has been no public market for shares of ParentCo Common Stock. ParentCo has applied for listing of the ParentCo Common Stock, warrants and units on NASDAQ, but ParentCo cannot assure you that a regular trading market will develop in the ParentCo Common Stock.

Lock-up Agreements

Pursuant to the Investor Rights Agreement, almost all of the PCT Unitholders agreed, with certain limited exceptions, to lock up the shares of ParentCo Common Stock they will receive in the Business Combination, to be released in accordance with the following schedule:

- From and after the six-month anniversary of the Closing Date, each Founder (as defined in the Investor Rights Agreement) may sell up to 20% of such Founder’s ParentCo Common Shares and each PCT Unitholder that is not a Founder may sell up to 33.34% of such PCT Unitholder’s ParentCo Common Shares.
- From and after the one-year anniversary of the Closing Date, each Founder may sell up to 30% of such Founder’s ParentCo Common Shares and each PCT Unitholder that is not a Founder may sell up to 33.33% of such PCT Unitholder’s ParentCo Common Shares.
- From and after the Phase II Facility becoming operational, as certified by Leidos, an independent engineering firm, each Founder may sell up to 50% of such Founder’s ParentCo Common Shares and each PCT Unitholder that is not a Founder may sell up to 33.33% of such PCT Unitholder’s shares of ParentCo Common Shares; provided that, in the case of Procter & Gamble, such lock-up will terminate in any event no later than April 15, 2023.

In addition, ROCH and certain officers, directors and sponsors of ROCH (collectively, the “IPO Insiders”) previously entered into a letter agreement (the “Letter Agreement”) in connection with ROCH’s IPO, pursuant to which the IPO Insiders agreed to certain selling restrictions and hedging restrictions applicable to the Common Stock they hold, which will be converted to ParentCo Common Stock in the Business Combination. Among other things, the IPO Insiders agreed in the Letter Agreement to lock up the shares of ParentCo Common Stock they will receive in the Business Combination for six months following the Business Combination (the “Lock Up Period”), unless the closing price of ParentCo Common stock equals or exceeds \$12.50 per share for any 20 trading days within any 30-trading day period after the Business Combination, in which case the IPO Insiders may sell up to 50% of their holdings of ParentCo Common Stock. The Letter Agreement also provides that the IPO Insiders will be released from the selling restrictions under the Letter Agreement before the Lock Up Period expires if ParentCo undergoes certain transactions where ParentCo shareholders have the right to exchange their shares of ParentCo Common Stock for cash, securities or other property.

Rule 144

All of ParentCo’s Common Stock that will be outstanding upon the completion of the Business Combination, other than those shares of ParentCo Common Stock registered pursuant to the Registration Statement on Form S-4 filed in connection with the Business Combination and those shares of ParentCo Common Stock registered pursuant to the registration statement of which this prospectus forms a part, will be “restricted securities” as that term is defined in Rule 144 under the Securities Act and may be sold publicly in the United States only if they are subject to an effective registration statement under the Securities Act or pursuant to an exemption from the registration requirement such as those provided by Rule 144 and Rule 701 promulgated under the Securities Act. However, Rule 144 is not available for the resale of securities initially issued by shell companies (other than business combination related shell companies) or issuers that have been at any time previously a shell company. Rule 144 does include an important exception to this prohibition if the following conditions are met:

- the issuer of the securities that was formerly a shell company has ceased to be a shell company;
- the issuer of the securities is subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act;
- the issuer of the securities has filed all Exchange Act reports and material required to be filed, as applicable, during the preceding 12 months (or such shorter period that the issuer was required to file such reports and materials), other than Form 8-K reports; and
- at least one year has elapsed from the time that the issuer filed current Form 10 type information with the SEC reflecting its status as an entity that is not a shell company.

123

As a result, the initial ROCH holders, purchasers in the PIPE Placement, any of their respective affiliates and other third parties will be able to sell their Founder Shares, Private Shares, Public Shares or PIPE Placement shares, as applicable, pursuant to and in accordance with Rule 144 without registration one year after the completion of the Business Combination. However, if they remain one of our affiliates, they will only be permitted to sell a number of securities that does not exceed the greater of:

- 1% of the then outstanding equity shares of the same class which, immediately after the Business Combination, will equal 1,183,280 shares of ParentCo Common Stock, including 2,183,000 Founder Shares that will be subject to certain lock-up arrangements pursuant to the Letter Agreement among Roth CH Acquisition I Co., Roth Capital Partners, LLC and Craig-Hallum Capital Group LLC and Roth CH Acquisition I Co.’s officers, directors and stockholders entered into in connection with the IPO; or
- the average weekly reported trading volume of the Common Stock during the four calendar weeks preceding the filing of a notice on Form 144 with respect to the sale.

Sales by our affiliates under Rule 144 would also limited be limited by manner of sale provisions and notice requirements and to the availability of current public information about us.

Rule 701

In general, under Rule 701 of the Securities Act as currently in effect, each of PCT’s employees, consultants or advisors who purchases equity shares from ParentCo in connection with a compensatory stock plan or other written agreement executed prior to the completion of the Business Combination is eligible to resell those equity shares in reliance on Rule 144, but without compliance with some of the restrictions, including the holding period, contained in Rule 144. However, the Rule 701 shares would remain subject to lock-up arrangements and would only become eligible for sale when the lock-up period expires.

Registration Rights

In connection with, and as a condition to the consummation of, the Business Combination, the Merger Agreement provides that certain persons and entities holding PCT Units and certain Initial Stockholders will enter into the Investor Rights Agreement. Pursuant to the terms of the Investor Rights Agreement, ParentCo will be obligated to file, after it becomes eligible to use Form S-3 or its successor form, a shelf registration statement to register the resale by the parties of the shares of ParentCo Common Stock issuable in connection with the Business Combination. At least 60.3 million shares of ParentCo Common Stock are expected to be covered by the Investor Rights Agreement. The Investor Rights Agreement will also provide the parties with demand, “piggy-back” and Form S-3 registration rights, subject to certain minimum requirements and customary conditions. ParentCo has also granted certain registration rights pursuant to the PIPE Registration Rights Agreement and the Magnetar Registration Rights Agreement, as described elsewhere in this prospectus.

124

PLAN OF DISTRIBUTION

Each Selling Stockholder of the securities and any of their pledgees, assignees and successors-in-interest may, from time to time, sell any or all of their securities covered hereby on the principal trading market for such securities or any other stock exchange, market or trading facility on which the securities are traded or in private transactions. These sales may be at fixed or negotiated prices. A Selling Stockholder may use any one or more of the following methods when selling securities:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits Subscribers;
- block trades in which the broker-dealer will attempt to sell the securities as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;

- privately negotiated transactions;
- settlement of short sales;
- in transactions through broker-dealers that agree with the Selling Stockholders to sell a specified number of such securities at a stipulated price per security;
- through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;
- a combination of any such methods of sale; or
- any other method permitted pursuant to applicable law.

The Selling Stockholders may also sell securities under Rule 144 or any other exemption from registration under the Securities Act, if available, rather than under this prospectus.

Broker-dealers engaged by the Selling Stockholders may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the Selling Stockholders (or, if any broker-dealer acts as agent for the Subscriber of securities, from the Subscriber) in amounts to be negotiated, but, except as set forth in a supplement to this Prospectus, in the case of an agency transaction not in excess of a customary brokerage commission in compliance with FINRA Rule 2440; and in the case of a principal transaction a markup or markdown in compliance with FINRA IM-2440.

In connection with the sale of the securities or interests therein, the Selling Stockholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the securities in the course of hedging the positions they assume. The Selling Stockholders may also sell securities short and deliver these securities to close out their short positions, or loan or pledge the securities to broker-dealers that in turn may sell these securities. The Selling Stockholders may also enter into option or other transactions with broker-dealers or other financial institutions or create one or more derivative securities which require the delivery to such broker-dealer or other financial institution of securities offered by this prospectus, which securities such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

125

The Selling Stockholders and any broker-dealers or agents that are involved in selling the securities may be deemed to be “underwriters” within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the securities purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. Each Selling Stockholder has informed ParentCo that it does not have any written or oral agreement or understanding, directly or indirectly, with any person to distribute the securities.

The Company is required to pay certain fees and expenses incurred by ParentCo incident to the registration of the securities. The Company has agreed to indemnify the Selling Stockholders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act.

We agreed to keep this prospectus effective until the earlier of (i) all of the securities have been sold pursuant to this prospectus or Rule 144 under the Securities Act or any other rule of similar effect, (ii) they may be sold pursuant to Rule 144 without volume or manner-of-sale restrictions, as determined by ParentCo; or (iii) it has been two years from the Closing Date. The resale securities will be sold only through registered or licensed brokers or dealers if required under applicable state securities laws. In addition, in certain states, the resale securities covered hereby may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

Under applicable rules and regulations under the Exchange Act, any person engaged in the distribution of the resale securities may not simultaneously engage in market making activities with respect to the common stock for the applicable restricted period, as defined in Regulation M, prior to the commencement of the distribution. In addition, the Selling Stockholders will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including Regulation M, which may limit the timing of purchases and sales of the common stock by the Selling Stockholders or any other person. We will make copies of this prospectus available to the Selling Stockholders and have informed them of the need to deliver a copy of this prospectus to each Subscriber at or prior to the time of the sale (including by compliance with Rule 172 under the Securities Act).

126

EXPERTS

The audited financial statements of PureCycle Technologies LLC included in this prospectus and elsewhere in the registration statement have been so included in reliance upon the report of Grant Thornton LLP, independent registered public accountants, upon the authority of said firm as experts in accounting and auditing.

The financial statements of Roth CH Acquisition I Co. as of December 31, 2020 and 2019 and for the year ended December 31, 2020 and for the period from February 13, 2019 (inception) through December 31, 2019 appearing in this prospectus have been audited by Marcum LLP, independent registered public accounting firm, as set forth in their report, thereon (which contains an explanatory paragraph relating to substantial doubt about the ability of Roth CH Acquisition I Co. to continue as a going concern as described in Note 1 to the financial statements), appearing elsewhere in this prospectus, and are included in reliance on such report given on the authority of such firm as an experts in auditing and accounting.

The information included in this prospectus and elsewhere in the registration statement concerning the viability of the Technology to remove waste contaminants from waste polypropylene and the ability of the Phase II Facility to achieve certain performance and production levels and meet certain environmental permits have been so included in reliance upon the report prepared by Leidos Engineering, LLC, an independent engineering firm, and have been included herein upon the authority of such firm as an expert.

CHANGES IN REGISTRANT’S CERTIFYING ACCOUNTANT

On March 17, 2021, in connection with the consummation of the Business Combination, the audit committee of the Company’s board of directors approved the appointment of Grant Thornton LLP (“GT”) as the Company’s independent registered public accounting firm, subject to satisfactory completion of their client acceptance procedures. GT served as PureCycle’s independent registered public accounting firm prior to the Business Combination. Accordingly, also on March 17, 2021, PCT dismissed Marcum, LLP (“Marcum”) as ROCH’s and ParentCo’s independent registered public accounting firm. This decision was ratified by the Company’s board of directors.

The reports of Marcum on ROCH’s balance sheets as of December 31, 2020 and 2019 and the related statements of operations, changes in stockholders’ equity and cash flows for the year ended December 31, 2020 and for the period from February 13, 2019 (inception) through December 31, 2019 and the related notes (collectively referred

to as the “ROCH financial statements”) did not contain any adverse opinion or a disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope, or accounting principles.

The reports of Marcum on the ROCH financial statements contained an explanatory paragraph which noted that there was substantial doubt as to ROCH’s ability to continue as a going concern as ROCH has a working capital deficiency, has incurred significant losses and needs to raise additional funds to meet its obligations and sustain its operation.

During the year ended December 31, 2020 and for the period from February 13, 2019 (inception) through December 31, 2019, and the subsequent interim period through March 17, 2021, there were no (i) disagreements with Marcum on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements if not resolved to their satisfaction, would have caused them to make reference to the subject matter of the disagreement in connection with their report, or (ii) reportable events (as described in Item 304(a)(1)(v) of Regulation S-K).

During the year ended December 31, 2020 and for the period from February 13, 2019 (inception) through December 31, 2019, and the subsequent interim period through March 17, 2021, neither ROCH nor anyone on its behalf consulted GT regarding either (i) the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on ROCH’s financial statements, and neither a written report nor oral advice was provided to ROCH that GT concluded was an important factor considered by ROCH in reaching a decision as to any accounting, auditing or financial reporting issue, or (ii) any matter that was either the subject of a “disagreement” or a “reportable event,” each as defined in Regulation S-K Item 304(a)(1)(iv) and 304(a)(1)(v), respectively.

The Company has provided Marcum with a copy of the above disclosures, and Marcum has furnished the Company with a letter addressed to the SEC stating that it agrees with the statements made above. A copy of Marcum’s letter, dated March 17, 2021, is attached as Exhibit 16.1 to the registration statement of which this prospectus forms a part.

LEGAL MATTERS

Loeb & Loeb LLP, New York, New York, has passed upon the validity of the securities offered hereby.

WHERE YOU CAN FIND MORE INFORMATION

We have filed with the SEC a registration statement on Form S-1 under the Securities Act with respect to the shares of our common stock offered by this prospectus. This prospectus, which constitutes a part of the registration statement, does not contain all of the information set forth in the registration statement, some of which is contained in exhibits to the registration statement as permitted by the rules and regulations of the SEC. For further information with respect to us and our common stock, we refer you to the registration statement, including the exhibits filed as a part of the registration statement. Statements contained in this prospectus concerning the contents of any contract or any other document is not necessarily complete. If a contract or document has been filed as an exhibit to the registration statement, please see the copy of the contract or document that has been filed. Each statement in this prospectus relating to a contract or document filed as an exhibit is qualified in all respects by the filed exhibit. The SEC maintains an Internet website that contains reports, proxy statements and other information about issuers, like us, that file electronically with the SEC. The address of that website is www.sec.gov.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and the Board of Directors of Roth CH Acquisition I Co.

Opinion on the Financial Statements

We have audited the accompanying balance sheets of Roth CH Acquisition I Co. (the "Company") as of December 31, 2020 and 2019 and the related statements of operations, changes in stockholders' equity and cash flows for the year ended December 31, 2020 and for the period from February 13, 2019 (inception) through December 31, 2019 and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2020 and 2019 and the results of its operations and its cash flows for the year ended December 31, 2020 and for the period from February 13, 2019 (inception) through December 31, 2019, in conformity with accounting principles generally accepted in the United States of America.

Explanatory Paragraph – Going Concern

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As more fully described in Note 1 to the financial statements, the Company's business plan is dependent on the completion of a business combination and the Company's cash and working capital deficit as of December 31, 2020 are not sufficient to complete its planned activities the Company has a significant working capital deficiency, has incurred significant losses and needs to raise additional funds to meet its obligations and sustain its operations. These conditions raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 1. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audit we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

**ROTH CH ACQUISITION I CO.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2020**

NOTE 1. DESCRIPTION OF ORGANIZATION AND BUSINESS OPERATIONS

Roth CH Acquisition I Co. (the “Company”) was incorporated in Delaware on February 13, 2019. The Company is a blank check company formed for the purpose of entering into a merger, share exchange, asset acquisition, stock purchase, recapitalization, reorganization or other similar business combination with one or more businesses or entities (the “Business Combination”).

The Company has one subsidiary, Roth CH Acquisition I Co. Parent Corp., a wholly-owned direct subsidiary of the Company incorporated in Delaware on October 16, 2020 (“ParentCo”) and both Roth CH Merger Sub LLC, a Delaware limited liability (“Merger Sub LLC”) and Roth CH Merger Sub Corp., a Delaware corporation (“Merger Sub Corp”) are wholly-owned direct subsidiaries of ParentCo incorporated on October 16, 2020.

As of December 31, 2020, the Company had not commenced any operations. All activity for the period from February 13, 2019 (inception) through December 31, 2020 relates to the Company’s formation, the initial public offering (“Initial Public Offering”), which is described below, identifying a target company for a Business Combination, activities in connection with the proposed acquisition of PureCycle Technologies LLC, a Delaware limited liability company (“PCT”) (see Note 6). The Company will not generate any operating revenues until after the completion of a Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income from the proceeds derived from the Initial Public Offering.

The registration statement for the Company's Initial Public Offering was declared effective on May 4, 2020. On May 7, 2020, the Company consummated the Initial Public Offering of 7,500,000 units (the "Units" and, with respect to the shares of common stock included in the Units sold, the "Public Shares"), at \$10.00 per Unit, generating gross proceeds of \$75,000,000, which is described in Note 3.

Simultaneously with the closing of the Initial Public Offering, the Company consummated the sale of 262,500 units (the "Private Units") at a price of \$10.00 per Private Unit in a private placement to our initial stockholders, generating gross proceeds of \$2,625,000, which is described in Note 4.

Following the closing of the Initial Public Offering on May 7, 2020, an amount of \$75,000,000 (\$10.00 per Unit) from the net proceeds of the sale of the Units in the Initial Public Offering and the sale of the Private Units was placed in a trust account ("Trust Account") which will be invested only in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act of 1940, as amended (the "Investment Company Act"), with a maturity of 180 days or less or in any open-ended investment company that holds itself out as a money market fund selected by the Company meeting the conditions of Rule 2a-7 of the Investment Company Act, as determined by the Company, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the Trust Account, as described below.

On May 26, 2020, in connection with the underwriters' election to partially exercise their over-allotment option, the Company sold an additional 150,000 Units at a purchase price of \$10.00 per Unit, generating gross proceeds of \$1,500,000. In addition, in connection with the underwriters' partial exercise of their over-allotment option, the Company also consummated the sale of an additional 3,000 Private Units at a purchase price of \$10.00 per Private Unit, generating gross proceeds of \$30,000. Following such closing, an additional \$1,500,000 was deposited into the Trust Account, resulting in \$76,500,000 being held in the Trust Account.

Transaction costs amounted to \$4,678,313, consisting of \$1,530,000 of underwriting fees, \$2,677,500 of deferred underwriting fees and \$470,813 of other offering costs.

The Company's management has broad discretion with respect to the specific application of the net proceeds of the Initial Public Offering and the sale of the Private Units, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. There is no assurance that the Company will be able to complete a Business Combination successfully. The Company must complete a Business Combination having an aggregate fair market value of at least 80% of the assets held in the Trust Account (excluding the deferred underwriting commissions and taxes payable on income earned on the Trust Account) at the time of the agreement to enter into an initial Business Combination. The Company will only complete a Business Combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act.

The Company will provide its holders of the outstanding Public Shares (the "public stockholders") with the opportunity to redeem all or a portion of their Public Shares upon the completion of a Business Combination either (i) in connection with a stockholder meeting called to approve the Business Combination or (ii) by means of a tender offer. The decision as to whether the Company will seek stockholder approval of a Business Combination or conduct a tender offer will be made by the Company, solely in its discretion. The public stockholders will be entitled to redeem their Public Shares for a pro rata portion of the amount then in the Trust Account (\$10.00 per Public Share, plus any pro rata interest earned on the funds held in the Trust Account and not previously released to the Company to pay its tax obligations). There will be no redemption rights upon the completion of a Business Combination with respect to the Company's warrants.

F-7

ROTH CH ACQUISITION I CO.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2020

The Company will proceed with a Business Combination if the Company has net tangible assets of at least \$5,000,001 immediately prior to or upon such consummation of a Business Combination and, if the Company seeks stockholder approval, a majority of the shares voted are voted in favor of the Business Combination. If a stockholder vote is not required by law and the Company does not decide to hold a stockholder vote for business or other legal reasons, the Company will, pursuant to its Amended and Restated Certificate of Incorporation (the "Amended and Restated Certificate of Incorporation"), conduct the redemptions pursuant to the tender offer rules of the U.S. Securities and Exchange Commission ("SEC") and file tender offer documents with the SEC containing substantially the same information as would be included in a proxy statement prior to completing a Business Combination. If, however, stockholder approval of the transaction is required by law, or the Company decides to obtain stockholder approval for business or legal reasons, the Company will offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If the Company seeks stockholder approval in connection with a Business Combination, the holders of the Company's shares prior to the Initial Public Offering (the "Initial Stockholders") have agreed to vote their Founder Shares (as defined in Note 5), Private Shares (as defined in Note 4) and any Public Shares purchased during or after the Initial Public Offering (a) in favor of approving a Business Combination and (b) not to redeem any shares in connection with a stockholder vote to approve a Business Combination or sell any shares to the Company in a tender offer in connection with a Business Combination. Additionally, each public stockholder may elect to redeem their Public Shares irrespective of whether they vote for or against the Initial transaction or don't vote at all.

The Initial Stockholders have agreed (a) to waive their redemption rights with respect to their Founder Shares, Private Shares and Public Shares held by them in connection with the completion of a Business Combination and (b) not to propose an amendment to the Amended and Restated Certificate of Incorporation that would affect a public stockholders' ability to convert or sell their shares to the Company in connection with a Business Combination or affect the substance or timing of the Company's obligation to redeem 100% of its Public Shares if the Company does not complete a Business Combination, unless the Company provides the public stockholders with the opportunity to redeem their Public Shares in conjunction with any such amendment.

The Company will have until November 7, 2021 to complete a Business Combination (the "Combination Period"). If the Company is unable to complete a Business Combination within the Combination Period, the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than five business days thereafter, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account including interest earned on the funds held in the Trust Account and not previously released to the Company to pay taxes, divided by the number of then outstanding Public Shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the Company's remaining stockholders and the Company's board of directors, dissolve and liquidate, subject in each case to the Company's obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law.

The Initial Stockholders have agreed to waive their liquidation rights with respect to the Founder Shares and Private Shares if the Company fails to complete a Business Combination within the Combination Period. However, if the Initial Stockholders acquire Public Shares in or after the Initial Public Offering, such Public Shares will be entitled to liquidating distributions from the Trust Account if the Company fails to complete a Business Combination within the Combination Period. The underwriters have agreed to waive their rights to their deferred underwriting commission (see Note 6) held in the Trust Account in the event the Company does not complete a Business Combination within the Combination Period and, in such event, such amounts will be included with the other funds held in the Trust Account that will be available to fund the redemption of the Public Shares. In the event of such distribution, it is possible that the per share value of the assets remaining available for distribution will be less than the Initial Public Offering price per Unit (\$10.00).

In order to protect the amounts held in the Trust Account, the Initial Stockholders have agreed to be liable to the Company if and to the extent any claims by a vendor for services rendered or products sold to the Company, or a prospective target business with which the Company has discussed entering into a transaction agreement, reduce the amount of funds in the Trust Account to below \$10.00 per Public Share, except as to any claims by a third party who executed a valid and enforceable agreement with the Company waiving any right, title, interest or claim of any kind they may have in or to any monies held in the Trust Account and except as to any claims under the Company's

indemnity of the underwriters of Initial Public Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the “Securities Act”). Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, the Initial Stockholders will not be responsible to the extent of any liability for such third-party claims. The Company will seek to reduce the possibility that Initial Stockholders will have to indemnify the Trust Account due to claims of creditors by endeavoring to have all vendors, service providers, prospective target businesses or other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account.

Liquidity and Going Concern

As of December 31, 2020, the Company had \$200,580 in its operating bank accounts, \$76,535,131 in marketable securities held in the Trust Account to be used for a Business Combination or to repurchase or redeem stock in connection therewith and working capital deficit of \$263,641, which excludes franchise taxes payable of \$156,450, of which such amount will be paid from interest earned on the Trust Account. As of December 31, 2020, approximately \$35,000 of the amount on deposit in the Trust Account represented interest income, which is available to pay the Company’s tax obligations.

F-8

ROTH CH ACQUISITION I CO. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2020

On November 2, 2020 and February 22, 2021, (see Note 9), the Sponsor committed to provide the Company an aggregate of \$850,000 in loans in order to finance transaction costs in connection with a Business Combination.

The Company may raise additional capital through loans or additional investments from the Sponsor or its stockholders, officers, directors, or third parties. The Company’s officers and directors and the Sponsor may, but are not obligated to (except as described above), loan the Company funds, from time to time, in whatever amount they deem reasonable in their sole discretion, to meet the Company’s working capital needs. Based on the foregoing, the Company believes it will have sufficient cash to meet its needs through the earlier of consummation of a Business Combination or November 7, 2021, the deadline to complete a Business Combination pursuant to the Company’s Amended and Restated Certificate of Incorporation (unless otherwise amended by stockholders).

Risks and Uncertainties

Management continues to evaluate the impact of the COVID-19 pandemic and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company’s financial position, results of its operations and/or search for a target company, the specific impact is not readily determinable as of the date of these consolidated financial statements. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying consolidated financial statements are presented in conformity with accounting principles generally accepted in the United States of America (“GAAP”) and pursuant to the rules and regulations of the SEC.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the Company and its majority owned subsidiary where the Company has the ability to exercise control. All significant intercompany balances and transactions have been eliminated in consolidation. Activities in relation to the noncontrolling interest are not considered to be significant and are, therefore, not presented in the accompanying consolidated financial statements.

Emerging Growth Company

The Company is an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company’s consolidated financial statement with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Use of Estimates

The preparation of consolidated financial statements in conformity with GAAP requires the Company’s management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods.

F-9

ROTH CH ACQUISITION I CO. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS DECEMBER 31, 2020

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of

circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from those estimates.

Cash and Cash Equivalents

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company did not have any cash equivalents as of December 31, 2020 and 2019.

Marketable Securities Held in Trust Account

At December 31, 2020, substantially all of the assets held in the Trust Account were held in money market funds, which primarily invest in U.S. Treasury Securities. During the year ended December 31, 2020, the Company did not withdraw any of the interest earned on the Trust Account.

Common Stock Subject to Possible Redemption

The Company accounts for its common stock subject to possible redemption in accordance with the guidance in Accounting Standards Codification (“ASC”) Topic 480 “Distinguishing Liabilities from Equity.” Common stock subject to mandatory redemption is classified as a liability instrument and is measured at fair value. Conditionally redeemable common stock (including common stock that features redemption rights that is either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company’s control) is classified as temporary equity. At all other times, common stock is classified as stockholders’ equity. The Company’s common stock features certain redemption rights that are considered to be outside of the Company’s control and subject to occurrence of uncertain future events. Accordingly, common stock subject to possible redemption is presented at redemption value as temporary equity, outside of the stockholders’ equity section of the Company’s consolidated balance sheets.

Income Taxes

The Company follows the asset and liability method of accounting for income taxes under ASC 740, “Income Taxes.” Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that included the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

ASC 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. There were no unrecognized tax benefits and no amounts accrued for interest and penalties as of December 31, 2020 and 2019. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company is subject to income tax examinations by major taxing authorities since inception.

On March 27, 2020, President Trump signed the Coronavirus Aid, Relief, and Economic Security “CARES” Act into law. The CARES Act includes several significant business tax provisions that, among other things, would eliminate the taxable income limit for certain net operating losses (“NOL”) and allow businesses to carry back NOLs arising in 2018, 2019 and 2020 to the five prior years, suspend the excess business loss rules, accelerate refunds of previously generated corporate alternative minimum tax credits, generally loosen the business interest limitation under IRC section 163(j) from 30 percent to 50 percent among other technical corrections included in the Tax Cuts and Jobs Act tax provisions.

**ROTH CH ACQUISITION I CO.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2020**

Net Income (Loss) Per Common Share

Net income (loss) per share is computed by dividing net income by the weighted-average number of shares of common stock outstanding during the period, excluding shares of common stock subject to forfeiture. At December 31, 2019, weighted average shares were reduced for the effect of an aggregate of 281,250 shares of common stock that were subject to forfeiture if the over-allotment option was not exercised by the underwriters (see Note 7). The Company has not considered the effect of the warrants sold in the Initial Public Offering and private placement to purchase an aggregate of 5,936,265 shares in the calculation of diluted loss per share, since the exercise of the warrants are contingent upon the occurrence of future events and the inclusion of such warrants would be anti-dilutive.

The Company’s statement of operations includes a presentation of income (loss) per share for common shares subject to possible redemption in a manner similar to the two-class method of income (loss) per share. Net income (loss) per common share, basic and diluted, for Common stock subject to possible redemption is calculated by dividing the proportionate share of income or loss on marketable securities held by the Trust Account, net of applicable franchise and income taxes, by the weighted average number of Common stock subject to possible redemption outstanding since original issuance.

Net loss per share, basic and diluted, for non-redeemable common stock is calculated by dividing the net income (loss), adjusted for income or loss on marketable securities attributable to Common stock subject to possible redemption, by the weighted average number of non-redeemable common stock outstanding for the period.

Non-redeemable common stock includes Founder Shares and non-redeemable shares of common stock as these shares do not have any redemption features. Non-redeemable common stock participates in the income or loss on marketable securities based on non-redeemable shares’ proportionate interest.

The following table reflects the calculation of basic and diluted net income (loss) per common share (in dollars, except per share amounts):

	For the year ended December 31, 2020	For the Period from February 13, 2019 (Inception) through December 31, 2019
<i>Common stock subject to possible redemption</i>		
Numerator: Earnings allocable to Common stock subject to possible redemption		
Interest earned on marketable securities held in Trust Account	\$ 35,131	\$ —

Less: interest available to be withdrawn for payment of taxes		(35,131)	
Net income	\$	—	\$
Denominator: Weighted Average Common stock subject to possible redemption			
Basic and diluted weighted average shares outstanding		6,925,768	—
Basic and diluted net income per share	\$	0.00	\$
<i>Non-Redeemable Common Stock</i>			
Numerator: Net Loss minus Net Earnings			
Net loss	\$	(1,062,553)	\$
Net income allocable to Common stock subject to possible redemption		—	—
Non-Redeemable Net Loss	\$	(1,062,553)	\$
Denominator: Weighted Average Non-Redeemable Common Stock			
Basic and diluted weighted average shares outstanding		2,533,092	1,875,000
Basic and diluted net loss per share	\$	(0.42)	\$

F-11

ROTH CH ACQUISITION I CO.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2020

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of a cash account in a financial institution, which, at times, may exceed the Federal Depository Insurance Coverage of \$250,000. The Company has not experienced losses on this account and management believes the Company is not exposed to significant risks on such account.

Fair Value of Financial Instruments

The fair value of the Company's assets and liabilities, which qualify as financial instruments under ASC 820, "Fair Value Measurement," approximates the carrying amounts represented in the accompanying consolidated balance sheets, primarily due to their short-term nature.

Recent Accounting Standards

Management does not believe that any recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on the Company's consolidated financial statements.

NOTE 3. PUBLIC OFFERING

Pursuant to the Initial Public Offering, the Company sold 7,650,000 Units, at a price of \$10.00 per Unit, inclusive of 150,000 Units sold to the underwriters on May 26, 2020 upon the underwriters' election to partially exercise their over-allotment option. Each Unit consists of one share of common stock and three-quarters of one redeemable warrant ("Public Warrant").

NOTE 4. PRIVATE PLACEMENT

Simultaneously with the closing of the Initial Public Offering, the Initial Stockholders purchased an aggregate of 262,500 Private Units, at a price of \$10.00 per Private Unit, for an aggregate purchase price of \$2,625,000. On May 26, 2020, in connection with the underwriters' election to partially exercise their over-allotment option, the Company sold an additional 3,000 Private Units to the Initial Stockholders, generating gross proceeds of \$30,000. Each Private Unit consists of one share of common stock ("Private Share") and three-quarters of one redeemable warrant ("Private Warrant"). Each whole Private Warrant entitles the holder to purchase one share of common stock at a price of \$11.50 per full share (every four units entitles the holder thereof to receive three whole warrants), subject to adjustment (see Note 7). The proceeds from the Private Units were added to the proceeds from the Initial Public Offering held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period, the proceeds from the sale of the Private Units will be used to fund the redemption of the Public Shares (subject to the requirements of applicable law).

NOTE 5. RELATED PARTY TRANSACTIONS

Founder Shares

In April 2019, the Initial Stockholders purchased an aggregate of 100 shares of the Company's common stock for an aggregate price of \$25,000. On November 12, 2019, the Company effected a 1 for 21,562.50 dividend in the nature of a stock split that resulted in there being an aggregate of 2,156,250 shares of common stock outstanding and being held by the Initial Stockholders (the "Founder Shares"). All share and per-share amounts have been retroactively restated to reflect the stock dividend. The 2,156,250 Founder Shares included an aggregate of up to 281,250 shares subject to forfeiture by the Initial Stockholders to the extent that the underwriters' over-allotment was not exercised in full or in part, so that the Initial Stockholders would collectively own 20% of the Company's issued and outstanding shares after the Initial Public Offering. As a result of the underwriters' election to partially exercise their over-allotment option and forfeit the balance of their option, 243,750 Founder Shares were forfeited and 37,500 Founder Shares are no longer subject to forfeiture. As a result, as of May 26, 2020, there are 1,912,500 Founder Shares issued and outstanding.

The Initial Stockholders have agreed, subject to certain limited exceptions, not to transfer, assign or sell any of the Founder Shares until (1) with respect to 50% of the Founder Shares, the earlier of six months after the completion of a Business Combination and the date on which the closing price of the common stock equals or exceeds \$12.50 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing after a Business Combination and (2) with respect to the remaining 50% of the Founder Shares, six months after the completion of a Business Combination, or earlier, in either case, if, subsequent to a Business Combination, the Company completes a liquidation, merger, stock exchange or other similar transaction which results in all of the Company's stockholders having the right to exchange their shares of common stock for cash, securities or other property.

F-12

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2020

Promissory Note — Related Party

On October 4, 2019, the Company issued an unsecured promissory note to the sponsor (the “Promissory Note”), pursuant to which the Company could borrow up to an aggregate principal amount of \$200,000. As of December 31, 2019, there was \$200,000 outstanding under the Promissory Note. The Promissory Note was non-interest bearing and payable on the earlier of (i) the consummation of the Initial Public Offering or (ii) the date on which the Company determines not to proceed with the Initial Public Offering. Borrowings outstanding under the Promissory Note of \$200,000 were repaid upon the consummation of the Initial Public Offering on May 7, 2020.

Related Party Loans

In addition, in order to finance transaction costs in connection with a Business Combination, the Initial Stockholders, or certain of the Company’s officers and directors or their affiliates may, but are not obligated to, loan the Company funds as may be required (“Working Capital Loans”). If the Company completes a Business Combination, the Company would repay the Working Capital Loans out of the proceeds of the Trust Account released to the Company. Otherwise, the Working Capital Loans would be repaid only out of funds held outside the Trust Account. In the event that a Business Combination does not close, the Company may use a portion of proceeds held outside the Trust Account to repay the Working Capital Loans, but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans. The Working Capital Loans would be repaid upon consummation of a Business Combination, without interest.

NOTE 6. COMMITMENTS

Registration Rights

Pursuant to a registration rights agreement entered into on May 4, 2020, the holders of the Founder Shares, as well as the holders of the Private Units (and underlying securities) and any securities issued to the Initial Stockholders, officers, directors or their affiliates in payment of Working Capital Loans made to Company are entitled to registration rights. The holders of a majority of these securities are entitled to make up to two demands that the Company register such securities. The holders of the majority of the Founder Shares can elect to exercise these registration rights at any time commencing three months prior to the date on which these shares of common stock are to be released from escrow. The holders of a majority of the Private Units (and underlying securities) and securities issued in payment of Working Capital Loans (or underlying securities) can elect to exercise these registration rights at any time after the Company consummates a business combination. In addition, the holders have certain “piggy-back” registration rights with respect to registration statements filed subsequent to the consummation of a Business Combination. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

Underwriting Agreement

The Company granted the underwriters a 45-day option from the date of Initial Public Offering to purchase up to 1,125,000 additional Units to cover over-allotments, if any, at the Initial Public Offering price less the underwriting discounts and commissions. On May 26, 2020, the underwriters elected to partially exercise their over-allotment option to purchase an additional 150,000 Units at a purchase price of \$10.00 Unit.

The underwriters were paid a cash underwriting discount of 2.00% of the gross proceeds of the Initial Public Offering, or \$1,530,000. In addition, the underwriters are entitled to a deferred fee of 3.50% of the gross proceeds of the Initial Offering, or \$2,677,500. The deferred fee will be paid in cash upon the closing of a Business Combination from the amounts held in the Trust Account, subject to the terms of the underwriting agreement.

Investor Relations Agreement

On February 27, 2020, the Company entered into an investor relations agreement, pursuant to which, in exchange for investor relations services, the Company will pay the service provider a one-time fee of \$10,000. Upon the closing of a Business Combination, the Company will pay the service provider a fee of \$50,000 and following the Business Combination, the Company will pay a fee of \$10,000 per month for a period of nine months. As of December 31, 2020, the Company has paid \$10,000 of such fees.

Merger Agreement

On November 16, 2020, the Company entered into an agreement and plan of merger (the “Merger Agreement”), by and among, the Company, ParentCo, Merger Sub LLC, Merger Sub Corp and PCT, pursuant to which the Company will acquire PCT for consideration of a combination of shares in ParentCo and assumption of indebtedness.

F-13

ROTH CH ACQUISITION I CO.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2020

Pursuant to the Merger Agreement, (i) Merger Sub Corp will merge with and into the Company (the “RH Merger”), with the Company surviving the RH Merger as a wholly owned subsidiary of ParentCo (the “ROCH Surviving Company”); (ii) simultaneously with the RH Merger, Merger Sub LLC will merge with and into PCT (the “PCT Merger”), with PCT surviving the PCT Merger as a wholly-owned subsidiary of ParentCo (the “PCT Surviving Company”); and (iii) following the PCT Merger, ParentCo will contribute to the PCT Surviving Company the proceeds of the PIPE Placement (as defined in the Merger Agreement). ROCH Surviving Company will acquire, and ParentCo will contribute to ROCH Surviving Company (the “ParentCo Contribution”) all units of the PCT Surviving Company directly held by ParentCo after the PCT Merger, such that, following the ParentCo Contribution, the PCT Surviving Company will be a wholly-owned subsidiary of the ROCH Surviving Company (together with the RH Merger, the PCT Merger and the other transactions related thereto, the “Proposed Transactions”).

The aggregate consideration payable to the PCT Securityholders for the Proposed Transactions (the “PCT Merger Consideration”) consists of ParentCo Common Shares (as defined in the Merger Agreement) issued on the closing date (the “Share Consideration”), up to 4,000,000 additional ParentCo Common Shares upon the achievement of certain targets (the “Earnout Shares”) and the assumption of all indebtedness related to (a) the Limited Offering Memorandum, dated September 23, 2020 (in connection with the bond offering by Southern Ohio Port Authority to PureCycle: Ohio LLC) and (b) the convertible senior notes and certain other indebtedness used to fund the construction of an industrial process facility in Ironton, Ohio (collectively, the “Construction Indebtedness”) of PCT as of the closing date (the “Assumed Indebtedness”).

The Proposed Transactions will be consummated subject customary representations and warranties, covenants, closing conditions and other deliverables and provisions as further described in the Merger Agreement.

NOTE 7. STOCKHOLDERS’ EQUITY

Common Stock — The Company is authorized to issue 50,000,000 shares of common stock with a par value of \$0.0001 per share. At December 31, 2020 and 2019, there were 2,984,247 and 2,156,250 shares of common stock issued and outstanding, excluding 6,843,753 and no shares of common stock subject to possible redemption,

respectively.

Warrants — The Company will not issue fractional warrants. The Public Warrants will become exercisable on the later of (a) the completion of a Business Combination or (b) 12 months from the closing of the Initial Public Offering. No warrants will be exercisable for cash unless the Company has an effective and current registration statement covering the shares of common stock issuable upon exercise of the warrants and a current prospectus relating to such shares of common stock. Notwithstanding the foregoing, if a registration statement covering the shares of common stock issuable upon exercise of the Public Warrants is not effective within 120 days following the consummation of a Business Combination, warrant holders may, until such time as there is an effective registration statement and during any period when the Company shall have failed to maintain an effective registration statement, exercise warrants on a cashless basis pursuant to the exemption provided by Section 3(a)(9) of the Securities Act, provided that such exemption is available. If that exemption, or another exemption, is not available, holders will not be able to exercise their warrants on a cashless basis. The Public Warrants will expire five years after the completion of a Business Combination or earlier upon redemption or liquidation.

Once the warrants become exercisable, the Company may redeem the Public Warrants:

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon not less than 30 days' prior written notice of redemption;
- if, and only if, the reported last sale price of the shares of common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations and recapitalizations), for any 20 trading days within a 30 trading day period ending on the third business day prior to the notice of redemption to warrant holders; and
- if, and only if, there is a current registration statement in effect with respect to the shares of common stock underlying the warrants at the time of redemption and for the entire 30-day trading period referred to above and continuing each day thereafter until the date of redemption.

If the Company calls the Public Warrants for redemption, management will have the option to require all holders that wish to exercise the Public Warrants to do so on a "cashless basis," as described in the warrant agreement.

In addition, if (x) the Company issues additional shares of common stock or equity-linked securities for capital raising purposes in connection with the closing of a Business Combination at an issue price or effective issue price of less than \$9.20 per share of common stock (with such issue price or effective issue price to be determined in good faith by the Company's board of directors, and in the case of any such issuance to the Initial Stockholders or their affiliates, without taking into account any Founder Shares held by them prior to such issuance), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of a Business Combination on the date of the consummation of a Business Combination (net of redemptions), and (z) the volume weighted average trading price of the Company's common stock during the 20 trading day period starting on the trading day prior to the day on which the Company consummates Business Combination (such price, the "Market Value") is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the Market Value and the \$18.00 per share redemption trigger price described above will be adjusted (to the nearest cent) to be equal to 180% of the Market Price.

F-14

**ROTH CH ACQUISITION I CO.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2020**

The exercise price and number of shares of common stock issuable on exercise of the warrants may be adjusted in certain circumstances including in the event of a stock dividend, extraordinary dividend or our recapitalization, reorganization, merger or consolidation. However, except as described previously, the warrants will not be adjusted for issuances of shares of common stock at a price below their respective exercise prices. Additionally, in no event will the Company be required to net cash settle the warrants. If the Company is unable to complete a Business Combination within the Combination Period and the Company liquidates the funds held in the Trust Account, holders of warrants will not receive any of such funds with respect to their warrants, nor will they receive any distribution from the Company's assets held outside of the Trust Account with the respect to such warrants. Accordingly, the warrants may expire worthless.

The Private Warrants are identical to the Public Warrants underlying the Units sold in the Proposed Public Offering, except that the Private Warrants and the shares of common stock issuable upon the exercise of the Private Warrants will not be transferable, assignable or saleable until after the completion of a Business Combination, subject to certain limited exceptions. Additionally, the Private Warrants will be exercisable for cash or on a cashless basis, at the holder's option, and be non-redeemable so long as they are held by the initial purchasers or their permitted transferees. If the Private Warrants are held by someone other than the initial purchasers or their permitted transferees, the Private Warrants will be redeemable by the Company and exercisable by such holders on the same basis as the Public Warrants.

NOTE 8. INCOME TAX

The Company's net deferred tax assets are as follows:

	As of December 31,	
	2020	2019
Deferred tax assets		
Net operating loss carryforward	\$ 81,301	\$ 335
Total deferred tax assets	81,301	335
Valuation Allowance	(81,301)	(335)
Deferred tax assets, net valuation allowance	\$ —	\$ —

The income tax provision consists of the following:

	December 31, 2020	For the period from February 13, 2019 (Inception) Through December 31, 2019
Federal		
Current	\$ —	\$ —
Deferred	(80,966)	(335)

State and Local

Current	—	—
Deferred	—	—
Change in valuation allowance	<u>80,966</u>	<u>335</u>
Income tax provision	<u>\$ —</u>	<u>\$ —</u>

As of December 31, 2020 and 2019, the Company had \$387,146 and \$1,594, respectively, of U.S. federal net operating loss carryovers available to offset future taxable income and will carry forward indefinitely.

In assessing the realization of the deferred tax assets, management considers whether it is more likely than not that some portion of all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which temporary differences representing net future deductible amounts become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. After consideration of all of the information available, management believes that significant uncertainty exists with respect to future realization of the deferred tax assets and has therefore established a full valuation allowance. For the year ended December 31, 2020, the change in the valuation allowance was \$80,966. For the period from February 13, 2019 (inception) through December 31, 2019, the change in the valuation allowance was \$335.

F-15

**ROTH CH ACQUISITION I CO.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2020**

A reconciliation of the federal income tax rate to the Company's effective tax rate is as follows:

	<u>As of December 31,</u>	
	<u>2020</u>	<u>2019</u>
Statutory federal income tax rate	21.0%	21.0%
Business Combination Expenses	(13.4)%	0.0%
Valuation allowance	(7.6)%	(21.0)%
Income tax provision	<u>0.0%</u>	<u>0.0%</u>

The Company files income tax returns in the U.S. federal jurisdiction and is subject to examination by the various taxing authorities. The Company's tax returns since inception remain open and subject to examination. The Company considers California to be a significant state tax jurisdiction.

NOTE 9. SUBSEQUENT EVENTS

The Company evaluated subsequent events and transactions that occurred after the balance sheet date up to the date that the consolidated financial statements were issued. Based upon this review, other than as described below, the Company did not identify any subsequent events that would have required adjustment or disclosure in the consolidated financial statements.

On February 22, 2021, the Sponsor committed to provide us an aggregate of \$750,000 in loans in order to finance transaction costs in connection with a Business Combination.

F-16

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Managers
PureCycle Technologies LLC

Opinion on the financial statements

We have audited the accompanying consolidated balance sheets of PureCycle Technologies LLC (a Delaware limited liability company) and its subsidiaries (the "Company") as of December 31, 2020 and 2019, the related consolidated statements of operations, members' equity, and cash flows for each of the two years in the period ended December 31, 2020, and the related notes (collectively referred to as the "financial statements"). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2020 and 2019, and the results of its operations and its cash flows for each of the two years in the period ended December 31, 2020, in conformity with accounting principles generally accepted in the United States of America.

Going concern

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the consolidated financial statements, the Company has sustained recurring losses and negative cash flows from operations and has stated that substantial doubt exists about the Company's ability to continue as a going concern. Management's evaluation of the events and conditions giving rise to substantial doubt about going concern and management's plans regarding these matters are also described in Note 1. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Basis for opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the relevant ethical requirements relating to our audit.

We conducted our audits in accordance with the standards of the PCAOB and in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

/s/ GRANT THORNTON LLP

We have served as the Company's auditor since 2019.

PureCycle Technologies LLC

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS December 31, 2020 and 2019

NOTE 1 - ORGANIZATION

Formation and Organization

PureCycle Technologies LLC (“PureCycle”, “PCT” or the “Company”) was formed as a Delaware limited liability company (“LLC”) on September 15, 2015 (“Date of Formation”), as Advanced Resin Technologies, LLC. In November 2016, the Company changed its name from Advanced Resin Technologies, LLC to PureCycle Technologies LLC. Innventure LLC (“Innventure”) holds an investment in PureCycle. In 2020, Innventure changed its name from WE-Innventure LLC to Innventure LLC. As a result of Innventure changing its name in 2020, Innventure1 LLC (“Innventure1”), which owns a majority of Innventure, changed its name from Innventure LLC to Innventure1 LLC.

PureCycle and its wholly owned subsidiaries, Purecycle: Ohio LLC, PCT Managed Services LLC and PCO Holdco, LLC (“PCO”) are businesses whose planned principal operations are to conduct business as a plastics recycler using PureCycle’s patented recycling process. Developed and licensed to PureCycle by Procter & Gamble (“P&G”), the patented recycling process separates color, odor and other contaminants from plastic waste feedstock to transform it into virgin-like resin. The Company is currently constructing its facility and conducting research and development activities to operationalize the licensed technology.

On November 16, 2020, the Company entered into a certain agreement and plan of merger (the “Merger Agreement and Plan of Merger”), by and among PCT, Roth CH Acquisition I Co. (“ROCH”), Merger Sub Corp., Merger Sub LLC, and Roth CH Acquisition I Co. Parent Corp. (“ParentCo”).

Basis of Presentation

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). The consolidated financial statements have been prepared assuming that the Company will continue as a going concern

Potential Impact of COVID-19 on the Company’s Business

With the global spread of the COVID-19 pandemic in the first half of 2020 and resulting shelter-in-place orders covering the Company’s corporate headquarters, its Ohio plant operations, and employees, the Company has implemented policies and procedures to continue its operations under minimum business operations guidelines. The extent to which the COVID-19 pandemic impacts the Company’s business, financial condition or results of operations will depend on future developments, which are highly uncertain and cannot be accurately predicted.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the Company, and all significant intercompany transactions and balances have been eliminated in consolidation.

Liquidity and going concern

The Company evaluated whether there are any conditions or events, considered in the aggregate, that raise substantial doubt about its ability to continue as a going concern over the next twelve months. Since its inception, the Company has sustained recurring losses and negative cash flows from operations. As reflected in the accompanying consolidated financial statements, the Company has not yet begun commercial operations and the Company does not have any sources of revenue. The consolidated financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classifications of liabilities that may result should the Company be unable to continue as a going concern.

F-22

PureCycle Technologies LLC

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED December 31, 2020 and 2019

As of December 31, 2020 and 2019, the Company had an unrestricted cash balance of \$64,491,660 and \$150,050, respectively, a working capital surplus of \$34,752,271 and a deficit of \$7,621,546, respectively, and an accumulated deficit of \$84,562,989 and \$27,722,053, respectively. During the years ended December 31, 2020 and 2019, the Company incurred a net loss of \$56,840,936 and \$19,312,718 respectively.

Over the past year, the Company's growth has been funded through a combination of equity financing through the issuance of units and debt financing through the issuance of convertible notes and revenue bonds totaling over \$375 million. While the Company forecasts to begin generating revenues in the fourth fiscal quarter of 2022, there is no assurance that the Company will be successful in its business activities or be able to fund its obligations for one year from the date the consolidated financial statements are available to be issued. These conditions, absent the Merger described above, raise substantial doubt, as described in Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 205-30, *Presentation of Financial Statements – Going Concern*, about the Company's ability to continue as a going concern. As described above, the Company announced the signing of a merger agreement and anticipates consummating this Merger in mid-March 2021, raising \$77 million, closing a \$250 million private investment in public entity ("PIPE") and other transactions raising up to an additional \$340 million. The Company believes that anticipated total capital raised of over \$700 million will be sufficient to adequately fund its future obligations for at least one year from the date the consolidated financial statements are available to be issued. However, prior to the anticipated closing in mid-March, there can be no assurance of when, or if, the Merger will be consummated or that other future financing will be available, or if available, that it will be on terms satisfactory to the Company.

The accompanying financial statements have been prepared assuming the Company will continue to operate as a going concern and does not include any adjustments to reflect the possible future effects of this uncertainty.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reclassifications

Certain amounts in prior periods have been reclassified to conform with the report classifications of the year ended December 31, 2020, with no effect on previously reported net income or stockholders' equity.

Cash and cash equivalents

The Company considers all highly liquid investments with an original maturity of three months or less at date of inception to be cash and cash equivalents. As of December 31, 2020 and 2019, the Company's cash and cash equivalents balance represents cash deposited with financial institutions. These balances may exceed federally insured limits; however, the Company believes the risk of loss is low.

Restricted Cash

Proceeds from the issuance of convertible notes and revenue bonds are restricted for use in construction of the production facility. The cash is presented as a long-term asset on the consolidated balance sheet.

Bond Issuance Costs

The Company has incurred costs which are directly attributable to the Company's revenue bond financing. These costs include items such as document preparation costs, underwriting fees, and other external, incremental expenses paid to advisors that directly relate to the financing. Upon successful completion of the bond offering in 2020, these costs were reclassified to reduce the carrying amount of the bond liability and will be amortized ratably over the term of the bond using the effective interest method. During the years ended December 31, 2020 and 2019, the Company incurred \$8,775,228 and \$294,021 respectively, of bond issuance costs. Of this amount, \$225,000 is recorded in prepaid expenses and other current assets in the balance sheet, as these costs are reimbursed. As of December 31, 2020, the Company has capitalized bond issuance costs totaling \$8,103,822, which are recorded as an offset to Bonds Payable on the consolidated balance sheet. As of December 31, 2019, the Company has capitalized bond issuance costs totaling \$615,896, which are recorded in Prepaid Expenses and Other Current Assets on the consolidated balance sheet.

F-23

PureCycle Technologies LLC

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED December 31, 2020 and 2019

Convertible Notes Issuance Costs

The Company has incurred costs which are directly attributable to the Company's convertible note financing. These costs include items such as document preparation costs, underwriting fees, and other external, incremental expenses paid to advisors that directly relate to the financing. Upon successful completion of the convertible note offering,

these costs were reclassified to reduce the carrying amount of the note liability and will be amortized ratably over the term of the notes. During the years ended December 31, 2020 and 2019, the Company incurred \$3,357,776 and \$0 respectively, of convertible note issuance costs, and as of December 31, 2020 and 2019, the Company has capitalized note issuance costs totaling \$3,287,736 and \$0, respectively, which are recorded within Notes Payable on the consolidated balance sheet.

Property, Plant and Equipment

As of December 31, 2020 and 2019, the Company's property, plant and equipment consists of building, land, office equipment and furniture, machinery and equipment, fixtures and furnishings and construction in progress. All property, plant and equipment are located within the United States. Property, plant and equipment are recorded at cost and are depreciated over their estimated useful lives, unless the useful life is indefinite, using the straight-line method over the following table:

Building	39 years
Land	Indefinite
Office equipment and furniture	7 years
Machinery and equipment	5-10 years
Fixtures and Furnishings	5 years

Construction in progress relates to costs capitalized in conjunction with major improvements that have not yet been placed in service, and accordingly are not currently being depreciated. The Company capitalizes interest cost incurred on funds used to construct property, plant and equipment. On June 30, 2019 the Feedstock Evaluation Unit ("FEU") and associated assets were determined to be substantially completed and ready for intended use. In accordance with ASC 835, *Interest*, the interest capitalization period covers the duration of the activities required to get the asset ready for its intended use and capitalization continues as long as the activities and incurrence of cost continues. As the FEU unit and associated assets were determined to be ready for intended use on June 30, 2019, the interest capitalization on the Company loans related to those assets ends at that point in time. From July 1, 2019 and going forward, the Company applied a capitalization rate to the average amount of accumulated expenditures related to the current plant being built. The capitalized interest is recorded as part of the asset to which it relates over the asset's estimated useful life. Interest cost capitalized as of December 31, 2020 and 2019 totaled \$2,021,892 and \$1,846,209 respectively.

As of December 31, 2020, the Company determined that there were no indicators of impairment and did not recognize any impairment of its property, plant and equipment.

Operating Costs

Operating costs are expensed as incurred. Operating costs consist of facility employee personnel costs, expense for supplies and materials, depreciation, transportation and other operating related expense.

Research and Development Costs

Research and development costs are expensed as incurred. Research and development expenses consist of expenses for services provided by third parties, and payroll and benefits of those employees engaged in research, design and development activities, costs related to design tools, license expenses related to intellectual property, and supplies and services.

PureCycle Technologies LLC

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED December 31, 2020 and 2019

Selling, General, and Administrative Expenses

Selling, general and administrative expenses are expensed as incurred. Selling, general, and administrative expenses consist of personnel costs, allocated facilities expenses, facility rent, repairs and utilities, office insurance, travel, sales and marketing costs.

Income Taxes

The Company is a limited liability company and has elected to be treated as a partnership for income tax purposes. The Company's taxable income or loss is allocated to its members. The Company is not directly liable for income taxes for federal purposes. The Company is, however, subject to annual state LLC franchise taxes and state LLC fees. During the years ended December 31, 2020 and 2019, these taxes and fees amounted to \$80,277 and \$375, respectively, and are included in selling, general and administrative expenses.

Management has evaluated the Company's tax positions, including their status as a pass-through entity for federal and state tax purposes, and has determined that the Company has taken no uncertain tax positions that require adjustment to the consolidated financial statements.

Net Loss Per Unit

The Company computes net loss per unit in accordance with ASC 260, *Earnings per Share*. Basic (loss) earnings per unit is computed by dividing (loss) income available to common unitholders by the weighted-average number of units of common stock outstanding during the period. Diluted earnings per unit is computed by dividing income available to common unitholders by the weighted- average number of units of common units outstanding during the period increased to include the number of additional common units that would have been outstanding if the potentially dilutive securities had been issued, using the treasury stock method.

Equity-Based Compensation

The Company issues grants of incentive units to select employees and service providers. The equity-based compensation cost for the incentive units is measured at the grant date based on the fair value of the award and recognized on a straight-line basis over the requisite service period, which is the vesting period. In accordance with ASC 718, *Compensation – Stock Compensation* ("ASC 718"), in the event of modification, the Company recognizes the remaining compensation cost based on the grant date fair value over the new requisite service period.

The Company applies a zero percent forfeiture rate for its equity-based awards, as such awards have been granted to a limited number of employees and service providers. A significant forfeiture, or an indication that significant forfeitures may occur, would result in a revised forfeiture rate which would be accounted for prospectively as a change in an estimate.

Warrants

Following the adoption of ASU 2018-07, *Compensation – Stock Compensation (Topic 718)*, the Company accounts for its warrants issued to nonemployees in accordance with

ASC 718, which requires all nonemployee transactions, in which goods or services are the consideration received in exchange for equity instruments, to be accounted for based on the fair value of the consideration received or the fair value of the equity instruments issued, whichever is more reliably measurable. Accordingly, the Company determines the fair value of the equity instruments issued as of the warrant issuance date, and the fair value is then expensed in accordance with the vesting terms of the warrant agreement. In the event the warrants are issued with other debt instruments, the Company accounts for its warrants in accordance with ASC 480, *Distinguishing Liabilities from Equity* (“ASC 480”), for unit of account analysis. In the event the terms of the warrants qualify as a liability under ASC 480, the Company accounts for the instrument as a liability recorded at fair value each reporting period.

Use of Estimates

The preparation of the consolidated financial statements in conformity with U.S. GAAP requires management to make estimates, judgments and assumptions that affect the reported amounts of assets and liabilities, related disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of expenses for the period presented. The Company's most significant estimates and judgments involve valuation of the Company's equity, including assumptions made in the fair value of equity-based compensation and the fair value of warrants it has issued to service providers. Although these estimates are based on management's best knowledge of current events and actions that the Company may undertake in the future, actual results may be different from these estimates.

F-25

PureCycle Technologies LLC

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED **December 31, 2020 and 2019**

Segment Information

Under ASC 280, *Segment Reporting*, operating segments are defined as components of an enterprise where discrete financial information is available that is evaluated regularly by the chief operating decision maker (“CODM”), in deciding how to allocate resources and in assessing performance. The Company has one component. Therefore, the Company's Chief Executive Officer, who is also the CODM, makes decisions and manages the Company's operations as a single operating segment, which is conducting business as a plastic recycler. To date, the Company has not begun production and measures performance on a consolidated basis.

Fair Value of Financial Instruments

The Company applies fair value accounting in accordance with ASC 820, *Fair Value Measurements* (“ASC 820”) for valuation of financial instruments. ASC 820 defines fair value and establishes a framework for measuring fair value and making disclosures about fair value measurements. This framework applies to all financial assets and liabilities that are being measured and reported at fair value and for disclosures of fair value.

Recently Issued Accounting Pronouncements

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*, to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. In July 2018, ASU 2018-10, *Codification Improvements to Topic 842, Leases*, was issued to provide more detailed guidance and additional clarification for implementing ASU 2016-02. Furthermore, in July 2018, the FASB issued ASU 2018-11, *Leases (Topic 842): Targeted Improvements*, which provides an optional transition method in addition to the existing modified retrospective transition method by allowing a cumulative effect adjustment to the opening balance of retained earnings in the period of adoption. Furthermore, on June 3, 2020, the FASB deferred by one year the effective date of the new lease standard for private companies, private NFPs and public NFPs that have not yet issued (or made available for issuance) financial statements reflecting the new standard. These new leasing standards are effective for the Company beginning after December 15, 2021 and interim periods within fiscal years beginning after December 15, 2022, with early adoption permitted. The Company is currently evaluating the effect of the adoption of this guidance on the consolidated financial statements.

In June 2016, the FASB issued ASU 2016-13, *Financial Instruments—Credit Losses (Topic 326): Measurement of Credit Losses of Financial Instruments*, which, together with subsequent amendments, amends the requirement on the measurement and recognition of expected credit losses for financial assets held. ASU 2016-13 is effective for the Company beginning December 15, 2022, including interim periods within those fiscal years, with early adoption permitted. The Company is currently in the process of evaluating the effects of this pronouncement on the Company's financial statements and does not expect it to have a material impact on the consolidated financial statements.

In June 2018, the FASB issued ASU 2018-07, *Compensation – Stock Compensation (Topic 718): Improvements to Nonemployee Share-Based Payment Accounting* (“ASU 2018-07”). ASU 2018-07 extends the scope of Topic 718 to include share-based payment transactions for acquiring goods and services from nonemployees. The Company adopted ASU 2018-07 as of January 1, 2020. The adoption did not have a material impact on the Company.

In August 2020, the FASB issued ASU No. 2020-06, *Debt - Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging - Contracts in Entity's Own Equity (Subtopic 815-40)* (“ASU 2020-06”). ASU 2020-06 simplifies the accounting for convertible debt instruments and convertible preferred stock by removing the existing guidance in ASC 470-20 that requires entities to account for beneficial conversion features and cash conversion features in equity, separately from the host convertible debt or preferred stock. ASU 2020-06 is effective for the Company for annual reporting periods, and interim reporting periods within those annual periods, beginning after December 15, 2023, and early adoption is permitted. The Company is currently evaluating the impact this guidance will have on its financial statements.

F-26

PureCycle Technologies LLC

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED **December 31, 2020 and 2019**

NOTE 3 – NOTES PAYABLE AND DEBT INSTRUMENTS

Convertible Notes

On October 6, 2020, PureCycle entered into a Senior Notes Purchase Agreement (the “Agreement”) with certain investors. The Agreement provides for the issuance of Senior Convertible Notes (the “Notes”), which have an interest rate of 5.875% and mature on October 15, 2022 (the “Maturity Date”) and are subject to a six-month maturity extension at the Company's option with respect to 50% of the then outstanding Notes on a pro rata basis, unless repurchased or converted prior to such date (“Maturity Date Extension”). The initial closing took place on the date of Indenture on October 7, 2020, upon which \$48,000,000 in aggregate principal of Notes were issued to the Investors (“First Closing”). The Agreement also includes an obligation for the Company to issue and sell, and for each of the Investors to purchase, Notes in the principal amount of \$12,000,000

within 45 days after the Company enters into the Merger Agreement as defined in Note 1 (“Second Closing Obligation”). On December 29, 2020, the remaining Notes were purchased in accordance with the Agreement. The Notes are convertible through the Maturity Date. As of December 31, 2020, none of the notes were converted into common units. The Notes are recorded within Notes Payable in the consolidated balance sheet. The Company incurred \$661,997 of interest cost during 2020. As the Notes were used to construct the Company’s property, plant and equipment, a portion of the interest costs incurred was capitalized within Property, Plant and Equipment as described in Note 2.

The Convertible Notes issued in both the First and Second Closing Obligations included a beneficial conversion feature (“BCF”) as their fair value was greater than the conversion price. The conversion price of the notes as of December 31, 2020 is the quotient of \$1,000 and the quotient of (A) 80% of the Adjusted Equity Value of the Company as determined based upon the sale of 684,190 Class A units at \$87.69 per unit as discussed in Note 4 and (B) the number of outstanding shares of Capital Stock of the Company on a Fully-Diluted Basis immediately prior to the November investment (as such terms are defined in the indenture governing the Convertible Notes). The Company recognized the embedded BCF as of the First and Second Closing commitment dates by allocating a portion of the proceeds equal to the intrinsic value of the conversion feature to additional paid-in capital (“APIC”). The BCF is amortized ratably over the term of the notes. As of December 31, 2020, the BCF recorded to APIC was \$31,074,751.

Revenue Bonds

On October 7, 2020, the Southern Ohio Port Authority (“SOPA”) issued certain revenue bonds (“Bonds”) and loaned the proceeds from their sale to PCO pursuant to a Loan Agreement dated as of October 1, 2020 between SOPA and PCO (“Loan Agreement”), to be used to (i) acquire, construct and equip the Ohio Plant; (ii) fund a debt service reserve fund for the Series 2020A Bonds; (iii) finance capitalized interest; and (iv) pay the costs of issuing the Bonds. The Bond were offered in three series, including (i) Exempt Facility Revenue Bonds (PureCycle Project), Tax-Exempt Series 2020A (“Series 2020A Bonds”); (ii) Subordinate Exempt Facility Revenue Bonds (PureCycle Project), Tax-Exempt Series 2020B (“Series 2020B Bonds”); and (iii) Subordinated Exempt Facility Revenue Bonds (PureCycle Project), Taxable Series 2020C (“Series 2020C Bonds”), each series in the aggregate principal amount, bearing interest and maturing as shown in the table below. The Series 2020A Bonds were issued at a total discount of \$5,500,000. The discount is amortized over the term of the Bonds using the effective interest method. The purchase price of the Bonds was paid and immediately available to SOPA on October 7, 2020, the date of delivery of the Bonds to their original purchaser. PCT is not a direct obligor on the Bonds and is not a party to the Loan Agreement or the Indenture of Trust dated as of October 1, 2020 (“Indenture”), between SOPA and UMB Bank, N.A as trustee (“Trustee”), pursuant to which the Bonds have been issued. PCT has executed a Guaranty of Completion dated as of October 7, 2020 (“Guaranty”), with respect to the full and complete performance by PCO of PCO’s obligations with respect to construction and completion of the Project, including construction by the Completion Date, free and clear of any liens (other than Permitted Liens), and the payment of all Project Costs (as defined in the Loan Agreement) incurred prior to completion of the Project, and all claims, liabilities, losses and damages owed by PCO to each counterparty under the Project Documents (as defined in the Loan Agreement). In addition, pursuant to the Guaranty, PCT is obligated to fund and maintain a liquidity reserve for the Project during the term of the Guaranty in the amount of \$50,000,000 to be held in an escrow account with U.S. Bank, N.A., as escrow agent (“Liquidity Reserve”). Pursuant to the terms of the Loan Agreement PCO executed promissory notes, one in the aggregate principal amount of each series of Bonds, in favor of SOPA, which were assigned to the Trustee on October 7, 2020.

F-27

PureCycle Technologies LLC

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED December 31, 2020 and 2019

Bond Series	Term	Principal Amount	Interest Rate	Maturity Date
2020A	A1	\$ 12,370,000	6.25%	December 1, 2025
2020A	A2	\$ 38,700,000	6.50%	December 1, 2030
2020A	A3	\$ 168,480,000	7.00%	December 1, 2042
2020B	B1	\$ 10,000,000	10.00%	December 1, 2025
2020B	B2	\$ 10,000,000	10.00%	December 1, 2027
2020C	C1	\$ 10,000,000	13.00%	December 1, 2027

The proceeds of the Bonds and certain equity contributions have been placed in various trust funds and non-interest-bearing accounts established and administered by the Trustee under the Indenture. Before each disbursement of amounts in the Project Fund held by the Trustee under the Indenture, PCO is required to submit to the Trustee a requisition for funds to be disbursed outlining the specified purpose of the disbursement and substantiating the expenditure. In addition, 100% of revenue attributable to the production of the Phase II Facility must be deposited into an operating revenue escrow fund held by U.S. Bank National Association, as escrow agent. Funds in the trust accounts and operating revenue escrow account will be disbursed by the Trustee when certain conditions are met, and will be used to pay costs and expenditures related to the development of the Phase II Facility, make required interest and principal payments (including sinking fund redemption amounts) and any premium, in certain circumstances required under the Indenture, to redeem the Bonds.

As conditions for closing the Bonds, PCT and certain affiliates contributed \$60,000,000 in equity at closing and committed to contribute an additional \$40,000,000 in equity upon the closing of the business combination described in Note 1. PCT will provide the Liquidity Reserve for Ohio Plant construction of \$50,000,000 to be deposited as aforesaid upon the closing of the business combination described in Note 1. In addition, PCT must maintain at least \$75,000,000 of cash on its balance sheet as of July 31, 2021 and \$100,000,000 of cash on its balance sheet as of January 31, 2022, in each case, including the Liquidity Reserve.

The Bonds are recorded within Bonds Payable in the consolidated balance sheet. The Company incurred \$4,289,186 of interest cost during 2020. As the Bond proceeds will be used to construct the Company’s property, plant and equipment, a portion of the interest costs incurred was capitalized within Property, Plant and Equipment as described in Note 2.

As part of the equity requirement for the Bonds, on October 4, 2020, the Company raised gross proceeds of \$15,000,000 through the sale of 173,142 Class A units, of which 115,428 Class A units, or \$10,000,000, were sold to a related party that purchased, on December 2, 2020, an additional 173,142 Class A units, or \$15,000,000, upon the satisfaction of certain conditions, including the signing of the Merger Agreement. This related party previously purchased Class B-1 preferred units from the Company, holds a board seat and was issued 37,500 Class C units in August 2020 and 50,000 Class C units in October 2020.

Pursuant to a 2019 agreement between Innventure1 and the Company, the Chief Science Officer, Dr. John Scott, and a certain consultant of Innventure1 are entitled to share equally in a project fee calculated based on a percentage of the Bonds. Pursuant to such agreement, the fee is equal to 1.5% of the total financing, reduced by the amount of retainer fees paid to such consultant. The Bonds closed in October 2020, and, as result, Dr. Scott received a partial payment of \$50,000, with the remaining balance of approximately \$1,519,125 paid to Dr. Scott in November 2020.

Secured Term Loan

On February 28, 2019, the Company entered into a subordinated debt agreement with Enhanced Capital Ohio Rural Fund, LLC. The agreement provides for principal of \$1,000,000 with an interest rate of the U.S. Federal prime rate per annum. The interest rate increased to the U.S. Federal prime rate plus 3% per annum subsequent to the completion of the Company’s revenue bond financing.

In conjunction with the Revenue Bond offering, the Company repaid the note payable with Enhanced Capital Ohio Rural Fund, LLC for the full outstanding balance of \$1,000,000. The Company incurred \$29,069 of interest cost during 2020. As the secured term loan was used to construct the Company’s property, plant and equipment, a

December 31, 2020 and 2019

Paycheck Protection Program

On May 4, 2020, the Company entered into a Paycheck Protection Program (the “Program”, or “PPP”) Term Note with PNC Bank to obtain principal of \$313,500. This note is issued pursuant to the Coronavirus Aid, Relief, and Economic Security Act’s (the “CARES Act”) (P.L. 116-136) Paycheck Protection Program. During a period from May 4, 2020 until the forgiveness amount is known, (“Deferral Period”), interest on the outstanding principal balance will accrue at the Fixed Rate of 1% per annum, but neither principal nor interest shall be due during the Deferral Period. The Company has applied for loan forgiveness as of December 31, 2020 but has not yet received the forgiveness amount. All or a portion of this Facility may be forgiven in accordance with the program requirements. The amount of forgiveness shall be calculated in accordance with the requirements of the Program, including provisions of Section 1106 of the CARES Act. The unforgiven portion of the PPP loan is payable over two years at an interest rate of 1%, with a deferral of payments for the first ten months.

As of December 31, 2020, the outstanding balance on the loan is \$313,500. \$121,917 is recorded as Notes payable – current and \$191,583 is recorded as Notes payable in the consolidated balance sheets.

Promissory Notes

Koch Modular Process Systems Secured Promissory Note

On December 20, 2019, the Company entered into an agreement with Koch Modular Process Systems LLC (“KMPS”) to convert the current balance of Account Payable due to KMPS into a promissory note. The Company issued a Secured Promissory Note for a principal amount of \$1,677,489, with a maximum advance of funds up to \$3,077,489. This loan provides the Company with the ability to draw additional funds by rolling invoices from KMPS into the balance. In 2020, the Company converted \$1,540,576 of Accounts Payable into the note. The rate of interest on the loan balance is 21% per annum through the month of November 2019 and 24% per annum for December 2019 and thereafter.

The promissory note is secured by a first priority of the Company’s fixtures and personal property of every kind and all proceeds and products of each of the foregoing. The Company has the option to prepay the loan in whole or in part at any time or from time to time without penalty or premium by paying the principal amount to be prepaid together with accrued interest thereon to the date of prepayment. Any amount of principal prepaid may not be reborrowed.

The aggregate unpaid principal amount of the loan, all accrued and unpaid interest, and all other amounts payable under this note are due and payable on the maturity date. The loan maturity date is September 30, 2020 unless PureCycle repays the principal and accrued and unpaid interests from closing of the revenue bond financing earlier.

During 2020, in conjunction with the Revenue Bond offering, the Company repaid the balance of the loan totaling \$3,150,083. The Company incurred \$351,345 of interest cost during 2020.

Denham-Blythe Company, Inc. Secured Promissory Note

On December 20, 2019, the Company and Denham-Blythe Company, Inc (“DB”) entered into an agreement to convert the current balance of Account Payable due to DB into a promissory note. The Company issued a Secured Promissory Note for a principal amount of \$2,000,000. The rate of interest on the loan balance is 24% per annum for December 2019 and thereafter with interest on the loan payable monthly.

The promissory note is secured by a first priority lien of the Company’s fixtures and personal property of every kind and all proceeds and products of each of the foregoing. The Company has the option to prepay the loan in whole or in part at any time or from time to time without penalty or premium by paying the principal amount to be prepaid together with accrued interest thereon to the date of prepayment. Any amount of principal prepaid may not be reborrowed.

PureCycle Technologies LLC

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED
December 31, 2020 and 2019

The loan maturity date is September 30, 2020 unless PureCycle repays the principal and accrued and unpaid interests from closing of the revenue bond financing. In conjunction with the Revenue Bond offering, the Company repaid the note payable with Denham-Blythe Company, Inc. for the full outstanding balance of \$2,003,693.

The Company incurred \$363,993 of interest cost during 2020. As the promissory note was used to construct the Company’s property, plant and equipment, a portion of the interest costs incurred was capitalized within Property, Plant and Equipment as described in Note 2.

Promissory Note to Related Parties

Innventus Fund I, LP

On July 19, 2019, the Company entered into Note and Warrant Financing agreement with Innventus Fund I, LP to obtain a \$600,000 loan and warrant financing. The Negotiable Promissory Note has a maturity date of October 21, 2019, and an interest rate of 1-month LIBOR plus 8.00%. The aggregate unpaid principal amount of the loan and all accrued and unpaid interest is due on the maturity date. On February 15, 2020, the Company repaid the principal and all accrued and unpaid interest. The Company incurred \$4,831 of interest cost during 2020.

See Note 6 for further information on the issuance of warrants.

Auto Now Acceptance Company, LLC

On May 5, 2017, the Company entered into a revolving line of credit facility (the “Credit Agreement”) with Auto Now Acceptance Company, LLC, a related party. The credit facility provided for a \$13,292,000 revolving line of credit. The revolving line of credit was due on demand with interest payable monthly, bearing interest at a rate of 5.0%.

On May 3, 2018, the Credit Agreement was amended and restated in its entirety and secured by a Security Agreement dated May 3, 2018. The credit facility was increased to \$14,000,000, bearing interest at a rate of LIBOR plus 6.12% per annum, payable monthly. The maturity date was extended to August 15, 2018. The Credit Agreement was also amended to state that the agreement is collateralized by substantially all assets of the Company.

On July 31, 2018, the Credit Agreement was amended to extend the maturity date to February 15, 2019. Under the agreement, the Auto Now’s advances of funds to the Company will cease on July 31, 2018. Upon execution of the amendment, the agreement was accounted for as a promissory note as the Company was no longer able to draw additional funds on the facility. As the cash flows were not substantially different, the Company accounted for the extension as a debt modification. No additional fees were incurred in connection with the extension, and consequently there was no impact on the carrying value of the debt. As the Company has defaulted the principal payment, the interest is accrued at the annual rate of a month LIBOR plus 10% per annum.

On May 29, 2020, the Company executed a Second Amended and Restated the Security Agreement and entered into a Third Amended and Restated Promissory Note agreement to extend the financing on the loan from Auto Now Acceptance Company, LLC. The agreement extended the maturity date of the loan to June 30, 2021 and adjusted the interest rate on the third amended loan agreement. The security interests include inventory, equipment, accounts receivables and all the Company’s assets. The interest rate within the amendment increased as follows:

- The annual rate of the 1-month LIBOR in U.S. dollars plus 6.12% adjusted daily, from May 3, 2018 through May 18, 2020
- 12% per annum from May 19, 2020 through August 31, 2020
- 16% per annum from September 1, 2020 through December 31, 2020
- 24% per annum from January 1, 2021 through June 30, 2021

F-30

PureCycle Technologies LLC

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED
December 31, 2020 and 2019

On December 21, 2020, the Company repaid the outstanding balance on the note. The Company incurred \$1,560,658 and \$1,337,857 of interest cost during 2020 and 2019, respectively. As the promissory note was used to construct the Company’s property, plant and equipment, a portion of the interest cost incurred was capitalized within Property, Plant and Equipment as described in Note 2.

Advances from Related Parties

PureCycle received funding and support services from Innventure1. During the years ended December 31, 2020 and 2019, PureCycle received \$0 and \$63,868 from Innventure1. This advance was unsecured, non-interest bearing with no formal terms of repayment. In 2020, the Company repaid the balance to Innventure1. The outstanding balance due to Innventure1 as of December 31, 2020 and 2019 is \$0 and \$1,957,611, respectively, recorded within Related party notes payable – current in the consolidated balance sheets as of December 31, 2020 and 2019.

Principal repayments due on the Notes payable and Bonds payable over the next five years are as follows:

Years ending December, 31	Amount
2021	\$ -
2022	60,000,000
2023	-
2024	6,975,000
2025	16,730,000
Thereafter	225,845,000
Total	\$ 309,550,000

NOTE 4 - MEMBERS’ EQUITY

The Company operates subject to the terms and conditions of the amended and restated PureCycle Technologies LLC, Limited Liability Company Agreement (the “LLC Agreement”) dated September 7, 2018. The LLC Agreement was subsequently amended in 2020.

The LLC Agreement provides for overall management and control of the Company to be vested in the Board of Managers (the “Board”). The members’ interests are represented by four classes: Class A units, Class B preferred units, Class B-1 preferred units and Class C units. Members owning a majority of the Class A units, Class B preferred units and Class B-1 preferred units are required to elect managers to the Board to serve the Class A unit, Class B preferred unit and Class B-1 preferred unit member interests. Each holder of Class A units, Class B preferred units, and Class B-1 preferred units (“Voting Members”) shall be entitled to one vote per unit held. The holders of Class C units do not have voting rights in respect to their units held. No Member shall be liable for any debts or losses of capital or profits of the Company or be required to guarantee the liabilities of the Company.

Class A Units

The Board authorized up to 3,981,282 Class A units. As of December 31, 2020 and 2019, 3,611,756 and 2,581,282 units are issued and outstanding. The Company issued 1,030,474 units in 2020. Of these units, 346,284 were issued at \$86.63 per unit and 684,190 were issued at \$87.69 per unit.

Class B Preferred Units

The Board authorized up to 1,938,369 Class B preferred units. As of December 31, 2020 and 2019, there are 1,938,369 and 1,727,843 Class B preferred units issued and outstanding, respectively. No additional Class B preferred units are issuable under the LLC Agreement. The Class B preferred unit members are entitled to receive a cumulative preferred return at the rate of eight percent (8%) per year on the sum of the unreturned preferred capital and unpaid preferred return through the date of such distribution.

F-31

PureCycle Technologies LLC

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED
December 31, 2020 and 2019

Class B-1 Preferred Units

In 2020, the Company amended its LLC agreement to increase the number of authorized units to 1,145,584. In 2020 and 2019, the Company issued 475,560 and 303,701 Class B-1 preferred units at a purchase price of \$37.61 per B-1 preferred unit. On October 29, 2019, the Company entered into a Class B-1 Preferred Unit Purchase Agreement with a third-party contractor to exchange an outstanding accounts payable balance of \$500,000 into 13,296 Class B-1 preferred units at a purchase price of \$37.61 per B-1 preferred unit.

On August 30, 2019, the Company entered into a B-1 Purchase Agreement with a third-party vendor, Aptar, for the purchase of 26,592 units for total consideration of \$1,000,000. In addition to the initial investment to capitalize the Company, described above, the Class B-1 Preferred Unit Purchase Agreement also includes two Milestone Tranches. The first milestone is satisfied by completing the Testing Milestone, or the Company's completion of testing for recycled product. The first milestone was reached in 2020, and Aptar elected to invest the additional \$1,000,000 for another 26,592 units. The second milestone will be complete upon the end of all testing and approval from the FDA. If at that point Aptar elects the second milestone tranche investment of \$1,000,000, Aptar may also elect to invest an additional \$5,000,000. In addition to the investment tranches, Aptar provides an equivalent of a full-time employee for three one-year increments beginning on August 30, 2019. Upon completion of each year, the Company issues \$333,333 worth of units to Aptar, which is recognized as compensation cost in the statement of operations.

In connection with the business combination discussed further in Note 1, this agreement was amended on November 20, 2020 to replace Company units with shares of the surviving company after the Closing.

As of December 31, 2020, and 2019, there are 1,105,287 and 629,727 Class B-1 preferred units issued and outstanding, respectively. The Class B-1 preferred unit members are entitled to receive a cumulative preferred return at the rate of eight percent (8%) per year on the sum of the unreturned preferred capital and unpaid preferred return through the date of such distribution.

A summary of the accumulated but unpaid distributions for the Class B and Class B-1 preferred units as of December 31, 2020 and 2019 is as follows:

	<u>Class B</u>	<u>Class B-1</u>
Accumulated and unpaid, January 1, 2019	\$ 418,918	\$ 279,971
Accumulated	160,713	1,574,354
Distributed	-	-
Accumulated and unpaid, December 31, 2019	579,631	1,854,325
Accumulated	173,570	3,133,314
Distributed	-	-
Accumulated and unpaid, December 31, 2020	<u>\$ 753,201</u>	<u>\$ 4,987,639</u>

Class C Units

The Board authorized up to 1,069,012 Class C units. Class C units are non-voting profits interest incentive units pursuant to individual award agreements determined by the Voting Members at the time of the awards, which set forth such additional terms and conditions, including the vesting and forfeiture terms. Class C units or any other units that the Company issued as profits interests are considered as Distribution Threshold Units and are entitled only to their Sharing Percentage of excess distributions over and above its Distribution Thresholds. During 2020 and 2019, the Company granted 358,817 and 233,452 of Class C incentive units, respectively, pursuant to the Company's equity incentive plan. See Note 5 for further information. As of December 31, 2020 and 2019, 774,509 and 435,679 Class C units are issued and outstanding, respectively.

Distribution Preferences

Distributions are authorized at the discretion of the Board. Distributions shall be made first to the holders of Class B-1 preferred units and Class B preferred units, ratably among such holders based on the relative aggregate unpaid preferred return with respect to all outstanding preferred units held by each such holder immediately prior to such distribution, until the aggregate unpaid return for the preferred units has been reduced to \$0.

PureCycle Technologies LLC

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED
December 31, 2020 and 2019

Distributions shall be made second to the holders of Class B-1 preferred units and Class B preferred units, ratably among such holders based on the relative aggregate unreturned preferred capital with respect to all outstanding preferred units held by each such holder immediately prior to such distribution, until the aggregate unreturned capital for the preferred units has been reduced to \$0.

Distributions will then be made to all members in proportion to their ownership percentages.

Liquidation Preferences

In the event of the dissolution of the Company, the Company's cash and proceeds obtained from the disposition of the Company's noncash assets shall be distributed. Distributions shall be made first to the Company's creditors, including members who are creditors, to satisfy the liabilities of the Company. The remaining cash will then be distributed to the members following the normal distribution preferences described above.

NOTE 5 - EQUITY-BASED COMPENSATION

The Company established an equity incentive plan (the "Plan") on June 1, 2018 to provide for the grant of Class C incentive units, characterized as profits interests, to certain executives, directors, key employees, and non-employee service providers of the Company. The aggregate number of units that can be granted under the Plan is subject to the authorized amount of Class C Units per the LLC Agreement, which is 1,069,102 total units.

The units issued pursuant to the Plan are time-based and vest over the period defined in each individual grant agreement or upon a change of control event as defined in the Plan. The distribution threshold is determined by the Board at the time units are granted. The Company has the option to repurchase all vested units upon a unitholder's termination of employment or service with the Company.

The Company recognizes compensation expense for the units equal to the fair value of the equity-based compensation awards and is recognized on a straight-line basis over the vesting period of such awards. The fair value of the units is estimated on the date of grant using the Black-Scholes option-pricing model using the following assumptions:

	2020	2019
Expected annual dividend yield	0.0%	0.0%
Expected volatility	42.1 - 78.2%	42.1 - 67.2%
Risk-free rate of return	0.1 - 1.8%	1.55 - 2.0%
Expected option term (years)	0.14 - 4.9	1.0 - 5.0

The expected term of the units granted is determined based on the duration of time the units are expected to be outstanding. The risk-free rate is based on the U.S. Treasury yield curve in effect at the time of grant. The expected volatility was based on the Company's capital structure and volatility of similar entities referred to as guideline companies. In determining similar entities, the Company considered industry, stage of life cycle, size and financial leverage. The dividend yield on the Company's units is assumed to be zero since the Company has not historically paid dividends. The fair value of the underlying Company units was determined using a hybrid method consisting of an option pricing method and an initial public offering scenario.

F-33

PureCycle Technologies LLC

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED
December 31, 2020 and 2019

A summary of incentive unit activity for the years ended December 31, 2020 and 2019 is as follows:

	Number of units	Weighted average grant date fair value	Weighted average remaining recognition period (years)
Non-vested at January 1, 2019	204,389	\$ 0.21	2.12
Granted	233,452	17.87	
Vested	(360,602)	11.26	
Forfeited	(4,267)	0.21	
Non-vested at December 31, 2019	72,972	2.09	1.74
Granted	358,817	24.73	
Vested	(339,684)	23.46	
Forfeited	(1,146)	18.20	
Non-vested at December 31, 2020	90,959	\$ 11.55	2.12

Total equity-based compensation cost for 2020 and 2019 totaled \$5,625,977 and \$4,048,633, respectively, and is recorded within the selling, general and administrative expenses and operating costs on the consolidated statement of operations. The total unrecognized compensation cost of non-vested awards not yet recognized for 2020 and 2019 is \$941,057 and \$157,297, respectively.

NOTE 6 - REDEEMABLE WARRANTS

Warrants issued to purchase Class B Preferred Units

On October 16, 2015, the Company issued a Unit Purchase Warrant to P&G in connection with the patent licensing agreement described in Note 11, for 210,526 warrant units at an exercise price of \$1, allowing P&G to purchase a variable number of Class B preferred units during the exercise period of April 15, 2019 through April 15, 2024. The warrants were determined to vest at the start of the exercise period. The number of units available to P&G to purchase is equal to an amount that initially represents 5% of all outstanding equity of the Company on a fully diluted basis. Additionally, the warrant agreement contains an anti-dilution provision, which states that the number of warrants exercisable upon full exercise of the warrant will be subject to adjustment, such that the ownership percentage is not reduced below 2.5% sharing percentage in the Company, on a fully diluted basis.

The Company determined the warrants issued are liability classified under ASC 480. Accordingly, the warrant units will be held at their initial fair value and remeasured at fair value at each subsequent reporting date.

On October 15, 2020, P&G exercised all 210,526 of the warrant units for total proceeds of \$1. The fair value of the Class B preferred units on the date of exercise was \$18,172,604 and was recorded in APIC. In connection with the exercise, the Company recorded a loss of \$210,525 in other expense in the statement of operations.

F-34

PureCycle Technologies LLC

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED
December 31, 2020 and 2019

A summary of the Class B warrant activity for the years ended December 31, 2020 and 2019 is as follows:

	Number of warrants	Weighted average exercise price	Weighted average grant date fair value	Weighted average remaining contractual term (years)
Outstanding at January 1, 2019	-	\$ -	\$ -	-
Granted	210,526	1.00	30.63	-
Exercised	-	-	-	-
Outstanding at December 31, 2019	210,526	\$ 1.00	\$ 30.63	4.29
Exercisable	210,526	-	-	-
Outstanding at January 1, 2020	210,526	\$ 1.00	\$ 30.63	4.29
Granted	-	-	-	-
Exercised	(210,526)	1.00	30.63	-
Outstanding at December 31, 2020	-	\$ -	\$ -	-
Exercisable	-	-	-	-

The Company recognized expense of \$11,553,667 and \$6,408,411 for 2020 and 2019, respectively, in connection with these warrants, which was recorded within selling, general and administrative expenses on the consolidated statement of operations.

Warrants issued to purchase Class B-1 Preferred Units

On June 5, 2019, in connection with Class B-1 Preferred Unit Purchase Agreement with a related party, the Company issued a Unit Purchase Warrant for 7,978 warrant units at an exercise price of \$37.61, allowing the Company to purchase a variable number of Class B-1 preferred units during the exercise period of June 5, 2019 through June 4, 2024.

The Company determined the warrants are not a freestanding instrument under ASC 480. Also, the warrants are determined to be clearly and closely related to the Class B-1 Preferred Units under ASC 815, *Derivatives and Hedging*. Accordingly, they are not recorded in the financial statements until exercised.

On July 22, 2019, in connection with a Bridge Note and Warrant Financing agreement with Innventus Fund I, LP, the Company issued a Unit Purchase Warrant for 4,787 warrant units at an exercise price of \$37.61, allowing the Company to purchase a variable number of Class B-1 preferred units during the exercise period of July 22, 2019 through July 22, 2024.

The Company determined the warrants issued are equity classified under ASC 480. Accordingly, the warrant units will be held at their initial fair value with no subsequent remeasurement.

The Company has determined its warrant to be a Level 3 fair value measurement and has used the Black-Scholes option pricing model to calculate its fair value using the following assumptions:

Expected annual dividend yield	0.0%
Expected volatility	54.2 – 63.6%
Risk-free rate of return	1.5 – 1.7%
Expected option term (years)	4.4 – 4.7

Outstanding at January 1, 2020	4,787	\$ 37.61	\$ 15.52	-
Granted	-	-	-	-
Exercised	-	-	-	-
Outstanding at December 31, 2020	4,787	\$ 37.61	\$ 15.52	3.56
Exercisable	4,787	-	-	-

The Company recognized expense of \$0 and \$74,294 for 2020 and 2019, respectively, in connection with these warrants, which was recorded within selling, general and administrative expenses on the consolidated statement of operations and within APIC on the consolidated balance sheets.

Warrants issued to purchase Class C Units

On June 29, 2018, the Board approved the issuance of warrants to RTI under the terms of a professional services agreement to purchase an aggregate of 143,619 of the Company's Class C units at an aggregated exercise price of \$37.605 per unit. The warrants vested immediately upon issuance and expire on June 29, 2023 or upon a change in control event, as defined in the warrant agreement. The Company determined the warrants issued are equity classified under ASC 480. Accordingly, the warrant units will be held at their initial fair value with no subsequent remeasurement.

In connection with the business combination transaction discussed in Note 1 on November 20, 2020, the Company amended the warrant agreement to purchase shares of Roth CH Acquisition I Co. instead of Class C units of the Company. RTI can exercise these warrants upon Closing of the business combination transaction and expire on December 31, 2026.

The Company has determined its warrant to be a Level 3 fair value measurement and used the Black-Scholes option-pricing model using the following assumptions:

Expected annual dividend yield	0.0%
Expected volatility	50.0%
Risk-free rate of return	2.82%
Expected option term (years)	5.0

The expected term of the units granted are determined based on the duration of time the units are expected to be outstanding. The risk-free rate is based on the U.S. Treasury yield curve in effect at the time of grant. The expected volatility was based on the Company's capital structure and volatility of similar entities referred to as guideline companies. In determining similar entities, the Company considered industry, stage of life cycle, size and financial leverage. The dividend yield on the Company's units is assumed to be zero since the Company has not historically paid dividends. The fair value of the underlying Company units was determined using the Black-Scholes method.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED
December 31, 2020 and 2019

A summary of the Class C warrant activity for the years ended December 31, 2020 and 2019 is as follows:

	Number of warrants	Weighted average exercise price	Weighted average grant date fair value	Weighted average remaining contractual term (years)
Outstanding at January 1, 2019	143,619	\$ 37.61	\$ 0.23	4.5
Granted	-	-	-	-
Exercised	-	-	-	-
Outstanding at December 31, 2019	143,619	\$ 37.61	\$ 0.23	3.5
Granted	-	-	-	-
Exercised	-	-	-	-
Outstanding at December 31, 2020	143,619	\$ 37.61	\$ 0.23	2.5
Exercisable	143,619			

The Company did not recognize any expense in connection with these warrants in 2020.

NOTE 7 - RELATED PARTY TRANSACTIONS

Innventure has a significant ownership stake in the Company. Innventure, in turn, is majority owned by Innventure1. WE-INN LLC ("WE-INN") holds a minority interest in Innventure, and WE-INN is majority owned by Wasson Enterprises.

Innventure holds significant interests in the following legal entities: Innventure Management Services LLC, Innventure GP LLC, and Aeroflexx LLC. Innventure has a significant financial interest over each of the legal entities within the group and has decision-making ability over the group whereby significant managerial and operational support is provided by Innventure personnel. This includes certain executive management and officers of PureCycle and other legal entities that are employees or officers of Innventure. The legal entities, including PureCycle, are deemed to be under common control by Innventure. There were no transactions between PureCycle and its affiliates, Innventure GP LLC and Aeroflexx LLC, during the years ended December 31, 2020 and December 31, 2019.

Innventure Management Services LLC provides significant managerial support to the other legal entities below Innventure, including PureCycle.

Management services

During the years ended December 31, 2020 and 2019, PureCycle reimbursed Innventure Management Services LLC for certain expenses incurred on its behalf. For the years ended December 31, 2020 and 2019, the Company paid \$291,142 and \$579,620, respectively, to Innventure Management Services LLC related to this arrangement, which was included in selling, general and administrative expenses in the consolidated statement of operations. As of December 31, 2020, and 2019, the Company owed Innventure Management Services LLC \$30,455 and \$17,521, respectively, related to this arrangement, which is classified as Accounts Payable on the accompanying consolidated balance sheets.

Related party receivables

In 2020, the Company prepaid certain tax payments on behalf of unitholders. As of December 31, 2020 the receivable balance was \$78,173 recorded in prepaid expenses and other current assets on the consolidated balance sheets.

Notes payable and debt instruments

On May 5, 2017, the Company entered into a revolving line of credit facility with Auto Now Acceptance Company, a related party through common control.

PureCycle Technologies LLC

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED
December 31, 2020 and 2019

On July 19, 2019, the Company entered into Note and Warrant Financing agreement with Innventus Fund I, LP to obtain a \$600,000 loan and warrant financing.

Since the inception of the company, PureCycle has been receiving advances from Innventure1, LLC and Wasson Enterprises.

Refer to Note 3 for notes payable and debt instruments to related parties.

Equity

In 2020 Pure Crown LLC (“Pure Crown”) purchased 288,570 Class A units and 50,000 Class C units for total consideration of \$25,000,000. On October 4, 2020, 115,428 of the Class A units were issued. On October 5, 2020, 50,000 Class C units were issued. On December 22, 2020, the remaining 173,142 Class A units were issued. Prior to this transaction, Pure Crown was a related party through the purchase of the Company’s B-1 preferred units.

Leases

The Company shares an office space with and is reimbursed for the rent by Innventure, as described in Note 8.

Purchase of leased property

On October 8, 2020, the Company purchased property that it was previously leasing from Innventure1, LLC, a related party, as an operating lease. The property was sold to the Company for \$2,658,010. On the date of the sale, the lease that previously existed between Innventure1, LLC and the Company was terminated. Additionally, \$936,010 of closing costs were also incurred and capitalized as part of this property purchase. The Company allocated \$1,150,000 to land, \$150,000 to land improvements and \$2,294,020 to buildings.

NOTE 8 - COMMITMENTS AND CONTINGENCIES

Operating leases

In 2018, the Company entered into a three year operating lease for office space in Ironton, Ohio, which commenced on January 23, 2018. The lease expires on January 23, 2021. Subsequent to year end, the Company renewed the lease for an additional five year term.

In 2020, the Company entered into a two-year operating lease for the Company’s primary office space in Florida, commencing on August 1, 2020. The lease ends after two years, on July 31, 2022. The office space is shared with Innventure, a related party, who reimburses the Company for 50% of rent and other costs.

Future minimum lease payments under non-cancellable operating leases for the years ending December 31 are as follows:

2021	\$	77,012
2022		45,705
2023		-
2024		-
2025		-
Thereafter		-
Total future minimum lease payments	\$	<u>122,717</u>

Rent expense totaled \$351,606 and \$421,700 for the years ended December 31, 2020 and 2019.

PureCycle Technologies LLC

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED
December 31, 2020 and 2019**

NOTE 9 – NET LOSS PER UNIT

The Company follows the two-class method when computing net loss per common units when units are issued that meet the definition of participating securities. The two-class method requires income available to common unitholders for the period to be allocated between common and participating securities based upon their respective rights to receive dividends as if all income for the period had been distributed. The two-class method also requires losses for the period to be allocated between common and participating securities based on their respective rights if the participating security contractually participates in losses. As holders of participating securities do not have a contractual obligation to fund losses, undistributed net losses are not allocated to Class B preferred, Class B-1 preferred and Class C units for purposes of the loss per unit calculation.

Presented in the table below is a reconciliation of the numerator and denominator for the basic and diluted earnings per unit (“EPU”) calculations for the year ended:

	2020	2019
Numerator:		
Net income (loss) attributable to PureCycle Technologies	\$ (56,840,936)	\$ (19,312,718)
Less cumulative earnings to preferred shareholder	3,306,884	2,433,956
Net income (loss) attributable to common stockholders	<u>\$ (60,147,820)</u>	<u>\$ (21,746,674)</u>
Denominator:		
Weighted average common units outstanding, basic and diluted	2,731,045	2,581,282
Net loss per unit attributable to common stockholder, basic and diluted	\$ (22.02)	\$ (8.42)

The weighted-average outstanding common unit equivalents were excluded from the computation of diluted net loss per share attributable to common stockholders for the periods presented because including them would have been anti-dilutive. These units include vested but not-exercised warrants, non-vested profits interest units, and convertible notes.

NOTE 10 – PROPERTY, PLANT AND EQUIPMENT

Presented in the table below are the major classes of property, plant and equipment by category as of dates:

As of December 31, 2020		
Cost	Accumulated Depreciation	Net Book Value

Building	\$ 12,028,970	\$ 386,686	\$ 11,642,284
Land	1,150,000	-	1,150,000
Leaseholder Improvements	150,000	2,500	147,500
Machinery and equipment	15,981,786	2,388,153	13,593,633
Fixtures and Furnishings	104,484	22,389	82,095
Construction in process	43,602,842	-	43,602,842
Total property, plant and equipment	\$ 73,018,082	\$ 2,799,728	\$ 70,218,354

F-39

PureCycle Technologies LLC

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED
December 31, 2020 and 2019

	As of December 31, 2019		
	Cost	Accumulated Depreciation	Net Book Value
Building	\$ 9,703,674	\$ 122,384	\$ 9,581,290
Machinery and equipment	15,670,238	770,590	14,899,648
Fixtures and Furnishings	104,484	7,463	97,021
Construction in process	5,832,135	-	5,832,135
Total property, plant and equipment	\$ 31,310,531	\$ 900,437	\$ 30,410,094

All of the Company's fixed assets have been pledged as collateral for the Notes and Revenue Bonds that have been issued. Please refer to Note 3 for more details.

On March 28, 2019, the Company sold equipment for cash proceeds of \$110,000. The net book value of this equipment was \$365,650.

Depreciation expense is recorded within the operating costs in the consolidated statements of operations and amounted to \$1,896,069 and \$900,437 for the year ended December 31, 2020 and 2019, respectively.

NOTE 11 – DEVELOPMENT PARTNER ARRANGEMENTS

License Agreements

On October 16, 2015, the Company entered into a patent license agreement with P&G. The agreement outlines three phases with specific deliverables for each phase. During Phase 1 of the agreement, P&G provides the Company with up to one full-time employee to assist in the execution of the Company's research and development activities. During Phase 2, P&G provides up to two full-time employees to assist in the execution of the Company's research and development activities. During Phases 1 and 2 of the agreement, the Company is required to make payments to P&G in the amount of \$100,000 and \$200,000, respectively, every six months. These payments are amortized ratably to research and development expense over each six-month period. In April 2019, the Company elected to enter into Phase 3 of the agreement and prepaid a royalty payment in the amount of \$2,000,000, which will be reduced against future royalties payable as sales occur. Phase 3 of the agreement relates to the commercial manufacture period for the manufacture of the licensed product. This phase includes the construction of the first commercial plant for the manufacture of the licensed product, details on the commercial sales capacity and the pricing of the product to P&G and third parties. Where the Company has made royalty payments to its product development partners, the Company expenses such payments as incurred unless it has determined that is it probable that the such prepaid royalties have future economic benefit to the Company. In such cases prepaid royalties will be reduced as royalties would otherwise be due to the partners.

As of December 31, 2020, the Company is in Phase 3 of the agreement and has recorded \$2,000,000 within Prepaid royalties on the consolidated balance sheets. For the years ended December 31, 2020 and 2019, the Company recorded \$560,049 and \$333,000, respectively, of research and development expenses in connection with this agreement.

On November 13, 2019, The Company entered into a patent sublicense agreement with Impact Recycling Limited ("Impact") through the term of the patents. The agreement outlines an initial license fee of \$2,500,000 and royalties on production using the license. In 2020, the Company paid \$890,000 of the initial license fee, which is recorded in Prepaid Royalties and Licenses in the consolidated balance sheet and will be ratably amortized over the term of the patent using the straight-line method. Subsequent to year end, the Company paid an additional \$750,000 of the initial fee. The remainder of the fee is due upon the earlier of (i) 10 days after the Closing of the transaction described in Note 1 and (ii) May 31, 2021.

Strategic alliance agreement

On December 13, 2018, the Company entered into a strategic alliance agreement with Nestle Ltd. ("Nestlé"), which expires on December 31, 2023. Upon execution of the agreement, Nestlé committed to provide \$1,000,000 to the Company to fund further research and development efforts. The funding provided by Nestlé may be convertible, in whole or in part, into a prepaid product purchase arrangement at Nestlé's option, upon the time of product delivery beginning in 2020.

Additionally, because the research and development efforts were not successful as of December 31, 2020, up to 50% of the funding may be convertible into a 5-year term loan obligation, payable to Nestlé at an interest rate equivalent to the U.S. prime rate. As of the issuance of these statements, Nestlé has not elected to convert any funding into a term loan.

The Company received the funding from Nestlé on January 8, 2019. As of December 31, 2020 and 2019, the Company has recorded \$1,000,000 in Deferred research and development obligation. Recognition related to the funding received will be deferred until it is probable that Nestlé will not exercise their option. If the prepaid product purchase option is exercised, the obligation will be recognized as an adjustment to the transaction price of future product sales (e.g., net revenue presentation). If the option is not exercised, or in the case of development efforts not being successful, any amounts not converted to a loan obligation, the residual balance will be recognized as a reduction to research and development costs.

PureCycle Technologies LLC

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

NOTE 12 – FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and sets out a fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Inputs are broadly defined as assumptions market participants would use in pricing an asset or liability. Assets and liabilities carried at fair value are classified and disclosed in one of the following three categories:

- Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity can access at the measurement date. The type of investments included in Level 1 includes listed equities.
- Level 2 - Inputs other than quoted prices within Level 1 that are observable for the asset or liability, either directly or indirectly, and fair value is determined using models or other valuation methodologies. Investments that are generally included in this category include corporate bonds and loans, less liquid and restricted equity securities, and certain over-the-counter derivatives. A significant adjustment to a Level 2 input could result in the Level 2 measurement becoming a Level 3 measurement.
- Level 3 - Inputs are unobservable for the asset or liability and include situations where there is little, if any, market activity for the asset or liability. The inputs into the determination of fair value are based upon the best information in the circumstances and may require significant management judgment or estimation. Investments that are included in this category generally include equity and debt positions in private companies.

Liabilities measured and recorded at fair value on a recurring basis

As of December 31, 2020 and 2019, the Company's financial liabilities measured and recorded at fair value on a recurring basis were classified within the fair value hierarchy as follows:

	2020				2019			Total
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	
P&G warrants	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ 6,408,411	\$ 6,408,411
Total	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ 6,408,411	\$ 6,408,411

Changes in Level 3 liabilities measured at fair value for the years ended December 31, 2020 and 2019 are as follows:

	Fair value (Level 3)
Balance at December 31, 2019	\$ 6,408,411
Change in fair value	11,553,667
Exercise of warrants	(17,962,078)
Balance at December 31, 2020	\$ -

There were no transfers between the levels during 2020 or 2019.

The fair value of the warrants described in Note 6 was determined using the Black-Scholes option pricing model, which is an income approach.

PureCycle Technologies LLC**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED
December 31, 2020 and 2019****Assets and liabilities recorded at carrying value**

In determining the appropriate levels, the Company performs a detailed analysis of the assets and liabilities that are subject to fair value measurements.

NOTE 13 - SUBSEQUENT EVENTS

In connection with the preparation of the consolidated financial statements for the year ended December 31, 2020, management has evaluated events through March 8, 2021, to determine whether any events required recognition or disclosure in the consolidated financial statements.

As of March 8, 2021, the Company issued 52,133 profit units in accordance with The Plan as described in Note 5.

The Company is not aware of any additional subsequent events, other than those described above, that would require recognition or disclosure in the consolidated financial statements.
